BAYONETS LAID DOWN

The Governor's Guard Showed No Desire to Fight.

TILLMAN TALKS TO HIS TROOPS.

Must Do Some Shooting If ordered to Do So.

COLUMBIA, S. C., April 2.—Sunday was a rather quiet day in Columbia, and while there have been incidents of a most interesting nature in connection with the dispensary trouble, there has been practically no disturbances. Crowd have lined the streets throughout the day, not for the purpose of demonstrations, but to secure every item of news that can be had in the matter.

Early yesterday morning, Governor Tillman established a telegraph censorship, placing several militiamen, the most intelligent that could be selected, in charge of both offices, to supervise all messages.

Early in the day, the governor summoned the Governor's Guards to the executive mansion. He addressed them, saying that he was informed that their disbandment was not their fault, but that they had been overawed by a mob at their doors. He told them that they stood before the people of the state as a disgrace, and that he wished to give them the opportunity to wipe the stain from their brow, and to restore them to honor.

Threw Down Their Guns.

He asked for some indication as to whether they would obey his orders, in which event their arms would be given back to them. As he made this assertion, five of the men threw down their bayonets, and were quickly followed by several others. Their captain begged them to desist, and wait until the governor had finished. Governor Tillman, however, told them that their action was satisfactory, for he only wished to know exactly what their position was.

He then said to those who remained, that they could leave, but if they determined to obey orders, to report to the state penitentiary. The remnant of the company marched to their armory, and in five minutes thereafter they had disbanded.

During the day the governor notified the captains of the other companies that the arms must be delivered to the state in less than two hours. They replied that they did not know where the arms were, and that it was impossible to comply with his order. The governor informed them peremptorily that the arms must be produced.

On hearing this a number of prominent citizens, in the interest of peace and order, advised the men to give up their guns. On their earnest advice, the young men soon expressed their willingness to do everything in their power to put to their captains in the possession of the arms.

Talked of Troops.

At 5 o'clock marching orders were given to the troops stationed at the penitentiary. Governor Tillman addressed them, saying: "As chief executive of South Carolina, I wish to say a few words to you before your departure. I thank you for the promptness and zeal displayed by you in responding to the call for duty. Many of you have doubts as to the justice of the cause for which you go.

The reason of your going to Darlington is caused by the dispensary law, and it is law as long as it stands on the statute books, and until it is repealed, or declared unconstitutional by the supreme court.

The newspapers have sown the seeds of discord by teaching you that there are portions of the law which invade private rights. They know that when they say that, that they lie. The right to search private houses on a warrant is as old as the law itself. They know that they are not telling the truth when they try to make you believe that those men in Darlington were defending their liberties.

"I said in my message to the legislature, that a large force of constables would not be necessary. If the police of the town would enforce the law, they would not do this. The dispensary is not the issue now, but so long as it is on the statute, so help me God, I intend to enforce it.

"It is not a question of politics, to be fought out by ball and powder, but by the ballot box. So much for the opinions that you are going to hold as tyrants. When the news came of the trouble at Darlington, Gov. knows that I was never more shocked. When the officers of the law were shot down, I was horrified. The sheriff telegraphed me he was powerless. My first and natural impulse was to appeal to the military of Columbia. What did they do? They surrendered ingloriously the honor of being in the service of their state, but thank God, there are men left who will obey orders, and not be swayed from duty by adverse political opinions.

Thanks God Some More.

"Two companies at Florence and Sumter, did likewise when the action at Columbia was known. We then see the spectacle of the adjutant general running over the state to see to it that no one to do their duty. When ordered out, the First brigade of Charleston—that crack command—all they did was toicker with me as to what was their duty. Those cowards in Charleston did like those in Columbia. Without a company at my command, I began to cast about to see what I could do to uphold the dignity of the law. Thank God, I have found them in you.

"You are going on a delicate and dangerous mission. You must remember that the Darlington people are your fellow-citizens, but they are in insurrection, and it is necessary for you to go there to uphold the law. I learn that their de-

stroyed a state dispensary. Nobody did this but the ex-barkeepers and their henchmen.

"You go as an arm of the law, and you must treat the Darlington people with consideration, but if you are ordered to shoot, you must do it, or anarchy will prevail in this state. I hope to restore you to your homes as early as possible, but the law must be upheld, or the state government will be the laughing stock of the world. This ought to be a proud day for you. In after years you can hand down as a heritage to your children, that you went to Darlington on Tillman's orders, and you are proud of it."

Troops at Darlington.

DARLINGTON, S. C., April 2.—Governor Tillman's military train, bringing 12 companies and 230 men, arrived at 9:30 last night. They were met by the local military companies and escorted to their quarters. Great excitement was manifested at the time the train arrived, but it has since died away. Governor Tillman has wired the citizens here that the presence of the troops are required to arrest those who participated in the riot three days ago.

If the governor desires to make the arrest of those men, he will have to send at least five times the number of troops now on the spot, and it is believed if the military is called on to arrest citizens, that at least half, if not all, the soldiers will lay down their arms and assist the citizens should trouble occur. All is now quiet, and the troops are on guard.

A courier has just arrived from the country near Timmonsville, announcing that two spies were found dead in the woods near that place.

MANY ARE HOMELESS.

Midnight Fire at Suncock, N. H., Causes Much Damage to Property.

CONCORD, N. H., April 2.—The most disastrous conflagration known in the history of the town of Suncock occurred Saturday night. Thirty-eight families were rendered homeless, and three large blocks are now a mass of ruins. The loss is about \$35,000, and the blow to the town of Suncock will be felt for years to come. It was a miracle that saved the large large mill, estimated to be worth \$700,000, and three large warehouses a few rods away, containing 1500 bales of cotton, barely escaped destruction.

A canvas made by the selectmen shows that over 350 people are homeless, with hardly enough clothing to cover their backs. The people were all employees of the cotton mill, and are French. They lived in blocks like sardines, and were, as a whole, very poor. It was a difficult settlement of its own, and comprised most of the working people of Suncock.

The selectmen immediately took steps to relieve the suffering and clothe the naked. The citizens responded nobly, and the burned out are all comfortably located. One of the mill managers says the families will average seven persons each, and with the 30 boarders in the second block built, will make it about 400 people that lost everything.

How all of the small children got out of the blocks at that time of night is miraculous, and beyond a few slight burns, nothing serious is reported.

STILL TALKING.

Breckinridge's Recital Occupies Another Day's Attention in Court.

WASHINGTON, April 2.—Although the Pollard-Breckinridge scandal has dragged through the circuit court for three weeks to the exclusion of other cases, which are equally important from a financial standpoint, it promises to hold the boards for two weeks more.

Congressman Breckinridge is continuing to-day the recital of his version of the nine years' intrigue with Madeline Pollard. He will then pass into the hands of ex-Judge Jerry M. Wilson for cross-examination. From this inquisition the followers of the trial are anticipating their choicest entertainment, for the jurist and ex-congressman from Indiana has a well-earned reputation as the most trying man who could be selected from the local bar to take a witness.

Indeed, if the speech should prove to be long, as many of them will, it is likely that for the present not more than one will be heard in a day. Senator Peffer is also expected to speak on the tariff this week.

House Forecast.

An exciting week is promised in the house. The struggle over the O'Neill-House bill for the contested election case has been re-

sumed.

Although it has been apparent since this case has been up that at least a dozen

Democrats were opposed to seating the

Democratic contestant, the partisan feeling

engendered during the last three days of

the filibustering has served to drive

those who were lukewarm into camp, and

while they will probably not vote for

O'Neill, they will at least lend their votes

and presence to make the necessary quorum

to vote the St. Louis Democrat. The

English-Hillson case will follow, and so

far as known the Democrats are united

in their desire to seat English, the

contender.

Tomorrow, according to the notice

served by Mr. Bland, he will ask the

house to consider the president's veto of

the silver seigniorage bill, and will move

to pass the bill over the veto. As it re-

quires a two-thirds vote to override the

objection of the president, there is little

hope that Mr. Bland's motion can be

carried.

But, nevertheless, it is expected that

the debate will be of an exceedingly

likely character. The silver men are in

a state of revolt, and they avow their pur-

pose to raze the administration fore and

after. Some very outspoken criticism can

be looked for. The debate upon the pro-

position to pass the bill over the veto may

last all week if the silver men are so dis-

posed, as the Republicans will be glad

to join with them, to prevent a limit

being placed upon it.

When the veto message is disposed of,

the house will again go back to the ap-

propriations bills; the postoffice bill is

still unfinished. It will be followed by

the consul and diplomatic and the army

appropriation bills.

Police Afraid of It.

PROVIDENCE, R. I., April 2.—An at-

ttempt was made to burn the Statearmy

house yesterday afternoon. Agitator Swift was chief factor. He was disatisfied with everybody and everything.

He rallied at Governor Greenhalge

for not using his influence with the com-

mittee on the unemployed, and requesting

them to make the commission five in-

stead of three. He then turned his atten-

tion to the Deity, and tried to ridicule God by calling

him a capitalist. In this, he was not

very successful, and he turned his

spleen in another direction. He singled

out President Eliot of Harvard as a fit

subject to tackle, and he told his hearers

that the heads of colleges ought not to be

aristocrats, but of the people.

The Expected Happened.

WOONSOCKET, R. I., April 2.—An at-

ttempt was made to burn the Statearmy

house here yesterday. The damage was not

large, but the investigation that will fol-

low will probably disclose some strange

facts. The members of the militia refuse

to speak about the matter, but it is known

that they have been anticipating some-

thing

cents. Single copies, 2 cents. Advertising
rates upon application.

The Quincy Patriot,

Published weekly on Saturday mornings,
was established in 1837, and is the acknowledged
leader in Norfolk county.

Yearly subscription, \$2.50; single copies,
5 cents.

TELEPHONE, 213-3 QUINCY.

COOPERATION.

The DAILY LEDGER proposes
to make the heading for its brief
local items or city chit-chat a
special feature for the next few
weeks. A different "scare head,"

similar in type and arrangement
of lines as the one today, (count
letters to a line), is wanted for
each day, and the publisher offers

a year's subscription for the most
original and appropriate one used
before July 1, 1894.

The city editor will select the
best one published each week and
later will decide how the final
selection shall be made. The
headings will be published in the
order received and the name of

the writer will appear if there is no
objection.

Editorial Comment.

SCANTUM PROPERTY is not assessed
very high when a cottage said to have been
valued at \$1,800 or \$2,000 was assessed for
\$400. It was insured for \$600.

MR. CONANT's suggestion for relieving
the congested streets of Boston is the most
original yet suggested. It seems at the
same time to meet the wants, and to be
more feasible than the proposed subway.

THE VALUE of Boston water at
Scantum for fire purposes has been
argued but a Boston paper reports the
stream played Friday night to have been
weak and ready of no use.

THE TOWN of Attleboro appropriated
\$2,000 this year for construction of side-
walks. Why will Quincy allow towns to
have better sidewalks? Our city is not
making the progress it should toward good
walks.

THE QUINCY & Boston could afford to
sell the 100-mile tickets to Houghs Neck
for a still smaller sum. At \$7.50 or \$7.00
more would be bought, they would be used
more freely and it should be remembered
the company gets its money in advance.

THE REPORT of school attendance pub-
lished today shows a marked increase in
number of visitors, being over twice as
many in March as in January or February,
and 500 more than in March, 1893. The
average daily attendance of scholars was
over 400 larger than a year ago.

WOULD IT not be worth while for
Quincy to ascertain whether it can be in-
cluded in the metropolitan sewerage sys-
tem. Let a committee investigate. If not
with Boston, perhaps Quincy and Braintree
could unite on expenditures for
pumping station and outfall.

THE ANNUAL appropriation order from
the Finance Committee, to be reported in
the City Council tonight, is awaited with
considerable interest as many are anxious to
know whether the Council concurs in the
estimates of the Mayor and Treasurer.

As these officials made no radical changes

in the amounts which have been annually
appropriated, it is not expected that the
Council will vary much. The estimated

amounts are an indication that the depart-
ments have been run on about as small approp-
riations as possible. Economy was the
key note but there was practically no oppor-
tunity for reduction.

THE ADDRESS of Sylvester Brown at
Wollaston, published in Saturday's LED-
GER, has received favorable comment, yet
many of our "best people" will not send
their children to our excellent public
schools, and it has been hinted that the
new Woodland Institute may not be "tony"
enough for them. Mr. Brown is right,
the public schools have a right to demand
that "kind of loyalty which makes a man
put his children into the public schools." We
have heard of private schools where there
was more devilry than in any of the
Quincy public schools.

THE OLD Colony Grocers' Association,
which takes in Quincy, has received an
invitation to visit the cracker manu-
factory of F. A. Kennedy & Co. at Cam-
bridgeport. Junkets are becoming fre-
quent.

THE LOCATION of the opera house on
Granite street is preferable by far to
Coddington street. The street railway
can run a spur track down Granite street
and have cars in waiting at the close of
entertainments, to take people to all parts of
the city, Weymouth and Braintree.

THE many young people of this city attended
the dance at Long's hall, Braintree, Sat-
urday night. The hall was prettily decorated
and many of the gowns worn were hand-
some. The matrons were Mrs. N. E. Holis,
Mrs. R. Elmer Morrison and Mrs. Charles W. Pitkins.

THE BEST of course, Eddy's Re-
frigerators." If they weren't the best they
wouldn't be here. 20 per cent. discount
from the manufacturer's list; catalogues on
application. Henry L. Kincaide & Co.

THE NEW HIGH.

Good Work and Good Progress on Quincy's
New School House.

The new High school building now in
the process of erection has come in for a
great deal of comment first and last. First
because the contractors rightly refused to
let every man who happened along to
wander through the building, and not only
bother the workmen, but go about and
vent their spite at some fancied wrong, and
lastly on account of the hitch between the
State Inspectors and the fire escapes on the
building.

To ascertain what progress was being
made on the building, a representative of
the LEDGER visited the building Saturday
and after making known his wants to the
foreman in charge was invited to go over
the building as much as he liked, an invita-
tion which was readily accepted.

The building was found to be rapidly
approaching the time when the roof would
be put on.

The outside brick work is nearly com-
pleted to the second story and the two
heavy hard pine timbers 55 feet in length,
over the study room, which hold the trusses
were in position, and workmen were en-
gaged in putting in the heavy floor timbers.

On the first floor the three-class rooms
are all ready for the lathes, and plastering
will be commenced as soon as the roof is
on, which will be in about three weeks
with fair weather.

Standing on the second floor a fine view
is obtained and when completed, happy
should they be who occupy these rooms.

All of the work has the appearance of
being well done and the contractors are
probably doing all they agreed to.

Mention was made in regard to the safety
of the brick work done in cold weather
and to this the foreman replied that every-
thing was perfectly safe. Bricks are some-
what porous and will therefore absorb a
certain amount of moisture. If the bricks
when laid were wet, and cold mortar was
used, there might be danger, but here all
the bricks were kept under cover and were
perfectly dry when used, and instead of
using cold mortar, that used was made
fresh every day and was used while hot, so
that the bricks were able to take the mois-
ture from it, and therefore was as solid as
laid in warm weather.

In regard to the tower which will proba-
bly have to be built, the gentleman in
charge said that the cost would necessarily
be more now than if it had been provided
for in the first place, as a foundation would
have to be made for it and the outside wall
which was now all completed, would have
to be cut into. The contractors, however,
propose to be honorable in the matter and
would not take advantage of the position
the city found itself in, and would only
charge a fair price for the work.

Unless something unforeseen happened,
the building will be completed and ready
for occupancy by the first of August.

The programme was varied by congrega-
tional singing led by Mr. T. B. Emery,
orchestra selections, quartette singing,
scripture reading by Secretary Colton,
prayer by Rev. Mr. Brownville, and a
collection.

At the close there was a brief religious
meeting at which many remained, and
several young men spoke.

PLUMBING ORDINANCE.

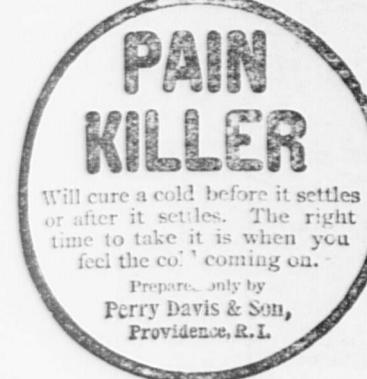

Some of the Features which are Contained
in the Draft.

The ordinance regulating plumbing in
the city of Quincy reported by the Com-
mittee on Ordinances at the last meeting of
the City Council, will come up for its
second reading to-night, and is an impor-
tant one in many ways, as it provides that
no one shall do business unless he shall
be a good plumber, and shall have registered
with the Board of Health. It also re-
quires plumbers to report all repairs
made, otherwise than leaks, to said board,
which must have its approval, and that no
work shall be used until it has been tested
in the presence of the board, and no work
shall be concealed from view until appro-
priately and independently connected with
the public sewer when provided or with a
cesspool outside of the building.

The ordinance also establishes the sizes
and weights of pipe to be used in drains
and for ventilating purposes. It also pro-
vides that drain pipe shall have suitable
traps and Y branches. Iron pipes must be
tested before put in place and have an in-
side coating of coal tar pitch, applied hot.

Water closet shall be supplied with water
from a tank or cistern, and shall have
flushing pipes of not less than one inch in
diameter. Water pipes in exposed places
must be protected from frost, and in fact
every pipe used in house plumbing comes
under this ordinance, and any violations
are subject to a fine not exceeding \$50 for
each violation. The ordinance, on the
whole, is a good one, and if adopted will do
away with many of the existing evils in re-
gard to loose plumbing work, which in
many cases endangers the health of occu-
pants of houses where it exists.

ORD.

Will cure a cold before it settles or after it settles. The right time to take it is when you feel the cold coming on.

Uniform Sir Knights, O. S. St. G.

Baby's Coaches

or carriages if you choose to call them, 25 different patterns, the finest line on the market. Greatest bargains ever offered \$3.95 to \$25.00. Henry L. Kincaide & Co.

LEADERS ARE PLEASED.

Over a Hundred Added to Coxey's Army at Beaver Falls, Pa.

BEAVER FALLS, Pa., April 2—Seventeen thousand people met Coxey's command here. The crowd was curious, but not cordial. Camp was pitched on College hill. Meetings were held on the ground, and \$40 collected by Marshal Smith.

In the evening a meeting was held at the Opera house, and after the audience left, the army of 200 slept in the theater. By 9 o'clock 125 recruits had joined. All night long the camp was visited by the town people, several thousand sightseers coming from neighboring towns.

Food enough to last the army for two days was distributed by the citizens, and the officers were entertained by a hotel keeper. The leaders are immensely pleased with the reception and the big batch of recruits.

ACCIDENTAL DEATH.

Discovery of a Battered Body Led to Fears of Foul Play.

CONCORD, N. H., April 2.—The body of Joseph Charpentier of Boscowen was found at the foot of a precipitous cliff, 30 feet high, with his head smashed in and marks on his throat. Mrs. Dennis, his sweetheart, her son-in-law and daughter were subsequently arrested. It appears that Charpentier was intoxicated Saturday night, and paid Mrs. Dennis a visit about 10 o'clock. He left about 12 o'clock, and yesterday morning Mrs. Dennis found him on the banks of the river with his head in the water.

Solicitor Donovan held an inquest, and Mrs. Dennis, Mr. and Mrs. Chenevert were let go, as the opinion of the police was that it was a case of drunk and falling off the steep bank. A partly filled bottle of alcohol was found near the body. He was a widower, 45 years of age, and was to marry Mrs. Dennis tomorrow. The affair occurred just across the bridge in Boscowen.

Can't Be Found.

MALDEN, Mass., April 2—Miss Ruth French, aged 45, has been missing since Saturday morning. She was slightly demented, and has been in the habit of driving around with her father, Dr. Nathan French. She was with him on a sick call, and while her father was attending the sick, she got off the buggy and left. Searching parties have failed to find any trace of her.

The Missing Ems.

NEW YORK, April 2—No news of the Ems 15 days out from Southampton, has been received. Even the most sanguine now admit that the ship has met with some accident, probably a bad one, as never before has any overdue vessel of equal class, which arrived at all, been out more than 15 days.

Covers a Big District.

NEW LONDON, Conn., April 2—Heyman J. Hirsch of Norwich, the new deputy collector of internal revenue for this division, succeeding F. H. Parmenter, took charge of the affairs of the office today. This district is the largest in Connecticut, comprising 41 towns.

Encountered Heavy Weather.

LONDON, April 2.—The steamer Azala, from New Orleans for Londonderry, at Moville, reports having experienced heavy weather. She had a portion of her bulwarks washed away, and lost a lifeboat.

Smallpox In Maine.

BAR HARBOR, Me., April 2—A case of smallpox is reported at East Sullivan. A patient named Harry Hill, aged 22, contracted the disease when on a visit to Bucksport.

THE WEATHER INDICATIONS.

ALMANAC FOR MONDAY, APRIL 2.

SUN RISES 5:25 AM

SUN SETS 8:22 PM

LENGTH OF DAY 12:47

Forecast for New England: Coldest, back; west winds.

TELEGRAPHIC BREVITIES.

Borden, Ind., had a \$125,000 fire.

The new cruiser Columbia goes into commission April 9.

King Philip mill No. 2, in Fall River, Mass., has shut down.

A steamer with a cargo of seals worth \$50,000 arrived at Cape Ray, N. F.

Hon. Luther R. Graves, a well known banker of Bennington, Vt., is dead.

Several men were killed and several others fatally injured in a fight at Cataldo, Idaho.

Westport (Mass.) will offer a reward of \$10 for each fox killed by an inhabitant of the town.

The Nicaraguan government is to withdraw the exequaturs of the American and British consuls.

"The City Sports" company was bombarded with eggs by Yale students in a New Haven theatre.

The shooting of an American citizen by the acting governor of Bama, in the Mosquito territory, is confirmed.

N. D. Sperry, for 28 years postmaster at New Haven, recently surrendered his office to his successor, F. G. Beach.

James Devine of Boston, 48 years old, committed suicide by asphyxiation.

Two destructive fires on the Massachusetts Central railroad were set by engines, turning over several acres of woodland.

Thirty weavers struck in Lewis Anderson & Co.'s woolen mills at Skowhegan, Me., because of the discharge of one weaver.

Honolulu royalists are said to have given up hope of the Queen's restoration, and will petition President Cleveland for annexation.

Albert Johnson (colored) of Falmouth, Mass., was found probably guilty of attempting to murder Thomas Sullivan, by mingling poison with drink.

TRAP SHOOT.

Wind Causes Some Poor Scores at the Weekly Shoot at Wollaston.

Saturday's heavy wind raised havoc with the Wollaston Trap Club's scores.

It is doubtful if there will be a shoot next Saturday, as several of the members, including Mr. A. G. Olney, Mr. C. W. Tucker, Mr. H. T. Whitman and Mr. A. Lincoln are members of the Bristol Brant Club of Monomoy Point, Cape Cod, and will leave for the shooting grounds this week.

Saturday's score:

H. B. Sanborn, 5

D. B. Lincoln, 17

J. C. Morse, 16

A. P. Gardner, 3

C. W. Tucker, 7

G. H. Branier, 12

Likes to Cynic.

He daily trod the ways of many men.

Silent, serene, and in the city's mart

They often marked his placid features when.

They could not read the anguish in his heart.

Inscrutable and grave of men to all

Save me, he seemed a man of marble

wrought.

But when his calm was but a pall

Whereby to shroud the skeleton of thought.

Was not his secret writ upon his brow?

In one sharp symbol, pitifully plain?

In doing wrong extenuates not wrong.

To persist

But makes it much more heavy.

—Shakespeare.

The world was sad, the garden was a wild,
And made the hermit, sigh'd—till woman
smiled.

—Campbell.

Scour Grapes.

Miss Pert—it is useless of you to urge
me to marry you. When I say no, I mean no.

Mr. Cinnic—Always?

Mr. Cinnic—And can nothing ever
change your determination when you
once make up your mind?

Miss Pert—Absolutely nothing.

Mr. Cinnic—Well, I wouldn't care to marry
a woman like that—Brooklyn Life.

AS EXPECTED.

Counsel Wilson Scores a Point in Favor
of Miss Pollard.

WASHINGTON, April 3.—Great expecta-
tions have been focused upon the cross-
examination of W. C. P. Breckinridge by
ex-Congressman Jere H. Wilson, partic-
ularly here in Washington, where the abili-
ties of both men are appreciated.

The expectations began to be realized
after the noon recess yesterday, when the
colonel was delivered over into the hands
of his opponents. He had continued his
story of the intrigue with Madeline Pol-
lard through the morning, entering many
and reiterated denials of various state-
ments made by her, and relating his own
version of the interview with the Wash-
ington chief of police, and of the corre-
spondence between himself and the plain-
tiff. He had been testifying for nearly
two court days when his direct testimony
was finished, and although Mr. Wilson
piled him with questions all the after-
noon, the cross-examination seemed to
have been just begun.

It had been expected that the colonel
would be requested to reconcile his position
as a churchman and a moralist with his
course of conduct, and this expecta-
tion was not a misguided one, for the ex-
amination took that direction from the
start. The first time that the defendant
has shown marked embarrassment during
the trial was when an envelope was
handed up to him with the request that
he read the direction and the contents.
This he did with some reluctance, be-
cause it was an invitation sent to Miss
Pollard in February 1893, requesting the
honor of her presence at a reception to be
given in honor of Hon. W. C. Breckin-
ridge at the Norwood Institute. The Nor-
wood Institute is the most exclusive and
fashionable seminary for young ladies in
Washington, patronized by the first fam-
ilies of Virginia and the South.

General McCook Sees Great Danger
In the Coxey Movement.

CRISIS NEAR AT HAND

And Leaves a Poor Impression
Upon Residents.

DENVER, April 3.—General McCook
looks upon the Coxey movement as dan-
gerous. "The weather has been against
the army so far," said he, "but by May
1, I fully believe there will be an army of
150,000 hungry, half-clad men, clamoring
around the national Capitol. The spec-
tacle of such a vast army of alleged work-
men, asking for employment in order
that they may not starve, is something
new in the history of the world."

"If the national troops are ordered out
to drive them away, who can imagine the
complications that may arise. Those men
of Coxey's army have friends and sym-
pathizers in every state of the Union. To
me it seems as though the country is approach-
ing a crisis, such as it faced only once be-
fore, and that was at the time of the
great rebellion."

Commonwealth at Sewickly.

SEWICKLY, Pa., April 3.—The common-
wealth army encamped 12 miles from Alle-
gheny City, after a march of 18 miles, and
placed the tents on the grounds of the
heart of Sewickly, Pittsburgh's fashion-
able suburb. The residents flocked out,
curious to see the commonwealth, who
looked even rougher than usual, after the
sweat and dust of the long march. The
burgesses had sworn in four extra police-
men, but said he must have more, after
seeing the army.

The men were exceedingly well pleased
with their treatment on the way, partic-
ularly at Economy. The Aliquippa steel
works drum corps and an escort of 61
workmen headed the army into Economy.
The Economites, part of whose faith is to
believe in the second coming of Christ,
did not believe that this movement sym-
bolized the second advent.

Seawickly no donations were made,
and not even a hall could be secured for
the lectures, so the meeting was held in the
open air, and the men spent another night
under canvas. There was a good deal of
grumbling at the meager meal supplied
by the commissary. Detectives, con-
stables and the sheriff of Allegheny
county came out to see the commonwealth,
and examined the faces of the men to see
if any were known crooks, but none were
recovered. The people were on the verge
of panic, which increased after a glimpse
of the army had been had.

Judge Stowe of Pittsburgh, and D. C.
Herbst of the Standard Oil company
ventured into camp at supper time. The
"unknown," after being told who they
were, ordered them out, insulted them,
and finally compelled them to leave the
grounds. An old man with a buggy and
a tall tail, who says he will go "plum
through," joined the commonwealth at
New Brighton.

Commonwealth Is Growing.
BEAVER FALLS, Pa., April 3.—Too many
men are being fed. Coxey thinks, compared
with the number who march. A corps of
amateur detectives will be organized.
The army marched out 245 strong. This
is the largest number since the inception
of the movement.

Important Arrest.

BRODIPORT, Conn., April 3.—The police
yesterday arrested William Cook on com-
plaint of Emma Walsh. She says that
Cook married her in Brooklyn a short
time ago, relieved her of \$150 and in a few
weeks deserted her. It is believed that
the prisoner knows something about the
Whitechapel murders. He was in Eng-
land at the time these murders were com-
mitted, and has dropped hints about
them which lead to important dis-
coveries.

Bismarck's Thanks.

FRIEDRICHSHUDE, April 3.—Count von
Moltke, after presenting Prince Bismarck
with the cuirass, sent to the ex-
chancellor as a birthday present from the
emperor, received the following reply to
the "unknown," after being told who they
were. "I reverently thank your majesty,
and will do the new armor as a symbol of your majesty's
grace for me. I will leave it to my
children as a lasting memory of the
same."

Peruvian Politics.

LIMA, April 3.—Senor Del Solar, the
first vice president, according to the con-
stitution, would succeed ex-officio to the
presidency. Senor Del Solar declined the
office, and the second vice president, Senor Borgono, assumed the presidency
pro tem, and appointed a new cabinet.

Northern Pacific Will Fight.

MILWAUKEE, April 3.—The Northern
Pacific Railway company has filed a
demurrer to the complaint in the fore-
closure suit begun by the Farmer's Loan
and Trust company of New York.

His Life Crushed Out.

NEW HAVEN, April 3.—Amos C. Merrill,
a laborer, was killed by the falling of a
derrick. The projecting arm of the derrick
fell upon Merrill. He was 32 years
old.

Brown-Squard Is Dead.

PARIS, April 3.—Professor Brown-
Squard, M. D., the eminent physician
and physiologist, inventor of the so-called
elixir of life, died here yesterday.

Missing From Home.

BANGOR, Me., April 3.—John Collins,
the Front street saloonkeeper who wan-
dered away last spring during a fit
of mental aberration, is again missing.

AS EXPECTED.

Counsel Wilson Scores a Point in Favor
of Miss Pollard.

WASHINGTON, April 3.—Great expecta-
tions have been focused upon the cross-
examination of W. C. P. Breckinridge by
ex-Congressman Jere H. Wilson, partic-
ularly here in Washington, where the abili-
ties of both men are appreciated.

The expectations began to be realized
after the noon recess yesterday, when the
colonel was delivered over into the hands
of his opponents. He had continued his
story of the intrigue with Madeline Pol-
lard through the morning, entering many
and reiterated denials of various state-
ments made by her, and relating his own
version of the interview with the Wash-
ington chief of police, and of the corre-
spondence between himself and the plain-
tiff. He had been testifying for nearly
two court days when his direct testimony
was finished, and although Mr. Wilson
piled him with questions all the after-
noon, the cross-examination seemed to
have been just begun.

It had been expected that the colonel
would be requested to reconcile his position
as a churchman and a moralist with his
course of conduct, and this expecta-
tion was not a misguided one, for the ex-
amination took that direction from the
start. The first time that the defendant
has shown marked embarrassment during
the trial was when an envelope was
handed up to him with the request that
he read the direction and the contents.
This he did with some reluctance, be-
cause it was an invitation sent to Miss
Pollard in February 1893, requesting the
honor of her presence at a reception to be
given in honor of Hon. W. C. Breckin-
ridge at the Norwood Institute. The Nor-
wood Institute is the most exclusive and
fashionable seminary for young ladies in
Washington, patronized by the first fam-
ilies of Virginia and the South.

General McCook Sees Great Danger
In the Coxey Movement.

And Leaves a Poor Impression
Upon Residents.

DENVER, April 3.—General McCook
looks upon the Coxey movement as dan-
gerous. "The weather has been against
the army so far," said he, "but by May
1, I fully believe there will be an army of
150,000 hungry, half-clad men, clamoring
around the national Capitol. The spec-
tacle of such a vast army of alleged work-
men, asking for employment in order
that they may not starve, is something
new in the history of the world."

Commonwealth at Sewickly.

SEWICKLY, Pa., April 3.—The common-
wealth army encamped 12 miles from Alle-
gheny City, after a march of 18 miles, and
placed the tents on the grounds of the
heart of Sewickly, Pittsburgh's fashion-
able suburb. The residents flocked out,
curious to see the commonwealth, who
looked even rougher than usual, after the
sweat and dust of the long march. The
burgesses had sworn in four extra police-
men, but said he must have more, after
seeing the army.

Judge Stowe Is Growing.
BEAVER FALLS, Pa., April 3.—Too many
men are being fed. Coxey thinks, compared
with the number who march. A corps of
amateur detectives will be organized.
The army marched out 245 strong. This
is the largest number since the inception
of the movement.

Important Arrest.

WASHINGTON, April 3.—The United
States grand jury returned another in-
dictment for manslaughter against
Colonel Fred C. Alsworth, in the case
growing out of the Ford's theater dis-
aster of June last, when over a score of
government clerks met death.

More Trouble For Alsworth.

Mortgagee's Sale

OF

Real Estate!

BY virtue of the power of sale contained in a certain mortgage deed given by Charles E. Jenkins, Jr., and Jeanette E. Jenkins to Charles E. Stratton, dated February 23, 1893, and recorded with Norfolk Deed Book 691, folio 571, for breach of condition therein, the same will be sold by public auction, upon the premises on the 16th day of April, A. D., 1894, at four o'clock in the afternoon, and all singular the premises described in said mortgage deed, namely:

A certain portion of land, the building thereon situated in that part of Quincy called Atlantic in said County of Norfolk, and being lot C on a plan made by Devlin and Mackay, surveyors, Quincy, dated July, 1890; bounded southerly by the northerly line of Botolph street, on said plan, fifty feet; easterly by lot D, on said plan, one hundred feet; northerly by B, on said plan, one hundred feet; and northerly by land formerly of Appleton, fifty feet; containing 5,000 square feet.

The premises are subject to a mortgage of twenty-three hundred dollars and interest, and they will be sold subject to the same and to taxes for 1893. One hundred and fifty dollars is to be paid in cash at time and place of sale.

For further terms and particulars apply to me.

CHARLES E. STRATTON,

68 Devonshire St., Boston, Mortgagee.

Published weekly on Saturday mornings, was established in 1837, and is the acknowledged leader in Norfolk county.

Yearly subscription, \$2.50; single copies, 5 cents.

TELEPHONE, 213-3 QUINCY.

WITH LAW MAKERS.

Considerable Business Transacted by the City Council.

THE APPROPRIATION ORDER.

Plumbing Ordinance and Order for Hose 4 House Advanced a Stage.

COOPERATION.

The DAILY LEDGER proposes to make the heading for its brief local items or city chit-chat a special feature for the next few weeks. A different "scare head," similar in type and arrangement of lines as the one today, (count letters to a line), is wanted for each day, and the publishers offer a year's subscription for the most original and appropriate one used before July 1, 1894.

The city editor will select the best one published each week and later will decide how the final selection shall be made. The headings will be published in the order received and the name of the writer will appear if there is no objection.

Editorial Comment.

AN ANALYSIS of the annual appropriation order now before the City Council and a comparison with the recommendations in the Mayor's budget will be of interest. The amount appropriated for current expenses in the order of 1893 was \$188,298.52, while the amount this year is \$198,341.50. The estimates of Mayor Hodges and the School Committee for 1894 amounting to \$196,671.50. Mayor Hodges wanted \$4,131.98 more for the departments than Mayor Hodges had in 1893, and the School Committee will be satisfied with an increase of \$4,241.00 over 1893. The Finance Committee have given the School Committee exactly what they asked for, and have made a few changes which apparently increase the total for the Mayor's departments by \$1,670.00. The changes are as follows:

Com. In Mayor. mittee. 1893.
Clerical services to board of Assessors. \$700 \$600 \$60
Fire alarm telegraph. 700 600 450
Lighting engine houses. 350 300 275
Garbage. 800 1200 800
Special police. 1430 1850 1500

Plumbing Ordinance. The ordinance relative to plumbing came up for a second reading.

Councilman Hodges said it contained many things which needed consideration. It was drafted on the same line as those of large cities and he believed it would entail a hardship on builders. First, it required that all plumbers should be registered, which would put all the business into the hands of a few master workmen. The danger from defective plumbing in a city of the size of Quincy was small. It would be sufficient for the board of health to make regulations. The ordinance would be detrimental to the best interests of the city.

Chairman Johnson of the Ordinance Committee said the law now required that plumbers should be registered, which had brought up the subject of an ordinance.

Councilman Adams asked to have the statute read and Councilman Federhen read Chapter 477 of the Acts of 1893. Councilman Federhen offered an amendment to be known as Section 15, to read as follows:—No Section of this ordinance shall apply to any plumbing put into any building before the passage of this ordinance.

The amendment was adopted and the ordinance passed to its second reading.

Petitions.

Applications were received as follows and referred:

James H. Walsh for billiard and pool license.

Nathan C. Buck to collect junk.

C. F. Veazie as an auctioneer.

J. E. Hanson and others petitioned for a light on Canal street at the brook near Mechanic street. To Committee on Lights.

Another petition asked for incandescent lights at the corner of Summer and Main streets, Main and North streets, and North and South streets. Referred.

Residents of Station street petitioned for the improvement of said street. To Committee on Streets.

Councilman Johnson presented petition of the Quincy & Boston street railway for a turnout on Washington street near Chubbuck street, and another into Wharf street. To Committee on Streets.

Reports.

Favorable reports were made on the petition of the Quincy Electric Light company for a location on Old Colony avenue. Ordered to second reading.

Applications of Albert W. Fay, as under-taker; Mrs. John W. Kerr, for intelligence office, and Natali Fossetti, as common victualler were granted.

Leave to withdraw was reported on the claim of John Wilson. Adopted.

Upon favorable report an order for two fire alarms boxes on Quarry street was passed.

The Committee on Finance reported an order for transfers in the fire department appropriations of 1893. To second reading.

Also in the Thomas Crane Public Library appropriations to catalogue fund. To second reading.

Ought to pass was reported on the order to pay certain damages caused by the widening of Water street. Passed.

No legislation necessary was reported on communication of Mayor relative to appropriation for maintenance of water supply.

The Committee on Finance reported ought to pass, on the order appropriating \$6,500 for house on Willard school lot. It took a second reading and was referred to Committee on Ordinances.

The same committee reported the order for the annual appropriations which appears in full in another column. Ordered to second reading.

The best of course, Eddy's Refrigerators. If they weren't the best they wouldn't be here. 20 per cent. discount from the manufacturer's list; catalogues on application. Henry L. Kincaide & Co.

New Orders.

Councilman Holden presented an order for curbing the triangular plot at the junction of Washington and Hancock streets. Read and referred to Committee on Streets.

Councilman Lennon offered orders requesting Mayor to instruct both the Commissioner of Public Works and the Chief Engineer of the Fire Department that section of the ordinance concerning electric wires, over which these officials have charge, had been violated, and requesting them to enforce the same. The first was with reference to painting, and the later to right of city to top of poles. Orders adopted.

Councilman O'Brien wanted the Water Commissioners authorized to make extensions on all streets and ways.

Some Councilmen thought they had that authority, and favored reference to committee.

Councilmen O'Brien said many petitions from Ward Four had been ignored.

The order was referred to Committee on Water Supply.

In the calendar the orders amending the ordinance concerning City Physician, and locating fire alarm box at corner of Washington and Arnold streets, were passed.

Adjourning at 8.52.

HIS VALEDICTORY.

The Retiring Postmaster Entertains the Postal Clerks and Carriers.

Ex-Postmaster Warren W. Adams took an affectionate leave Monday evening of the employees of the post office which have served him so faithfully during his term of office, at his residence on Greenleaf street. The evening was passed in an agreeable manner, a spread of course being on the programme.

During the evening Carrier Williams in behalf of the employees presented Mr. Adams with an elegant easy chair in which he can rest his weary limbs and loose himself in the thoughts of the many happy hours he passed in the office of the Adams building while a servant for Uncle Sam.

Mr. Adams responded thanking all for the gift and reviewing the service for the past four years follows:

Fellow Employees in the Postal Service:

I have called you together tonight, feeling that it might be a pleasant way of transferring you to my successor in office and of terminating my connection with you in conducting the postal affairs of this city.

It is a little more than four years since I entered upon the duties of postmaster, and most of you were on duty at that time. I started out with the determination to improve the service if possible. Good service is everything. The business public cares not for the political preferences of those who serve them, but are more interested in being well served and having respectful treatment.

I have kept a watch for the inefficient ones, and have not been able as yet to find them. My successor may, but if he keeps the present help I very much doubt it, and to you my late associates, I wish to say that whatever changes and rules have been made have been for the good of the service.

The public expect much more service than the office can give, they make their complaints, and if you do not get an answer for them by the next morning they think you are not attending to your business. If a mail is delayed the postmaster is to blame. If a letter is not on time containing a remittance, some one has stolen it. If a drop letter does not reach its destination in ten minutes after it is mailed the carrier is slow. Many patrons of the office believe that all mistakes are made in the office, but when the letters come back from the dead letter office they tell a different story. However, every one that calls at the office must receive kind treatment.

As you carriers are well aware, your part of the service extends into the outlying districts, and I always contended that people living there are entitled to reasonable accommodations as well as those nearer the office.

As for the improvement in the service during the past four years I leave to the public to judge.

And looking back over the period, although it has required work, care, anxiety and close attention to the requirements of the service, yet there have been many happy hours passed within the office, and in taking my leave of you as the head of the office, it is with the best wishes for your future welfare, and should you leave the postal service for any other may success attend you. It will always be pleasant to meet you, and in the future when I look back over my past life, rest assured of one thing, that among my pleasantest remembrances will be the time I passed with you in the postal service.

FOUL PLAY HINTED.

Were the Squantum Victims Robbed and Murdered.

HOW DID THE FIRE ORIGINATE?

The Presence of the Dogs Upsets Some of the Theories However.

The excitement over the recent holocaust at Squantum has by no means subsided, and the subject is now the one topic of conversation among the people of Squantum and Atlantic.

Many people visited the smouldering ruins Sunday and an officer was kept on all day to guard them from relic seekers. Monday many more people visited the spot and there was a continuous string of carriages going and coming all day.

People gathered about the ruins and gazed in silence upon the still smoking coal and wood. Here was a mass of twisted iron which once formed the foundation of a lawn mower, and near it was the remains of what was once a stove, upon which the victims doubtless cooked the last meal they ate on earth. On the further side of the ruins lay the remains of the two partially roasted dogs, which, doubtless, while they lived did their best to warn the victims of the approaching danger, and taken as a whole the scene forms a morbid picture which will remain fresh in the memory of those who witnessed the fire.

The One Topic

of those who visited the place is, how did the fire originate. The general opinion among many has been that the fire originated from accidental causes and this has been generally accepted as being the correct solution by people in other parts of the city.

Not so, however, by some of the people of Squantum who cannot be shaken in their belief that foul play entered into the case.

Several theories are advanced by these people. They claim that the door of Burkhardt's large barn was found open in the morning and are of the opinion that parties who knew that Mr. Driver was a man of wealth, were concealed in this barn and after everything was quiet in the house entered into it with the purpose of robbery. That there were several in the party of burglars and that a tussle ensued during which the three occupants of the house were murdered, and then to cover up one crime, another was committed by burning the building.

Another story is that the house was entered and that the three men were chloroformed, the house was then ransacked, and as the parties left they fired the building.

These stories could be true, but there is one point which has been overlooked and no explanation offered, and that is the matter of

The Two Dogs.

It is hard to understand how parties could have entered the house without arousing these dogs and the other dog of Mr. Driver's which was kept in the barn. The people at Squantum scout the idea that the parties were all intoxicated. They admit that Mr. Driver was a man who drank when he wanted to, but they say in all their acquaintance with him they never saw him when he was the worst for liquor, and therefore do not believe that the fire or the fatal termination of it was due in any way to the use of intoxicants on the part of the occupants of the cottage.

It is doubtful if the true solution will ever be known but the friends of the unfortunate men would be much better satisfied if the proper authorities would hold an investigation.

One other matter the people complain of is that the medical examiner did not visit the fire when notified that bodies had been taken from the ruins. When the bodies were found Chief Williams telephoned the police station and the examiner was notified but did not go down himself but ordered the undertaker to remove them to his establishment.

Surprise Party.

About twelve of Florry Gould's friends tendered him a surprise at his home on Washington street, Quincy Point, Monday evening, the occasion being his twentieth birthday. Mr. Gould was the recipient of a handsome pair of silver cuff buttons, the presentation speech being made by George Brackett. Games and refreshments and a general good time was the order of the evening. The party left at a late hour wishing Mr. Gould many more happy birthdays. Those present were Misses Eva Bryant, Mattie Hardwick, Cora Dyer, Mamie Geer, Maude Geer, Nina Fuller, Lulu Sturgess, Mary Gilbert, Mary Berry, John Hayden, Arthur Perry, Monroe Perry, William L. Thomas, Joseph Shackson, F. T. Bassick, Sherman Gould and William Gould.

Want it Cut in Boston.

On Sunday the Granite Cutters' Union of Boston requested the Central Labor Union to take such action as would result in having granite used by the city cut in Boston by citizens. The request of the granite cutters was complied with, and resolutions were adopted, and will be forwarded to Mayor Matthews.

The following committee reports were also submitted: Ought not to pass on the bill to prohibit the manufacture and sale of cigarettes; ought not to pass on the bill to regulate the sale of face powders and similar preparations containing poisonous ingredients; expedient to legislate on the report on the Norwegian system; that the rule ought not to be suspended to admit the senate bill allowing Massachusetts companies to do a routine insurance business.

Resolve that the board of railroad commissioners are requested to investigate the methods employed by street railway companies for the protection of passengers on open cars and report to the next general court; bill that all vaccine institutions be under the supervision of the state board of health; bill to establish licensing boards in cities.

Boatner's Pertinent Questions.

WASHINGTON, April 3.—Another step in the congressional fight against the Union Pacific railroad was taken yesterday.

Representative Boatner introduced a resolution of inquiry to determine whether the proceedings, already commenced by Attorney General Olney, are valid; also to find out whether the receivers of the Union Pacific are acting in the interest of the officials of the road, instead of the interest of the United States government.

A Cold Water Banquet.

BOSTON, April 3.—The fair, under the auspices of the W. C. T. U. of this state, was opened in Horticultural Hall under favorable circumstances. Last evening a banquet was held. Speeches were made by Mrs. Mary A. Livermore, Mrs. Susan Fessenden, Mayor Bancroft of Cambridge and others.

The Ems is All Right.

LONDON, April 3.—The steamer Ems, which sailed from Bremen for New York on March 17, was towed into Fayal, Azores, yesterday, by the British steamer Windflower. Her passengers were all well. A broken shaft was the cause of her delay.

Will Go to Professor Peterson.

MONTRAL, April 3.—There is good authority for the statement that Professor W. Peterson, principal of the Dundee university, Scotland, will be appointed to the vacant position of principal of McGill university, Montreal.

Sickness and Suicide.

NASHUA, N. H., April 3.—Mrs. Marie Merriman of Marion, Mass., was found dead in bed at the house of a friend in this city. She had shot herself through the heart. She left letters, saying sickness was the cause of her taking her life.

Home Rulers Endorse Redmond.

NEW YORK, April 3.—At the council of the Irish Independent Parliamentary party, resolutions were adopted favoring the policy of John E. Redmond. A subscription of \$5000 was raised to aid Parnell's followers.

Associate Justice Strout.

AUGUSTA, Me., April 3.—Governor Cleaves has appointed Hon. Sewall C. Strout of Portland associate justice of the supreme judicial court, in place of Hon. Artemas Libby, deceased. Mr. Strout is a Democrat.

A Shocking Accident.

GEORGETOWN, Mass., April 3.—While George Riley was cleaning his revolver it was accidentally discharged, and the ball entered the forehead of his little 9-year-old daughter. There is no hope for her recovery.

Remained Unconscious.

PROVIDENCE, April 3.—Reider Schild, the man who attempted to commit suicide at the City hotel on Sunday, died last night. He had not recovered consciousness since he was found Sunday morning.

Wedding Day Drawing Nigh.

ST. JOSEPH, Mich., April 3.—L. L. Thurston, Hawaiian minister, has arrived from Washington. He will be married to Miss Harriet E. Potter Thursday next, and will then leave with his bride for Washington.

Cleveland's Election.

CLEVELAND, April 3.—Official returns show that the Republicans have carried the city by pluralities ranging from 3500 to 5000.

A SPRAINED STOMACH.

There Are More Sprained Stomachs than Sprained Ankles.

THE TREATMENT FOR BOTH IS REST.

If overwork sprains your ankle, it will also sprain your stomach. A stomach that won't digest its food is sprained. It needs rest.

The work of your stomach is to digest your food, principally albuminous food. One way to rest it would be to eat nothing at all. Another would be to eat food that is pre-digested. Paskola is a food of this kind.

Your healthy stomach does not digest starch food, it merely acts as a receiving station to pass it on to the duodenum; but when a sprained peptic stomach receives any half-digested starch food a chemical action is set up which causes all the well-known symptoms of dyspepsia.

You must eat. A sick stomach may need weeks of rest. The only way to rest it and live, is to take Paskola.

Ordinary food will never make you fat while you have a sick stomach. Paskola will.

Paskola is a natural starch food, made of the finest and purest flours, artificially digested. It contains also vegetable ferment which aid the stomach in its digestion of other food. Starch is man's most important food. You can live without starch altogether, but you can't live without starch.

Paskola is a natural, pre-digested, starch food. It is a food that is needed by every dyspeptic stomach.

Descriptive pamphlets free on request.

PATENTS

NOTICE TO INVENTORS.

THERE was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and workshop, the household, and in official life, require continual accessions to the apparatus and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and with a few personal difficulties, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skillful attorney to prepare and prosecute an application for patent. Valuable interests have been lost through unavoidable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk. The value of the right of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W. Washington, D. C., representing a large number of inventors, daily receives 1000 papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and particularly for applications for patents generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents and advice.

AN OPEN LETTER

FROM
BILLINGS, KING & CO.
DON'T WEAR OUT.

The wearing quality of paint depends largely on the quality and quantity of Pure Linseed Oil (not Water, not Benzine, not Petrol-um, not Ro-oil—please remember), that enters into its composition. The paint manufacturer may employ the best and finest pigments, but he is not so particular about the use of an absolutely Pure Linseed Oil. Neither are many of the jobbers over the country particularly anxious to sell a Pure Linseed Oil, for a better profit is made by selling the adulterated article.

A BAD MISTAKE.

Some jobbers (not well posted) recommend—and often times conscientiously—the use of pure paint and the purchase of oil to use with it, unmindful of the great risk to the consumer.

CONSIDER TRUE ECONOMY.

We urge the use of our Strictly Pure Linseed Oil Paint ready for use, because we can guarantee the quality. AS A COULE, and what is very important, guarantee that the best colorant material is the only kind used, and that it is mixed and ground so thoroughly with the base as to insure a non-fading paint. It possibly costs per gallon a trifle more than paint compounded from cheap raw material, but a gallon of our paint covers from 15 to 20 per cent. more surface and takes less labor to apply it. Hence we say it is the cheapest, and you certainly have the assurance of having your buildings painted with a first-class article.

CHALKS OFF. WHY SHOULDN'T IT?

White lead will surely chalk off after a few months' exposure, and even this article—like other forms of paste paint—may not be pure so far as the pigment is concerned; added to this may exist the fact that it is not always ground in pure oil; for oftentimes paste paints are compounded with the base as to insure a non-fading paint. It possibly costs per gallon a trifle more than paint compounded from cheap raw material, but a gallon of our paint covers from 15 to 20 per cent. more surface and takes less labor to apply it. Hence we say it is the cheapest, and you certainly have the assurance of having your buildings painted with a first-class article.

BY THE PEOPLE,

THE ALTERATION OF OIL IS NOT EASILY DETECTED.
THE PROPER PROPORTION OF DRYERS TO BE ADDED TO EACH GALLON OF PAINT IS NOT THOROUGHLY UNDERSTOOD.

COMMON SENSE.

We believe we present here briefly the most convincing reasons why our paint should be used, and why the use of White Lead and other forms of paste paint should be discontinued. How much more reliable must a read made product be, when bearing the name and brand of a reputable manufacturer, who, having confidence in it with care and with knowledge of the essentials that go to make a first-class paint, practically guarantees the quality of each package.

BRAINS AND THRIFT.

We aim to have our Paint on sale with one reputable dealer in every city and town.

A STORM OF BULLETS

Catholics and A. P. A. Men Come Together at Kansas City.

ONE MAN INSTANTLY KILLED

While Others Will Die From Injuries Received.

KANSAS CITY, April 4.—The American Protective Association and the Catholics came together in a bloody conflict at the polls in this city yesterday. It cannot be stated which side is responsible for the affray, as the partisans of each loudly charged the other with being the full cause of all the trouble. More than 100 shots were exchanged between the combatants in less than that many seconds, and when the firing ceased, the following-named were lying dead, dying or injured on the pavement:

Killed: M. E. Callahan, shot through the right side.

Fatally injured: Harry Fowler, shot through the back; Con Brosnan, shot through the kidney; Jerry Patte, shot, through the face.

Wounded: Patrick Fleming, shot in the left shoulder; John McGovern, shot through the right arm.

The riot was the culmination of bitter feeling, which had been manifested by action and words ever since the polls opened in the morning. The two antagonistic elements were solidly divided in their choice of candidates for mayor.

The aggressive support that each side gave to its candidates during one of the hottest campaigns ever known in this city engendered a strong sentiment of bigotry.

Eight persons were severely injured by being trampled under foot, and Mrs. James T. Kennedy was probably fatally injured. During the rush down the fire escape many persons fell to the ground, six being badly injured. Those injuries were composed of dislocated arms and ankles, although one woman had her back broken. The fire was quickly extinguished; it being confined in a pile of papers in the rear of the barber shop.

WITHOUT PRECEDENT.

Brawls Were Numerous.

TILLMAN'S CENSORSHIP OF THE PRESS IS STRONGLY DENOUNCED.

WASHINGTON, April 4.—Mr. Grosvenor of Ohio introduced in the house a resolution for a special investigation of Governor Tillman's action in South Carolina.

Mr. Grosvenor said concerning the resolution:

"It is the first time in the history of the government that a censorship of press dispatches has been established. During

the darkest days of the war men were

free to send their dispatches from Washington and elsewhere, without supervision or censorship. The right of a free press was regarded too sacred to be invaded by a censorship."

The public suffers as much as the press by such action as that charged against Governor Tillman. My resolution seeks to ascertain what right the governor of a state has in intercepting and suppressing press dispatches?"

A \$25,000 BLOW.

PORTSMOUTH, N. H., April 4.—The Hotel Bartlett at York Beach, Me., was destroyed by fire yesterday afternoon. The fire caught in the laundry, and the stable, icehouse and hotel and contents were burned. Loss, \$25,000. The hotel accommodated 250 guests.

ALL BAD SHOOTERS.

It is claimed that one of Pryor's followers fired the first shot. The victim was Mike Callahan, and he was a dead man the next moment. Then the battle began.

The deputy constables at this polling booth and the workers of all political factions crowded together in solid masses, fully 100 strong, and every one of them seemed to be armed.

For a mile or two the discharge of

weapons sounded like a discharge of musketry by a regiment. Hundreds of citizens gathered at every point of vantage to witness the battle, which, however, was of short duration. These onlookers trembled with excitement. Many of the residents along the boulevard added to the general feeling of terror by leaning from their windows, shouting and gesticulating wildly.

In less than five minutes from the time

the first shot was fired, however, the blue-coats from station 1 had closed upon the scene, and quieted the disturbance.

With their first approach the fighting political workers ceased hostilities, and made a quick effort to hide their weapons.

ZELL SENT TO PRISON.

NEW YORK, April 4.—William T. Zell, the defaulting treasurer of the Lehigh and Wilkes-Barre Coal company, pleaded guilty to the charge of forgery and was sentenced to state prison for four years.

Zell broke down and cried like a child.

TEMPERANCE TOWNS.

PROVIDENCE, April 4.—William Olney died at his home yesterday. He was 82 years old. Two years ago he resigned his position as cashier of the American National bank. He had held the office for 50 years. He died in the same house in which he was born in 1812.

MADE USE OF THE BABY.

BOSTON, April 4.—Ellen Murphy, Kate Sullivan and Jennie Baldwin were arrested yesterday for shoplifting in the dry goods store. The Murphy woman carried a baby in long clothes, which were used as a receptacle for the stolen property.

ZELL'S LATEST BREAK.

BOSTON, April 4.—Morrison L. Swift is

desirous of raising a battalion of 1,000 men

to join Coxey's commonwealth army.

A meeting of his disciples was held at the Equity union last night. Swift said the men could march to Fall River, and if

permission was given by the government

they could be transported to the Potomac

on a government cruiser. The idea was

received with enthusiasm.

A THOUSAND HOUSES DESTROYED.

SHANGHAI, April 4.—A fire broke out in

that part of Shanghai occupied by the

natives, and despite all the efforts to

check the flames, they destroyed 1,000

houses.

DOMESTIC QUARREL AND DEATH.

NEW YORK, April 4.—Mrs. Lena Hart,

a bride, 19 years of age, died at Brooklyn

from the effects of a dose of laudanum

that she took with suicidal intent. She

had had a quarrel with her husband over

money matters.

BRASILIAN NEWS.

BUENOS AIRES, April 4.—The government

fleet has left Rio Janeiro and proceeded

in a southerly direction. The pre-

sumption is that the fleet is going in

search of the insurgent warships. The

state congress at Pernambuco has been

dissolved, owing to its refusal to support

President Peixoto.

THINK THEY ARE UNPAID.

BOSTON, April 4.—The union sailors and

firemen of this port have decided that it

is time that they made an attempt to in-

crease their wages from \$25 to \$30 a

month. The shipping commissioners and

vessel owners will all be requested to

grant the demand.

Police Needed.

NEW BEDFORD, Mass., April 4.—"Knob-

sticks" at work at Mt. Washington glass

works, were attacked by a mob yesterday,

and one was seriously injured. Police

assistance has been asked for.

LOST ALL THEY HAD.

Shipwrecked Crew of a Gloucester Boat Picked Up at Sea.

ENCOUNTERED TWO HURRICANES.

Twenty Men Narrowly Escaped a Watery Grave.

NEW YORK, April 4.—The British

steamer Mohawk arrived here yesterday.

On the morning of March 28, and when

in lat. 46.14, long. 38.28, signals were ob-

served from a ship in distress. There

was a gale, wind and heavy sea was

running at the time. By Captain Wil-

lis's orders, the steamship's course was

immediately altered, and bearing down

toward the vessel, he stood by until

daylight set in. She proved to be the

damaged schooner Aitton S. Marshall of

Gloucester, Mass.

A lifeboat was at once manned by the

chief officer and crew and proceeded to the

wreck, when, with the assistance of the

schooner's boat, they succeeded in saving

the whole of her crew of 20 men.

Captain J. Marshall of that port was in

command of the schooner which, while

on a voyage to Gloucester to Iceland, and

when among the ice, had encountered a

heavy gale; a tremendous sea striking her

and throwing her on her beam ends, thereby causing her cargo, consisting

principally of salt, to shift to one side.

Captain Marshall's Story.

Captain Marshall said when he got up

to the city: "We left Gloucester for Ice-

land early on the morning of March 15.

We were going to Iceland for a cargo of

halibut, and carried salt enough to cure the fish. This was our only freight.

"On the morning of the 20th we saw a

quantity of ice, and it was so small, how-

ever, that I did not apprehend it. About

TELEPHONE, 213-3 QUINCY.

COOPERATION.

The DALY LEDGER proposes to make the heading for its brief—local items or city chit-chat a special feature for the next few weeks. A different "scare head," similar in type and arrangement of lines as the one today, (count—letters to a line), is wanted for each day, and the publishers offer a year's subscription for the most original and appropriate one used—before July 1, 1894.

The more one considers the problem the more in doubt it becomes, and it is well that a decision should be reached now when the first change has been made in the office of tax collector since the inauguration of the city government.

The city charter provides in Section 34 that a collector of taxes shall be appointed on or before the first Monday in February, and in common with the other administrative officers, shall hold his office for the term of one year, beginning with the first Monday in February. Mr. W. H. Brasee has been appointed and has qualified for 1894.

The taxes of 1893 are uncollected, there being Jan. 1, a balance of \$91,745.37 unpaid out of a total commitment of \$275,000.73.

The Auditor's report to Dec. 31, 1893, shows \$1,500 to have been paid to Bryant N. Adams as a city officer, which is the annual salary of the Tax Collector and City Treasurer combined, and he has doubtless his salary in full for collecting the taxes during all the years which he has been Tax Collector.

Not only is there a large uncollected balance of the taxes of 1893, but \$6,250.95 of 1892, \$3,306.10 of 1891, \$2,522.18 of 1890, \$185.22 of 1889 and \$20.27 of 1888. Had there been a new collector each year would the collector of 1888 be receiving a salary now? Also the collector in each of the years following? If so Mr. Adams should now be drawing salary, not for one year but for six years.

The idea is probably current that it is the duty of Mr. Adams to collect all the taxes of the years in which he was tax collector. It has been the custom, but the city has had one man as tax collector, and in town government the collector was paid a commission. Now that a salary is paid why should not Mr. Brasee collect the taxes? Section 81 of Chapter 12 of the Public Statutes reads:

"The tax list of a collector who is paid by a fixed salary, may, upon the expiration of his term of office, be committed to his successor, as in the case of the death of a collector, subject to all the provisions of law relating to the transfer of a tax-list in case of the death of a collector, as far as applicable thereto."

AN ORDER making a one-year loan gilded through the City Council Monday evening. It was a small matter, to pay less than \$2000 for land damages on Water street. Did the Finance Committee pause to think that there is now \$75,880 falling in 1895 and that it means a high tax rate. These one-year loans must be nipped in the bud.

Wollaston Land Company.

The regular fortnightly gathering of the Neighbors club was held Tuesday evening at the residence of Mr. and Mrs. Ralph G. Crane on Washington street.

Besides the members there was present a number of guests and the evening was given up to enjoyment. There was an impromptu entertainment which consisted on an exhibition of scientific whist by four members of the club, vocal music by Mrs. J. Mortom Hannum, Miss Baker and Dr. C. W. Garey.

Acting charades and other amusements followed which served to make the hours pass all to quickly. Light refreshments were served during the evening.

The New Hall Project.

Editors of the Daily Ledger:

"The proposed building for a large hall, etc., is a very good idea, but allow me to suggest that the location mentioned is decidedly a very unsuitable one. Just fancy to yourself a concert or a lecture being given and a long freight train thundering over the Granite street bridge.

Then the idea of having horses and carriages standing on Granite street; the short and narrow space from the bridge would be very unpleasant and probably cause serious trouble or accidents.

By all means let us have a hall in a proper location. Could there not be a piece of land purchased on Hancock street, between School and Granite streets? If so, it would be far superior to the proposed location, back of a hotel, on a side street, low land and crowded in a small space.

There is need of a large hall, and suitably located it would be a profitable investment, and we think no trouble to raise sufficient funds to build it.

Let the managers suggest something better, please. The Briesler corner would be an ideal spot for large stores and a hall, but probably the cost of purchase would be excessive.

Before it is definitely fixed let other locations be examined.

JOHN A. McDONNELL.

Stockholders Inspect.

A number of the stockholders of the Quincy & Boston street railway, among whom were Col. Moore of Walpole, Frank Stevens of Fall River, Mr. Donnelly of Boston, President Graham, Treasurer Smith and others took a trip of inspection of the road Tuesday afternoon. The party arrived in the early afternoon and took a special car for Houghs Neck where a clam bake was enjoyed at Dunham's "Galena." Returning from there, the party inspected the power plant at Quincy Point.

BAY STATE LEGISLATURE

The Battle at Antietam—Committees Ex-

penses—Greater Boston."

BOSTON, April 4.—The senate took concurrent action on the house order providing for a suitable memorial to mark the positions held by Massachusetts troops at the battle of Antietam.

The committee on election laws asked for an extension of time to April 11 to report upon matters which it has under consideration.

Bills introduced: Providing for an increase in the number of associates justices of the superior court from 15 to 16; a bill modifying the law relative to notices in cases of injuries to persons or property; authorizing the city of Holyoke to extend its indebtedness beyond the debt limit, for the purpose of paying up part of the cost of building the Williamsbridge bridge; authorizing the city of Worcester to borrow \$300,000, outside of its debt limit, for the purpose of building a city hall; requiring that life insurance policies shall bear upon their face description of their character.

The house almost unanimously refused to lay on the table the bill to provide for an investigation of the subject of a general municipal administration for the city of Boston and adjoining municipalities, as urged by Mr. Cook.

Mr. W. W. Ulman said that there is an almost unanimous sentiment in favor of the committee's bill.

The house almost unanimously refused to lay on the table the bill to provide for an investigation of the subject of a general municipal administration for the city of Boston and adjoining municipalities, as urged by Mr. Cook.

The sergeant-at-arms submitted a report of expenses of

TO BE INVESTIGATED

The Chief Engineer of Fire Department Has Suspicions Aroused

CONCERNING SQUANTUM FIRE

Many Surprised at the Rumors of Foul Play—Not Improbable.

Chief Engineer Williams has made application for an inquest on the fire at Squantum last Saturday morning, and it will be held before Judge Humphrey Friday morning at 10 o'clock.

The Chief probably acts under Chapter 169 of the Acts of 1888, which requires that engineers in cities make investigation of the cause, circumstances and origin of all fires when property is destroyed, especially to examine whether it was the result of carelessness or design. Whenever, from the investigation aforesaid, there appear reasonable grounds for believing the fire was caused by design, the chief engineer shall apply to a police, district or municipal court, or trial justice, for a jury of inquest; and such court or justice shall forthwith issue a warrant to a constable.

There was surprise to many readers that foul play might have entered into the Squantum holocaust, and few place any stock in the rumor, but favor an investigation.

Undertaker Hall believes it was the result of an accident and that the men were sleeping too soundly to be aroused in time.

One gentleman advances the theory that the kerosene stove was left burning, that the wick worked up causing the lamp to smoke and that the soot and carbon suffocated the victims. He suggests an examination of the lungs of the dogs. Mr. Driver is said to have been in the habit of toasting his feet over the oil stove and may have fallen asleep there.

Chief Engineer Williams says it is very evident to him that Murphy and O'Mara were in bed when they met their death, from the fact that when the two bodies were found in the ruins they lay on the iron bedstead which is conclusive evidence that they were not up and around the house.

It has been rumored that the bodies of the two dogs were found together and that they were therefore tied before the place was fired. This however, is not so for the body of one dog was found near that of Mr. Driver and the other near the other two bodies.

Mrs. Mary A. Tupper has been released, at Wilton, Me., from the custody of extreme Female Weakness, which kept her a prisoner in bed unable to walk. Lydia E. Pinkham's Vegetable Compound made the change. She advises all sick women to take this valuable medicine, and be thankful for their lives, as she is for hers. It costs only a dollar at any druggist, and the result is worth millions.

Co-operation In Town Building. There is no village, town or city but that has an ambition to develop into a manufacturing center. There are but few that realize their ambition. In this day of sharp competition that cheap commodity called "china music" goes but a short distance in attracting capital and inducing the location of manufacturing industries. A location must possess extraordinary natural advantages in the way of power, fuel supply, transportation facilities or supply of raw material to induce a manufacturing concern to seek it without some effort on the part of its citizens. In most cases a cash bonus, subscription of stock or donation of site is required to secure this end, and generally the most liberal offer secure the enterprise.

The demands of the promoters of these enterprises are often so exorbitant that they cannot be profitably met. Thousands have been donated to corporations by towns throughout the west, and in a great many cases the benefit has been infinitesimal. The remedy for this is in co-operative manufacturing investment. Every community has sufficient idle capital among its people to equip and maintain manufactories which will be both profitable to the investor and advantageous to the community.

For instance, the people determine that a paper mill, cannery, starch factory or any of the hundreds of different branches of manufacture now carried on in the United States could be successfully maintained in their town. A meeting should be called, an incorporation formed, the cost of the plant ascertained and books for the subscription of stock opened. The price of shares should be placed sufficiently low to allow persons of moderate means to become stockholders, as often this class of persons are the most progressive citizens a community affords. Only those in whom the community has the fullest confidence should be put at the head of the movement. When all the stock is sold and the venture established, it will only require good business methods to make it a success—financially and otherwise. After one industry is established and made a success others will follow. The only matter to be decided is the nature of the industry that is adapted to the locality, and when this is done go to work and establish it.

Want. The public to know that the TIME TABLES of all the Railroad and Steamboat Lines are on file at the office of

Austin & Winslow Express Co. 52 Washington Street, QUINCY.

Telephone, 9-2. P. S.—Inquiries by mail cheerfully answered.

It is good policy to patronize the merchant or mechanic who is the most liberal in his efforts to assist in building up the community.

The United States now has the deepest metal mine in the world, Shaft No. 3 of the Tamarack copper mine having reached a depth of more than 3,700 feet. The Piramit mine in Austria is 3,675 feet.

PATENTS

NOTICE TO INVENTORS.

THERE was never a time in the history of the country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and workshop, the household, on the farm, and in official life, require continual accessions to the apparatus and implements of each in order to save labor, time and expense. The progress of the country, the evolution of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiencies, does not permit the affairs of government to deter him from quickly communicating the results to the government, offering his services. Too great care cannot be exercised in choosing a competent and skillful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of unqualified counsel. The most especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a claim which may get an all right, and then take the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instrumental in perfecting its methods in the Senate methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, of special cases, inventions, designs, patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents. Write for instructions and advice.

Lovely Girls.

Girls that are fair on the heartstone
And pleasant when nobody sees,
Kind and sweet to their own folk,
Ready and anxious to please.

The girls that are wanted are wise girls,
That know what to do and to say;
That drive with a smile or a soft word
The wrath of the household away.

The girls that are wanted are girls of sense
Whom fashion can never deceive;
Who can follow whatever is pretty
And dare what is silly to leave.

The girls that are wanted are careful girls,
Who count what a thing will cost;
Who use with prudent, generous hand,
But see that nothing is lost.

The girls that are wanted are girls with
hearts—

They are wanted for mothers and wives—
Wanted to cradle in loving arms—
The strongest and fairest of lives.

The clever, the witty, the brilliant girl—
There are very few, understand—
But, oh, for the wise, loving, home girls—
There's a constant and steady demand!

Surprising.

Mr. de Sappy—Yes, Miss Amy, my an-
cestors were leaders in the New England
colony. My paternal great-grandfather
was a colonel in the Revolutionary army,
and on my mother's side there were gov-
ernors and judges.

Miss Amy—Really, Mr. de Sappy, and
yet you still believe in heredity—Brook-
lyn Life.

Woods Ablaze.

BOURNE, Mass., April 4.—A forest fire
is burning in the woods near Sandwich.
Most of the country has been burned over
before, and no excessive damage is ex-
pected. Men are at work trying to pre-
vent its progress.

Evidence All In.

NEW YORK, April 4.—The court-martial
that is trying Lieutenant Charles C.
Lyman, the navigator of the Kearsarge,
finished the taking of evidence yesterday.

Lutheran's Tribute to Kossoh.

BUDA-PESTH, April 4.—A memorial
service in honor of the late Louis Kos-
soh was held yesterday at the Lutheran
church. The services were attended by
Kossoh's relatives and the elite of Hun-
garian society.

Child Burned to Death.

ATLITERO, Mass., April 4.—Edith Mc-
Nulty, aged 5, was fatally burned while
at play. Children had set the grass af-
ter in a field and the child's dress caught fire.
She was burned to death.

A Steel Combine.

CLEVELAND, April 4.—All but two of
the steel founders of the country have
formed a combination known as the
American Steel Casting company, and
have organized with a capital stock of
\$4,200,000.

Set by a Locomotive.

WEST DERRY, N. H., April 4.—A freight
engine set fire to the woods about a mile
below Windham depot. Twenty acres of
woodland and a set of buildings were
burned.

Washington Logs to Go to France.

A schooner laden with the huge logs
and tree trunks of which the Washington
state building at the World's fair
was constructed will sail out of the harbor
of Chicago some time during May.
Its destination will be either Havre or
Cherbourg, France. The Washington
state building was one of the most interest-
ing at the fair. Many of the tim-
bers in the building are 3 feet square and
140 feet long. It is the intention of those
who purchased the building to set it up
in France exactly as it stood upon the
World's fair grounds.—Chicago Herald.

Hard on the Doctors.

The smallpox scare is about over and
the harvest for physicians at \$1 per
point, about ended for the year. If we
had a law to compel physicians to vac-
cinate all the members of the families in
which they practice, free of charge, the
days of smallpox scares would be forever
ended.—Iowa State Register.

—A Florida hotel has "Mexican tombs"
on the bill of fare.

Your attention for a minute—
We will prove that we are in.

We sell any range manufactured in New
England at a liberal discount from lowest
Boston prices. The Glenwood, Magee,
Waverly, Grand, Colonial and Union,
always in stock. Henry L. Kincaide & Co.

AFFAIRS OF IRELAND.

Considered at the Convention of the
Parnellite Party.

SLAVISH SUBSERVIENCE OF ANTS

Has Almost Brought Ruin to
the Emerald Isle.

DUBLIN, April 4.—The convention of the
Irish Independent party, more generally
known as the Parnellite party, was called
to order in the rotunda. Several causes
led to the calling of this convention by
John E. Redmond.

In brief, they may be summed up in the
statement that the change in the leadership
of the Liberal party, resulting from
the resignation of the premiership by Mr.
Gladstone, and the accession of Lord
Rosebery to power, have necessitated a
new departure on the part of the Irish
Parliamentary party, and the dissensions
existing in the ranks of the McCarthites
and Healyites, have led to so much pro-
tection upon the part of the rank and file of
Irishmen generally, that it was deter-
mined to turn over a new leaf, as it were,
and map out a new policy to be followed
by those who have the independence of
Ireland at heart.

When the convention met for prelimi-
nary business, considerable enthusiasm
was manifested among the delegates, and
this enthusiasm was increased as the large
building began to fill up with visitors
and delegates from all parts of Ire-
land.

Redmond's Remarks.

Mr. Redmond, in his address to the
convention, said that the situation in the
history of Ireland rendered a convention
such as the one which he had been asked to
call absolutely imperative. The political
situation was so changed that the
leaders felt they could not continue to
bear alone the responsibility of the future
policy of the Irish Independent party.

At the present moment, the speaker
continued, they were confronted by a
most serious state of affairs. The fruits
of 15 years' labor, sacrifice and suffering,
were endangered. In fact, they were con-
fronted by something worse than mere
danger. Ireland, all over the world, were
abandoning in disgust the old and
constitutional agitation, because it was evi-
dently that the cause of Ireland had
entirely receded into the background. They
were confronted almost by the ruin of the
cause by which it can be secured by
sacking the company's stores, but to do this,
they must overpower deputy sheriffs,
who are standing guard with
Winchesters. The operatives in the
region are very apprehensive, and fear
that the strikers will destroy property in
every section of the region.

The great hordes of foreigners require
food, and have no means to obtain it. The
only way by which it can be secured is
by sacking the company's stores, but to do this,
they must overpower deputy sheriffs,
who are standing guard with
Winchesters. The operatives in the
region are very apprehensive, and fear
that the strikers will destroy property in
every section of the region.

BLAND'S QUICK MOVE

To Pass the Seigniorage Bill Over the
President's Veto.

GREAT CONFUSION IN THE HOUSE.

Reed Repeatedly Silenced by
Speaker Crisp.

WASHINGTON, April 5.—All programs that had been mapped out for the Bland seigniorage bill when it was to be called up on the motion to pass it over the president's veto were suddenly smashed yesterday, and the vote was had upon the motion amid a scene of such inextricable confusion as has seldom been witnessed on the floor of the house of representatives.

The bill came up after the house had unseated Hilborn from the Fifth California district, and had seated English, the contestant, in his place. Mr. Bland called up the seigniorage bill, returned by the president without his approval, and moved that it pass, the objections of the executive to the contrary notwithstanding.

Mr. Tracey raised the question of consideration against it, and Mr. Bland made the point of order that the constitution required the consideration of a bill returned with a veto, and that the question of consideration, therefore, should not be raised against it.

Mr. Sticks urged that the rules permitted that question to be raised against any measure, and as it was competent under the constitution to postpone the consideration of the veto, it was equally competent under the constitution to determine whether it should or not be considered when called up. The speaker sustained the point of order.

Mr. Bland stated on behalf of the majority of the committee on coinage, weights and measures that on Saturday at 3 o'clock he would demand the previous question.

From all quarters of the Democratic side there seemed to be a general desire to avoid the conflict of opinion on debate, and Mr. Bland's suggestion of three days' debate was met with a chorus of "Vote it!"

The Fun Begins.

Then followed one of the most remarkable scenes witnessed in the house in years. The Republicans were encumbered out of their chance of seeing the dissensions in the Democratic ranks reduced to their advantage. Mr. Tracey said that as far as the Democrats of the minority of the committee on coinage, weights and measures were concerned, they were willing to take a vote immediately. Mr. Tracey went on to say, however, that he had not conferred with the Republicans of the committee, and suggested that he would like to have the opinion of C. W. Stone of Pennsylvania, who made the minority report against the bill.

"I'm speaking," said Mr. Reed, "my colleague, Mr. Dingley, was ready to address the house upon this question before the rollcall began."

"The reason he did not," said Mr. Reed, "was because the gentleman from Missouri (Mr. Bland) was entitled to the floor, and I submit to the speaker and to the house that this is notable because my colleague was ready to address the chair, and if he did not do so, it was because in the confusion the first name on the roll was called before an opportunity was afforded to the house to know what the situation was."

"Regular order," shouted the Democrats.

"The discussion that was going on," continued Mr. Reed, "was in reference to an arrangement for time for debate, and before anybody had an opportunity to understand what the situation was the first name was called on."

The Speaker's Statement.

"The house understands the circumstances," replied the speaker. "The gentleman from Missouri (Mr. Bland) was recognized, whereupon some suggestion was made to an agreement between that gentleman and the gentleman from New York (Mr. Tracey), who called upon the gentleman from Pennsylvania (Mr. Stone). There was a general call for the speaker to address the house, and if he did not do so, it was because in the confusion the first name on the roll was called, and then for the first time the chair had an intimation that the gentleman from Maine (Mr. Dingley) desired to address the house."

The explanation of the speaker was not satisfactory. The Republicans, led by Mr. Reed, were appealing for recognition, amid shouts of "Regular order" from the Democratic side.

The excitement was intense.

"I want the speaker to understand this matter," said Mr. Reed, finally.

"The speaker does understand it," reported the speaker, "and the speaker directs the clerk to resume the call of the roll."

"I think the speaker has not heard my colleague's statement," persisted Mr. Reed.

"The gentleman will take his seat," returned the speaker, finally.

"Certainly, I will," replied Mr. Reed, but he still remained standing.

"The gentleman will take his seat," continued the speaker, "and the clerk will call the roll."

Reed sat down, but immediately jumped to his feet again. He would not surrender without one more protest.

"Mr. Speaker," he said defiantly, "I ask to be heard."

"The chair declines to hear the gentleman. The clerk will call the roll."

"Will the speaker hear a word?"

"The chair will not."

"My colleague states—"

"The chair will not hear the gentleman. The clerk will call the roll."

The uproar was terrible at this point. Mr. Burrows attempted to address the chair, while Mr. Wilson of Washington cried "Tyranny! Tyranny!" but the speaker would not listen, and ordered the clerk to proceed with the rollcall. Once or twice afterwards Mr. Burrows and Mr. Reed attempted to break in, but the speaker declared emphatically that he would not hear them; that the rollcall could not be interrupted for any purpose. The Republicans were beside themselves with anger.

They refused to vote on the first rollcall. The anti-slavery Democrats were in despair, as the first rollcall gave the other men the necessary two-thirds.

Finally, after a consultation, they agreed to vote, and did vote on the second rollcall. This turned the tide, and upon the announcement of the vote it was found that the motion to pass the bill over the veto had been defeated, the other men lacking 74, the necessary two-thirds. The house then adjourned.

In the Senate.

The senate passed, after a warm controversy, the senate bill for the suppression of gambling in the District of Columbia with an amendment prohibiting pool selling on horse races. The senate also considered briefly a resolution for the repeal of all laws which give the secretary of the treasury authority to issue bonds, and Senator Peffer spoke in support of it.

The tariff bill was then laid before the senate, and Mr. Allison concluded his speech in opposition. His remarks were directed in particular against the substitution of the ad valorem for the specific system and against the tax on sugar. He also opposed the increase on distilled liquor and the tax on incomes, while at the same time he delivered a strong attack against the policy of "following in the footsteps of England, and of opening our markets to that country, thus giving her the gold with which to wage her battle against the world and bimetallism."

The bill came up after the house had unseated Hilborn from the Fifth California district, and had seated English, the contestant, in his place. Mr. Bland called up the seigniorage bill, returned by the president without his approval, and moved that it pass, the objections of the executive to the contrary notwithstanding.

Mr. Tracey raised the question of consideration against it, and Mr. Bland made the point of order that the constitution required the consideration of a bill returned with a veto, and that the question of consideration, therefore, should not be raised against it.

Mr. Sticks urged that the rules permitted that question to be raised against any measure, and as it was competent under the constitution to postpone the consideration of the veto, it was equally competent under the constitution to determine whether it should or not be considered when called up. The speaker sustained the point of order.

Mr. Bland stated on behalf of the majority of the committee on coinage, weights and measures that on Saturday at 3 o'clock he would demand the previous question.

From all quarters of the Democratic side there seemed to be a general desire to avoid the conflict of opinion on debate, and Mr. Bland's suggestion of three days' debate was met with a chorus of "Vote it!"

The Fun Begins.

"Regular order," shouted the Democrats.

DEADLY COKE RIOTS.

Fatal Conflicts Between Deputies and Coke Strikers.

AT LEAST NINE MEN KILLED.

Started by the Brutal Murder of an Engineer.

UNIONTOWN, Pa., April 5.—It would take columns to tell in detail the exciting events of yesterday, the third of the big coke strike now on in the Connellsburg region. At least nine lives were sacrificed. Unless the strong arm of the military interferes, the dead will be counted by scores instead of tens. So much excitement was never known in the region, and people everywhere are excited and apprehensive of greater dangers.

Editorial Comment.

A QUOTATION from the public statutes
yesterday showed that a tax list may be
transferred to the succeeding tax collector,
but it did not say "shall," and therefore
Mr. Bryant N. Adams must complete the
collection of taxes committed to him,
unless action is taken under Section 3 of Chapter 12 which provides:

"Tax collectors shall, unless removed
from office as hereinafter provided, or unless
his tax list has been transferred to his
successor as provided by law, complete the
collection of taxes committed to him,
although his term of office expires before
such completion."

If Mr. Adams is to continue will he
receive further compensation or has he
already been paid in full for collecting the
taxes of the past years? Section 83 provides
that "Collectors shall be paid such
compensation for their services as their
cities or towns shall determine. The city
ordinance concerning salaries provides that

"The compensation to be paid the several
officers mentioned in this section for each
municipal year shall be fixed at the annual
rates herein set forth, and shall be payable
in equal monthly installments, from the
appropriation made for the payment of the
salaries of city officers, to wit." The tax
collector appears in the list for \$600 and
five per cent. on all single poll taxes collected
before the first day of January.

From the above it would seem that there
was no doubt as to Mr. Brasee being en-
titled to salary since Feb. 1. Whether Mr.
Adams shall also receive salary is another
question, but as Mr. Brasee is now re-
ceiving salary for doing nothing why
should he not collect the balances? There
is another good reason for the transfer:
Mr. Adams is this year the principal
assessor, and his board is permitted to
abate certain uncollected taxes. Both
gentlemen would probably be surprised at
this turn of affairs. An unexpected relief to
one and an unexpected duty for the other,
but then Mr. Brasee would be relieved or reappointed on Feb. 1, 1895,
whereas otherwise he might be five years in
collecting the tax of 1894, and collector
for that year only.

THAT PART of Chief Ripley's report of the
Fire Department, which recommends the
locating of a steamer near Norfolk
Downs to cover Wollaston, Wollaston,
Norfolk Downs and Atlantic, is
strongly endorsed in those sections. It is
a significant fact,—and one that should be
taken into consideration by the council
when locating the steamer, which must
soon be purchased,—that out of a total fire
loss of \$84,287.50 from February to December,
1893, \$24,517, or 72 per cent. of this
loss occurred in Wollaston and Atlantic,
and this was not an exceptional year as in
the previous year, the total loss in the city
was \$23,115, and of this amount over
\$15,000 can be charged to those two wards.
There is no question but what some of the
other wards have a greater number of
alarms during the year, notably Ward
Four, but the loss is trifling in comparison
with the loss in Wards Five and Six.
During the year 1893, Ward Four had 22
bell alarms with a loss of \$8,391, (one loss
amounting to \$7,600, leaving \$791, to be
divided among 21 alarms); Wollaston had
five bell alarms with a loss of \$11,580, and
Atlantic seven bell alarms with a loss of
\$12,957.

It is impossible to fail to draw the
conclusion that the great losses in Wollaston
and Atlantic are caused by the distance
(ten to seventeen minutes' drive) from the
central fire station. To be sure each of
these wards are supposed to be protected
by hose and chemical companies—Wollaston
with a hose wagon and Atlantic with a
combination chemical engine—but without
horses these pieces of apparatus are no
more good than so much junk to extinguish
a fire. They are manned by able
companies, but are so cumbersome that they
cannot be hauled by hand and no satisfactory
arrangements have as yet been made
in either of these wards whereby horses can
be promptly had. The city is outgrowing
this old-fashioned method of making a
bluff at extinguishing fires.

If a steamer hose and ladder truck were
located at Norfolk Downs, as recommended in
Chief Ripley's report, then the Chemical
of Atlantic, and Hose 2 of Wollaston
could be abolished, and the expense,
\$1080, thus saved would go far toward
maintaining the proposed new company.

The Council should bring to an immedi-
ate close the farce of attempting to protect
a city of 20,000 population with one small
steam and a hook and ladder truck.

Twelve years ago the department was
reorganized, and, as Chief Ripley says, the
apparatus is substantially the same as it
was then, but in the mean time the city
has nearly doubled in population.

THE PROSPECTUS of the new opera
house—Quincy Associates' hall—appears
today in the advertising columns and will
bear investigation. It is a plain statement
of facts. Let all the enterprising gentlemen
of this city help the project?

IN THE CITY NURSERY

WEEKLY FORECASTING.

Observer Clayton Writes of his Experience
in Predicting Weather.

Editors of the Daily Ledger:

Having now two months of weekly
weather forecasts it seemed worth while
to verify them in order to ascertain what
degree of success had been attained and
how much better the forecasts were than
mere guess work.

According to the forecasts for the eight
weeks, beginning with Feb. 3 and ending
with March 30, were taken and carefully
compared with the observed facts as re-
corded at the Blue Hill observatory. The
results are given below and may prove of
interest to such readers as have taken an
interest in the forecasts.

The first part of the forecasts consists of
a statement of the days on which rain is
most probable each week and of the days
which will probably be warmest and coldest.
The forecasts in each case were verified for
the seven days from Saturday to Friday,
except no forecast was made for the last
two days of the first week. There were
hence 54 days with forecasts. Of these 17
(usually two each week) were mentioned as
days on which rain was most probable.

The first alarm boxes are being newly
painted a bright red.

The Wollaston whistle did not blow for
the alarm this morning.

The Quincy Cycle club will hold an im-
portant meeting tonight.

J. E. Alger of Billings street is confined
to his home with a sprained ankle.

The inquest on the Squantum fire to be
held Friday morning will not be public.

A contributed "scare head" for this
column will appear tomorrow. It's a good
one.

The newly painted delivery wagon of
Wilson's market attracts considerable at-
tention.

The Norfolk South Medical society held
its monthly meeting at The Greenleaf to
day. Dr. T. H. Dearing and Dr. H. L.
Dearing, both of Braintree, contributed

essays.

The new law for the further protection
of smelts in Boston harbor and tributaries
of the same is in force, having been ap-
proved on Tuesday. It prohibits the taking
except by hook.

Mr. J. S. Fisher returned today from a
successful business trip of several weeks in
the New England and Middle States in
the interests of the Craig & Richards
granite company.

Box 26 was not blown by the Wollaston
whistle this morning, thus causing a delay
of twenty minutes in starting out. Hose 2.
An automatic attachment should be placed
on this whistle. This is another argument
in support of the article in today's LEDGER
on reorganizing the entire fire department.

ITALIAN CONCERT AND DANCE.

The second concert and ball of the
Italian Mutual relief and mechanic society
was held Wednesday evening at St. Mary's
hall.

The concert that preceded the dancing
was given by the Cercola orchestra which
was well rendered.

Dancing commenced at 9 o'clock, the
grand march being led by Peter Josephine
and Miss Cardosi and they were followed by
over 100 couples.

BECOMING GRAY.

According to Sunbeam, Josiah Quincy's
black locks are now noticeably salted with
gray, and he looks older than he looked
when he was much in this city super-
intending work at the national democratic
headquarters. Mr. Quincy is, however,
still a young-looking man for his years,
and it would be a very clever and observant
person who should, at a glance, make an
accurate guess at his age.—Bud Brier.

YOUNG MEN'S CHRISTIAN ASSOCIATION.

The finance and membership committees
have received an invitation to attend a com-
mittee conference and tea at Brockton on
the 13th.

Mrs. A. B. Brooks has presented the As-
sociation with a number of useful books.

A good collection of books on missions is
desirable. Dr. Paton's biography and sim-
ilar works would stimulate an interest in
missions which is much needed. Why
would it not be a good plan for some of the
missionary societies or committees to con-
tribute toward a missionary library fund.

The quarterly meeting of the association
will be held Tuesday evening, the 10th, at
7.45. A musical entertainment will be
furnished by the Christian Endeavor society
of the Memorial church, Atlantic. All
friends, both ladies and gentlemen, are
invited to attend.

H. H. CLAYTON,
Blue Hill Observatory, April 4, 1894.

—Bids for a new reservoir for the
Northampton water department range
from \$49,500 to \$55,000. The capacity will
be 100,000,000.

MEETINGS TONIGHT.

Paul Revere post, G. A. R.

THE COMMITTEE has reported that the
"Greater Boston" bill will be referred to the
next General Court, and the suburban
cities will be given a chance to act.

THE ILLUSTRATED talk on the "Mysteries of
the Pocket Watch," advertised to be given
this evening by Mr. E. A. Marsh, master
mechanic of the Waltham Watch Factory
has been indefinitely postponed on account
of the entertainment in the Congregational
church tonight.

THE NEWBURYPORT is to have a scientific
school endowed by the late William Wheel-
wright. The fund amounts to \$376,000
and not exceeding \$50,000 can be spent on
building. The school will be similar to the
Worcester Polytechnic school.

—Patrons will confer a favor by re-
porting to this office any irregularity,
in the delivery of the DAILY LEDGER, or
inability of newsdealers to supply all
demands.

—Malden is considering an ordinance
imposing a fine of not more than \$20 for
loading on sidewalks and for peddling by
non-residents on the public highways with-
out a license.

—The PROSPECTUS of the new opera
house—Quincy Associates' hall—appears
today in the advertising columns and will
bear investigation. It is a plain statement
of facts. Let all the enterprising gentlemen
of this city help the project?

—The DAILY LEDGER.

DISCOVERED IN TIME.

"HICK'RY FARM."

A Call from Box 26 Early This Morning
for a Slight Fire.

Box 26 was pulled at 5:46 this morning
for a fire in a small building at the residence
of Mr. W. R. Tyler on Saville avenue, which
is in close proximity to the house and is
used principally as a photographer's studio.

In one corner, protected by zinc lining,
was a large oil stove which in some
unaccountable way set fire to the building.
But for the zinc it would have made much
more rapid headway. None of the inmates
of the house were astir, but one happened
to discover the smoke, and in a very short
time the Hose 1 boys had a hydrant
stream playing.

Chief William did not allow much water
damage, however, but himself removed the
burning stove and the danger was over
with a trifling loss.

Hose 2 of Wollaston and Hose 4 of
Quincy Point did not make very good time,
both arriving just before the recall at 6:14.
The former was not alarmed by the Wollaston
whistle and the latter was without a

NEW DIRECTORS.

Annual Meeting of Quincy Mutual—Amount
at Risk Increased One Million.

The annual meeting of the Quincy Mutual Fire Insurance Co. was held
Wednesday and these directors elected for
three years: Thomas Curtis and George
W. Morton of Quincy, J. C. Hyde of
Newton and Charles E. Breck of Milton.
The two new men elected, Messrs.
Morton and Breck, are sons of deceased
directors.

The report of the president and treasurer
was as follows:

Premiums received, \$144,000.00

Losses paid, 45,000.00

Dividends paid, 68,000.00

Total cash fund, 617,613.13

Total amount at risk, 33,860,028.00

The cash fund has increased over \$10,000
during the year and the amount at risk

is being increased by \$1,000,000.

The board of directors will meet for
organization next week.

COOPERATION.

The DAILY LEDGER proposes
to make the heading for its brief
local items or city chit-chat a
special feature for the next few
weeks. A different "scare head,"
similar in type and arrangement
of lines as the one today, (count
letters to a line), is wanted for
each day, and the publishers offer
a year's subscription for the most
original and appropriate one used
before July 1, 1894.

The city editor will select the
best one published each week and
later will decide how the final
selection shall be made. The
headings will be published in the
order received and the name of
the writer will appear if there is no
objection.

The Associates' Hall.

The Transcript says "the erection of the
proposed building will benefit neighboring
cities and towns, as trains leave Quincy for
Brockton and the south shore as late as
11:30 o'clock every night, and the street
cars run from near the hall to all parts of
the city and to North Weymouth every few
minutes. If the proposed extensions of
the street railways are carried out, trans-
portation by this method will be also had
to all parts of Weymouth, Hingham, Braintree,
Randolph, Holbrook and Brockton."

The 1894 CRAWFORD.

We take pleasure in introducing this season on its merits alone, THE CRAWFORD; sold everywhere for \$85.

OUR CUT PRICE, \$69.75.

When we took up the Bicycle business last season, it was to deal with them just as we dealt with merchandise of every other sort, buy and sell without extravagant profit to anyone.

It would surprise most Bicycle riders to know how little a first-class wheel really costs to manufacture, and to obtain the enormous profits Bicycle agents all over the country have been making. It has always been our motto, "TO BUY AS LOW AS WE CAN AND SELL AS LOW AS WE LIKE."

Thus for the benefit of all who will avail themselves, we make this wonder offering.

Wheelmen are daily paying \$125 for wheels under other names, not one bit better than this, and we urge all those

intending to buy a wheel this season to examine this splendid Safety.

Ladies' Pattern at the same cut price. Easy payments when desired.

ROOM 30, ADAMS BUILDING.

On same floor as Bussell's Photograph Studio. Quincy, March 26—3m.

—The cable map of the world, prepared by the United States Navy Department, shows that the Mediterranean is thickly netted with cables west of Malta. So is the north Atlantic between the thirty-eighth and fifty-fifth parallels. The North Sea, the Red Sea and the Arabian Sea have many cables. The only great unbridged spaces are the Pacific, the south Atlantic and the great stretch of the Indian Ocean between Madagascar and Australia. There is no considerable cable north of Stockholm or south of Nelson, New Zealand. The Black Sea is completely girded by land lines and crossed by one cable. The Gulf of Mexico is crossed, though not at its widest, by several cables, and the waters of the West Indies are becoming thickly netted with short cables.

—It costs money to advertise judiciously, but it costs more not to.

—This square is like life—it would be blank together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringing on others, submit the matter to us for a reliable OPINION before acting on the matter.

—The view with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency

THE DAILY LEDGER.

Concerning the Kansas City's Riot Over

Policies and Religion.

KANSAS CITY, April 5.—The three men

reported as fatally wounded in the A. P.

A. Catholic election riot are still alive,

but no hopes of their recovery are entertain-

ed. Deputy Constable Pate said he believed

that Mike Callahan, the only one

that was killed outright, is the man that

shot him. Pate is one of those mortally

wounded.

Harry Fowler will also die. He said:

"I saw a man unknown to me attempt to

shoot Callahan. I dashed out to grab the

man and save Callahan, and somebody

shot me in the back."

The eight men under arrest are all depu-

ty constables, appointed to arrest the

Priors for an alleged assault. Only one of

the Priors has been arrested in connec-

tion with the riot, and the others were far

from the scene where it occurred.

Returns on the vote for mayor in this city show the following results: Webster

Davis (Rep.), 12,283; Frank Johnson

(Dem., Ind. Dem., and Labor), 327. The

entire Republican ticket runs very close.

Great Britain's Mail Question.

VICTIM OF SMALLPOX

Roamed Boston Streets Unconscious of His Plight.

HAD BEEN SICK FOR TWO WEEKS.

General Fumigation of Places He Had Visited.

BOSTON, April 6.—Dennis Callon, a victim of smallpox, has been traveling the streets for the past two weeks. Yesterday afternoon Dr. Macdonald, assistant city physician, succeeded after a tiresome search in locating him and sending him to Galloway's island.

The first that was known of Callon's affliction was through Dr. Hastings, superintendent of the Bennett street dispensary.

Yesterday morning Callon called at the dispensary to receive treatment for an ear trouble which he had for some time. Dr. Hastings saw at a glance that the man was suffering from smallpox. He ran to the telephone to notify the board of health. He had been gone but a short time, but the man had disappeared.

All the forenoon and up to 3 o'clock in the afternoon Callon wandered about town, and finally his ear began to ache again. He was afraid to go to the dispensary a second time, and, having money in his pocket, went to a medical institute in the South End. Here he was held until Dr. Macdonald was sent for. A first glance at the victim by Dr. Macdonald was sufficient. He saw that it was smallpox.

To the questions put to the sufferer by Dr. Macdonald, he said:

Callon's Statement.

"I have no home here, as my folks live in New York state. I came to Boston some time ago and worked hard. About two or three weeks ago I came home to my lodging house on Harrison avenue, and was taken with chills. I took a glass of liquor to see if it would do me any good, but it did not. In the mean time I had severe pains in the back, and the more I drank the sicker I grew. The blotches on my face I thought were the effects of the liquor. I never dreamed how seriously sick I was."

"Wednesday night I slept in a hotel on Elliot street, and besides going to the dispensary and my room, I have been to several barrooms along Elliot street. These are the only places I have been to all over the state."

The man was taken in the ambulance to the wharf, and the quarantine boat from Galloway's island took the sufferer to the pesthouse.

May Result Fatal.

Dr. Macdonald said: "The man is about 42 years of age, and able-bodied. It is evident that he comes from a good family, as he does not want to worry them with his ailment. He is a working man, and has saved some money. The smallpox is on him in a bad form, owing to his entire neglect of himself. It is apt to result seriously; if he pulls through he is lucky."

The reporter then asked him if he had traced the disease to any one case, and he replied: "We have succeeded in tracing it to some extent. He is all probability took it from a woman on Howard street. She was removed to the pesthouse about two weeks ago. He visited at that house."

The hotel, dispensary, medical institute and the Harrison avenue house have been thoroughly fumigated. All the occupants were vaccinated.

Murdered Unknown.

KANSAS CITY, April 6.—Coroner Langdale and a jury examined witnesses yesterday to fix the responsibility for the death of Mike Callahan, killed in Tuesday's election riot. The evidence was all in at 3 o'clock, and in a few minutes the jury brought in a verdict that Callahan had been killed by unknown hands.

A Valuable Souvenir.

SPRINGFIELD, Mass., April 6.—Richard Peters of Gloucester county, N. B., discovered, while in this city, that he had been robbed of \$500 by green goods men. Went to New York to accept their offer of \$7000 for \$500. The money was given him in a box with the injunction not to open it for a certain time. When opened the box was found to be stuffed with waste paper.

Got \$8500 For the Journey.

WORCESTER, Mass., April 6.—The neighboring town of North Hampton is greatly aroused over the actions of a grammar school teacher who has placed cayenne pepper on the tongues of disobedient pupils. The school committee upheld the action. Nine pupils have been expelled.

About the "Unknown."

GRAND JUNCTION, Colo., April 6.—The "unknown" commander of the Coxey forces is Major William P. Clarke of the Second battalion, C. N. G. Major Clarke was formerly connected with the Daily Star of this city.

Tim Healy to Form a New Party.

LONDON, April 6.—The Standard says that Timothy Healy, the anti-Parnellite, who represents North Louth in the house of commons, is trying to form a party of his own.

The Quincy Patriot,

Published weekly on Saturday morning, was established in 1837, and is the acknowledged leader in Norfolk county.

Yearly subscription, \$2.50; single copies, 5 cents.

TELEPHONE, 213-3 QUINCY.**COOPERATION.**

The DAILY LEDGER proposes to make the heading for its brief—local items or city chit-chat a special feature for the next few weeks. A different "scare head," similar in type and arrangement of lines as the one today, (count—letters to a line), is wanted for each day, and the publishers offer a year's subscription for the most original and appropriate one used—before July 1, 1894.

The city editor will select the best one published each week and later will decide how the final selection shall be made. The headings will be published in the order received and the name of the writer will appear if there is no objection.

Editorial Comment.

AN INSURANCE agent of Wollaston says a steamer located in that ward would undoubtedly reduce the insurance rates. Another prominent citizen and property holder was inclined to doubt it, believing that good protection would be given to Wollaston and Atlantic if the present hose companies had permanent horses and drivers, as the water mains covered most of the territory and with good water pressure.

The needs of the whole city, however, should be considered and there seems to be a feeling that somewhere in the city there should be located another steamer. Cities of 20,000 population with large business blocks close together don't depend wholly on hydrant streams, and mishaps to our only steamer are very liable to happen at a fire or on the way to a fire; or most of the apparatus of the city may be at Houghs Neck, Squantum or in the other outskirts.

OLD PROV tried to give us pleasant weather today, but Blue Hill had predicted Mar. 30, that it would rain or snow and be colder. If Observer Clayton is to control the weather thus, he should be able to accommodate the people with good weather at any time. The weather bureau in Boston predicted in the morning papers today—"Fair weather, slightly colder, westerly winds," and the Washington prediction for New England is—"Generally fair; north-west winds.

THE ACT of the Legislature has been approved establishing a uniform standard of weights. Purchasers of a bushel of potatoes may now insist upon receiving 60 pounds, while a barrel should weigh 172 pounds, and a bushel of apples should weigh 48 pounds.

SUDDEN DEATH.

A Popular Young Clerk Passes Away This Morning.

The many friends of Mr. Fred C. Abbott, one of the clerks at the store of Messrs. Saville & Jones, will be pained to learn of his death which occurred this morning at his home on Hancock court, after a brief illness, his death being due to heart failure brought on by the grip.

Mr. Abbott has not been feeling well for some days but did not give up work until Monday when he left the store. Since then he has failed rapidly until early this morning when he passed away.

The deceased passed his early days in East Weymouth, obtaining his education at the public schools of that place. Shortly after the death of his father he removed with his mother to Quincy where he has since resided.

His first employment was at the periodical store of E. B. Souther and leaving there he entered the employ of Saville & Jones where he has been for about two years.

He was a young man of pleasing address which gained for him many friends. He was very popular among the young people and was usually present at all their gatherings and many will deeply feel his sudden demise.

Many Complaints.

Frank Bowen of Norfolk Downs is a peddler of butter, cheese and eggs. Previous to Jan. 17, he had working for him a man named John Harkins, who was discharged on the above date.

It is alleged that when Harkins left he stole Bowen's team and peddler's license and started in for himself, and during the trip it is alleged that he collected money due Bowen from the latter's customers and wound up by selling the team.

A warrant was issued and Thursday Officer Charles N. Hunt arrested Harkins in Brighton.

"Your attention for a minute."

We will prove that we are in it.

We sell any range manufactured in New England at a liberal discount from lowest Boston prices. The Glenwood, Magee, Waverly, Grand, Colonial and Union, always in stock. Henry L. Kincaide & Co.

A FINE SHOWING.

Some Figures Which Tell of the Progress of Wollaston Cooperative Bank.

At a meeting of the directors of the Wollaston Cooperative bank held Saturday evening, March 31, the secretary presented his report on the workings of the bank during the past six months, and it showed it to be in a most satisfactory and substantial condition.

A dividend at the rate of 6 3/4 per cent. per annum was declared, and it was voted to limit the number of shares in the new series to 500. The new series begin with the April meeting, which is the fifth annual meeting of the bank, and already over 350 shares have been engaged. The bank has no necessity for foreclosure of any loan during its five years' existence.

The following is a summary of the report of April, 1894, the fifth annual :

Series.	Shares.	Dues	Paid.	Profits.	Present Value.
First.	460	\$60	\$10.82	\$70.82	
Second.	163	374	8.69	62.69

A SPRAINED STOMACH.

There Are More Sprained Stomachs than Sprained Ankles.

THE TREATMENT FOR BOTH IS REST.

If overwork sprains your ankle, it will also sprain your stomach. A stomach that won't digest its food is sprained. It needs rest.

The work of your stomach is to digest your food, principally albuminous food. One way to rest it would be to eat nothing at all. Another would be to eat food that is pre-digested. Paskola is a food of this kind.

Your healthy stomach does not digest starch food, it merely acts as a receiving station to pass it on to the duodenum, but when a sprained dyspeptic stomach receives any half-digested starch food a chemical action is set up which causes all the well-known symptoms of dyspepsia.

You must eat. A sick stomach may need weeks of rest. The only way to rest it and live, is to take Paskola.

Ordinary food will never make you fat while you have a sick stomach. Paskola will.

Paskola is a natural starch food, made of the finest and purest flours, artificially digested. It contains also vegetable ferments which aid the stomach in its digestion of other food. Starch is man's most important food. You can live without fats altogether, but you can't live without starch at all.

Paskola is a natural, pre-digested, starch food. It is a food that is needed by every dyspeptic stomach.

Descriptive pamphlets free on request.

The Pre-Digested Food Co., 30 St. N.Y.

A. G. DURGIN,

Quincy, Mass.

PATENTS

NOTICE TO INVENTORS.

THERE was never a time in the history of the world when there were more inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accession to the appearances and implements of each in order to save labor, time and expense. The policy of the nation is that the construction of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiencies, does not permit the officials of government to deter him from quickly conceiving and putting into practice his inventions. Too great care cannot be exercised in choosing a competent and skillful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed innumerable instances by the employment of incompetent attorneys, especially those who are applicable to those who adopt the "No patent, no pay" system. Inventors who trust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain a patent. JOHN WEDDERBURN, PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W. Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instrumental in getting its partners from the same methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copying and imitations, and inventors' validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Write for instructions and advice.

A LITERARY ORDER.

The thought most optimistic that Dofa comes to us these days

I and how I laugh thereat—

That pessimism pays

Why, only yesterday I wrote

A poem full of light;

I sent it out and got a note

Returning it ere night.

"These lines are nice," the writer said;

"They show a dainty touch,

But you our paper can't have read,

We think, so very much.

This happy stuff is out of date—

Depressing, I say,

And verses now must grow at fate

To have the proper ring.

"Declares that life is wholly grief,

That all is gloom and woe;

Make 'Every man's a fool or thief'

The burden of your song,

Drop gladlessness, drop all your mirth,

Drop sunshine and fresh air,

And send us in ten dollars' worth

Of gloom and dark despair."

—Century.

Racing Terms.

They're off in a bunch."

—Puck.

More Important.

First Drummer—Hang the luck! The firm has sent me only one of my two checks this week.

Second Drummer—Which one did they forget? Your salary?

First Drummer—No, confound it! They left out the check for my expense account.

—Somerville Journal.

Accommodating.

The guest at the hotel table had been kicking about the food until he got tired, and then he commenced on the weather.

"Don't you have any change of seasons here?" he inquired of the waiter.

"Yes, sir," was the prompt reply. "If you don't like pepper, you can try salt."

—Detroit Free Press.

All Serene.

He—it's all settled then, it is, darling? She (shy)—Yes—that is—if papa will give his consent.

He—Oh, he's all right! Don't you fret a minute about papa. I've lent him more \$40 in the last three months.—Somerville Journal.

An Agricultural Success.

"How is Dyring getting along with the farm he bought?"

"Pretty well. He tells me he saved money on it last year."

"How?"

"Rented it to another man."—Washington Star.

The Liquor Question in Iowa.

DES MOINES, April 6.—Several days ago the lower house of the legislature passed a joint resolution for the resubmission of a constitutional amendment, prohibiting the manufacture and sale of liquors in Iowa. Yesterday the senate amended it to allow manufacturing of liquors, and passed it 29 to 17.

Season Opens May 8.

WATERBURY, Conn., April 6.—Representatives of the different clubs in the Connecticut league held a meeting in this city yesterday. It was reported that the league was in good financial condition, and that the season would be opened on May 8 with six clubs.

Amendments Coming.

SENATOR HOAR and other leading Republican senators assert that if the income tax is retained they propose to offer an amendment to the effect that all incomes over \$1000 shall be subject to the tax. They are inclined to believe that the Democrats will not dare to vote against it.

A careful canvass of the senate shows that the vote is going to be very close. If the Republican senators from the silver states of Colorado, Nevada, Idaho, the two Dakotas and Montana stand by their Republican associates from the east on this question, the income tax will be stricken out of the tariff bill. It would have been stricken out in committee if McPherson, who is opposed to it, had voted with the Republicans. But he stood with his Democrat associates in the committee and allowed it to remain in the tariff bill when that measure was reported.

There are 12 or 14 Democratic senators who will vote with Senator Hill when he makes the motion to strike out the income tax. The friends of this tax now admit that the vote is going to be very close, and concede that its retention rests with the Republicans in the silver states.

Amendments Coming.

THE DARLINGTON TRAGEDY.

DARLINGTON, S. C., April 6.—The coroner's jury has rendered a verdict to hold McLendon for the killing of Norment; Cay for the killing of Redmond, and that Redmond killed Pepper. The military court will first submit its report to Governor Tillman.

A Flurry in Wheat.

NEW YORK, April 6.—The greatest short scare of the year occurred yesterday afternoon in the wheat market, when within an hour prices shot up 2 cents a bushel, bringing May to 66-8, the highest point it has touched since early in February.

Suspected of Murder.

NEWPORT, R. I., April 6.—Sheriff Prevon of Hartford is here trying to identify a military prisoner, Private Johnson of Fort Adams, with the murderer of a man named Pike, near Putnam, recently. Johnson laughs at the story.

A Legislator's Mishap.

BOSTON, April 6.—About 7 o'clock last evening Frank B. Bennett of Everett, a representative to the general court, while crossing Bendell lane, was struck on the head by a barrel which fell from the roof of one of the houses. He was knocked down unconscious. He is now suffering from concussion of the brain.

Robbers Got Away.

WEST DEERLY, N. H., April 6.—Thieves broke into the stable of S. F. Tewksbury and took two horses, wagons and harnesses. Mr. Tewksbury was aroused by the noise and frightened away the thieves, but was unable to capture them.

Jurist and Banker.

HOLLIDAYSBURG, Pa., April 6.—Hon. James Gardner, ex-associate justice of Blair county, and head of a banking house, died here yesterday, aged 87 years.

Ladies and gentlemen thinking of purchasing a bicycle this season will do well to examine the Crawford. See ad of Henry L. Kincaid & Co. in another column.

A GOOD DAY'S WORK.

The Urgent Deficiency Bill Passed by the House.

FIGURING ON THE INCOME TAX.

Silver Republicans May Defeat Its Passage.

WASHINGTON, April 6.—The house was like a calm after a storm.

After the passage of minor bills and resolutions the consideration of appropriation bills was resumed. The urgent deficiency bill, carrying something over \$1,000,000, was taken up, and after a somewhat protracted debate was passed, with one important amendment providing for the continuation of the work of the census bureau until March 4, 1895, and providing for the publication, in condensed volume of 250 pages, of an abstract of all the data procured by the census.

After the deficiency bill was disposed of, the consideration of the postoffice appropriation bill was resumed. Only one amendment was adopted—setting aside \$30,000 for the establishment of star routes to new postoffices. The main fight will come on the amendment to abolish the \$200,000 subsidy for the fast southern mail trains, running between Springfield, Mass., via New York and Washington, to Atlanta and New Orleans.

Upon request of Mr. McCrory unanimous consent was given to the consideration of the Behring sea bill, and it was passed.

Caught Napping.

Reed and other Republican leaders in the house admit that they blundered in allowing a vote on the seigniorage bill without debate. For the first time, Reed says, the Republicans were caught napping.

The bill reported from the house banking and currency committee allowing the tax on tax-free bonds held by banking institutions is causing much comment among Republican representatives and also among northern Democrats who do not believe in that kind of legislation.

Two members of the army who were offered work by the board yesterday laying mines. They were offered \$1.50 a day for one year, but refused to accept it, saying they were not there to dig mud and lay pipe, but were going to Washington to force legislation in their favor.

THE RIVERSIDE STRIKE.

The senate passed the even tenor of its way during the morning hour without a ripple of excitement to ruffle its surface. The only thing of interest was a resolution introduced by Senator George and referred to the judiciary committee, which provides for a 20 per cent reduction in the salaries of government offices in view of the depressed financial condition of the country, the insatiability of many of the people, and the increased value of money.

The bill for the destruction of the weed known as the Russian thistle was considered, and after debate it went over without action.

The Chinese treaty was read in extenso in the session of the senate, but went over without further proceeding, on account of the lateness of the hour, after the Florida appointments were disposed of.

THE INCOME TAX.

The Democratic members of the finance committee who voted to retain the income tax amendment to the tariff bill, and who have all along expressed great confidence that their action would be sustained in the senate by 10 or 12 majority, have ascertained that several senators whom they counted on as favorable to that proposition are likely to vote against it.

A careful canvass of the senate shows that the vote is going to be very close. If the Republican senators from the silver states of Colorado, Nevada, Idaho, the two Dakotas and Montana stand by their Republican associates from the east on this question, the income tax will be stricken out of the tariff bill. It would have been stricken out in committee if McPherson, who is opposed to it, had voted with the Republicans. But he stood with his Democrat associates in the committee and allowed it to remain in the tariff bill when that measure was reported.

There are 12 or 14 Democratic senators who will vote with Senator Hill when he makes the motion to strike out the income tax. The friends of this tax now admit that the vote is going to be very close, and concede that its retention rests with the Republicans in the silver states.

Amendments Coming.

SENATOR HOAR and other leading Republican senators assert that if the income tax is retained they propose to offer an amendment to the effect that all incomes over \$1000 shall be subject to the tax. They are inclined to believe that the Democrats will not dare to vote against it.

This will make the measure more odious to the people than the one now incorporated in the tariff bill.

Senator Gorman said that there would be no more adjournment over from Thursday to Monday while the tariff bill was under consideration. The Democratic managers have decided to sit every day till the bill is disposed of.

A Legislator's Mishap.

BOSTON, April 6.—About 7 o'clock last evening Frank B. Bennett of Everett, a representative to the general court, while crossing Bendell lane, was struck on the head by a barrel which fell from the roof of one of the houses. He was knocked down unconscious. He is now suffering from concussion of the brain.

Robbers Got Away.

WEST DEERLY, N. H., April 6.—Thieves broke into the stable of S. F. Tewksbury and took two horses, wagons and harnesses. Mr. Tewksbury was aroused by the noise and frightened away the thieves, but was unable to capture them.

TESTIMONY IS ALL IN

Breckinridge and Miss Pollard Both
Make More Denials.

"AUNT MARY'S" GREAT FACULTIES

Madeline's Day-Old Baby Re-
sembled the Colonel.

WASHINGTON, April 7.—The stream of

testimony in the Pollard-Breckinridge

litigation, which had grown to be exceed-

ingly wearisome, has been brought to its

close, after five continuous weeks of sen-

atorial debate, yesterday, consisted of more

denials by the plaintiff and defendant,

leaving the final status of the case what

it has largely been throughout, a ques-

tion of veracity between the man and the

woman, parties to the illicit intrigue.

The house passed to a third reading a

bill relating to the granting of liquor

licenses to druggists and apothecaries,

which provides that licenses shall be

granted to only registered pharmacists

having a certificate from the board of

pharmacy that he is a proper person to

receive such license, the bill being

amended so that any registered pharma-

cist may be considered a proper person to

receive such certificate, when no com-

plaints have been made against the ap-

plicant for such certificate, and when

complaints are made, they shall be in

writing, specifying the reason, if any,

why a certificate should be withheld.

The house debated at some length a bill

to enlarge the powers of school commit-

tees of cities and giving to those bodies

full power to name and change the names

of schools, order removals and alterations,

hiring teachers, etc. The bill was ordered

to a third reading by a vote of 60 to 53.

After some discussion the house passed

the bill requiring notices of application

for liquor licenses to state the owners of

the premises on which the licensees are to

be exercised to a third reading.

In the senate reference to the next gen-

eral court was reported on the petition of

the town of Uxbridge for authority to in-

crease its water supply. Similar action

was taken by the committee on the bill

authorizing cities and towns to protect

their sources of water supply from pollu-

tion.

No legislation necessary on the order

instructing it to investigate the lease of

the Connecticut River railroad by the

Boston and Maine railroad, explaining

that the railroad commissioners had in-

formed the committee that, while there

was nothing illegal in the transaction, it

was railroad practice which they could

not approve.

CHARGED WITH FORGERY.

Bank Teller Had \$14,000 Worth of

Checks on His Person.

BRATTLEBORO, Vt., April 7.—People

were astounded to learn that Leslie Scott,

teller of the Vermont National bank of

this place, had been arrested in Nashua,

N. H., on a charge of forgery. Scott pre-

sented checks for two sums for cashing

and got \$700, the balance being placed to

his credit. The total amount of checks

found on his person was \$14,000.

Scott is 28 years old, and of one of the

best families of this town. When he left

town he said he was going to Springfield,

Mass. He enjoyed the confidence of all

in his banking connections, and was

connected with various societies. No

Published weekly on Saturday mornings, was established in 1837, and is the acknowledged leader in Norfolk county.

Yearly subscription, \$2.50; single copies, 5 cents.

TELEPHONE, 213-3 QUINCY.

COOPERATION.

The DAILY LEDGER proposes to make the heading for its brief—local items or city chit-chat a special feature for the next few weeks. A different "scare head," similar in type and arrangement—of lines as the one today, (count—letters to a line), is wanted for each day, and the publishers offer a year's subscription for the most—original and appropriate one used—before July 1, 1894.

The city editor will select the best one published each week and later will decide how the final selection shall be made. The headings will be published in the order received and the name of the writer will appear if there is no objection.

Editorial Comment.

THEORETICALLY, we would advocate paying as you go by the city government, and if loans were necessary make them for a short time and pay as promptly as possible. But when we find that each succeeding city council will appropriate nearly every available dollar up to the debt limit, and that as fast as maturing debt is paid, other debts are contracted, we cannot advocate the payment each year of a debt which shall burden the taxpayers. Unless a loan is made this year for current expenses, the prospects are that the tax rate this year will be in the vicinity of \$18; possibly the largest of any city in the state, as only two exceeded that rate in 1893. This year the maturing debt is \$9,730 and in 1895 it is already \$75,580, without any loans by the Council of 1894. It will not take long, even with small loans like that passed Monday, to make the maturing debt of 1895 larger than this year, and up will go the tax rate above \$18. Under existing circumstances the maturing debt of 1895 should not be increased one dollar.

The debt and debt limit on Jan. 1 for the year 1892, 1893 and 1894 is shown below:

Year. Debt. Limit.

Jan. 1, 1892, \$262,387 \$333,267

Jan. 1, 1893, 288,542 360,167

Jan. 1, 1894, 339,730 384,612

The debt limit decreased from \$70,880 in 1892 to \$44,882 this year. As the city practically lives up to its debt limit the annual interest will be as large whether the debt is in short loans or long loans. If anything it would favor long loans, as smaller rate would be secured.

It was never the intention of the Legislature that appropriations should be made one year and paid the next. By limiting the rate of taxation it was expected to limit the annual appropriations but this is not now accomplished. Starting in 1898 free from debt the city is face to face with a mortgage requiring an annual payment of \$89,730, which alone increases the tax rate of 1894 over \$5 above the \$12 limit.

Had not the loan authorized Monday been a pressing claim, it should have been vetoed although for a small amount, and a stand taken against increasing the debt maturing in 1895.

ONE OF OUR BUSINESS MEN WHO HAS INVESTED IN THE PAST IN SOUTHERN AND WESTERN LAND SCHEMES, HAS COME TO THE CONCLUSION THAT THERE IS NOTHING LIKE HOME INVESTMENTS. HE HAS PUT CONSIDERABLE MONEY INTO QUINCY REAL ESTATE AND ENTERPRISES AND THEY HAVE ALWAYS PROVED PROFITABLE. RESIDENTS WITH MONEY SHOULD NOT HESITATE TO INVEST IN THE NEW "ASSOCIATES" HALL. THE PROSPECTUS SHOWS IT WILL PAY A DIVIDEND OF OVER SIX PER CENT.

Hopeful of a Busy Summer.

The Quincy correspondent of the MONUMENTAL NEWS writes to the April number:

Blue Hill Predictions.

Observer Clayton at the Blue Hill Observatory made the following predictions Friday for the ensuing week:

During the coming week rain is most probable on Thursday and Friday. The warmest days will be Saturday and Thursday, and the coldest Monday or Tuesday.

For the individual days the predictions are:

Saturday—Warmer, partly cloudy, possibly followed by local rain.

Sunday—Generally fair.

Monday and Tuesday—fair and colder.

Wednesday—Generally fair.

Thursday—Increasing cloudiness followed by rain Thursday night and Friday.

Friday—In Milton, April 5, Mr. John Q. Adams, aged 79 years and 5 months.

LEARY—In Quincy, April 3, Mrs. Catherine Leary, aged 88 years and 2 months.

CRITICISM UNJUST.

Ex-Mayor Fairbanks Writes Concerning the Building of Woodward Institute.

Editor of the Daily Ledger:

As I understand that a good deal of criticism is being made, reflecting on Architect Thayer in reference to the Woodward building, because he did not arrange for a study hall in that building, permit me to say that such criticism is unjust, as Mr. Thayer carried out the wishes and view of the Board of Managers, and I think I voice the sentiment of the board, when I say that we are willing to assume the responsibility, and state that Mr. Thayer had only our orders to carry out. The report in this year's city book of our board, partly explains the whole matter, but I am perfectly willing to go more in detail.

In 1892 when the board decided it was time to consider the erection of a building, and had notified the Board of Directors to present to us their views, our report will show that we decided to invite about five architects to present sketches, we agreeing to pay them so much for their plans, and the successful one to receive the regular compensation. Neither Mr. Murray nor Mr. Thayer were one of the five architects invited to compete.

Soon after these architects wrote us that they could not furnish the plans for a building to cost only \$40,000 and carry out the proposed features submitted to them, and while the board was considering the question, Mr. Murray through the Board of Directors presented a plan which was claimed could be erected for about \$40,000, and as the plan met with favor with the Board of Directors, the Board of Managers withdrew their proposition to the other architects and made an agreement with Mr. Murray.

As our report states, when Mr. Murray's plans were finished and submitted to the builders, the bids were in excess of the anticipated cost, and Mr. Murray was again requested to modify the plans, and again the bids exceeded what the board decided wise to put into a building, until experience had shown what was necessary. A moment's reflection will convince anyone that the future arrangement of rooms, etc., would depend very much on the wishes and ideas of the principal of that school, whoever he or she might be.

Interviews with many of our prominent citizens, showed to us that the sentiment was strongly against erecting any expensive building until such time as the actual needs and requirements of the school could be ascertained, and as it was absolutely necessary to have the school in operation by April, '94, to carry out one of the provisions of the will, the board decided to erect a wooden building at a moderate cost that would answer the purpose for a few years, and have the fund save the 5 per cent. interest on the difference between \$20,000, the cost of the present building, and \$70,000, what the first proposed building would have cost with grading and filling, saving \$2,500 per year, which amount would be of great value to the resources for the running expenses.

The original and modified plans for the proposed permanent building of brick were paid for and are at City Hall.

Mr. Thayer was called in at a late hour, and asked to give us a moderate cost building of four rooms, etc., and that gentleman simply carried out the wishes of the board.

Yours respectfully,

H. O. FAIRBANKS.

THE FIRE INQUEST.

Another Day Necessary to Complete Evidence Concerning Squantum Fire.

Judge Humphrey began his inquest Friday morning to determine the cause of the fire at Squantum last Saturday morning, when three unfortunate men were burned to death.

Chief Engineer Williams desired that the inquest should be opened to reporters but Judge Humphrey decided different and the inquest was held behind closed doors, one witness only being admitted and examined at a time.

The examination of witnesses Friday, commenced at 10 o'clock and was continued until 1 o'clock at which hour it was adjourned until Monday that other witnesses might be summoned.

The witnesses examined were: James Pike, Mrs. Pike, M. W. Gerry, officers Henry O. Dawson, Andrew Peterson and H. Wilder.

Just what was brought out at the inquest is not known, although it is understood that no additional facts were disclosed from those already published in these columns. It is also said nothing has yet been brought out in support of the belief that there was foul play.

The opinion of the majority of people, who have in any way looked into the matter, is that the fire was the result of an accident, and they believe that if the truth of the affair is ever known, which is doubtful, that it will be found to have been caused by the inmates.

The gifts were numerous and costly.

Ward Ten of Quincy.

Hancock's Island has been leased to Lawrence Hogan by the Harbor and Land Commissioners for a term of three years at fifty dollars a year. This island is subject to the jurisdiction of Quincy, but is owned by the Commonwealth. Under the terms of the lease Hogan is trustee for himself and five others, who live all the year round on the island.—Transcript.

THE NEWS GATHERER

Among the Busy People of a Growing Municipality.

LITTLE ITEMS OF INTEREST.

Gleanings from All the Wards Caught on the Fly—Facts and Fancies.

BRAINTREE

The teachers elected to fill the vacancies in the High school caused by the resignation of Miss Bassett and that of Miss Lane, are Miss Mary G. Osborn and Miss Ella Macgregor. Miss Osborn is a graduate of the Rhode Island State Normal school and also of Wellesley college, and has had five years' experience in teaching.

There has been no serious fires in Braintree lately, but since the 1st of January there has been ten, including wood fire, and the one that occurred Wednesday afternoon in Haydenville, where a slight damage was done to a small dwelling house owned by J. D. Gurney.

Thursday afternoon at the regular meeting the school committee was organized with Mr. T. A. Watson as chairman and Mr. I. W. Horne as secretary. Miss Mary G. Osborn of Lee High school of Warren, R. I., at a salary of \$600, and Miss Ella Macgregor of Maynard High at a salary of \$450, were elected to fill vacancies caused by resignation of Misses Lane and Bassett.

The course of studies in the high school was submitted by Principal Cook and thoroughly discussed. It was voted to have it resubmitted in writing at a future meeting for the committee to vote upon.

The Prince arithmetic was adopted for use in the primary grades. It was also voted that the superintendent be authorized to buy books and supplies at cost to the pupils and parents.

Mr. J. B. Poore, while shoeing a very spirited horse, was thrown by the animal rendering him insensible. As soon as his consciousness returned, he managed to attract the attention of Dr. H. L. Dearing, who took him to his home and on examination found no bones broken, only very badly bruised. We hope he will be able to attend to his business again.

Little Gertrude, daughter of Mr. C. M. Allen, fell down a flight of stone steps, the other day, receiving serious injuries.

Mr. H. J. Madden, brakeman on the New Haven, was injured on Wednesday, while riding a car in the South Braintree yard, necessitating his removal to the Massachusetts General Hospital, where it was found his injuries were not serious. He was examined and returned home on the 3:40 train. He will probably return to work in a short time.

Monday the long term, as it is called, began at Thayer Academy.

The invitations for the dance of the senior middle class of Thayer Academy to be given April 19, are out. The matrons are Mrs. C. A. Pitkins and Mrs. W. H. Harrington.

Mr. H. J. Madden, brakeman on the New

DAILY LEDGER.

BERGERON INDICTED.

The Grand Jury for Norfolk County Reports its Findings.

The grand jury at Dedham reported yesterday, and the court will come in Monday. The indictments and plea follow:

Alfred Bergeron of Quincy for manslaughter in causing the death of Victor Carlson by assault with bottle.

George L. Litchfield, for breaking and entering and larceny, in Cohasset, plea of not guilty;

Charles H. Tolman, breaking and entering with intent to commit larceny in Weymouth, not guilty.

Thomas R. Griffin, breaking and entering and larceny from a dwelling in Weymouth, not guilty.

Robert H. McFaul, breaking and entering a poultry house in Weymouth, with intent to commit larceny.

Chester Cormack, attempted criminal assault in Foxboro, not guilty.

Robert Davis, embezzlement from the New York and New England Railroad Co., not guilty.

Daniel Broselehan, breaking and entering and larceny in Weymouth, not guilty.

Daniel Callahan, felonious assault on Elsie M. Fisher in Stoughton, not guilty.

William F. Ross, felonious assault on Carrie May Saunders in Weymouth, not guilty.

Charles H. Vining, breaking and entering and larceny in Weymouth.

Pietro Bertone, assault with a knife on Giuseppe Iadisieni with intent to murder in Canton.

Roger Clancy, assault and battery on Ellen M. Sullivan in Medway.

Charles A. Bacon and John McGrath, alias John Corbett, breaking and entering with intent to steal, in Medway.

William F. Hill of Dedham, embezzlement of \$600 from the Milton Water Company while acting as its superintendent and registrar.

Lowell B. Warner of Shrewsbury, larceny in a building in Medfield.

William J. Faby, breaking and entering a dwelling and larceny therefrom in Wellesley.

Harry Egan of Brookline, larceny of a bicycle in Needham.

Frank Cummings and Dennis Burnett, both of Boston, perjury.

William F. Cummings of Somerville, alias John F. Collins, two indictments, breaking and entering with intent to steal, and larceny of tools in Brookline.

Dennis McCarthy, larceny in a building in Canton and assisting a prisoner to escape.

THE WOODWARD.

Several Minor Improvements Made—School to Open Tuesday.

A visit on Friday to the new Woodward Institute for girls found the teachers busily at work getting ready for the opening of the school next Tuesday morning.

Up to the present time there have been received about ninety applications, and one of the first things that will occupy the attention of the teachers will be an inquiry as to whether or not they are eligible, although Miss Small says that as far as she knows none have applied who are not eligible.

Next will be the establishment of the several grades and it will therefore be some few days before the Institute will be settled down to work.

The Institute will have six grades, although for the present term it has been found necessary to establish a seventh grade which corresponds to the B grammar of the public schools. This however will be discontinued after the present term.

The school hours will be from 8 A. M. to 1 P. M., with a recess at 10:30 of twenty minutes, followed by a ten minute rest for the pupils.

At the northerly end of the building at the right of the entrance is a small well lighted room which will be used as a library, and at the opposite end of the building is a similar room which will be the principal's office. This room is connected with all of the rooms in the building by means of speaking tubes and electric bells.

The upper corridor, which is now quite dark, will be lighted by means of windows which will be put in.

Each of the class rooms is provided with the Chandler adjustable chairs and desks, which is a great improvement over those now in use in the other school buildings of the city, as both the chair and desk can be raised or lowered at will.

In the basement quite an important change has been made by partitioning off a good sized room at the end as a cloak room.

On two sides of this room there have been built a number of lockers each of which will be used by four pupils there being enough to supply 116. Each of these lockers is supplied with four keys which will be held by the occupants.

There is also in this room a sink or spout for umbrellas, so that in rainy weather they are placed in this receptacle and the water is carried off.

This room is not complete as yet but will probably be in readiness for the opening Tuesday.

All of the rooms in the building are pleasantly situated and well lighted by large windows which have slate curtains; the building is wired for electric lights.

Miss Small, the principal, has surrounded herself with an efficient corps of teachers, the names of whom have already been published, and they are nearly all now in town ready to begin work.

There is a jeweler on Tremont street, Boston, who ought to keep an open account in his ledger under the heading of "Thieves." He has been robbed annually for the past four years.

The total of the regular appropriations of the city of Somerville this year is \$628,500. Last year it was \$585,500.

Local Reciprocity.

The application of the principles of reciprocity should be made in every town that is ambitious of attaining property. The mechanic or laborer who lives in a town, and who is dependent on the people of that town or community for employment, who spends his money in another city has no right to complain if his neighbor refuses to employ him, but instead imports a workman from some other locality to build his house, lay his wall or paint his barn, as the case may be.

The merchant or shopkeeper who ignores his townsmen in a different line of business when he wishes to make a purchase and goes from home to trade with the people of his town. It is the duty of every person residing in a community to as far as possible reciprocate the many benefits which the community has conferred upon him, and the individual who fails in this regard is not endowed with that public spirit which characterizes a good citizen.

Lydia of the Croaker.

God to build an elevator. I hear the folks say, "You know now, stranger, 'twon't never pay." And if you try it on I'll be your skin.

HOUSE WILL HUSTLE.

Blame For Delay on the Tariff Must Rest Upon the Senate.

THE DEBATE WILL BE HURRIED.

If Democratic Senators' Plans Do Not Miscarry.

BUILDING COLLAPSED.

WASHINGTON, April 9.—Appropriation bills will have the right of way in the house during the week. It is the intention of the house members to push ahead with these bills and get them out of the way as soon as possible.

Some of the prominent house Democrats are alarmed at the slow progress made in the senate with the tariff bill, and the seeming indifference of those in charge of it is manifesting. They think that in clearing up the work of the house the country will see that any responsibility for the delay in the tariff bill which may exist will lay at the door of the senate.

The principal fight involved in the consideration of the postoffice appropriation bill is that over the subsidy to the fast southern mail. It may require two days to dispose of this single item.

After the postoffice bill is disposed of, the diplomatic bill will be called up. This bill will probably make the basis for a general review of the foreign relations of the government. The matters connected with the attempt to restore Liliokalan will again be threshed over; the Brazilian resolution and the action of Commander Stanton in saluting the insurgent general, De Mello, will come in for their share of attention, as will also the Bluefields, Nicaragua, incidents, and, perhaps, the wreck of the Kearns.

In fact, the debate will probably be a very wide range, and may touch upon any of the numerous diplomatic controversies pending. The Bluefields incident, involving the enforcement of the Monroe doctrine, coupled, perhaps, with an indication of bad faith on the part of Great Britain in carrying out the award of the Behring sea tribunal, will probably attract the bulk of attention.

The chances are the discussion of these subjects will consume the remainder of the week after the postoffice bill is completed, if not the house will go ahead with the army bill. The river and harbor bill will follow it.

THE SENATE CALENDAR.

If the plans of the Democratic leaders of the senate do not miscarry, the senate will devote itself almost exclusively this week to the consideration of the tariff bill.

Their plan is to have the bill taken up each day immediately after the conclusion of routine morning business, which means that they desire to absorb as much as possible of the morning hour, which usually lasts until 2 o'clock, and cut out the discussion of miscellaneous subjects, many of which are introduced, when a question like the tariff bill is under discussion, for the purpose of obtaining delay.

They may not succeed in getting such an order as this, but the announcement of the purpose of making an effort in that direction is an indication of their intention of crowding the debate along as rapidly as it possibly can be done.

The Democratic members of the finance committee will also probably undertake to extend the daily sessions until 6 o'clock, which will most likely be resisted by the Republicans.

Great interest is felt in Senator Hill's forthcoming speech. It is known from former utterances that he is opposed to the income tax, and that while the bill was in committee he sought to have many changes made in the schedules and objected to the wholesale adoption of the flat tax system; that indeed at that time the bill as a whole found very little favor in his eyes.

Other questions which may receive attention during the week are the Chinese treaty, the Russian thistle bill and the resolution providing for the coining of Mexican dollars in this country.

VENICE.

Many Exposed to Black Smallpox.

CHICAGO, April 9.—A case of black smallpox caused the liveliest kind of commotion in the Harrison street police station last evening. A man suffering with the plague died in a cell there, and from 20 to 30 officers and 40 persons were exposed to the disease. The victim's name was Benson Sherman.

THIRTEEN UNFORTUNATES.

PETERSBURG, Va., April 9.—The Picayune's Bluefields correspondent, writing under date of April 1, says: "The blockade between Bluefields and Rama, which has existed since the assassination of Wilson, was broken yesterday morning, when five steamships went up the river. There are six Nicaraguans only in Bluefields, who are keeping the entire community in a deplorable state of feverish excitement. There has been much suffering along the population line. The people are hoping with the arrival of a United States warship they will not be again subjected to further outrage and cruel hardships.

ANOTHER FIGHT ON THE TAPS.

LOUISVILLE, April 9.—The Times this morning publishes a dispatch from Buenos Ayres, dated yesterday, stating that an insurgent torpedo boat and four transports forced the bar at Rio Grande do Sul yesterday and landed 4000 troops. The government still holds the city. Another insurgent column is reported to be marching southward. A decisive engagement is expected shortly.

The Democratic members of the finance committee will also probably undertake to extend the daily sessions until 6 o'clock, which will most likely be resisted by the Republicans.

Great interest is felt in Senator Hill's forthcoming speech. It is known from former utterances that he is opposed to the income tax, and that while the bill was in committee he sought to have many changes made in the schedules and objected to the wholesale adoption of the flat tax system; that indeed at that time the bill as a whole found very little favor in his eyes.

Other questions which may receive attention during the week are the Chinese treaty, the Russian thistle bill and the resolution providing for the coining of Mexican dollars in this country.

VENICE.

Many Exposed to Black Smallpox.

CHICAGO, April 9.—A case of black smallpox caused the liveliest kind of commotion in the Harrison street police station last evening. A man suffering with the plague died in a cell there, and from 20 to 30 officers and 40 persons were exposed to the disease. The victim's name was Benson Sherman.

SCRANTON.

Twelve Acres of Land Settled.

SCRANTON, Pa., April 9.—About 12 acres of the closely built up portions of the town settled several feet by reason of an enormous cave-in of the abandoned workings of the Leggett's Creek mine. Owing to the settling of the building many doors cannot be opened.

A TERRIBLE STORM OF HAIL.

SAN ANTONIO, Tex., April 9.—Gilespie county has returned from a tour of inspection through the coke regions. He reports everything quiet, but he is prepared to meet any outbreak that may occur. The sheriff has 200 well-armed deputies in readiness, and thinks this force sufficient to preserve peace.

DIED OF APOPLECTY.

BOSTON, April 9.—James Fitzpatrick, a broker, died last night of apoplexy. He was attacked Friday night in his office and was not discovered until the next morning, in a very weak condition.

DELAYED BY A SLIGHT ACCIDENT.

QUEENSTOWN, April 9.—The Cunard line steamer Campania, during the run from Liverpool here, bent her eccentric rod. It was replaced here and the steamer proceeded.

FALL KILLED HIM.

PROVIDENCE, April 9.—Alfred Irons, 50 years old, fell down stairs at his home in Olneyville and broke his neck. When found he was dead.

SMUGGLING BAND BROKEN UP.

BUFFALO, April 9.—One of the boldest bands of opium smugglers in the country was broken up yesterday by the arrest of Charles Kennedy, George Henderson and Edward Patterson.

Quincy, April 2-ff

CORRECTED RETURNS

Showing the Actual Vote Cast in Rhode Island's Election.

PROVIDENCE, April 9.—The returns of elections, as corrected, give the total vote to have been 54,653. The error was made in Coventry, where Brown was credited with 333 votes more than was cast; an error of 110 was also found in Baker's vote.

The vote for governor gives Brown 28,866, Baker 29,908, and Metcalf, Prohibitionist, 2185. The town's plurality was 6035—majority 8833, larger than the governor received for many years. The corrected returns show there will be three Democrats in the house of representatives and two Democrats and one independent Democrat in the senate, Russell S. Young of Scituate having been elected out, and Martin S. Smith (Rep.) elected.

The Democrats will probably pass the appropriation bill this week, the Republicans having consented to allow the demands of the clerks and officers of the house for payment for services during the session at Newport after the prorogation by the governor.

The Quincy Patriot,

Published weekly on Saturday mornings, was established in 1837, and is the acknowledged leader in Norfolk county.

Yearly subscription, \$2.50; single copies, 5 cents.

TELEPHONE, 213-3 QUINCY.

COOPERATION.

The DAILY LEDGER proposes to make the heading for its brief—local items or city chit-chat a special feature for the next few weeks. A different "scare head," similar in type and arrangement—of lines as the one today, (count—letters to a line), is wanted for each day, and the publishers offer a year's subscription for the most—original and appropriate one used—before July 1, 1894.

The city editor will select the best one published each week and—later will decide how the final selection shall be made. The headings will be published in the order received and the name of the writer will appear if there is no objection.

Editorial Comment.

IT LOOKS suspicious to see the money market arrayed against the repeal of the law which practically exempts mortgage notes from taxes. Will money win this time!

The mortgagor has not the money to help him in the fight. He borrows \$2,000 to build a house and not only pays the mortgage a tax of five or six per cent, or higher, (he cannot borrow money for less even if it is quoted in the stock market, from three to four), \$100 to \$120, but also a tax of \$16 per \$1,000 to the city, adding \$32 more annually, or a double tax amounting to \$132 to \$152 on property which he really does not own. If the mortgagee paid the tax on that portion of the property which he controls all would be well, but he escapes that and also a tax by the city. In other words the man with money goes free while the man without property is doubly taxed for that which is not his.

We know it is claimed that the man borrows cheaper, but does he? We don't think he does, particularly the man who is struggling to get a small home.

There are in Quincy 3,336 houses as shown by the last assessors' report, and we venture that there is on an average a mortgage of \$1,000 on each. But this is not all the property that is mortgaged; considerable land is mortgaged.

But if the mortgages paid a tax on this \$3,336,000 invested in mortgages it would increase the taxable property of this city that amount. Had the tax of 1883 been levied on \$19,765,290 it would have reduced the tax rate from \$15.80 to \$13.30.

Of course some of this money invested in mortgages would escape taxation, but mortgages are a matter of record.

Quincy real estate is a good investment and five or six per cent, is too much to pay now for money when city bonds which are not exempt from taxes are floated for less than three per cent.

EX-MAYOR Fairbanks is magnanimous to assume for the Board of Managers of the Woodward Fund and himself the responsibility of the kind of building erected for the Institute. Other members of the board endorse what he said in his open letter of Saturday to the LEDGER. With the uncertainty as to the fund, and no principal elected to consult, it could not be expected that everybody would be suited. A large hall and a gymnasium may be desirable but time will tell best. If the school opens with less than 100 pupils as seems probable, it will not be impossible to congregate them all in one room if desired.

BLUE HILL was way off in its prediction for Sunday, and today is far from fair. But the government forecast Sunday morning for the day was light rain followed by fair during afternoon or evening.

Young Men's Christian Association.

Mr. Baldwin, of Boston University, will speak at the boys' meeting at 7 o'clock this evening.

Members and friends are reminded of the entertainment Tuesday evening, to be given by the Y. P. S. C. E. of Atlantic.

Straw matting, 12 cents to 35 cents. Carpets, 22 cents to 85 cents. Henry L. Kincaide & Co.

Marlboro Appropriations.

Some of the important appropriations of the young city of Marlboro for 1894 are: Contingent, \$4,500; Fire Department, \$10,500; specific repairs of streets, \$6,350; police, \$7,600; support of poor, \$12,000; schools, \$50,000; water maintenance, \$6,500; street lights, \$7,800; highways, \$9,000; land damage on streets, \$2,000; City Hall maintenance, \$2,200.

The most complete range ever manufactured, "The Glenwood." It makes a pleasure for any housekeeper. For sale by Henry L. Kincaide & Co.

Personal Items and Notes of Progress and Pleasures Briefly Told.

Spring term.

March weather.

Almost sleighing.

A disagreeable day.

And March came back.

Many new faces in the primary schools today.

The Bergeron case is on trial today at Dedham.

The Woodward Institute will open tomorrow.

Parish meeting of the First church tonight. A pastor may be called.

The snowstorm has put a stop to bicycling for a few days.

The City band are arranging for a concert and ball.

Robert Jesselyn of Wollaston has been granted a pension.

The City Council holds its next meeting a week from tonight.

A. G. Durgin, the druggist, appeared on the streets Saturday with the first straw hat of the season.

Mrs. Jeannette Noyes-Rice and Miss Edith R. Noyes of Wollaston, leave today for Washington, for a short sojourn.

Albert Keating has commenced work on the foundation on Canal street for the old Pope house recently purchased by him.

A loud explosion was heard Sunday night in the vicinity of 6 o'clock but all attempts to locate it have proved fruitless. Was it an earthquake?

It is more than probable that at a call will be extended to Rev. E. C. Butler of Beverly, tonight at the parish meeting of the First church.

The Canton Journal is authority for the statement that Miss Richards of Quincy has accepted a position as teacher in the Eliot school of that town.

Miss Emily Bjorkman of Wollaston has just finished an excellent portrait of the late Mrs. Mary King Patch, daughter of Capt. Benjamin King.

Messrs. Chas. W. Tucker and H. T. Whitman of Wollaston, returned from Monomoy, Cape Cod, on Saturday with a fine string of brant geese.

Mr. W. M. Wright of Wollaston has moved into his new residence, which is located on the slightly lot at the corner of Lincoln and Prospect avenue.

W. F. Loud, plays at Fall River tonight, tomorrow at Salem, Wednesday at the Star course and on Thursday leaves for an eight weeks' trip through the west, with the Germania orchestra of 50 pieces.

Mr. and Mrs. Frank P. Waterhouse and family of Wollaston, who have passing the winter in California, are homeward bound and were reported as being in the city of Mexico on Saturday. All are in excellent health.

Dr. Gibbs was unable to be present at the Sunday evening talk in the Congregational church, but Mr. Charles Penny conducted the meeting and related to a large audience what the "Gold Cure" had done for him.

After reading of the news just cast your eye over the new advertisement of the Boston Branch Grocery. They have an unusual choice stock of everything in the grocery line and an inspection of it is asked of all economical purchasers.

The funeral of Mr. Fred C. Abbott was held Sunday from his late residence on Hancock court and was largely attended by many of his young friends who testified of their appreciation by many handsome floral tributes. The services were conducted by Rev. Edward Norton and the interment was at East Weymouth.

Young Men's Christian Association.

Mr. Baldwin, of Boston University, will speak at the boys' meeting at 7 o'clock this evening.

Members and friends are reminded of the entertainment Tuesday evening, to be given by the Y. P. S. C. E. of Atlantic.

Straw matting, 12 cents to 35 cents. Carpets, 22 cents to 85 cents. Henry L. Kincaide & Co.

FIRST OF THE SEASON.

The Adams Academy Ball Club Win
Easily on Saturday.

The base ball teams of Adams Academy and Hale school of Boston, played a very uninteresting game of ball at Merrymount Park, Saturday afternoon. The Hale boys could do nothing with the pitching of Barker, while the Adams boys batted rather freely. The fielding on both sides was rather loose, that of the Hale school being exceptionally so. The battery work of Barker and Slade was very good indeed. Below is the game by innings:

Innings, 1 2 3 4 5
Adams, 10 9 0 5 5-34
Hale, 3 2 1 0-8

The game was called at the end of the fifth inning on account of darkness.

A DIAMOND WEDDING.

Braintree Couple Celebrate Their 75th
Marriage Anniversary.

Mr. and Mrs. Jonathan Thayer of Braintree are respectively 97 and 93 years of age and Sunday they reached that remarkable anniversary, their diamond wedding, which was celebrated by a gathering of many relatives and friends at their home on Washington street. Both are in the enjoyment of good health, and the reception will be continued today.

Mr. Thayer was for many years a blacksmith, and his age illustrates that hard labor seldom kills anyone. It was only fifteen years ago that he gave up active work. He still takes an interest in politics and voted in 1892 for Cleveland.

Mrs. Thayer comes from a family noted for its longevity. She has been the mother of seven children, five of whom are still living: Mrs. Noah Torrey, Mr. Joseph P. Thayer, Mr. Henry H. Thayer, Mr. Edward C. Thayer and Miss Susan J. Thayer. Joseph and Susan reside with the aged couple.

IT WILL BE POPULAR

A Steamboat Line from Quincy Point
to Nantasket in June.

BOAT SOON TO BE LAUNCHED.

The "City of Quincy" Will be the Name
—A Description.

Work on the new steamer for the Quincy & Nantasket steamboat company, now being built at the Fore River engine works, is being rapidly pushed forward and it is expected that she will be launched into her native element about the first of May.

On the occasion of the launching little Miss Edith Graham daughter of Mr. John R. Graham, president of the company, will break a bottle of wine over her bow and christen her "City of Quincy."

The new steamer is 100 feet over all, 93 feet water line and 21 feet beam, and has a maximum draught of 5 1/2 feet.

She is designed for passenger travel and is a single screw propeller, driven by a compound condensing engine of 280 horse power. She carries her own electric light plant, an independent engine being used to drive the dynamo, and she will be the only pleasure boat running out of Boston harbor provided with a search light.

On the main deck there will be a ladies' cabin, smoking room, captain's cabin and comfortable quarters for the crew. The interior finish will be white and gold.

She is so designed that she has a large coal and water capacity and can therefore make long trips.

The new boat will carry 600 passengers and will cost about \$25,000 and it is expected she will make her trial trip the first week in June. Capt. Hopkins will be master of the new boat and he will have a crew of seven men.

On her trial trip the new boat will want to display her colors, and as she has none as yet, it has been suggested that the ladies of Quincy take that matter in hand and purchase the colors which will cost something like \$100.

The "City of Quincy" will run between Quincy Point and Nantasket. The landing at Quincy Point will be from a wharf near the power station of the Quincy & Boston street railway, and from this wharf the boat will be dug and the wharf built. The grounds about the wharf are to be nicely graded and laid out in flower plots.

It is proposed to extend the street railway tracks from Washington street to the wharf and they will make close connection with the boat thus affording people of Boston a new and pleasant route to Nantasket. The sail from Quincy Point to the beach being but 20 minutes.

The terminal at Nantasket is at Sagamore hill, on property of Hon. John F. Merrill, trustee, which is within three minutes' walk of the centre of the beach. In order to make landing here a wharf will be built and a channel dredged to it, the cost of the dredging being something like \$10,000.

The officers of the new company are: President, —John R. Graham. Vice President, —W. H. Gallison. Clerk and Treasurer, —Wesley A. Gove. Directors, —John R. Graham, Capt. Doane of the Union Towboat company, F. O. Wellington of the Fore River Engine works, Hon. John F. Merrill, J. F. Lynch and W. H. Gallison.

ADVERTISE IN THE LEDGER.

THE 1894 CRAWFORD.

How Stoughton Feels.

Stoughton buys the old water plant, said by some to be worth about \$30,000, for \$52,000. It pays the commission that named the price \$2,430, the expert engineer \$3,000, counsel fees \$5,000, etc., etc., total \$70,000. It's an awful thing to have to buy what you don't want at some one's price.—Canton Journal.

THE CRAWFORD.

When we took up the Bicycle business last season, it was to deal with them just as we dealt with merchandise of every other sort, buy and sell without extravagant profit to anyone.

It would surprise most Bicycle riders to know how little a first-class wheel really costs to manufacture, and to learn the enormous profits Bicycle agents all over the country have been making. It has always been our motto, "TO BUY AS LOW AS WE CAN AND SELL AS LOW AS WE LIKE."

Thus for the benefit of all who will avail themselves, we make this wonder offering.

Wheelmen are daily paying \$125 for wheels under other names, not one bit better than this, and we urge all those

intending to buy a wheel this season to examine this splendid Safety.

Ladies' Pattern at the same cut price. Easy payments when desired.

Henry L. Kincaide & Co.,

All that's Yellow is not Cottolene

There's hardly a housekeeper in the country but has heard of Cottolene the new vegetable shortening. It is a strictly natural product; composed only of clarified cotton seed oil, thickened for convenience in use, with refined beef suet—pure and sweet. So composed,

COTTOLENE

Was bound to win, and to drive out lard from the kitchens of the world. When housekeepers wish to get rid of the unpleasant features and results of lard, they should get Cottolene, taking care that they are not given cheap counterfeits with imitative names, spuriously compounded to sell in the place of Cottolene.

It's easy to avoid disappointment and insure satisfaction. Insist on having Cottolene.

Sold in 3 and 5 pound pails.
Made only by
The N. K. Fairbank
Company,
Chicago,
224 State Street, Boston,
Portland, Me.

PATENTS

NOTICE TO INVENTORS.

THERE was never a time in the history of our country when the demand for inventors was greater, or when the arts and sciences generally was so great a number of conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the apparatus and implements of each in order to save labor, time and expense. The political character of the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiencies, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing difficulties. The greater care cannot be exercised in choosing a competent and skillful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed innumerable instances by the employment of incompetent counsel, especially those who are not applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick and easy way to get an allowance, obtain the fee to the district. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F Street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, and general periodicals in the country, was instated to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepare and prosecute applications generally, including mechanical inventions, descriptive patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Write for instructions and advice.

Great Truths.

Great truths are dearly bought. The common truth,

Such as men give and take from day to day, Comes in the common walk of easy life, Blown by the careless wind across our way.

Bought in the market, at the current price, Bred of the smile, the jest, perchance the bowl,

It tells no tales of daring or of worth Nor pierces even the surface of a soul.

Great truths are greatly won, not found by chance,

Now caught on the breath of summer dream, But grasped in the great struggle of the soul, Hard buffeting with adverse wind and stream.

Not in the general mart, 'mid corn and wine, Not in the merchandise of gold and gems,

Not in the world's gay hall of midnight mirth, Not 'mid the blaze of regal diadems,

But in the day of conflict, fear and grief,

When the strong hand of God put forth its might,

Plows up the subsoil of the stagnant heart And brings the imprisoned truth—seed to the light.

Wrung from the troubled spirit in hard hours Of weakness, solitude, perchance of pain, Truth springs like harvest from the well plowed field,

And the soul feels it has not wept in vain.—Central Christian Advocate.

A Cordial Invitation.

Mrs. Wingle—Don't you find it hard work to amuse that baby of yours?

Mrs. Wingle—Yes, I do, and it puzzles me to think of ways, but he is particularly fond of anything fantastic or out of proportion, so I keep him supplied in that way. I wish you could visit us more often, my dear. He would be tickled to death whenever he saw you.—Truly yours.

Tiresome.

An exchange prints another of these "true stories" about newly married Vassar graduates.

"You look tired, my dear," said Mr. Gay to his wife.

"I am tired," said Mrs. Gay. "I heard you say once that you liked rabbit, so I went to the market this morning and got one. I meant to surprise you with broiled rabbit for dinner, but I've been at work on it all the forenoon, and I haven't got it more than half picked yet."—Youth's Companion.

The Only One.

"Is Dr. Bones, the great specialist, stopping here?" asked the reporter.

"Do you specialists know anything about Jimmy Muggins?" answered the bellboy. "He's wild as 'De Tin Hoodoo' company, an his specialty is de flip flap song dance. An say, he's great!"—Indianapolis Journal.

Suffering For Food.

BOSTON, April 9.—Thomas Hayden, 65 years old, sailing from Dover, N. H., was found on Dorchester avenue weak and sick. He was taken to a police station, where a doctor found the man was suffering from want of sustenance. He was taken to the city hospital.

St. Fishermen Drowned.

LODON, April 9.—A steam fish trawler was wrecked near Grimsby, and six of her crew were lost. The vessel got off her course in a dense fog, and ran ashore. A heavy sea was running and the bottom of the steamer was soon ground to pieces.

Jammed Between Cars.

BOSTON, April 9.—Herbert Black, a brakeman, while shifting cars on the Providence branch of the Old Colony railroad, was jammed between two cars and received injuries from the cars.

Denounced the Press.

BOSTON, April 9.—In a snowstorm Morton L. Swift's devotees held a meeting on Boston Common to make arrangements for a battalion of 1000 of Boston's unemployed to join Coxey's commonwealth army. An appeal to the rich for funds for the Boston contingent was adopted. Swift denounced the newspapers in general, charging them with sending out biased reports about the Coxey movement.

Crops Will Suffer.

AMHERST, Mass., April 9.—A terrific snowstorm, with high winds, raged here. Reports from country districts announce considerable damage to crops.

Dry Goods Go Up In Smoke.

FINDLAY, O., April 9.—Fire in the large dry goods store of T. & W. Carnahan caused damage amounting to \$40,000. The fire caught from a gas jet.

The will of H. Cameron was allowed at Dedham, Wednesday, and M. H. Tirrell is the executor.

Not Run by a Trust.

THE VAGRANT LAW

May Make It Bad For Coxey's Army at the National Capital.

ARREST OF FORTY "UNEMPLOYED"

Gives a Foretaste of What May Be Expected.

WASHINGTON, April 9.—The unceremonious manner in which the freight car load of 40 unemployed from Cincinnati was taken in charge by the police here is a foretaste of the reception which awaits Coxey's army. Although the police department was taken somewhat by surprise by the unexpected coming of the party, there was no delay or difficulty in massing all the reserves at the suburban station to meet them. A charge of vagrancy will be entered against them.

The local law against vagrants is a sweeping measure. It applies to all persons without visible means of support who are destitute, likely to become charge upon the city, who have no vocation or means of gaining a livelihood or who solicit alms. The penalty for those who are assigned under the provisions of the act is 90 days in the workhouse at hard labor, but it rests within the discretion of the judge to accept their promise to leave the city at once, or to accept \$200 bonds as surely that they will not beg or become public charges.

"I despise Cleveland and his mugwumps. He is no better than the rankest Republican. He has destroyed the Democratic party. Cleveland has been working under the dictation of the New York bankers, and bargaining with them in the matter of the issue of bonds. He promised the banks if they would take them there would be no more legislation on the silver question by this congress. Congress passed the silverfrage act and he vetoed the bill, indicating plainly the nature of his bargain with the banks.

"Cleveland is owned body and soul by those scoundrels. He secured his nomination at Chicago through the influence of Captain Primrose, for the search in the police station of the men showed that the total cash capital of the company amounts to about \$2. Of course the men who are given bonds for their good behavior if permitted to remain in the city, but it is not improbable that the court will accept their promises to leave town, and have officers detailed to see that they keep their word.

Leaders May Suffer.

Captain Primrose, the leader of the band may find himself in more serious difficulties than his followers. There is an old law on the statute book, which was passed in 1830, and has never been repealed, which makes it an offense to bring into the District of Columbia any destitute people who are likely to become public charges, with a penalty of \$25 to \$50 fine for each offense. The police authorities are considering the advisability of bringing a charge of violating the law against the leader, in which case his fines, with the alternative of workhouse imprisonment, would amount to a very heavy punishment.

The same charge may be brought against General Coxey, if disaster does not overtake the army of the commonwealth before it completes its itinerary. Of course the vagrancy act may be brought into application against his followers, and beside there are two other laws which it is an avowed and advertised purpose of the Coxeyites to break. One is the act of congress regulating the use of the Capitol grounds, which forbids, in stringent terms any gathering, demonstration or parade, the making of any oration or use of threatening language, the display of any banner or device to attract attention, the other is a local law which forbids men to congregate on the steps of any public or private building. It rests within the discretion of the vice-president and speaker of the house to suspend the Capitol regulations for any proper purpose, and perhaps Coxey's agents will apply to them for permission to carry out their program.

How About Bangor? What?

BALTIMORE, April 9.—At the Twelfth Presbyterian church Rev. D. B. Gregg preached on the Breckinridge-Pollard suit. The gentleman warned his hearers to beware of passing judgment upon their fellows. He said society and the world should forgive both parties. He had no doubt there were many equally as culpable, and, perhaps, some could be found among those before him. Dr. Gregg's remarks created a sensation, and were warmly discussed after service.

A Preacher's Startling Utterances.

BALTIMORE, April 9.—At the Twelfth Presbyterian church Rev. D. B. Gregg preached on the Breckinridge-Pollard suit.

The gentleman warned his hearers to beware of passing judgment upon their fellows.

He said society and the world should forgive both parties.

He had no doubt there were many equally as culpable, and, perhaps, some could be found among those before him.

Dr. Gregg's remarks created a sensation, and were warmly discussed after service.

A Solemn Ceremony.

BALTIMORE, April 9.—The Cathedral

of St. John the Evangelist was held on the steps of the cathedral.

Major Moore, chief of police, said in speaking of the march of Coxey: "These laws are on the statute books and we have no discretion but to enforce them, if Coxey's army does arrive, unless congress should give them permission to congregate on the Capitol steps."

The details of the police movement against Coxey are kept a secret. No doubt he will be at the District limits, and if the number of his men are too great for the police to cope with, the local militia will be called to their aid. What to do with the army when it arrives, and is taken into custody, if it should be, is a difficult question, because the jail and station houses of Washington will not accommodate such a crowd.

To simply release them and forbid them to enter the District would be to turn them loose on the suburban residents of Virginia and Maryland, and this is an aspect of the matter which gives rise to much uneasiness here.

Major Moore has received a letter from the chief of police of Alleghany City, Pa., describing the Coxey men in most uncomplimentary terms. He declares that there are several professional criminals in their ranks; that four or five assaults were committed by them while in that town, and that there would be more depredations during its stay but for the close police surveillance over the army.

Colonel Redstone, the Washington representative of Coxey, said concerning the men arrested Saturday night: "This body of men is not at all connected with the commonwealth army, as no Coxey men will come on until word is previously sent to our headquarters, and none will come in disorder or without military discipline. There will be no resistance of the law, and none of the men will enter the city as a body until the main line arrives."

Dick Croker's Logie.

NEW YORK, April 9.—Richard Croker returned last night from his long trip to the Pacific coast. Mr. Croker declined to be interviewed on local politics, but said:

"I think the tariff question should be settled, and the quicker the better. The longer the delay, the worse for the party responsible for it."

Coney Island Bowery Blaze.

NEW YORK, April 9.—A fire raged yesterday on bedlam thoroughfare of Coney Island known as the Bowery. It swept away two barrooms, two hotels, two restaurants, an amusement hall and a theater.

It was a total loss.

The loss will probably be \$10,000.

ARGUMENT ON TARIFF

Interests a Large Audience In the
Senate Chamber.

GREAT BRITAIN GETS A WARNING.

Must Make a Change In the
Behring Sea Bill.

WASHINGTON, April 10.—The proceedings in the senate from the opening to the closing of the session were full of interest. The first in point of time was the swearing in of Mr. Walsh as a senator from Georgia to serve out the term of the late Senator Colquitt.

Two resolutions, intended to facilitate the debate on the tariff bill, were introduced, one by Senator Mills, providing for an amendment to the rules so as to permit of the previous question, and the other by Senator Allen, providing for the taking of the final vote on the bill on June 7, allowing three days for debate under the five-minute rule. Both went over without action.

The Wolcott resolution looking to the coining of Mexican dollars for the China trade was discussed, but action on it was deferred.

Senator Harris sought to reach some arrangement for the earlier meeting of the senate and for longer sessions for consideration of the tariff bill, but his efforts encountered such strenuous opposition that nothing was accomplished.

The chief interest of the day centered in Senator Hill's speech. That the question has not lost all its fascination was shown by the large crowds drawn to the senate. The speech was mainly directed against the income tax, and Mr. Hill made many aggressive raps at the administration. He declared that Gresham is a Republican, and termed the Hawaiian policy a big blunder. Extreme tariff reform was called suicidal, and Cleveland was accused of being somewhat dilatory.

In the House.

The house was depopulated. Three fourths of the members were at the senate listening to Senator Hill's speech on the tariff. Those who remained were occupied with District of Columbia affairs, but little actual business was transacted. Most of the time was spent wrangling over two bills, one to extend the time allowed to the Metropolitan street railroad to change its motive power, and the other to allow bookmakers to operate at the spring and fall meetings of the Washington Jockey club. Both, however, met with such opposition that they were withdrawn. Only one bill of any importance—providing for \$1 gas in the district—was passed.

Pauncefort Disturbed.

The strong and forcible language employed in the senate by Senator Hoar and Senator Morgan, chairman of foreign relations committee and also member of the Paris tribunal, in which both senators clearly intimated that duplicity is being used by her majesty's government in the Behring sea compunction, has had the effect of disturbing the serenity of the English minister here, Sir Julian Pauncefort.

He was at the state department again yesterday and had a prolonged conference with Secretary Gresham. The English minister has no information confirming the cable dispatches from London that the Behring sea bill before the British parliament exempts from forfeiture Canadian vessels which had already sailed.

He informed the secretary of state that he had cabled his government and informed it as to the attitude of the United States government concerning this matter. Sir Julian assured the secretary that he did not believe the English government was disposed to take any unfair advantage in carrying out the Paris award, but would adhere to the contention and decision of that tribunal.

Plainly Put.

The English minister was informed that if the British bill contained the exception exempting Canadian vessels which had sailed, our government would regard as violated the entire agreement.

Senator Morgan, in alluding to the matter, said he felt convinced that when the attention of the British government was called to the matter, which was in clear violation of the understanding, the English bill would be amended so as to conform to the intention of the two governments in giving full effect to the award of the arbitrators.

Wamantsa Fight Is Still On.

NEW BEDFORD, Mass., April 10.—Wamantsa officials made another unsuccessful attempt yesterday to run No. 6 mill. Not one of the striking weavers responded to the notice of "open gates," neither did the delegation of knobsticks from Rhode Island and Lawrence show up. This is the eighth week of the strike and both sides are still firm.

Not "Home Rulers."

BROCKTON, Mass., April 10.—The aldermen have refused to pass the order providing that no contract severance be given out except the work be done by home labor, under the severance commissioners. They also refused to vote the contract to the lowest bidder who employed Brockton labor at an expense of about \$14,000 more.

Pleading For Parole.

COLUMBUS, O., April 10.—Warden James and Chaplain Winget of the Ohio penitentiary have recommended Patrick J. Elliot for release on parole. He and William J. Elliot killed two men and wounded nine others on account of a newspaper feud. Patrick was sentenced for 20 years.

LITTLE ONES IN A PANIC.

One Child Killed and Many Injured In a Chicago School.

CHICAGO, April 10.—A panic occurred in the Humboldt public school yesterday afternoon, and in the mad rush of the children to escape from the building one boy was killed and over a score were crushed and trampled. Fourteen children lie in a hospital under the care of physicians, while many others were carried to their homes by the police.

The children were preparing to leave for a recess when a steam pipe burst in one of the rooms, and in a moment later the children were running pell-mell through the halls and down the stairs shrieking with fear. The stairways became choked with the terror-stricken children, and they continued to pour out of the rooms, to swell the surging mass in the hallways. Those in advance were thrown down by the onward rush of those behind.

Over the prostrate bodies of their fallen companions the children fled, while the teachers strove in vain to check the panic. They went down by dozens and were trampled beneath hurrying feet until the stairs were covered with unconscious bodies. When the shrieking children fled out into the street, some one went in an alarm of fire, and in a few moments the fire and police departments were on the scene. The firemen soon removed the injured children.

CARLISLE CORRECTED.

Colonel Breckinridge Interrupts His Review of the Testimony Rendered.

WASHINGTON, April 10.—Attorney General Carlisle consumed yesterday in the criminal court in a review of the testimony before the jury in the Pollard-Breckinridge case. His statement was a detailed dissection of the evidence, delivered in a clear, dispassionate manner, although at times the lawyer referred to Colonel Breckinridge in very scathing but coolly worded terms.

The silver-haired congressman conducted himself very nonchalantly, joking with his lawyers during the day, while Madeline Pollard, sitting directly in front of him, kept her face shaded by a black-gloved hand most of the time. Only once was there any interruption of the argument, and that was when Colonel Breckinridge called the eighth witness, the possessor of a family title, about which he seemed to be rather particular. All day the closest attention was given to the speech by jury and spectators. It is likely that the speaking will last until Friday.

There was a counter attraction yesterday in the arraignment of a bigamist of local celebrity, so that the groups of curious women hanging about the courthouse were largely re-enforced.

Coxeyites at Yale.

NEW HAVEN, April 10.—Several of the large dormitories was plastered yesterday with immense printed posters calling upon all Yale men to meet at the "Fence" at night and be prepared to march to Washington and join Coxey's straggling recruits. Hundreds of Yale students gathered and placed and marched about the campus. Bonfires were built and Coxey was cheered lustily, although the "General" might have taken offense at some of the jokes cracked at his expense. With the usual Yale songs the collegiate commandoical army disbanded.

A. P. A. Folks Won.

NEW BRITAIN, Conn., April 10.—The entire Citizens' ticket won in the city election. This was the ticket put in the field by the A. P. A. and endorsed by Republicans. George W. Corbin was elected mayor by 207 majority, in a total vote of 8900, defeating Robert J. Vance. It was the largest vote cast at a city election in years. This election gives the city government into the hands of the Republicans for the next two years.

MONSON Is Innocent.

LONGON, April 10.—Edward Sweeny, otherwise known as "Scott," whose name has been connected with the Ardlamont murder mystery, has been writing a so-called history of the death of Lieutenant Hambrough and the subsequent trial of Alfred J. Monson, on the charge of murdering him, which completely exculpates the latter from all blame.

The Wages of Sin.

WORCESTER, Mass., April 10.—Christiana Anderson, aged 23, a chambermaid at the Shepard House, died at memorial hospital under suspicious circumstances. An autopsy showed that she was pregnant, and had died from peritonitis. Letters showed that her lover was a commercial traveler who has a wife and two children.

Lucky Quarries.

MONSON, April 10.—Twenty thousand yards of ledge and gravel slid into Forest quarry. The crew left the pit but a short before it occurred. The pit was 200 feet deep, and had it happened in working hours none could have escaped.

Killed by Cars.

WORCESTER, Mass., April 10.—Katie Malone, an orphan, 11 years old, was run over and instantly killed in the Boston and Maine yard while picking up coal.

Captured After a Fight.

CASPER, Wyo., April 10.—Two escaped prisoners named Bailey and Baird were overtaken by Sheriff Rice and a posse. A battle ensued, in which the sheriff and two were shot. The prisoners were captured.

Tied Up by the Storm.

ST. JOHN, N. B., April 10.—The electric street railway was not able to run cars yesterday. Last night all entertainments were postponed, and the streets were deserted.

Coming Home.

VIENNA, April 10.—Explorer Chanler will return to the United States, and will start upon a fresh exploration of Mt. Kenya in about six months' time.

Voted For License.

PITTSFIELD, Mass., April 10.—After a very hot campaign the part of temperature voters North Adams again voted to grant license by 170 majority.

An Unexpected Explosion.

LOWELL, Mass., April 10.—By a premature blast in Pawtucketville two Portuguese workmen were seriously burned on the head and body by powder.

MANY DAYS OVERDUE

Anxiety as to the Safety of the Belgian Steamer De Ruyter.

BARKENTINE BELMONT WRECKED.

Six Seamen Lose Their Lives Off Chatham Beach.

BOSTON, April 10.—Grave fears are now entertained for the safety of the overdue Belgian steamer De Ruyter, Captain Meyer, which sailed from Antwerp 29 days ago. She has undoubtedly met with some serious accident, and many people incline to the belief that she has struck an iceberg and founders.

The De Ruyter is heavily laden, and her cargo, which consists largely of beet sugar in bags and cases of window glass, would make it extremely difficult to keep her afloat in the event of her being stove in by the ice.

It is possible, however, that her machinery may have become deranged or that she has lost her propeller, and in this helpless condition she may have drifted to the southward out of the track of European steamers, which would account for her not being spoken by some of the recent arrivals. If such is the case she will probably bring up at the Western islands.

Besides a quantity of merchandise for Baltimore the De Ruyter has an unusually large cargo for Boston, including over 12,000 cases of window glass, 5000 bags of beetroot sugar and hundreds of cases of crockery, glassware and toys consigned to Boston merchants.

Has a Crew of Twenty-Eight.

The De Ruyter has a crew of 28 men all told. The officers of the steamer are: Herman Meyer, captain; Charles Antero, second officer; Fred Lang, third officer; Mr. Bernhard, chief engineer; and G. Matthy, assistant engineer. The first officer's name is not known.

Captain Meyer's brother is commander of the Belgian steamer Hermann of the same line as the De Ruyter, and another brother, who was chief officer of the Dutch steamer Amsterdam, was drowned with five others on Jan. 4 by the capsizing of a lifeboat while endeavoring to rescue the crew of the Gloucester fishing schooner Maggie E. Wells.

The De Ruyter is a barkentine rigged steamer, although during the winter months her yards are taken down. Her registered tonnage is 1618 tons net, and 2304 tons gross; length, 810ft. 9in; breadth of beam, 38ft. 4in; and depth of hold, 27ft. She was built on the Clyde in 1873 by A. Stephens & Sons, and was formerly the British steamer Tromp, but was purchased a number of years ago by Antwerp parties, who changed her name and placed her under the Belgian flag. The valuation of the steamer and cargo, and insurance on the same, if any, could not be ascertained.

Wreck of the Belmont.

CHATHAM, Mass., April 10.—When daybreak yesterday the barkentine Belmont of Boston, Captain Hagan, bound from Trinidad with a cargo of sugar, was seen ashore on Peaked Hill bars. A terrible sea was breaking over the vessel, and she was rapidly going to pieces. The Peaked Hill crew made an attempt to reach the vessel, and succeeded in saving the steward, John Stevens, and two sailors, John Ochorn and Peter Shier, who were lashed to a spar. Six of the men were swept overboard and lost.

The Belmont had 4837 bags of sugar on board, valued at about \$50,000. She was owned by John S. Emery & Co. of Boston. She was built at Millbridge, Me., in 1873, and was of 513 tons burden. Last December she underwent extensive repairs at Bath, Me., and was considered in first-class condition.

Captain Hagan was 72 years old, and during his long experience at sea never lost a ship before. The captain had sailed the world over. He had been a veritable ocean rover. The mate, Charlie Carlton, was about 45 years old, had been all his life a sailor, and was recognized as a thorough seaman.

The bark was originally the Regina Tolk, and formerly in the Mediterranean trade.

Wreck of the Nellie.

GLOUCESTER, Mass., April 10.—Schooner Nellie of Thomaston, Me., went ashore during a thick snowstorm near Annisquam and is a total wreck. The crew were saved with difficulty, it being so thick that the lifesavers were unable to see her. Soon after striking the vessel broke up.

Off Nova Scotia's Coast.

DIGBY, N. S., April 10.—The fishing schooner Annie is ashore at Greenpoint, badly damaged. At Tiverton the schooner Fred Die Steeres was driven on the rocks, and will be a total wreck. Crews of both schooners were landed.

In a Perilous Position.

GLOUCESTER, Mass., April 10.—Schooner Henry B. May of Philadelphia, 128 tons register, is hard ashore and is in a perilous position on the beach at Lanesville.

His Mother In Despair.

MANCHESTER, N. H., April 10.—Frank E. Lewis, 15 years of age, who has been confined to the house all winter, suffering from asthma, and at times appeared to be insane, has been missing from his home in Norwood, Vt., since April 3. His mother is nearly out of her mind with grief and anxiety.

Odd Result of an Assault.

BOSTON, April 10.—Joseph Rock and Edward J. Saunders got into a dispute, and Rock assaulted Saunders with an umbrella, the point of which entered the cheek, breaking off about three inches of wood in the wound. Rock is held to await the outcome of the injury.

Straw matting, 12 cents to 25 cents. Carpets, 22 cents to 85 cents. Henry L. Kincaide & Co.

TELEPHONE, 213-3 QUINCY.

COOPERATION.

The DAILY LEDGER proposes to make the heading for its brief—local items or city chit-chat—a special feature for the next few weeks. A different "scare head," similar in type and arrangement—of lines as the one today, (count—letters to a line), is wanted for each day, and the publishers offer a year's subscription for the most original and appropriate one used—before July 1, 1894.

The city editor will select the best one published each week and later will decide how the final selection shall be made. The headings will be published in the order received and the name of the writer will appear if there is no objection.

Editorial Comment.

THE BROCKTON aldermen voted to employ Brockton laborers only on the new sewer system, but Monday evening the sewerage commissioners reported these figures for one section: Lowest bid if Brockton labor only is used, \$27,535.35; without such restriction \$23,309.14. The aldermen concluded to remove the restriction, and intimated that the difference might be appropriated to give work to the unemployed on the streets. A happy solution as the city would obtain its sewer system, and at the same time improve its streets and help the unemployed, all for the sum which some desired to expend for the sewer.

QUINCY with a valuation of \$16,638,070 has nearly twice the wealth of the two richest cities of the State of Vermont. Burlington has the largest assessed valuation in that state, of both real and personal property, the amount being \$10,145,173; Rutland has \$7,865,310, Brattleboro \$4,231,724, Bellows Falls \$3,618,752, St. Johnsbury \$3,607,565, St. Albans \$3,105,425, Montpelier \$3,079,052, Bennington \$2,980,413, Barre \$2,441,833, Colchester \$1,334,220. Our rival in the granite business, Barre, does not cut much of a figure, having about the same valuation as the West Quincy ward.

GOOD FOR Dedham! At a town meeting last evening it was voted to appropriate \$5000 for permanent improvements on sidewalks, to borrow the money at 4 per cent, and to give the work to citizens of the town. When will this city brace up and obtain sidewalks that will not be a disgrace?

At 4 o'clock Wednesday afternoon in the Coddington school George A. Walton, agent of the State Board of Education, will address the teachers assistants and trainers on the "Relation of teachers and pupils."

BROCKTON has not the heavy teaming of Quincy and perhaps not the number of miles of street but the aldermen appropriated \$38,000 for the street department.

THE TAXATION of mortgages may possibly retard building somewhat, but if this exemption of taxes goes on who will have to pay the taxes assessed?

RUNNING SMOOTHLY.

The New Institute Gets to Work Promptly and Quietly.

The new Woodward Institute for girls opened this morning for school work, and for an institution that there has been so much talk about, the opening was a very quiet one.

The young misses, upwards of seventy in number, ranging from twelve to seventeen years of age assembled at the building this morning where they were met by the full corps of teachers and not much time had elapsed before school work was commenced, though for the most part the instruction today will be oral.

The higher grades of the school were found to be better filled than the lower grades, which is nothing more than was expected.

The young misses looked happy and contented and can certainly consider themselves fortunate at having been born in Quincy.

Owing to sickness on the part of some of the workmen the dressing room in the basement was not ready this morning but it is expected that it will be by Wednesday.

The board of directors will hold a meeting this afternoon to decide on the matter of text books for the pupils and reference books for the school.

Not Run by a Trust.

The furniture store of Henry L. Kincaide & Co. Goods and prices within the reach of everyone.

CARD OF THANKS.

The many friends who were so kind to us in our bereavement, the quartette who gave their services, and those who contributed flowers will please accept our hearty thanks.

Mrs. H. S. Abbott, Hancock court.

Edward J. Sandberg, Mortgagee.

Quincy, April 10.

NEW CLUB HOUSE.

SUDDEN DEATH.

A Granite Manufacturer Formerly of This City Dies in Buffalo.

News was received in Quincy Monday that Mr. John Q. McDonnell of the firm of McDonnell & Sons had died in New York. The news was a surprise to many of his friends outside of the immediate family.

About a year ago Mr. McDonnell had a shock and his death therefore was not unexpected by his family. He was in his 44th year, and as he had decided to make Buffalo his home, he will be buried there. The funeral services will be held Wednesday.

Immediately upon the receipt of the telegram announcing his death, Mr. Thomas H. McDonnell left for Buffalo, and this morning Mr. James McDonnell and sister left for Buffalo to attend the funeral. A number of the deceased man's friends have also gone on, and the works of the firm closed for the week.

Mr. John Q. McDonnell was born in Quincy and educated in the public schools, graduating from the High school with honors. He then entered business with his father and brothers under the firm name of McDonnell & Sons.

He married Miss Emily Dinegan of this city and about 10 years ago went to Buffalo and established a branch office of the firm.

He possessed a large heart and had a faculty of making friends and retaining them and the result was that he became very popular in his new home and his business career has been a remarkably successful one.

At the time of his death he was vice president of the Union National bank of this city and about 10 years ago went to Buffalo, a director in three Brewery companies and president of a Young Men's society in Buffalo.

Miss Mabel Ellis who has been visiting at Barre, Vt., for the past few weeks is expected home today.

Lucia, the little daughter of Mr. and Mrs. Henry E. Hardwick of Washington street, is seriously ill with pneumonia.

Messrs. Pratt & Curtis have purchased a magnificent pair of chestnut horses for their Boston team, and when they make their appearance they will undoubtedly be the handsomest team in town.

Mr. William G. Prescott of this city exhibited at the horticultural show in Boston Saturday, two plants in pots of the Marsh strawberry in fruit, and was awarded a gratuity.

Mr. Munro Perry, who has been conductor and motorman on the Quincy & Boston street railway for a number of years, severed his connection with the company Monday night to accept a position at the store of Miss Freeman at Quincy Point. He has the best wishes of success in his new position from his many friends.

THE PRIZE SPEAKING.

The Pupils of High School Who Will Compete, the Prizes, etc.

The second prize speaking contest of pupils of the Quincy High school for the prizes offered by Wendell G. Correll, Esq., will take place in Hancock hall, Thursday evening. The contestants will be:

Harry S. Bates, '96, Lillian K. Bates, '95, Helen S. Delory, '94, Sadie F. Emery, '94, Honora G. Forrest, '94, Rachel E. Johnson, '97, Annie S. Keenan, '94, Daisy Lowe, '95, Katharine G. Meany, '94, Mary L. Pierce, '95, Florence E. Thomas, '97, Barbara E. Vogler, '95, Gertrude Walker, '97 and Mary A. Webster, '94.

The prizes are to be given in books of the following value: First prize, \$25; second prize, \$20; third prize, \$15; fourth prize, \$10; and fifth prize, \$5.

It will be an interesting programme the declaimations being interspersed with music by the school.

Prizes of \$5 in each class, offered by Joseph M. Sheahan, M. D., will also be awarded for essays and translations, the subjects for which appear in the City Book just issued.

The club has leased the upper portion of the building situated at the foot of Vassall street, Norfolk Downs. It is an ideal location for a yacht club house; being situated on the beach and beside the stream that flows into the sea at Taylor's wharf.

The stream makes a natural channel giving a greater depth of water than can be found anywhere on that portion of the beach. The windows in the side next the water command the whole of Quincy bay, making them an excellent place to view the races of the club. The rooms hired consist of a bath room, a good sized kitchen with a sink and cook stove. Off of this is a pantry well equipped with dishes, etc. A store room is connected with the kitchen. A large coat room leads from the main room. The main room itself is a large one and will accommodate a great number at the tables which are put up at the chowders and other social gatherings. The walls of this room are covered with well chosen pictures and photographs of boats and other marine views. A committee room completes the list.

The club's membership is rapidly increasing. Nearly eighty members are on the roll and thirty-five boats are enrolled in the club. All hats off to the Squantum Yacht club as one of the most promising clubs of these waters.

The Bergeron Trial.

The trial of Alfred Bergeron of Quincy, for manslaughter, causing the death of Victor Carlson, on trial at Dedham, is the first case in the new court room, which is found to be large and commodious, elegantly furnished and fitted.

Bergeron is charged with assault on Carlson with a glass bottle, which caused his death. He is defended by Huay Dubuque of Fall River. Dist. Atty. Harris of East Bridgewater appeared for the government.

Medical Examiner Gilbert of Quincy testified to a fracture of the skull on Carlson. Other witnesses for the government examined Monday were Dr. N. S. Hunting, who corroborated Dr. Gilbert; Carl Otto Reindack, who was a companion of Carlson, and Mrs. Matilda Lingquist. The government has called 14 witnesses. Edward J. Sanberg has been sworn in as court interpreter.

The higher grades of the school were found to be better filled than the lower grades, which is nothing more than was expected.

The young misses looked happy and contented and can certainly consider themselves fortunate at having been born in Quincy.

Owing to sickness on the part of some of the workmen the dressing room in the basement was not ready this morning but it is expected that it will be by Wednesday.

The board of directors will hold a meeting this afternoon to decide on the matter of text books for the pupils and reference books for the school.

Not Run by a Trust.

The furniture store of Henry L. Kincaide & Co. Goods and prices within the reach of everyone.

CARD OF THANKS.

The many friends who were so kind to us in our bereavement, the quartette who gave their services, and those who contributed flowers will please accept our hearty thanks.

Mrs. H. S. Abbott, Hancock court.

Edward J. Sandberg, Mortgagee.

carriers.

ATLANTIC—Branch's News Agency
and carriers.

QUINCY POINT—Post Office.

Chas. H. Johnson's, Washington street.

SOUTH QUINCY—Peter Haverly and by
LEDGER Newsboys.

The Critic.

I sing the critic—one who all things knows;
Is competent all errors to disclose;

Never read a book but he could write a better
one. "Save us from the Devil, if you can."

Asses? Merely verbiage, thought obscure.

A novel? Matter dull and manner poor.

A history? It has a partial air.

Travels? All wrong, though he was never there;

If you would be amused (you'll never rue it),
Take him your book and ask him to look

Observe him well. His manner is delicious—

so bland, so wise, so kind and all tactious;

With pursed up lips and glistening, vain eyes

(A smooth shore poker in his pedaled guise);

He passes on your work his criticism,

The final trumpet, the deadly cataclysm.

He writes you a note, and you are always

In streams profuse the execution flows;

Marks every fault with jubilant infliction;

Matter and manner both require correction;

The plot is dull, the execution poor;

To crown it all, your name is too obscure;

You leave him in a state of sad dejection,

But return on a little later, and you are

There's no occasion for such dire despair—

His looks alone are wise; his words more air.

—Ethel Kildow.

An Exception.

He—but you say he was tall and hand-
some, and yet you prefer me.

She—Oh, one doesn't always go by
looks—Judy.

HIS PROGRAMME.

A College Boy Who Won't Be a Statesman
Gives the Order of the Day.

The dear old lady was seated by the
hearth fire dreaming of the glorious future
of her own and only son and joy, who was
taking a crooked course at Harvard. Her
husband had just received the weekly let-
ter, which, after wiping his cracked glasses
and sitting down deliberately to the deli-
cious task, he read in a martial and trium-
phant tone:

DEAR FATHER AND MOTHER—You ask me to
give you a programme of my daily routine of
college life. I do so with pleasure. Here it is:
6 a. m.—Rise, sponge bath and a rubdown in
the sun. 7 a. m.—Light breakfast, consisting of a
humming bird's egg omlette and a cigarette. Four
miles walk on a treadmill, bath and rubdown with
red ink and brass filings.

7—Throw the hammer, smash the bag and
wristlet, and knock the Sardine.

8—Breakfast. Park the smokers and traps.
Dance du ventre one hour to digest them. Bi-
cycle race against time.

9—Hurdle jump and bowling, one hour.

Lecture on metaphysics, four minutes.

10—Light dinner, bath, rubdown with
sodium and powdered glass.

11—Chapel, 30 seconds.

11:30—Field practice, shin kicking, Zulu howl-
ing and hair pulling. Bath and rubdown with
chartruese and carpet tacks.

12—Luncheon, rhinoceros steak and hard
tack, with a side of Coney Island froth; wind
up with tutti frutti and a cigarette.

1:30 p. m.—Study 12 minutes 30 seconds
central time. Howl for our alma mater one hour.

Dry shave and shampoo with cattolene, and
midday poker session.

But the dear old lady had risen from her
seat with a wild, vacant stare.

"John," she interrupted cautiously,
"must our poor boy go through all this in
order to make a statesman?"

"Statesman be hanged, Maria! A states-
man isn't in it in our day. It's an athlete
we're going to be—an all-round record
breaker—and don't you forget it!"

Then the dear old lady went out and took
four fingers of bay rum by mistake for pep-
permint cordial.—Halla.

His Message.

WASHINGTON, April 10.—About 40 Demo-
cratic members from eastern and north-
ern districts have concluded not to go
into the Democratic house cause called
to consider the repeal of the bank tax.

ESCAPE OF DA GAMA.

Admiral and Thirty-two of His Fol-
lowers Leave the Mindello.

PLANS WERE WELL ARRANGED.

Met No Resistance In Their
Stroke For Freedom.

BUENOS AIRES, April 10.—Admiral da
Gama made his escape from the Portu-
guese warship Mindello at 2:15 p. m. and
arrived at the Buenos Ayres quarantine
station Monday evening.

He, with a number of his officers, were
on board the Mindello, awaiting the
arrival of the steamer Angola, which
sailed from Lisbon, April 4, to convey
him and his followers to Portugal, the
remainder of his staff being similarly held
on board the Alfonso de Albuquerque.

Sunday afternoon, a tug towing a
lighter, loaded with provisions for the
Portuguese warships, steamed alongside
the Mindello, and the lighter was made
fast to the warship, preparatory to un-
loading. While the provisions were being
taken on board the warship, Da Gama and 32 of his officers went on board
the tug, cut the lines and steamed away.

MILWAUKEE'S HORROR.

Nine Firemen Killed During the Burn-
ing of a Big Theater.

MILWAUKEE, April 10.—Nine firemen are
dead, six are seriously injured, and
Milwaukee's leading theater, the David-
son, is in ruins, the result of a fire which
mysteriously started in the rear of the
building. The loss on the building,
scenery and equipments of the Lilliputian
company, aggregates \$300,000.

Twenty firemen were upon the roof of
the building, working under the direction
of the chief, and it was thought that the
blaze was under control, when the roof
seemed to bulge under their feet, and in
a moment every man was pitched into
the auditorium of the theater, some fall-
ing into the parquette and others upon
the balconies.

Deeds of heroism were numerous, as
usual, under such circumstances. Michael
Daly, of the rope, made it fast to
several of the men who were not pinned
down by the debris, and then climbed the
rope hand over hand to the roof of the
Davidson hotel, which escaped destruction.

The fire took a new start, and amid the
groans and shouts of the imprisoned fire-
men the work of rescue began, and was
kept up until 8 o'clock last night, when
the eighth body was taken out and the
work abandoned until today, with one
corpse to remove.

OFFICIALS WORRIED.

Their Attempt to Start the Riverside
Mill Proves a Failure.

No resistance was offered by the crew
of the tug, which fact suggests a pre-
arranged plan for the escape of the insur-
gent admiral and his men. This theory
is strengthened by the attitude of the
owners of the tug. They deny any com-
plicity in the escape of the men and re-
fuse to furnish any details, but they
admit that they expect compensation from
Da Gama or some one in his behalf.

The destination of the fugitive admiral
is not known, but there is an unconfirmed
rumor that he has been seen in this city.

This is not unlikely, as Da Gama has a
host of friends here, many of them of
wealth and influence, and he would have
no difficulty in finding an asylum.

The people of the Argentine Republic
generally are rejoicing over the escape of
Da Gama, and the reports of Mello's suc-
cesses at Rio Grande do Sul. These reports
are not altogether trustworthy, but if General Gomercindo's land forces are
really co-operating with Admiral Mello
in an attack upon Rio Grande Sul, it is
clear that the province of Paraná has
been abandoned to Peixoto.

Still Fighting.

The news from Rio Grande do Sul is to the
effect that the bombardment begun by
the rebels under Admiral Mello last Friday
was renewed at sunrise yesterday.

The loyal garrison, which numbers less
than one-half of the forces of the be-
siegers, commenced a retreat, but at 2
o'clock President Peixoto's men from
Port Allegre arrived on the scene, where-
upon the aggression again assumed

A Brutal Parent.

CALIS, Me., April 10.—A man from Scotch Ridge, N. B., noted for his drunk-
iness and brutality to his family, came
to St. Stephen for a casket for his deaf
and dumb daughter, and on the way
home got beastly drunk. He raved at
and scared his son because he could not
get the casket from the pung. He raved at
and scared his son because he could not
get the casket from the pung.

Brutal Parent.

CALIS, Me., April 10.—A man from Scotch Ridge, N. B., noted for his drunk-
iness and brutality to his family, came
to St. Stephen for a casket for his deaf
and dumb daughter, and on the way
home got beastly drunk. He raved at
and scared his son because he could not
get the casket from the pung. He raved at
and scared his son because he could not
get the casket from the pung.

Irreconcilable.

BANGOR, Me., April 10.—In the supreme
court in the case of Eastman vs. Donham,
an action brought by a lawyer to recover
for professional services, the defendant,
Miss Isabella Donham, a spinster of 45,
conducted her own defense. She hul-
ly-ragged the plaintiff, his counsel and wit-
nesses, declared that some of them lied
and made such a scene that Judge Wal-
ton ordered her to behave herself. When
the jury gave a verdict for plaintiff, she
declared it was a shame and flounced out
of the courtroom in a great rage.

Did Considerable Sawing.

WASHINGTON, April 10.—The record of
the Chinese claims commissions, which
expired yesterday by limitation, shows a
fair degree of progress in the six
months' work, but it is not令人满意的 in
any sense to the claimants on either side.

Citizens of the United States presented
42 claims against China. But 24 of these
were passed. These 24 claims aggregated
\$15,506,168, but the total of the judgments
rendered was only \$240,601.

Worse and Worse.

ST. JOHN, N. B., April 10.—All efforts to
find Evangelist Gibbs have proved fruit-
less. It now turns out that he left some
unpaid bills behind him. It also turns
out that at times he drank to excess and
was an excessive smoker of cigarettes.

Advices from New York state that the
evangelist's wife is in very bad circum-
stances in Brooklyn. Mrs. Frost, her son
and daughter are still in this city.

Another Postponement.

LONDON, April 10.—Mr. Gladstone, in a
letter to a friend, writes: "If any one asks
you how I am, tell him I feel a dis-
tressful church of England, with brac-
ing breezes blowing around me."

Bondsmen Will Settle.

CHATTANOOGA, April 10.—The case
against M. J. O'Brien, the defaulting
steering committee of the Catholic Knights
of America, was settled by consent of
an expedition to Cuba. He declines to
make public his plans at this time.

Never Too Guilty.

NEW YORK, April 10.—The jury re-
turned a verdict of "Not guilty" in the
case against Captain Devore, who was
charged by the Parkhurst society with
allowing disorderly houses to exist in his
precincts.

Field Practice.

WORCESTER, April 10.—The field practice
of the Zulu howling and hair pulling
was held yesterday on the old schedule rate of wages.

At Old Wages.

MANCHESTER, N. H., April 10.—The
striking cutters and trimmers in the shoe
factory of Kimball Bros., who went out
on a strike to resist a reduction of wages
last week, returned to work yesterday on
the old schedule rate of wages.

Workmen Rejoicing.

MANCHESTER, N. H., April 10.—The
Manchester locomotive works began this
morning to run 10 hours a day. This is
causing great rejoicing among the em-
ployees, as the works have been running
eight hours since Sept. 18.

A Serious Joke.

WASHINGTON, April 10.—The 13-year-old
daughter of John A. Lowe is seriously
sick with convulsions, the result of
a fit caused by a neighbor who entered
the house a few days ago and pointed a
gun at her as a joke.

Think the Duty Too High.

LONDON, April 10.—Wholesale traders
on the other day to discover in the mail
matter a slightly soiled linen collar. At
first it seemed that some absent-minded
person had mistaken a letter box for a
soiled clothesbasket. But an address on
one side of the linen with a canceled
postage stamp and a letter written on
the other, proved that the linen had been
put to use as the conveyer of intelligence.
So the collar was back stamped and the
missive delivered.—Worcester (Mass.)
Letter.

Stamping His Collar.

POSTAL authorities here were surprised
on the other day to discover in the mail
matter a slightly soiled linen collar. At
first it seemed that some absent-minded
person had mistaken a letter box for a
soiled clothesbasket. But an address on
one side of the linen with a canceled
postage stamp and a letter written on
the other, proved that the linen had been
put to use as the conveyer of intelligence.
So the collar was back stamped and the
missive delivered.—Worcester (Mass.)
Letter.

A Famous Paris Resort.

There is still another of the former
glories of Paris about to disappear—the
Restaurant Vefour. It was put up for
sale, but no bid having been made suffi-
ciently high to pay

BERGESON IS GUILTY.

Caused Carlson's Death by Striking Him With a Bottle.

THE ACCUSED TELLS HIS STORY.

The Jury Returns a Verdict of Manslaughter.

DEDHAM, Mass., April 11.—Alfred Bergeson's counsel made a strong plea for his client in the superior court here. Bergeson is alleged to have caused the death of Victor Carlson at Quincy, Feb. 18, by striking him with a bottle over the head.

The accused said he was born in this state, his father being a veteran of the late war. On the night of the trouble with Victor Carlson he, with his brother George and Dongal, went on the hill on Common street.

He saw Victor, and Victor said "Hello, Sweeney," and Victor had a knife, which he had held open in his hand, and was about to strike his brother George, and He Interfered.

Then Victor went away a few feet, and in the course of the melee Victor appeared tall and powerful, and the accused heard his brother cry: "They are stabbing me, Fred!" and Fred could do nothing but seizing the bottle, filled with kerosene oil, hurled it at Victor, and ran away, being excited and afraid of Carlson and Otto Rhinebeck, both of them having knives.

He threw the bottle and did not think of anything at the time he was arrested and placed in a cell.

Shortly after 11 o'clock the court began its charge to the jury, which lasted for half an hour.

Instructions to the Jury.

The case was graphically summed up and the jury virtually instructed that if it was found that the defendant and his friends had picked a quarrel with Carlson and then resorted to force, which cost him his life, to defend themselves, a verdict of guilty would be justified.

Put on the other hand if the evidence was such as to show that Carlson was unduly resentful and quarrelsome and attempted to use a knife without warrantable provocation, then a verdict of acquittal should be returned.

The court ruled that the defendant was justified in defending his brother, if the evidence had shown there was occasion for it, and that his plea of self-defense, under these circumstances, was tenable.

The jury retired at 11:40 o'clock, and at 1:45 returned a verdict of guilty, with a recommendation to the court of mercy.

Bergeson was sentenced to the Massachusetts reformatory.

Boston's Commonwealers.

BOSTON, April 11.—The commonweal committee of the Equity union reports the recruitment of Coxey's army is rapidly being forced. Secretary Fitzgerald has written to the powers that be in an effort to secure transportation to the national capital. As a last resort the army will walk and have a brass band.

A Novel Idea.

NEW BEDFORD, Mass., April 11.—Mount Washington glass works officials have engaged a photographer to take pictures of the crowd who follow the "knobsticks" to and from work. The photos will probably figure in court. The scheme is proving more efficient than police service in strike troubles.

Senate Confirmations.

WASHINGTON, April 11.—The Senate announced the following confirmations: Thomas Cogswell of Gilman, N. H., pension agent at Concord, N. H.; Postmasters—John F. Bartlett, Suncook, N. H.; Charles H. Proctor, Bristol, N. H.; John C. Swallow, Peterboro, N. H.

A New London Elopement.

NEW LONDON, Conn., April 11.—David Murray, aged 25, captain of a coal barge plying between this port and New York, and Lydia Chapman, aged 15, of Groton, have eloped. They are believed to be in Providence. The father of the girl charges Murray with abduction.

May Come Together.

BOSTON, April 11.—There promises to be some fun in pugilistic circles here next week. George Dixon is to spar at one of the local theaters, while his rival, the "Kentucky Rosebud," has a week's engagement at a playhouse close by. Both boys are talking fight.

Shoemakers Join Knights.

HUDSON, Mass., April 11.—A new local assembly of the Knights of Labor was organized here last night. The new body is composed of shoemakers. The meeting was adjourned until Friday, when the remainder of the shoemakers will be admitted to the order.

Towed to Boston.

GLoucester, Mass., April 11.—Tugs succeeded in reaching the four-masted schooner Mabel Jordan, lying in a dangerous position near Plum Island, and took her in tow for Boston.

Boys Burned to Death.

ST. JOHN, N. B., April 11.—By the burning of a house three miles from this city Frank Hind, aged 15 years, lost his life. The rest of the family succeeded in escaping.

Insurgents Capture Rio Grande.

MONTEVIDEO, April 11.—A dispatch from Montevideo says that the insurgent forces under Admiral de Mello, have occupied Rio Grande city.

Showalter Won.

NEW YORK, April 11.—J. W. Showalter won his seventh victory over Hodges last night, thus winning the match by the score of 7 to 6 and 4 draws.

BACK TO WASHINGTON.

Jenkins Investigating Committee Ends Its Labors in Milwaukee.

MILWAUKEE, April 11.—The Judge Jenkins investigation by the house committee of the judiciary committee came to a sudden end, so far as Milwaukee is concerned, at 5 o'clock last night. All of the witnesses subpoenaed were examined, and as there was no documentary evidence to go over there was nothing else to do, and the affair will now continue in Washington.

The witnesses were Chief Wilkinson, Mrs. Arnold of the firemen, Clark of the conductors, Sargent of the brakemen, Ramsey of the telegraphers, Attorney Miller, General Manager Kendrick, Receiver Oaken, ex-manager Spooner and Attorney W. J. Curtis of the Northern Pacific railroad.

The chief interest was centered in Mr. Spooner's testimony. He testified that he, with Attorney Miller, had dictated the petition for the first injunction which forbade the employees of the Northern Pacific from striking, and also the order which was issued by Judge Jenkins. He said this was customary among attorneys in like cases. He said, however, that he had nothing to do with the supplementary injunction.

Mr. Spooner said that he took for the basis of the order for the injunction a decision of Judge Pardee of the federal court in the Higgins case, but Attorney Curtis admitted, in answer to a question to him, that he had not read the decision.

There was some lively parleying between Mr. Spooner and Attorney Harper, who represented the labor chiefs. Mr. Spooner said he had a good opinion of the chiefs. The testimony of the labor chiefs and Sargent on Monday. They all agreed that the injunctions prevented them from exercising their constitutional rights.

May Leave Knights.

Mine Workers Consider That John W. Hayes Is Their Enemy.

COLUMBUS, O., April 11.—The fifth annual session of the United Mine Workers of America was called to order here by President McBride. The association is composed of coal miners, mine laborers and cokers. A proposition for a general strike in the United States is to be discussed. Independent labor politics is also on the list for discussion. President McBride urged the miners to fall in with the general movement for an advance in wages. He recommended independent political action.

The sensational feature was a charge that John W. Hayes, secretary-treasurer of the Knights of Labor, is the implacable enemy of the miners. On account of this allegation it is understood the convention will consider the matter of withdrawing the miners' association from affiliation with the Knights of Labor.

Just before the session adjourned for the day a delegate secured the floor and suggested that all who had come to favor a national suspension of work be requested to hold up their right hands. The words were no more than spoken when every hand in the house went up. The question of suspension seemed to be virtually settled.

ANOTHER CONFERENCE.

Will Be Held to Try and Settle Riverside Mill Troubles.

Boston's Commonwealers.

PROVIDENCE, April 11.—The report that the strikers of the Riverside mill had voted to go to work was premature, and not altogether accurate. A meeting of the strikers was held yesterday afternoon, and after it had been voted to continue the strike against the two-loom system the weavers considered the advisability of ordering a general strike. It was stated that this was not done single loom weavers might as well return to work.

After a long discussion it was voted to do this. A committee was appointed to confer with Superintendent Ward and to secure transportation to the national capital. As a last resort the army will walk and have a brass band.

A Novel Idea.

NEW BEDFORD, Mass., April 11.—Mount Washington glass works officials have engaged a photographer to take pictures of the crowd who follow the "knobsticks" to and from work. The photos will probably figure in court. The scheme is proving more efficient than police service in strike troubles.

Senate Confirmations.

WASHINGTON, April 11.—The Senate announced the following confirmations: Thomas Cogswell of Gilman, N. H., pension agent at Concord, N. H.; Postmasters—John F. Bartlett, Suncook, N. H.; Charles H. Proctor, Bristol, N. H.; John C. Swallow, Peterboro, N. H.

A New London Elopement.

NEW LONDON, Conn., April 11.—David Murray, aged 25, captain of a coal barge plying between this port and New York, and Lydia Chapman, aged 15, of Groton, have eloped. They are believed to be in Providence. The father of the girl charges Murray with abduction.

May Come Together.

BOSTON, April 11.—There promises to be some fun in pugilistic circles here next week. George Dixon is to spar at one of the local theaters, while his rival, the "Kentucky Rosebud," has a week's engagement at a playhouse close by. Both boys are talking fight.

Shoemakers Join Knights.

HUDSON, Mass., April 11.—A new local assembly of the Knights of Labor was organized here last night. The new body is composed of shoemakers. The meeting was adjourned until Friday, when the remainder of the shoemakers will be admitted to the order.

Towed to Boston.

GLoucester, Mass., April 11.—Tugs succeeded in reaching the four-masted schooner Mabel Jordan, lying in a dangerous position near Plum Island, and took her in tow for Boston.

Boys Burned to Death.

ST. JOHN, N. B., April 11.—By the burning of a house three miles from this city Frank Hind, aged 15 years, lost his life. The rest of the family succeeded in escaping.

Large List of Members.

AGUSTA, Me., April 11.—The 36th annual session of the grand lodge of Good Templars opened here today. Secretary Brackett's report shows 875 lodges and an aggregate membership of 20,000, with a larger percentage of members than in any other state.

Clothing Valued at \$2000 Stolen.

BOSTON, April 11.—Henry McConnell, keeper of a lodging house, was arrested upon an indictment warrant charging him with having received stolen clothing valued at \$2000, the property of Jackson & Son, clothing dealers.

Postoffice Robbers Busy.

NEW MILFORD, Conn., April 11.—The postoffice here was robbed of about \$80 and some stamps. An unsuccessful attempt was made to break into the post-office.

Nothing Left of It.

BERWICK, Me., April 11.—The high school building was last evening burned to the ground. The fire caught from the furnace. The loss will be \$1,000.

Dest. Factory Burned.

SOMERVILLE, Mass., April 11.—Fire in the building owned and occupied by the Derby, Kilmer and Pond Desk company here caused \$25,000 damage.

ARSON AND MURDER.

Horrible Crime Committed in a Small Connecticut Town.

MAN WAS CLUBBED SENSELESS.

While In That Condition He Was Roasted Alive.

HARTFORD, April 11.—The news of a terrible crime, which was committed in Armenia, a small town just south of Sharon, reached this city yesterday. Never before in the history of crime in this state has such a horrible case been reported. The story is that on Saturday last two masked men broke into the residence of Henry Winnell, who lives in a thinly peopled part of the place, and after knocking him senseless with a club while he lay asleep in bed, started to ransack the house.

They secured little of value, and then they saturated the furniture and soaked the bed clothing with kerosene oil, and then set fire to it. The house was burned to the ground, and Winnell, who remained unconscious from the blow which was struck him by the masked men, was literally burned alive. The burglars escaped. Winnell's body was found incinerated in the ruins.

The investigation resulted in the arrest yesterday of Ellen Morris, a woman who had lived as a maid for Winnell for several years, and who is suspected of being concerned in the terrible crime. She has had several quarrels with Winnell, and has been heard to make threats toward him.

Patentees Will Wait.

LONDON, April 11.—John Redmond, in an interview, said that he was greatly dissatisfied with the statement of John Morley as to the time and manner in which the government would introduce the evicted tenants' bill. Mr. Redmond said that the patentees would not vote against the bill, and that he must go into his cell if he wished to sit down. Redmond struck the guard a vicious blow on the neck, and in return received a crack on the nose that made him see stars and started the blood in a stream. He was then placed in the dungeon, where he will be kept until he agrees to behave himself.

Excitable Spaniels.

MADRIS, April 11.—John Redmond, in an interview, said that he was greatly dissatisfied with the statement of John Morley as to the time and manner in which the government would introduce the evicted tenants' bill. Mr. Redmond said that the patentees would not vote against the bill, and that he must go into his cell if he wished to sit down. Redmond struck the guard a vicious blow on the neck, and in return received a crack on the nose that made him see stars and started the blood in a stream. He was then placed in the dungeon, where he will be kept until he agrees to behave himself.

The Old Garden.

No change, you say? Nothing of loss that tells. Trees, flowers, are they as lovely as of yore? Does spring still deck with corals and green bells?

Our favorite sycamore?

The early lilacs, bloom they rank on rank, Purple and white as they have bloomed for years?

Old crown imperial on the mossy bank, Sheds he his hoarded tears?

The rose acacia, does it carpet now? The pathway with its waxen blossoms red? Drop the smooth berries from the laurel bough into the violet bed?

Suffer the birds no loss, bereft so long Of us? Is not the blackbird mute for doubt? No liquid note left out?

Does the moon show behind the hedgerow elms,

Black bars against a spectral sea of light? Reigns our one star over the heavenly realms King, on a clear, cold night?

They bloom, sing, shine, our absence hindering

They are but waiting till ourselves have enough, so we, revisiting that spot, May find them all unchanged.

—Augusta de Grouchy.

PATENTS

NOTICE TO INVENTORS.

THESE were never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The convenience of man-kind in the factory and workshop, the home, the office and in official life, require continual accessions to the appliances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the American inventor, who, like the alert, ready to perceive the existing deficiencies, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. For great care cannot be exercised in choosing a lawyer and attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No advice, no pay" system. The inventor, who has business to tids class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain a fee. The Press Claims Company, General Manager, John Wedderburn, 618 F Street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was called to defend the patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design, patent, trade marks, lands, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Write for instructions and advice.

BURNED HIS BRIDGES

Hill Has Incurred the Enmity of the Southern Democrats.

THE TEN PER CENT BANK TAX.

Democrats Record Themselves In Favor of Repeal.

WASHINGTON, April 11—Hill's speech is the theme of comment at the Capitol and in administration circles. It is admitted to be one of ability and strength.

It cannot be denied, however, that it is more or less tinged with an element of hostility toward the administration, viewing the pending bill as an administration measure.

It is intended to attack Cleveland's policy, foreign and domestic as well. What may come of his speech and what may develop out of the situation is a matter of speculation, but serious consequences to the Democratic party are expected.

The New York senator's arraignment of the Democratic members of the finance committee who framed and are pressing the bill, and his laying great stress upon its sectional character, has placed an insuperable barrier between himself and the southern Democracy. He has burned his bridges, and hereafter there can be no affiliation on tariff reform between the New York senator and his friends and the southern Democracy. The feeling of bitterness on the part of the advocates of tariff reform on the line of the present bill, directed toward Hill and those members of the party whose actions they regard as treacherous, is sure to become almost personal in its character.

The Income Tax.

An open rupture in the party and the severance of long established relations are likely to follow. Will the Democratic managers in the Senate, in deference to the warnings of Hill, change their plans?

This is the question which is being discussed in all political circles here. It can be stated in the most positive manner that the Democratic managers will not change their course one iota, but will insist upon the passage of the bill it now stands in.

The Income Tax.

An open rupture in the party and the severance of long established relations are likely to follow. Will the Democratic managers in the Senate, in deference to the warnings of Hill, change their plans?

This is the question which is being discussed in all political circles here. It can be stated in the most positive manner that the Democratic managers will not change their course one iota, but will insist upon the passage of the bill it now stands in.

The State Bank Tax.

The Democratic caucus, after a session of 2 1/2 hours, beginning, adopted the following resolution without a dissenting vote:

Resolved, That it is the sense of this caucus that the prohibitory tax of 10 per cent of bank issues be repealed.

Resolved, That when the bill known as the Brawley bill, which the committee on banking and currency has referred to the house, is called up for action, an amendment be offered, repealing the prohibitory tax on state banks; that ample time be afforded for discussion, and if necessary to secures its passage, the committee on rules be requested to take proper action.

Resolved, That the bill known as the Brawley bill, which the committee on banking and currency has referred to the house, is called up for action, an amendment be offered, repealing the prohibitory tax on state banks; that ample time be afforded for discussion, and if necessary to secures its passage, the committee on rules be requested to take proper action.

A TREMENDOUS GALE

Has Wrought Ruin and Death Along
New Jersey's Coast.

SAILORS ENGLUFFED BY WAVES.

Worst Will Not Be Known
Until Storm Abates.

SEABRIGHT, N. J., April 12.—The storm raging at this place is the worst that has visited Seabright in 11 years. Three thousand feet of the New Jersey Southern railroad, between this place and Highland beach, has been washed out. The waves were so strong that the iron rails were twisted out of shape. The sand has been washed over the tracks for nearly half a mile. A cut is reported from the ocean to the Shrewsbury river, near Galilee, which completely shuts off travel north or south from Seabright. Telegraph and telephone wires are down, poles having been blown down by the strong wind.

The effect of the storm has been devastating throughout this state. Furious gales and monstrous seas have wrought havoc and destruction along the Jersey coast, and the monetary damage cannot be computed yet. Buildings, trees, telegraph and telephone wires, railway tracks, embankments, wharves and fences all yielded to the destructive fury of the elements. Above it all stands out the loss of human lives. At least 15 persons are known to have perished.

Many fishing boats and small craft anchored along the shores before the storm have probably been wrecked, as the shores are strewn with wreckage.

Atlantic City suffered considerably. Waves dashed over the board walk, and at times the famous attraction was threatened with destruction. At Brigantine, which the electric line almost wiped out. At Red Bank several boathouses were carried away and much damage done to sailing craft. All telegraph and telephone wires radiating from Seabright were prostrated and seashore service is cut off.

In Morris, Bergen and Warren counties roads were impassable. At Bayonne many boats and boathouses were washed away. At South Amboy a partially erected house was blown down, and at New Brunswick electric light, telegraph and telephone wires were levelled to the ground.

Incalculable damage was done to the fruit crop. The peach crop suffered particularly, and it is feared that the entire crop will prove a failure. Farmers throughout the state will be heavy sufferers.

EIGHT MEN DROWNED.

Not One Escaped From the Wreck of the Albert W. Smith.

MANASQUAN, N. J., April 12.—The furious gales and high winds left their mark all along the New Jersey coast. Along the Jersey Central railroad, to Tom's river, the sea has overflowed the shore and formed little lakes for a considerable distance. The beach far down the coast is strewn with light wreckage. The wind has blown a full gale, the high seas roaring and pounding and foaming with a mighty rage.

In the height and fury of the storm, the three-masted schooner Albert W. Smith was driven ashore at a point midway between Seagirt and Manasquan. In less than half an hour after the vessel struck she was pounded into kindling wood by the seas which broke over her. What was left, a portion of the hull, was carried up a quarter of a mile south of the saving station.

Eight men it is said, composed the crew of the Albert W. Smith, not one of whom has been saved since their boat was wrecked, and it is unlikely that a man of the crew has survived to tell the tale of his experiences in the awful gale.

The wreck was discovered by George W. Green of the Squan beach lifesaving station. Captain R. F. Longstreet related the following story of the wreck:

"Green, during a blinding snow, and when the storm was at its height, saw the outlines of a vessel, which was struggling with the breakers, above the station. Two masts were standing at that time, but there were no topmasts. We got out our men at once and endeavored to launch a lifeboat, but by the time we got to her only one mast was standing. A very short time afterwards she broke up.

"There was no sign of a living person on the schooner when we got to her. The wreck drifted with the sweeping current a quarter of a mile south of the station. In the blinding snow and snowstorm we dragged our men to her and made one shot with a line, but by the time we got to the second time, there was nothing left to shoot at.

"You can see," said the captain, as he kicked his rubber boot against a piece of the hull of the craft, "that she was old and rotten." Without the slightest effort he kicked huge chunks of the wood apart, it being totally rotten.

The vessel was of 572 tons, 145 feet long, 35 feet beam and 16 feet hold. She was built in 1873 at Kennebunk, Me., and was owned by Albert W. Smith of Providence, from which place she sailed. She was bound for Providence from Philadelphia.

Boston's Report.

BOSTON, April 12.—Captain Taylor of the steamer Essex reports: When 2 1/2 miles distant from Nauset light passed a wreck, apparently a schooner, with spars attached, standing stern out of water, her bow apparently being held down by the anchors and chains. The wreck was badly broken up. It was a very dangerous obstruction to navigation.

The brig Venice, from Weymouth, N.

S., with a cargo of pilings, has arrived below. Captain Melrose reports: On Monday he encountered a terrific headwind, during which the first mate, Reuben Gill, of Yarmouth, N. S., was pinned by the floating deckload to the side of the vessel and killed, and one of the seamen was badly injured.

Wreck of the Kate Marke.

LONG BRANCH, April 12.—Directly opposite the Highland beach station the three-masted schooner Kate Marke came ashore at the outer bar, a distance of a quarter of a mile from the shore. She has gone to pieces, having eight of a crew on board. It was at first reported that the entire crew were lost, but later reports show that two of the men were saved.

Owing to the vessel being so far away from the shore, the lifesaving crews from lifeboat stations Nos. 1 and 3 were unable to shorten their lines to it, and as a high sea was raging, it was impossible to render assistance.

A number of people residing at Seabright are standing in readiness to leave their homes, fearing they will be surrounded by water from the ocean, which is threatening to flood the town.

At Long Branch the tower of the Oceanic Fire company, which contains a large fire bell, was blown down and fell crashing into the street.

The bulkhead just erected in front of the Madison flat is badly damaged and may go to sea. The flats are receiving a severe pounding, and should the bulkhead in front of them give way there will be considerable chance of the embankment being carried away.

Tug Underwriter Sinks.

NEW YORK, April 12.—The big oceanic Underwriter of the Boston Towboat company is lying on the bottom of the East river. The boat, under command of Captain Elliot Clifford, with a crew of 14 men, was on the voyage from Norfolk to Boston, with a tow, when the storm overtook her, and she put into this port. The tow was left at Ricker's Island, and the tug proceeded to Martin's stores. The tug endeavored to make a landing at the side of pier 3. The current drove the boat against pier 2, and tore off several plates and stove a hole in her port side, and within two minutes the Underwriter was under 50 feet of water. The tug Fred B. Dailey reached the sinking boat and took off the entire crew. The Underwriter is valued at \$50,000.

In New England.

BOSTON, April 12.—New England is receiving her share of the storm which has played so much havoc in New York and vicinity. A heavy snowstorm was in full working order, accompanied with a blustering wind. Telegraph service both from the north, south, east and west is greatly impeded, and there has been considerable difficulty in obtaining any news from outside. The Western Union wires are in chaos, especially in the southern and western section of the state, and messages are suffering considerable delay. The wires are continually touching each other, which interferes with the transmission of messages.

Steamers Report a Hurricane.

NEW YORK, April 12.—Incoming steamers report that a tremendous gale has been blowing outside Sandy Hook. The seas were very high and were accompanied by hard squalls from northeast and heavy snow and hail. The weather is very thick and dirty, a heavy sea running with the ebb tide.

In the Keystone State.

PHILADELPHIA, April 12.—A severe snow and rain storm has raged throughout the state. In many places the wind was so strong that outbuildings were demolished. Telegraph and telephone communication is almost at a standstill.

ARMY OF BURGLARS

Making Trouble for Australians—Labor Troubles Reach a Climax.

VANCOUVER, B. C., April 12.—The latest files of Australian papers contain little else than sensational accounts of burglaries and labor troubles. In all the colonies, the burglars have organized themselves into a standing army, and they have been making night sorties. During last month 337 burglars were captured red-handed and brought to justice. Twenty-three burglars were reported shot by householders.

The unemployed in South Australia and Victoria are becoming desperate. They applied to Premier Patterson and Sir George Gibbs in deputations of over 1000. The latter replied: "Don't come bothering me. I have kept you long enough. You will not be able to find work here, and then starve." The deputations returned to the city and camped in the park. They were ordered off, and on refusing to move over 100 were put into prison.

Representatives of the Ripper breed who successfully eludes the police. He seizes unprotected women and stabs them in the throat with a dagger. Eight women have been stabbed, but none fatally.

Lost Both Legs.

BOSTON, April 12.—At the Bath iron works, George M. Leighton was helping move the Ammen ram, when three heavy armor plates of from five to 10 tons each fell over him, crushing his legs. He was extricated with difficulty, and both legs were amputated. He is not expected to live.

Schooner Plugged by a Tug.

ST. JOHN, N. B., April 12.—Tug Hercules, while proceeding up the harbor with a barge in tow, came in collision with the schooner H. A. Holder. The schooner was cut into about eight feet. She quickly filled with water. She was finally towed to shore.

An Eight-Mile Journey.

UNIONTOWN, Pa., April 12.—The departure of the Commonwealth forces for the mountain trip was made at noon yesterday. The camp last night was near Chalkhill, eight miles from here.

Service of Solid Gold.

LORENCE, April 12.—Queen Victoria and Prince and Princess Beatrix landed at the Pitti palace with King Humbert and Queen Margherita. The luncheon service was of solid gold.

Holland's Elections.

THE HAGUE, April 12.—The general elections have resulted in the defeat of the government by a large majority.

THE STATE BANK TAX

A Determined Effort Will Be Made to Secure Repeal.

A SOLID VOTE ALMOST ASSURED.

Sperry Introduces a New Financial Measure.

WASHINGTON, April 12.—The house banking and currency committee having failed to agree upon any of the various schemes to extend the national banking system to the states or to agree upon any bill giving the southern and southwestern states additional banking facilities, the southern representatives have decided to make a determined effort to secure legislation to repeal the 10 per cent tax on state bank circulation.

A majority of the members of the currency committee refused to allow a bill to repeat the tax to be reported. The only way, therefore, in which they can get this proposition before the house is to move an amendment to Representative Brawley's bill, which was reported from the currency committee.

One hundred members from the south and west who attended the caucus having decided to push the repeal scheme, there is likely to be a hot contest when the matter comes up for consideration. Speaker Crisp and the committee on rules for the repeal of the 10 per cent tax had promised the friends of this proposition to bring in a rule limiting debate and fixing a time to vote.

The adoption of such a rule will, it is believed, secure the passage of the pet scheme of the southern representatives. They claim that it will get a solid vote from the south and southwestern states, and that enough western and northern Democratic representatives will support the measure to secure its adoption.

Sperry's Plan.

In the meantime Representative Sperry of Connecticut, a member of the banking and currency committee, has prepared a new bill, extending the present system for the establishment of interstate banks. It authorizes any banking corporation to deposit with the treasurer of the United States state, county or municipal bonds whose validity is unquestionable or the market value of which has not been below par at any time during the period of two years just preceding the date upon which such bonds are offered for deposit, or upon which there has not been any failure to pay interest regularly at any time.

The bank making such deposit of bonds shall receive from the comptroller of the currency a circulating note equal in amount to and not exceeding the par value of the bonds deposited, but no bank shall be permitted to receive or issue circulating notes upon the security of bonds deposited in any amount greater than the 75 per cent of its authorized capital stock, actually paid in and unimpaired through losses sustained or otherwise.

Representative Sperry brought this bill before the banking committee, and he got it before the house yesterday. The bill has been submitted to the comptroller of the currency, who is giving it careful examination.

In Congress.

The Daily Ledger.

Published every evening, Sundays and holidays excepted, at No. 115 Hancock street, Quincy, by

GREEN & PRESCOTT,
Editors and Proprietors.

Yearly subscription, \$5; by the month, 50 cents. Single copies, 2 cents. Advertising rates upon application.

The Quincy Patriot,

Published weekly on Saturday mornings, was established in 1837, and is the acknowledged leader in Norfolk county.

Yearly subscription, \$2.50; single copies, 5 cents.

TELEPHONE, 213-3 QUINCY.

COOPERATION.

The DAILY LEDGER proposes to make the heading for its brief local items or city chit-chat a special feature for the next few weeks. A different "scare head," similar in type and arrangement of lines as the one today, (count letters to a line), is wanted for each day, and the publishers offer a year's subscription for the most original and appropriate one used before July 1, 1894.

The city editor will select the best one published each week and later will decide how the final selection shall be made. The headings will be published in the order received and the name of the writer will appear if there is no objection.

Editorial Comment.

THE HOUSE passed to a third reading yesterday the bill to prohibit the granting of licenses for the sale of intoxicating liquors within 400 feet of public school houses. There is need of such a law when it is estimated that 250 saloons are within this very short distance.

QUINCY FIRM LOSE.

The leather stock of Emery & Crane damaged by fire.

Fire at Nos. 73 and 75 High street, Boston, last night, caused a loss of \$20,000. In this building, a four story granite structure, are located the leather firm of Emery & Crane, both well known Quincy gentlemen, and they sustained the greatest damage. Their loss by fire, smoke and water was \$10,000.

Reception to Miss Marlowe.

One of the most enjoyable and brilliant receptions given by the New England Woman's Press association this season was the one tendered Miss Julia Marlowe, the favorite actress, at the Parker House, Boston, Wednesday.

The reception was held in the crystal dining hall, from four until six, and a large gathering was present. Sweet music discoursed by the Ladies' Symphony Mandolin and Guitar club of Somerville, added to the delightfulness of the afternoon.

Miss Helen Winslow, president of the Press association received the guests and in turn introduced them to Miss Marlowe and her friend, Miss Eugenia Woodward. Later in the afternoon Gov. Greenhalge dropped in and assisted Miss Marlowe in receiving.

Miss Marlowe wore an opaque silk and a large pictureque hat, looking lovely as usual. All who met her pronounced her to be as charming off as on the stage, as she had a bright smile and cordial word for every one.

Several of the profession were present who are well known to our readers, notably Miss Isabella Everson, Miss Marie Burress, Mrs. Emma Sheridan-Frye, Mr. Joseph Haworth, "Charley's Aunt" and chums.

Miss Annie L. Prescott of the LEDGER was present and had as guests, Miss Miriam R. Houghton of Dorchester, Miss Emily C. Wilde, Miss Prescott and Miss Alice K. Prescott of Quincy.

Church Wedding at Weymouth.

The marriage of Miss Fannie May Taylor of Weymouth and Mr. George W. Bates of Lynn was solemnized in the Porter M. E. church, at East Weymouth, Wednesday evening. Rev. Julian Wadsworth of Providence, R. I., officiated.

The maid of honor was Miss A. Gertrude Taylor, younger sister of the bride. She was prettily attired in a gown of white brocaded silk garnished with pink forget-me-nots. The best man was Mr. L. E. Bennett, and the bridesmaids were Misses Jennie Wadleigh, Marie E. Hawes, Jessie E. Stewart and Albenia Thurston. The ushers were Messrs. Charles E. Martin, S. E. Worthen, W. C. Sargent of Boston and Mr. George Fogg of East Cambridge.

The altar was very prettily decorated, and the ceremonies were witnessed by many friends.

Violet Tea.

A very charming violet tea was given at the Wollaston Congregational church on Wednesday evening under the auspices of the Ladies' Benevolent society. During the evening a programme of choice music was rendered, the soloists being Miss Carrie Raymond Lord and Dr. George B. Rice, and there was also instrumental music by the orchestra. The tables were tastefully decorated and light refreshments were served. The coffee was poured by Mrs. Elbert H. Brock, Mrs. H. T. Whitman, Mrs. William S. Washburn and Mrs. Barker.

HEAVY IN QUINCY.

An April Snow Storm Causing Considerable Damage.

FIRE ALARM POLES DOWN.

Electric Light and Telephone Service Impaired—Street Railway Off Time.

Quincy like many other cities in the Commonwealth is experiencing one of the most severe storms of the winter, and the general impression seems to be that "Old Prob," turned back a page the first of the month instead of tearing off a leaf.

It blew great guns all day Wednesday and in the afternoon a little rain fell which turned into a wet damp snow in the early evening which seemed to increase in fury as the night wore on, so that by 9 o'clock travelling on foot was difficult.

The snow that fell was of such a nature that it packed down solid on the rails of the street railway and schedule time was out of the question.

The snow also packed heavily on the telephone and electric light wires many of which snapped under the heavy weight.

At about 10 o'clock four of the large poles on Hancock street near Butler road fell with a crash carrying with them a score of wires which were immediately tangled up in a confused mass.

On the poles were two fire alarm circuits which protect Wollaston, Atlantic and part of West Quincy. All of the telephone company's trunk lines to Boston were on these same poles and a number of the electric light feed wires.

A gang of men was sent to the scene and one trunk line to Boston was fixed in a temporary manner, as were also the fire alarm and electric light wires.

This morning the telephone company found its service in a crippled condition. All of the lines to Weymouth, Hingham and Nantasket beach are out and many of the local subscribers are unable to get the central. A large force of men are out this morning however and much of the damage will be repaired soon.

The street railway company got to work early and this morning cars are running on time.

The blowing is something horrible this morning especially at street crossings where it is either necessary to wade through several inches of water or jump, the latter method being out of the question with ladies who unfortunately were obliged to be about.

The snow plows were about this morning but did little good as the paths plowed out, immediately filled up with water or snow.

Wednesday afternoon it blew so hard Joseph T. French did not dare to drive his barge to Germantown with the school children, and they were carried home in a carriage.

The no-school signal was sounded this morning shortly before eight o'clock, and again at noon.

April Snow Storms. The Brockton Enterprise of Tuesday said: There have been snow storms in April of previous years, discounting the present one. There was a heavy storm in April, 1841. Upon the wall in a store in an adjoining town was written "Fifteen inches of snow fell April 10th, 1841." In April, 1863, there was a heavy fall of snow on a date not now recalled, but by those who were young people then and are old people now it is recollect as something of a blizzard. In April, 1860, Mr. H. A. Brett drove over the road from Brockton to Boston in a sleigh. April 8, 1889, there was a heavy fall of snow, and snow fell on April 1, in 1888, 1889 and 1891.

The LEDGER record also includes these storms: April 19, 1856, a snow storm commenced which continued two days, causing heavy expense to the town for clearing highways. On April 2, 1818, a storm of snow and rain began which lasted eight days. But snow has fallen later than April. On May 8, 1863, an inch of snow fell, and on June 8, 1816, our record says it snowed.

Straw matting, 12 cents to 35 cents. Carpets, 22 cents to 85 cents. Henry L. Kincaide & Co.

The Dedham Court. The jury was out when the Superior court adjourned Wednesday in the case of John Veder of North Weymouth charged with keeping a liquor nuisance.

Sarah Phillips of Medway on a similar complaint was found not guilty.

Verdicts of not guilty were ordered in the two cases of illegal sale against John A. Welchlin at Needham. The following sentences were imposed by Judge Sherman. John F. Kelley of Weymouth, assault and battery on his wife, house of correction for four months, and malicious mischief, two months additional.

Charles H. Totman, alias Charles Stewart, breaking and entering poultry houses in Weymouth, two years and six months in the house of correction.

Thomas F. Griffin and Daniel Bresnahan, for breaking and entering the dwelling house of Florie Easterbrook in Weymouth Jan. 13, 1894. Massachusetts reformatory prison in Concord.

Portland, Me.

PATENTS

NOTICE TO INVENTORS.

THEIR was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and workshop, in the home, in the field, and in official life, require continual accession to the appearances and implements of each in order to save labor, time and expense. The political change in the administration of government does not detract from the value of the American inventor, who, bearing on the alert, and ready to perceive the existing difficulties, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. For great care and skill are required in choosing a competent and skillful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who have no patent "pay-off" system. Inventors who trust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endorser, who gets an allowance and obtains a fee for them. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F Street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, who are engaged in the business of the country, were instilled to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees and prepare and prosecute all applications, including mechanical inventions, designs, patents, trademarks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Write for instructions and advice.

The Old Home Paper.
III printed, old fashioned and homely,
bearing name of a small country town,
With an unfigured sheet at its wrapper queer
The postman in seen through it down.

Postcards and pictures are wanting;
For cablegrams fees search in vain;
Yonder great city sheet, with its "features" re-

Makes the columns seem shabbily plain.

But I can every line that it offers;
Each item brings something to view
Through the vista of years, of youth's pleasures and fears,

And serves their keen touch to renew.

The death of a girl I once counted,

The growth of a man once jeered,

The love of a friend whom I loved to command.

The fall of a man I revered.

As I read I drift dreamily backward

To days when to live was but joy;

I think and I pore till the city's dull roar

Grows faint—and again I'm a boy.

Rare perfumes of green country byways,

Far music of mowers and bees,

And the quaint little town, with its street lead-

ing down.

To the creek and the low bending trees.

Around me the forms of my comrades;

About us earth's glories unfurled;

Each heart unfilled, with the faith of a child

Looking forth to a place in the world.

And the paper tells how all have prospered.

I follow their lives as they flow,

Appending each gain and regretting each pain,

For the sake of the days long ago.

Then somehow my cares seem less heavy

For the voyage I take as I read,

And I fancy, forsooth, that the vigor of youth

Is imbued to replenish my need.

Above all the huge city dailies,

With portentous utterance wise,

This present page hath to search to spread out for an hour

A fairland sweet to mine eyes.

III printed, old fashioned and homely,

Bearing name of a small country town,

Wait and I seek for the moment each week

When the postman in scores it down.

—Charles Moreau Harger.

A Gentleman of Experience.

—Sighted the De Ruyter.

BOSTON, April 12.—The British steamer Georgian, from Liverpool, reports:

On the 8th, at 11 p. m., exchanged night signals with a steamer which Captain McConkey called the De Ruyter (Belg.) from Antwerp for Boston, now long overdue, and for whose safety grave fears have been entertained. At daylight the next morning saw the same steamer astern, and 10 miles to the eastward. She was following directly in the track of the Georgian, and was making fairly good progress, apparently.

—Sighted the De Ruyter.

—Sighted the De Ruyter.

BOSTON, April 12.—Frank Jones, general superintendent of prisons, has resigned. The resignation has been acknowledged by the executive council. The reason has not been stated. There seems to be a connection between the investigation recently made by the committee on prisons relative to prison contracts and the superintendent's resignation.

—Austria and Bohemia.

VIENNA, April 12.—In the Reichsrath, Premier Windischgratz, referring to the Bohemian question, declared that the government could not entertain the idea that only a personal union should exist between Bohemia and the monarchy. He expressed the hope that the whole question would shortly be settled in a manner satisfactory to all parties.

—No Reason Given.

BOSTON, April 12.—Frank Jones, general superintendent of prisons, has resigned. The resignation has been acknowledged by the executive council. The reason has not been stated. There seems to be a connection between the investigation recently made by the committee on prisons relative to prison contracts and the superintendent's resignation.

—Lack of Financial Backing.

WASHINGON, April 12.—The proposed expedition to the Arctic regions, which was intended to be made in a few weeks under the leadership of Robert Stein, has been abandoned until next year, owing to lack of financial support.

—Raised \$500.

BANGOR, Me., April 12.—The Bangor Baseball association was formed last night, and elected Chris Toole, president; J. Robert Boyd, secretary. Five hundred dollars has been pledged for the support of a team.

—Convict Moore Is Dead.

ROCKPORT, Me., April 12.—Col. John C. Breckinridge will be dropped from the roll of honorary membership in the Union League club in this city immediately after the verdict is rendered in the suit pending in Washington.

—To Spread Temperance Gospel.

TRENTON, April 12.—A number of ladies and several ministers appeared before the house yesterday and advanced arguments in favor of the bill requiring instruction in scientific temperance in the public schools.

—Republicans Thank Hill.

ALBANY, April 12.—The Ainsworth committee, a resolution was adopted in the senate, thanking David B. Hill for his ardent opposition of the Wilson tariff bill and the un-American policy of the present administration. An amendment to strike out all references to the administration was defeated.

—Taken for a Burglar.

CHICAGO, April 12.—Nicholas Philomino, an escaped lunatic from Hartford, was found in the premises of Dr. Franklades. He was at first thought to be a burglar, and was arrested, but was afterward committed to a hospital.

—SOLDIERS, CHILDREN, PARENTS.

MONTEVIDEO, April 12.—Advises from Rio Grande do Sul City confirm the rumor that Admiral Mello had been successful in his siege of that city.

—Clearwater's Turn.

CLEVELAND, April 12.—In the continuous pool match last night Clearwater's score was 212, and D'Orsi's 187.

—Henry L. Kincaide & Co. claim they can sell safety bicycles at a close margin while other agents are hustling to get the big profit on one. \$69.75 is their price for the \$85 Crawford.

—Pensions for the disabled.

NEW YORK, April 12.—Nicholas Philomino, an escaped lunatic from Hartford, was found in the premises of Dr. Franklades. He was at first thought to be a burglar, and was arrested, but was afterward committed to a hospital.

LOSS OF A MILLION

By the Burning of Hamlin's Glucose Works at Buffalo.

MANY LIVES PROBABLY LOST.

Census of Employees Will Have to Be Taken.

BUFFALO, April 13.—The plant of the American Glucose company was burned last night. The loss will be about \$1,000,000. The insurance is \$855,000.

The works of the company consisted of an 11-story brick building used for the manufacture of glucose and starch, an eight-story brick building used as a power house and as a place for making the cattle feeding product, an eight-story brick building used as a refinery and an eight-story storehouse.

The fire was discovered in the dynamo room of the main building by the engineer. In 10 minutes the whole 11 floors were on fire, flames were bursting through the windows and darting from the roof. There were perhaps 125 men at work last night. It will not be known until a census of the employees is taken whether one man or 50 men were cremated.

It is known that some of the men escaped by the fire escape and those on the lower stories jumped into the canal.

A great many of the men at work on the upper floors were Poles and Germans. They may have been burned and they may not. It is impossible to tell now. The chances are, however, that several men were burned to death.

Destruction Was Complete.

The fire spread with incredible swiftness. In 15 minutes the entire main building was a mass of flames. In 20 minutes the walls began to fall, and they fell at frequent intervals until, inside of 45 minutes, there was but one corner standing. The main building was connected with the power and feed house by an elevated bridge. The flames crept across this and ignited the feed house.

This burned more slowly than the main building, but it was but a short time until the flames had complete control of the buildings.

Meanwhile the Buffalo city fish market, which stood just across the street, took fire. Five firemen were sent inside to fight the flames, and a number of streams were turned on the roof.

The building was a long, low, brick structure, and the firemen made a good fight to save it, but a portion of a blazing wall fell on it, and started the roof to burning fierily.

Firemen Bodily Injured.

The firemen inside did not know of this, and no one told them. The consequence was that in a few minutes the roof fell in and buried the firemen. Three of them escaped with no other injuries than a few bruises, but John Weber and Lieutenant Schraeder were not so fortunate. Weber was taken out unconscious. His face is badly burned, some of his ribs broken and he has also internal injuries. It is a question whether he lives or dies. Lieutenant Schraeder had his back and legs hurt.

The feed house was completely destroyed. The refinery and the storehouse went next, and by 11 o'clock there was nothing left of the mammoth establishment but a few tottering walls.

The great works are controlled by C. J. Hamlin, the famous horseman, and his sons. There is a branch of the institution at Peoria, Ills., and another in this city. By a secret process corn was treated with sulphuric acid, and glucose was the result. This was sold for use by confectioners, preservers and the like.

At 12 o'clock the progress of the fire was checked, but it was several hours before it was completely under control.

Commonwealth Captures a Train.

EVANSTON, Wyo., April 13.—General Kelly's army of the commonwealth, which had encamped on the plains of Utah, eight miles east of Ogden, captured a U. S. Pacific freight train made up of box cars. General Kelly assumed command of the train and of foot-soldiers and weary crusaders, and the engineer and fireman obeyed orders as issued by the commander.

A Test Case.

NEW YORK, April 13.—Papers were served on the Farmers' Loan and Trust company as trustees and the Erie railroad in a suit brought to restrain the Erie from issuing the proposed new \$70,000,000 of general bonds. The object of the suit is to test the validity of the bonds.

McKane Will Stay In Jail.

NEW YORK, April 13.—Judge LaCombe of the United States court denied the writ of habeas corpus asked for in the case of John Y. McKane.

Eight Thousand Will Be Idle.

DENVER, April 13.—Eight thousand Colorado coal miners will go out on strike April 21.

New West Point Cadets.

WASHINGTON, April 13.—The following have been appointed cadets at the United States Military academy: E. H. Shaw, Chelmsford, Mass.; Percy Hand, Fitchburg, Mass. (alternate).

Judge Strong Confirmed.

AUGUSTA, Me., April 13.—At a meeting of the executive council yesterday, the newly appointed judge of the supreme court, S. C. Strong, was confirmed and took the oath of office.

Sixty Years a Preacher.

ASTORIA, N. Y., April 13.—Rev. Bishop Horatio Southgate died at his home here last night. He was born in Portland, Me., July 5, 1812, and was ordained in 1832.

Gold Shipments About to Begin.

WASHINGTON, April 13.—The secretary of the treasury has received notice that about \$2,000,000 in gold coin will be required for export to-morrow. The shipment is probably the beginning of the usual spring exportation and likely to continue for some time. This fact, however, is not regarded as a cause for alarm.

The New York post office has run out of Columbian two cent stamps and people elsewhere who object to using them are ordering a supply of the small ones from that city.

IDEAS OF POPULISTS

Set Forth in a New Tariff Bill Constructed by Peffer.

REFUSAL TO COUNT A QUORUM

Has Brought About a Crisis In House Legislation.

WASHINGTON, April 13.—Senator Peffer occupied the entire time of the senate yesterday afternoon, and from 1 o'clock until 5 continued, without sign of fatigue, the criticism of the Wilson bill and the McKinley bill indiscriminately and to sound the praises of a substitute bill which he proposes to offer.

In this populistic tariff bill everything which the farmer uses is to be free, or practically so, while the support of the government would rest entirely on the shoulders of the urban population. Sugar is to be made free, with a bounty paid to producers, for the benefit of the meat and grain growers of Kansas and Nebraska, and instead of a revenue of \$30,000,000 in protective duties, the entire tax, this feature of his bill would produce \$75,000,000.

Senator McMillan presented three amendments to the tariff bill intended to be proposed by him. One of them proposes to change the duty on cigars, cheroots and cigarettes from \$3 a pound and 25 per cent ad valorem duty to \$4.50 a pound and 25 per cent ad valorem; another takes carbonate of ammonia from the free list, and makes it dutiable at the rate of 12 cents a pound, and the third puts perfume pomades on the free list.

Senator Frye, from the committee on commerce, reported to the senate Mr. Hoar's amendment to the sundry civil appropriation bill appropriating \$70,000 for a lightship in Boston harbor.

In the morning hour the urgency deficiency bill was considered without result, and was taken up again at 5 o'clock. After considerable discussion of the measure the senate adjourned.

An Impotent Majority.

The Democratic managers of the house yesterday decided that the time had come when some effective method should be adopted to force the Republicans to participate in legislation.

Throughout the last congress, and during the recent congress, the Republicans have on frequent occasions deadlocked the house for days by refusing to answer to their constituents' demands. As there was no rule to compel them to vote, and as the speaker declined to adopt Mr. Reed's expedient of counting a quorum without the authorization of a rule, the house was constantly at the mercy of the minority.

The action of Speaker Crisp in securing the adoption of a rule by his committee fining members \$10 who refuse to vote, and all members who absent themselves without leave the same sum, has created intense feeling among the Republican representatives. Both Reed and Burrows opposed it in committee and notified the speaker that he would have to secure a quorum of his own party to pass it. There is much doubt expressed as to whether a quorum of the Democratic party in the house will vote for it.

It directs the sergeant-at-arms to withhold all moneys from members where fines have been imposed. It is evident from the expression of members on the floor that there will be a bitter contest over the adoption of the proposed rule. Speaker Crisp demanded that the rule which had been adopted on the 1st be the only practicable solution of the existing problem. The first vote on its adoption was: Yeas, 142; nays, 11 (Republicans not voting). No quorum. A call of the house was ordered.

The Minority's Claim.

The course which Speaker Crisp has been pursuing towards ex-Speaker Reed has had the effect of embittering many of Reed's friends. They have made up their minds that so long as the speaker pursues his course toward the minority they will resort to any method that may be necessary, not only to obstruct, but to defeat, legislation that is distasteful to them.

Whether such action is altogether patriotic is a question which does not enter into the matter.

The minority claim that its course is fully justified. They hold that the Democrats have 218 representatives and that they ought to be able to have a quorum of their own party present whenever any important legislation is pending. If the speaker and his associates cannot control the party and keep a quorum in their seats, they should, the minority asserts, adopt some rule that will enable them to conduct the business in a proper manner.

The minority claim that its course is fully justified. They hold that the Democrats have 218 representatives and that they ought to be able to have a quorum of their own party present whenever any important legislation is pending. If the speaker and his associates cannot control the party and keep a quorum in their seats, they should, the minority asserts, adopt some rule that will enable them to conduct the business in a proper manner.

Won't Follow Reed's Rule.

Many of Speaker Crisp's friends are urging him to count a quorum. There is no doubt in their minds as to the legality of such proceedings. The speaker, however, is unwilling to count a quorum, because such action would be not only inconsistent, but a stratification of his and his party's course, and would vindicate ex-Speaker Reed.

The Democratic managers in the house and in the senate are convinced that some rule or method should be adopted to enable the majority to proceed in an orderly way with the important business of congress. The Democratic managers in both houses have been in conference concerning the matter, and probably the rule adopted by the committee on rules will solve the problem.

GREEN & PRESCOTT,
Editors and Proprietors.

Yearly subscription, \$5; by the month, 50 cents. Single copies, 2 cents. Advertising rates upon application.

The Quincy Patriot.

Published weekly on Saturday mornings, was established in 1837, and is the acknowledged leader in Norfolk county.

Yearly subscription, \$2.50; single copies, 5 cents.

TELEPHONE, 213-3 QUINCY.

COOPERATION.

The DAILY LEDGER proposes to make the heading for its brief local items or city chit-chat a special feature for the next few weeks. A different "scare head," similar in type and arrangement of lines as the one today, (count letters to a line), is wanted for each day, and the publishers offer a year's subscription for the most original and appropriate one used before July 1, 1894.

The city editor will select the best one published each week and later will decide how the final selection shall be made. The headings will be published in the order received and the name of the writer will appear if there is no objection.

Editorial Comment.

THE LEDGER hopes to present in a few days the essays which were awarded the prizes in the High school contest. Three were on local subjects and will doubtless be instructive as well as meritorious.

SEVERAL ATTEMPTS have been made to obtain of the principal a list of pupils attending the new Woodward Institute, but Miss Small does not think it desirable, as it is a private school. We had obtained a nearly complete list from other sources, but in deference to the wishes of the principal we will postpone the publication unless there is a demand on the part of our readers for the news. We do this reluctantly, believing that the public have a right to know who is attending the school, and that the pupils and parents would be pleased to see the names in the LEDGER. When newspapers are refused such news can they be criticised for publishing other matter!

WEYMOUTH EXTENSION.

The Quincy & Boston Company Want Subscriptions to Stock.

About sixty gentlemen were present at the meeting held at East Weymouth Thursday evening to discuss the matter of extending the Quincy & Boston street railway from North Weymouth to that place. W. C. Earle presided and W. J. Dunbar was secretary. The road was represented by President John R. Graham, Treasurer Fred H. Smith, Directors Dr. William A. Drake and John A. Duggan, and Supt. Benj. J. Weeks.

The sentiment of the citizens present was that the road was badly needed and should be built as soon as possible.

The road stated that the company was ready to build the extension of its line but that it was necessary for the East Weymouth citizens to take hold and offer the company pecuniary assistance in order to have the line built this season.

Messrs. Michael Sheehey, Franklin D. Thayer and Willard J. Dunbar were appointed a committee to canvass the village for subscription to the stock of the company. Another meeting will be held Saturday evening, April 21.

A Little Tot's Big Tumble.

The Quincy friends of Mrs. Mary A. Woodward (nee Rianhard) now of Cincinnati, Ohio, will be interested in this item from the Commercial Gazette of April 5. The child escaped with nothing more serious than a severe sprained ankle:

Van Lear, the three-year-old son of Mrs. Mary A. Woodward, while playing with a number of other children in the third story attic of the Woodward residence 44 Gilman avenue, Mt. Auburn, yesterday afternoon about 2 o'clock, fell through a window and to the ground, nearly thirty feet below, striking on a brick sidewalk.

"Strange to say, beyond being very badly bruised, the youngster, who is chubby and healthy, seems to have escaped injury. Dr. Allen who was summoned, made a careful examination, resulting in finding that no bones had been broken. Nor were there indications of internal injuries. Dr. Allen is of the opinion that the boy will suffer no serious consequences from his great tumble."

Fire at Braintree.

A domestic in the employ of Frank H. Dearing was awakened about 3 o'clock this morning by the smell of smoke and investigation found the attic ablaze. The fire was subdued after a hard tussle. The loss will be \$3000, which is fully covered by insurance. The furniture on the lower floor was saved but the furniture on the upper floor was ruined by water.

A CARD OF THANKS. We wish to thank our friends for their kind words of sympathy and us tokens of love for our son Arthur.

MR. AND MRS. GEO. SHEPHERD,
4 River street,
Quincy, April 13-14-15

PRIZE SPEAKING.

A Creditable Exhibition by High School Pupils.

FIRST PRIZE TO MISS VOGLER.

Prizes for Essays and Translations Are Also Awarded.

TELEPHONE, 213-3 QUINCY.

COOPERATION.

The DAILY LEDGER proposes to make the heading for its brief local items or city chit-chat a special feature for the next few weeks. A different "scare head," similar in type and arrangement of lines as the one today, (count letters to a line), is wanted for each day, and the publishers offer a year's subscription for the most original and appropriate one used before July 1, 1894.

The city editor will select the best one published each week and later will decide how the final selection shall be made. The headings will be published in the order received and the name of the writer will appear if there is no objection.

Editorial Comment.

THE LEDGER hopes to present in a few days the essays which were awarded the prizes in the High school contest. Three were on local subjects and will doubtless be instructive as well as meritorious.

SEVERAL ATTEMPTS have been made to obtain of the principal a list of pupils attending the new Woodward Institute, but Miss Small does not think it desirable, as it is a private school. We had obtained a nearly complete list from other sources, but in deference to the wishes of the principal we will postpone the publication unless there is a demand on the part of our readers for the news. We do this reluctantly, believing that the public have a right to know who is attending the school, and that the pupils and parents would be pleased to see the names in the LEDGER. When newspapers are refused such news can they be criticised for publishing other matter!

WEYMOUTH EXTENSION.

The Quincy & Boston Company Want Subscriptions to Stock.

About sixty gentlemen were present at the meeting held at East Weymouth Thursday evening to discuss the matter of extending the Quincy & Boston street railway from North Weymouth to that place. W. C. Earle presided and W. J. Dunbar was secretary. The road was represented by President John R. Graham, Treasurer Fred H. Smith, Directors Dr. William A. Drake and John A. Duggan, and Supt. Benj. J. Weeks.

The sentiment of the citizens present was that the road was badly needed and should be built as soon as possible.

The road stated that the company was ready to build the extension of its line but that it was necessary for the East Weymouth citizens to take hold and offer the company pecuniary assistance in order to have the line built this season.

Messrs. Michael Sheehey, Franklin D. Thayer and Willard J. Dunbar were appointed a committee to canvass the village for subscription to the stock of the company. Another meeting will be held Saturday evening, April 21.

A Little Tot's Big Tumble.

The Quincy friends of Mrs. Mary A. Woodward (nee Rianhard) now of Cincinnati, Ohio, will be interested in this item from the Commercial Gazette of April 5. The child escaped with nothing more serious than a severe sprained ankle:

Van Lear, the three-year-old son of Mrs. Mary A. Woodward, while playing with a number of other children in the third story attic of the Woodward residence 44 Gilman avenue, Mt. Auburn, yesterday afternoon about 2 o'clock, fell through a window and to the ground, nearly thirty feet below, striking on a brick sidewalk.

"Strange to say, beyond being very badly bruised, the youngster, who is chubby and healthy, seems to have escaped injury. Dr. Allen who was summoned, made a careful examination, resulting in finding that no bones had been broken. Nor were there indications of internal injuries. Dr. Allen is of the opinion that the boy will suffer no serious consequences from his great tumble."

mention,—Mary H. Moody.
Special prize, \$2,—Jacob Warshaw, '96.

MILTON.

It is rumored that D. Chute, builder of
Lower Mills, has the contract for the new
block. The foundation is completed.

Mr. Henry Mackay is surveying East
Milton for the new board of assessors.

The White church Sunday School was
not held Sunday on account of the severe
storm.

The Baptists held their special revival
meetings this week.

The Record Dry Plate company are to
build a large factory on Granite place.

The people are having a good laugh at
Officer O'Leary, one of Milton's finest.

While on his way from Quincy court to
Dedham with William Buchan, who had
been convicted for looking upon the wine
when it gave its color in the cup and par-
taking thereof, the prisoner asked to be ex-
cused and jumped off the train while it was
in full speed. He turned two or three
somersaults and then picked himself up
and departed apparently unhurt. O'Leary
hesitated about taking the fearful leap and
was born away from his bird without a
broken wing. Buchan has not yet ap-
peared.

Mr. David J. Brown, superintendent of
the Baptist Sunday School is spending two
or three weeks for his health in New
Jersey.

Mr. and Mrs. Kelsey of Washington
street gave a maple sugar party on Friday
evening, April 6. Each guest received a
saucer of candied syrup. After a bountiful
collation the rest of the evening was
spent in games and social conversation.

The PATRIOT's article on the new East
School building seems to have voiced the
sentiments of the residents of East Milton.

The Granite house after being repaired,
has been opened for the summer.

Furniture moved. Henry L. Kin-
caide & Co.

The Largest in the United States.

The advertising agency of N. W. Ayer
and Son of Philadelphia, is unquestionably
the largest and probably the best equipped
of any in the United States. It has more
and larger patrons than any other, and
taking one thing with another, it is question-
able whether they are not entitled to
the credit of securing for their patrons bet-
ter service than can be counted on from
any other. It should be, and doubtless is,
a great source of pride and satisfaction to
Mr. Ayer and Mr. McKinney that they
have been able, while remaining in Phila-
delphia, to build up a larger advertising
business than has ever been secured before
by any advertising agency in New York or
elsewhere.—Printers' Ink.

Dollars look as large as a Ferris
wheel when buying furniture from Henry
L. Kincaide & Co. Cut prices on every-
thing.

April Magazines.

The singular good fortune has fallen to
the lot of the Cosmopolitan Magazine of
presenting one of the most remarkable
pieces of fiction ever written—remarkable
because of its author and remarkable be-
cause it has remained unsuspected and
undiscovered for more than a hundred
years, only to be given to the world at last
in an American magazine. It is a Corsican
story written by Napoleon Bonaparte.

Godey's Magazine for April is another
splendid number of this old-time and
favorite Magazine. There are the opening
chapters of a story by Frederic
Reddall, called Loyal Foes, and magnifi-
cently illustrated by Robert W. Chambers.
Short stories, illustrated articles, poems, a
comedy, and fashions make an interesting
magazine.

Henry L. Kincaide & Co. claim
they can sell three safety bicycles at a close
margia while other agents are hustling to
get the great big profit on one. \$69.75 is
their price for the \$85 Crawford.

These Possibles will save
you money.

Suppose you gives us a
trial.

Quincy, April 3. tf

The gold mining business in California
has seldom looked brighter than at the
present time. All old abandoned mines are
now being opened out and worked with
success; water, improved methods of ex-
tracting and milling the rocks, cheap labor
and reduced cost of supplies, enabling the
miner to work rock to a profit for what it
cost him to mill it in the early days.

Eddy's Refrigerators—the best in the
world. 20 per cent. discount from the
manufacturer's list. Henry L. Kincaide
& Co.

DIED.

KELLEY—In Quincy, April 12, Mr.

Milton Kelley, aged 80 years.

PLUMPNESS vs. EMACIATION.

What makes the difference?

It is a question of Food and its Digestion.

Many people think we must eat fats and oils to become fleshy. This is a serious mistake. We should eat starch foods. If we cannot digest well-cooked starch foods use Pre-Digested Starch Food—**PASKOLA**. Paskola will not only be absorbed at once by the most delicate stomach, but will create an appetite for other food. An increase in flesh and strength will follow its use.

Mr. C. H. Butler, a druggist of Oswego, N. Y., says: "A young lady just in reports a gain of five pounds after the use of two small bottles of 'Paskola'."

Send for pamphlet and for particulars to The Pre-Digested Food Co., 30 Reade St., N. Y. A. G. DURGIN, Quincy, Mass.

PATENTS

NOTICE TO INVENTORS.

THESE WAS never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The consequences of this are being felt in every workshop, the household, on the farm, and in official life, require continual accessions to the apparatus and implements of each in order to save labor, time and expense. The governmental change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiencies, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skillful attorney to represent him in his application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially in this advice applicable to those who have no patent, no pay, no place to go. Inventors who advertise their business to this class of attorney do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee thereon. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F Street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed by the Patent Office. The Press Claims Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copy rights, and other intellectual property, fidelity reports, and gives equal attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Write for instructions and advice.

JOHN WEDDERBURN,
618 F Street,
Washington, D. C.

A PRAYER.

I do not ask, O Lord! that life may be a pleasant road.

I do not ask that thou wouldst take from me aught of its load.

I do not ask that flowers should always spring beneath my feet.

I know too well the poison and the sting Of things too sweet.

For one thing only, Lord, dear Lord, I plead—

Lead me right.

Though strength should falter and though heart should bleed,

Through peace to light.

I do not ask, O Lord! that thou shouldst shed Full radiance here.

Give but a ray of peace, that I may tread Without a fear.

I do not ask my cross to understand,

My way to see;

Better in darkness just to feel thy hand

And follow thee.

Joy is like restless day, but peace divine

Like quiet night.

Lead me, O Lord! till perfect day shall shine Through peace to light.

WILL CONFER WITH CITIZENS.

NEW LONDON, Conn., April 13.—General Hyde, president of the Bath (Me.) iron works, and his son, made a personal inspection of the site proposed for the removal of the works to New London. Mr. Hyde was greatly pleased with it. He will return next week for a formal conference with citizens regarding the position recently made by his company.

A HEAVY SENTENCE.

BARNSTABLE, Mass., April 13.—The attention of the superior court the past two days has been occupied in the case against John Gannon, for breaking and entering the residence of Atkins Hughes of Truro. The jury having found him guilty, Gannon was given 15 years in the state prison, one day solitary.

NEGLECTED HIS DUTY.

BRANFORD, Conn., April 13.—Station Agent Tomlinson was arrested and charged with criminal negligence in having caused the death of Samm Stent, who was struck by a train and killed. Tomlinson was not on duty at the crossing when the accident occurred.

ATTENDED BY THE FOUR HUNDRED.

NEW YORK, April 13.—Society gathered in force within the walls of St. George's church, when the wedding of Miss Juliet Morgan, daughter of Bunker Morgan, to W. P. Hamilton was celebrated. A reception followed at the home of the bride's parents.

TRINITY'S EXPECTATIONS.

HARTFORD, April 13.—Track athletics at Trinity have taken a great boom, and the college looks for a good place in the New England intercollegiate meet this spring.

BY A LARGE MAJORITY.

BUDAPEST, April 13.—The civil marriage bill was read yesterday in the diet for the first time by a majority of 161 votes.

THE UNAPPRECIATIVE EDITOR.

Alas!—That nasty old magazine has sent back our story!

Mae—The mean old things! And I had tied the manuscript in such beautiful blue ribbon too.—Puck.

PERFECTLY TRUE.

Bangs—They seem to lead a hand to mouth sort of existence, do they not?

Bangs—Who?

Bangs—Who?—New York World.

NEATLY FOILED.

Stupid—Man—I presume, Mrs. Oldhead, that beautiful girl is your grandchild.

Angry Woman—Darn that little girl look like a grandchild, pray!—Hello,

ORGANIZED.

"I understand that Dr. Firstly at your church now preaches without notes."

"Yes. We are on a cash basis entirely."—Newport News.

ANTICIPATED.

"Have a cigar, Jack? I cabbaged it."

Jack (after a few puffs)—You have made a mistake. The maker did that.—Newport Daily News.

ANOTHER GAME FOR CLEARWATER.

CLEVELAND, April 13.—The score in the continuous pool match last night was Clearwater, 197; D'Oro, 139.

OUR NATION'S NEEDS.

AN APPEAL TO DEMOCRATS TO RELIEVE DISTRESS NOW PREVAILING.

PLEDGES MUST BE FULFILLED.

ECKELS SAYS IT WILL BRING GLORY IN THE FUTURE.

BOSTON, April 13.—The Young Men's Democratic club of Massachusetts observed the anniversary of the birth of the patriarch of the party, Thomas Jefferson, by giving aousing banquet at the Quincy House last night.

It was one of the largest gatherings the club has held since its inception, and in a measure, was owing to the presence of several speakers of national reputation.

In opening the post-prandial exercises President Stratton aroused the members to a high pitch of enthusiasm by making a sharp thrust at Senator Hill, in saying that no good Democrat would attack, either in the seat of a private or a public introduction, a Democratic committee or attempt to belittle the dignity of the president by insidious attacks upon him.

The speakers were Comptroller Eckels, Secretary Sterling Morton, Hon. John E. Russell, ex-Governor William E. Russell, Mayor Matthews and many others.

Mr. Eckels' speech was the one in which the most interest was centered, and was, in substance, as follows:

Eckels' Speech.

Comptroller Eckels said that he accepted with pleasure the opportunity of paying a tribute of respect to the first and greatest of American Democrats, of again renewing fealty to professed Democratic principles and loyalty to an administration which has been unfaltering in enforcing those principles.

After paying a handsome tribute to John E. Russell, on his speech to the Democracy of Illinois, he took up the questions of the day, and said that recent events showed that thoughtful attention must be given to the present and future of Democracy. The position it occupies today was different to any time within the memory of those present. It bears the responsibility of the national government and must be held amenable for the conduct of public affairs.

Its chosen representative fills, with credit to himself and honor to the party, the office of chief magistrate of the nation, while Democratic majorities prevail in both houses of congress. Its commission was from the electors who drove from power a party that had been recreant to the vast interests of the country and indifferent to the needs of the people.

Judge Wilson Makes a Powerful Argument For Miss Pollard.

BEN BUTTERWORTH'S WEAPONS

Prove to Be Boomerangs For His Own Argument.

WASHINGTON, April 14.—The great speech of Major Ben Butterworth in the Pollard-Breckinridge case was surpassed by the greater argument of Judge Jere Wilson, who began the final summary for the plaintiff.

Doubt had been current whether the impeachment left by the federal attorney in the ex-congressman from Ohio could be eliminated by the more matter-of-fact methods of the ex-congressman from Indiana. Judge Wilson, however, bears an enviable local reputation as a pleader of convincing powers. The audience, which crowded in to hear him, was in itself a compliment, and the attention which it gave him was notable.

JUDGE WILSON.

There were some advantages in the situation for Mr. Wilson, which he was most alert to grasp. He had been a playmate of Ben Butterworth's in boyhood, back in the Miami hills, in the country life, which the Quaker politician had entirely conjured with. He was able to return with the same ammunition which had been employed against him, and to turn some of his opponent's weapons into damaging boomerangs.

The defense of Adam recalled Breckinridge's position, and to the credit of humanity, he said, Adam had always been deemed a coward and a craven. He did not attempt to assert that his client was free from fault, but that just as far as he had strayed from the path of womanly virtue she had been led by the man.

About Judge Wilson.

To appreciate Judge Wilson's speech it would be necessary to know the man and his methods. He is tall, slender as Senator Evans, and with a waist smaller than a woman's when his coat is buttoned around it, with a broad skull an iron-gray imperial and a slight smile of the same kind. His voice is a bass, which seems to come from his boots, and is frequently broken by a hacking cough. He talks slowly, deliberately. He has the facts in the testimony marvelously under command, and his ability as a straightforward logician is accounted his greatest power.

On two or three important points he drew logical deductions from the evidence, which surprised even the lawyers. Judge Wilson has a long right arm, topped with an accusing finger, which serves to drive his deductions home. That long, bony forefinger was several times levelled in denunciation at Colonel Breckinridge, which made the Kentucky orator shift uneasily in his chair.

It was a terrible arraignment to which he was subjected, and he would have been something more or less than human had he not shown the effect of it.

Judge Wilson will continue for an indefinite time today, and then Judge Bradley will deliver his charge to the jury, and the trial will be ended when a verdict is announced.

Who Will Blame Her?

NEW YORK, April 14.—A Washington dispatch to a morning paper says it is rumored that Mrs. Breckinridge, immediately upon the termination of the present suit, will institute one for divorce against the congresswoman.

She is said to have provided the money for her private fortune for the expenses of his defense, and is shocked and prostrated at the frank testimony her husband gave of his relations with Miss Pollard, and their continuance after the date of her marriage.

Strike on the Great Northern.

ST. PAUL, April 14.—At noon yesterday a strike of trainmen and telegraph operators took place on the western sections of the Great Northern railway lines. Some trains have been temporarily suspended, but the officials of the company do not anticipate any serious or prolonged trouble.

A Naturalization Fraud.

BROOKLYN, April 14.—Vincentino De Vito, the Italian banker and broker, has been called upon to plead to the indictment of subornation of perjury in procuring naturalization papers for one Philip Mancini on March 21 last, and selling them to the latter for \$15.

Elopers Wedded.

PITTSFIELD, Mass., April 14.—Charles Shean and Harriet Cole, an eloping young couple from Bridgewater, N. Y., were married by Rev. E. H. Brady, the Baptist minister at Dalton, having secured a certificate from the town clerk. They returned home yesterday.

BAY STATE LEGISLATURE.

Session of the Senate Was Very Brief.

Important Committee Reports.

BOSTON, April 14.—The senate completed its business in three-quarters of an hour, and adjourned at 11:45.

The committee on judiciary reported a bill vesting in mayors the authority, without the consent of the aldermen, to revoke licenses for Sunday entertainments.

Mr. Lawrence introduced on leave a bill to resolve that the legislature request the senators and representatives of the commonwealth to urge upon congress the necessity of prompt and vigorous action to exterminate the gypsy moth.

The house took from the table and disposed of the limitation on the number of liquor licenses, each bill being rejected.

An order was adopted providing that hereafter morning sessions of the house begin at 10:30.

The bill authorizing the city of Worcester to incur indebtedness beyond the limit allowed by law for the purpose of building a city hall was passed to be engrossed.

The committee on expenditures reported against the bills to reconstruct the state house.

The committee on prisons reported against the bill to abolish the board of prison commissioners.

The committee on revision of the incorporation laws reported a bill prohibiting the issue of stock or scrip dividends by quasi-public corporations.

The committee on expenditures has agreed to report in favor of one normal school, its location to be fixed by the board of education; also to reduce the amount of appropriation from \$160,000 to \$100,000.

Ought to pass was reported on the bill which proposes to tax all shares in companies held by the American Bell Telephone company. The amount involved is said to be about \$2,000,000.

Mr. Spring moved that the bill granting the American Bell Telephone company an increase of capital be laid on the table. The motion was debated, but was carried and the bill passed.

The joint committee on prisons submitted its report on the order that the committee investigate the management of the office of superintendent of prisons.

Nasty Weather Continues.

NEWPORT, R. I., April 14.—This place is cut off from the world by telegraph. Lines are down, and owing to prevailing high winds are not being repaired.

The harbor is full of fishermen, but no serious accidents are reported.

PROVINCETOWN, Mass., April 14.—There is a great deal of activity in the harbor, which has visited the coast during this week, and as a consequence the harbor is filled with coastwise vessels, barges, dories and fishermen.

Died in a Foreign Land.

DOVER, N. H., April 14.—Word has been received of the death in Italy of Roswell Douglass Sawyer, brother of ex-Governor Sawyer. Deceased for the past 10 years had devoted himself to the study of art. His remains will be brought to this country for interment.

Mitre's Followers Join Radicals.

NEWBURYPORT, Mass., April 14.—The schooner Jennie M. Carter, owned at Salisbury, was reported to have been captured by the American revolutionaries.

The crew of the schooner were all captured.

Fallen One Pulpit 30 Years.

BOSTON, April 14.—Rev. James Howard Means, who died 30 years ago, of the Second Congregational Church, Dorchester, died yesterday after an illness of 17 years. He was born in this city in 1822 and resided here all his life.

MR. AND MRS. JONATHAN THAYER.

BRAINTREE'S OLD COUPLE.

The Observer's Report of the Diamond Wedding of Mr. and Mrs. Thayer.

In its report of the diamond wedding of Mr. and Mrs. Jonathan Thayer at Braintree this week the Observer says:

The event was rightly regarded as a most remarkable one. We do not think that like ever occurred before in the town of Braintree.

It would be incorrect to say that Mr. and Mrs. Thayer are as half and hearty as they both were twenty years ago. Both show unmistakable signs of the weight and strain of years.

When the writer called to tender congratulations he found Mr. Thayer taking a nap on the sofa and did not disturb him, but Mrs. Thayer he found sitting erect and bright in her easy chair.

Having been introduced he shook her kindly by the hand and in answer to questions, put for the purpose more especially to test her memory and sense of intelligence, was surprised how correct and astute she proved to be. Mrs. Thayer is pretty hard of hearing but we succeeded in making her understand us perfectly.

In evidence of her activity and appreciation of the remarkable event in which she was honored in being one of the central figures, we had a portion of wedding cake made by her own hands, exactly after the pattern of her first wedding cake; ingredients and all; no frosting or fillings.

The engraving is kindly loaned by the Globe.

about it, but palatable withal and of excellent quality. We have an idea of having what remains, put into a frame and keep it as a charm or ornament.

Mr. Thayer was for many years engaged in the blacksmith business. He worked on all the forts in Boston harbor when they were in process of construction. He gave up active work about 15 years ago.

Mr. Thayer has always taken an active interest in political matters. He cast his last vote for Cleveland in 1882. In his earlier days he belonged to the militia, and was a sergeant in a company at Hingham.

Mr. Thayer was for 40 years sexton of the Congregational church.

Miss A. L. Bumpus of Quincy forwarded the following verses:

Dear friends, you've travelled far along

The way of life together,

And love has kept your courage strong

In all the changing weather.

Accept, I pray, my wishes kind,

On this, your diamond meeting;

May joy light up your hearts today

At every kindly greeting.

Seventy-five years! how quickly flies

The time we pray to tarry;

You scarcely thought 'twould be so long

When you said, "Let marry."

The Auld Lang Syne's a happy tune,

So be the future ever;

And happily you still walk on

Adown life's close together.

The engraving is kindly loaned by the Globe.

BRAINTREE

On Wednesday night a testimonial concert and ball will be given for the benefit of Chester Kane, son of Mr. W. A. Kane, of South Braintree, who is at present in Florida in the interest of his health, took place at the Town Hall.

The memorial windows being placed in the new Baptist church are pronounced to be very handsome.

Rev. L. B. Hatch will occupy the pulpit of the Baptist church in Weymouth on next Sunday morning.

The next meeting of the Pine Tree club takes place Tuesday evening, April 17, at the family residence of H. A. Jones, Tremont street, South Braintree.

About twelve carloads of lumber have arrived at South Braintree, for the new shoe shop, which is to be erected on the site of the Ames shovel works.

Rev. A. A. Elsworth will preach at First Congregational church next Sabbath morning at 10.30. Subject: "What the poor have done for the church, and the church for the poor." All cordially invited.

Edward F. Rudderham, night police, has resigned that position and gone to base ball playing in the employ of a Providence club. He being a crack player. John Gallivan has been appointed in his place of the night police force. A pretty good appointment, even on civil service reform principles.

The funeral of John W. W. Rowell was held at the Methodist church, South Braintree, Sunday afternoon. Rev. Dr. Simpson officiated. General Sylvanus Thayer Post 87, G. A. R., attended in a body, and there were representatives present from Paul Revere Post of Quincy, and Reynolds Post of Weymouth.

We have been often amused and sometimes instructed in reading the unsophisticated sayings of children, and laughed at the directness of their dispositions of what they see and what they think.

One of our teachers picked up the following, written in the form of a letter, and although it may seem to be irreverent, yet to the child who wrote it there was nothing of the kind; she was led to do so because she felt that what she wanted was of the first importance to her. The letter,

DEAR GOD:—Will you please give me a little sister this afternoon while I am at school.

SUNDAY'S SHOCK.

The Braintree People Heard It and are in a Quandary.

The Observer speaking of the mysterious something of Sunday says:

Sunday evening, about six o'clock, there occurred a powerful explosion, which shook the foundation of most of the dwelling houses in East Braintree and Weymouth Landing; causing dust to rattle on the shelves and people to rush out in great consternation wondering what had happened.

Some thought that an explosion had occurred at the electric plant station, while others imagined this and the other thing to have happened; but all imaginings were "at sea" and up to the time of writing, nobody who heard the report of the explosion, can throw any light on the mystery; for a mystery it is, and no mistake.

There are those who think it must have been an earthquake; and the fact is urged in evidence of the truthfulness of this supposition that nobody after the lapse of a number of days, can be found to throw any light on the nature of the occurrence, where it took place, or to point to any tangible proof that it ever did occur.

Had it been an ordinary explosion, there would, certainly, have been some one who might have escaped; and if none escaped alive, then those they were employed by, or connected with, would have undoubtedly been able to explain all.

But such evidence not having been forthcoming we are forced to the conclusion that it must have been a subterranean convulsion, of the nature of an earthquake.

Still there is one objection to the acceptance of this supposition as being the true one, and it is that from all the accounts we have read about earthquakes, the noise they make is of a deep rumbling kind which was not the kind of noise the explosion made on Sunday evening. The report was that of some heavy cannon, above and not under ground.

—Samuel Battles, of Braintree, a flagman at Avon was killed Tuesday in attempting to cross the track as an inward freight was approaching. He was about 70 years of age.

—Henry J. Curry, who escaped from Dedham jail Thursday, was captured in Malden last night.

PATENTS

NOTICE TO INVENTORS.

THERE was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and workshop, in the home, in the field, and in official life, require continual accessions to the appliances and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the arts and sciences, which are on the alert, and ready to perceive the existing deficiencies, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a lawyer, a "skilled attorney to prepare and prosecute an application for a patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. In the same way, in the business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fees therewith due. THE PRESS CLAIMS COMPANY, 100 Washington, General Mass., 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the many men hereafter employed in this line of business. The Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, designs, patents, trade marks, labels, copy rights, trademarks, and the like, liability reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Write for instructions and advice.

The Land of Dama.

The lady was extremely indignant when she came into the bird store with a parrot in a cage.

"Here," she said angrily, "I want you to take this vole bird back."

"What's the matter with it?" asked the dealer.

"It swears."

"I beg your pardon," he said politely, "but you must be mistaken."

"But I know better," she insisted. "Don't you know swearing when I hear it?"

"I have not, madam."

"That's all right," she retorted. "I've got a husband."

"But I assure you the bird does not swear."

"And I say it does. It ends nearly every word with damn, and I won't have it."

The dealer's face brightened.

"Is that all?" he asked.

"Isn't that enough?"

"Surely, madam," he explained, "you forgot I told you the bird was raised in Holland."—Detroit Free Press.

Sane or Insane?

BANGOR, Me., April 14.—Bertha Treat, the deaf mute who notoriously assaulted her uncle, E. P. Treat of Frankfort, has been arrested and will be held for examination into her sanity. Bertha is still sullen and unrepentant, and manifests but little interest in her case.

For Illegal Voting.

FALL RIVER, Mass., April 14.—George H. Griffiths is under arrest charged with illegal voting last November. Griffiths went to Florida on hearing that a warrant was out for him, and only returned a few days ago.

Another Bomb in Rome.

ROME, April 14.—A bomb was discovered yesterday near the Coliseum. Several bombs have been made of men who are suspected of having placed the bomb where it was found.

Wasn't Hanged in Effigy.

WASHINGTON, April 14.—Senator Wadsworth received a telegram from the mayor of South End, O. T., denying the truth of a dispatch that the senator had been killed in effigy.

Bishop William Lawrence has accepted the invitation to deliver the baccalaureate sermon before the class of 1894 of Harvard.

After a long wrangle over the license list the Lowell (Mass.) aldermen adjourned without giving an inkling of their progress.

The Welsh members of the British parliament are offended because the evicted tenants' bill is given preference over the disestablishment bill.

Rev. Henning H. Jacobson of Waltham, Mass., was elected to succeed Rev. M. G. Johnson as pastor of the Swedish Lutheran church in Manchester, N. H.

Unsolvable.

Patrick Flanigan was a witness in a case where he truthfully compelled him to give some testimony against the man on trial, who was a particular friend of his. Patrick's ordinarily rich braggadocio had recently been rendered more than usually uninteresting by an accident, to which he referred with feeling in the course of his testimony.

He was frequently called upon to repeat his answers, which were evidently made under protest, and between these constant requests and the long words with which the air of the courtroom seemed to Patrick to be filled his anger rose, and his confusion steadily increased.

"Don't prevaricate," said the judge at last as Patrick returned, surprisingly incoherent answer to a question addressed to him.

"Prevaricate, is it?" cried Mr. Flanigan, with angry resentment. "O'er I think maybe it's yerself wouldn't be able to prevaricate when three ayer honor's front teeth had been knocked out ay yer head, sorr!"—Youth's Companion.

Jan. 12.

WITHOUT A QUORUM.

The

House Tangle Seems to Be as Complicated as Ever.

CAUCUS ACCOMPLISHES NOTHING.

Senators Mitchell and Peffer on the Tariff Bill.

WASHINGTON, April 14.—Speaker Crisp and his Democratic associates are in a quandary. They find that there is considerable opposition among their own friends to the rule reported Thursday.

If he could hold his own party together there would be no difficulty in securing its adoption. There are quite a number of prominent Democratic representatives, however, who denounce the proposition and who hold that the house has no right or authority to find absent and non-voting members.

The speaker expected that the Republicans would antagonize the rule and would resort to every known parliamentary expedient to defeat it. He supposed, however, that the experiences with which the majority has had to contend during the last few weeks would make it willing to adopt any scheme to compel those present to vote and aid in securing a quorum.

Crisp's Intentions.

It is admitted that some method should be adopted to enable the business of the house to be carried on in an orderly and decent manner, and that it is time for the farce to cease. Ex-Speaker Reed and his Republican associates cannot force the speaker to count a quorum, and they ought in fairness, it is claimed, to allow the business to proceed and cease their obstructive tactics. If they will not do so, Speaker Crisp may feel compelled to adopt a more arbitrary course and deal with them without fear of the past or the future.

Filibustering was resumed in the house yesterday immediately after the reading of the journal. Mr. Bontell of Maine objected to its approval. The yeas and nays were then demanded. At 1 o'clock the house, unable to secure a quorum, adjourned.

Douglas of the Caucus.

The house Democratic caucus was called to order soon after the house adjourned. As a preliminary step toward curing the evil of absenteeism and crushing filibustering tactics, Mr. Bland presented a proposition looking to the enforcement by the sergeant-at-arms of section 40 of the revised statutes, which provides for "docking" members for such days as they are absent, except on account of sickness.

The suggestion was heartily approved as the bill was read, compelling members to attend sessions of the house. After some debate a resolution instructing the sergeant-at-arms to enforce this statute was unanimously adopted.

The question of compelling members who decline to vote to participate in legislation then came up. Several propositions were presented; the rule formulated by the committee on rules to fine members, the Springer rule to bring members present, and refusing to vote, to the bar of the house, and others compelling them to vote or register their names on the journal as present, and several others.

At the Minority's Mercy.

Speaker Crisp made an elaborate and vigorous speech, pointing out the deplorable position in which the house found itself on account of continued and persistent absenteeism. It left the house at the mercy of the minority whenever, at a wink or a nod from Mr. Reed, the Republicans declined to answer to their names. He reviewed the legislative situation and the necessity for prompt disposal of business in the house, and insisted that something must be done to remedy the evil.

A vote by tellers on a resolution to refer all propositions to change the rules, quota counting, etc., to the committee on rules resulted in a tie—64 to 64.

Chairman Holman broke the tie by voting in the affirmative. This would have carried the resolution, but another vote was demanded and secured, and the resolution was defeated—66 to 58.

Talk on the Tariff.

The urgent deficiency bill was considered in the morning hour in the senate without any action being taken upon it.

At 1 o'clock the tariff bill was taken up, and Mr. Peffer finished his speech begun over a week ago. His conclusions were that if there was one thing worse than the McKinley bill, it was the Wilson tariff bill. He was non-committal as to his attitude on the bill when it should come to its final passage, maintaining that it would depend very largely on the changes made in the bill in the meantime.

He was followed by Senator Mitchell of Oregon, who discussed the subjects of wool, hops, hay, plums and prunes, agricultural products, fish, coal, lumber and other products in which Oregon was particularly interested. Mr. Mitchell's attitude toward the bill was clearly defined, and in his opinion it did not possess a single good point. It breathed the spirit of free trade, with all its blighting influence, was neither free trade nor protection, and yet it was both. He regarded it as a legislative monstrosity, which ought to be strangled before birth.

He was followed by Senator Flanigan, an old and very popular friend of his. Flanigan's ordinarily rich braggadocio had recently been rendered more than usually uninteresting by an accident, to which he referred with feeling in the course of his testimony.

He was frequently called upon to repeat his answers, which were evidently made under protest, and between these constant requests and the long words with which the air of the courtroom seemed to Patrick to be filled his anger rose, and his confusion steadily increased.

"Don't prevaricate," said the judge at last as Patrick returned, surprisingly incoherent answer to a question addressed to him.

"Prevaricate, is it?" cried Mr. Flanigan, with angry resentment. "O'er I think maybe it's yerself wouldn't be able to prevaricate when three ayer honor's front teeth had been knocked out ay yer head, sorr!"—Youth's Companion.

DAVID DUDLEY FIELD.

Nestor of the New York Bar Suddenly Passes Away.

NEW YORK, April 14.—David Dudley Field died of pneumonia at the residence of his daughter-in-law, Mrs. Dudley Field, 22 Gramercy park. Mr. Field was sick but 24 hours.

He retired on Wednesday seemingly in the best of health, after spending the day in the company of his brothers, Henry and Stephen. At 3 o'clock Thursday morning, Mr. Field was seized with a congestive chill. Dr. Burt was hastily summoned. He called Dr. Delafield in consultation. Both doctors remained at Mr. Field's bedside all day.

Mr. Field slept quietly all the evening, and at 8 o'clock yesterday morning he died.

MISS POLLARD WINS.

Damages of \$15,000 Awarded Her
by the Jury

AFTER AN HOUR'S DELIBERATION.

Notice of a Motion for a New
Trial Given.

WASHINGTON, April 16.—Colonel Breckinridge will have to pay Miss Madeline Pollard the sum of \$15,000. That is the verdict of the 12 men, good and true, and it was reached after only an hour of deliberation.

After over five weeks' of trial, after mud throwing on both sides, after tales of depravities that have shocked the country, after confessions of misdeeds from both the man and the woman on the witness stand, the jury have declared that Breckinridge deceived, if he did not betray, Madeline Pollard.

MISS POLLARD

The finding of the jury is, indeed, a most severe judgment upon Colonel Breckinridge, considering all that has been brought forward in his defense. The sum of \$15,000 is potentially a crushing million in the eyes of his countrymen.

The celebrity with which the 12 men reached a conclusion emphasizes the fact that all the evidence put in since Mrs. Blackburn and Major Moore testified that in their presence Colonel Breckinridge promised to marry Madeline Pollard has been a waste of time and effort. The jury evidently threw out everything relating to the life of Madeline Pollard before she met Colonel Breckinridge, and evidently set off against each other the testimony of the plaintiff and defendant.

A Tame Ending.

The scenes when the verdict was rendered were not exciting. The jury filed in and took their seats, and Judge Bradley followed soon after. Then there was a long wait, and Colonel Breckinridge, his son, Desha Breckinridge, and Lawyers Phil Thompson and McKenney of the defendant's counsel came into court and took their accustomed seats.

Published weekly on Saturday mornings, was established in 1837, and is the acknowledged leader in Norfolk county.

Yearly subscription, \$2.50; single copies, 5 cents.

TELEPHONE, 213-3 QUINCY.

COOPERATION.

The DAILY LEDGER proposes to make the heading for its brief local items or city chit-chat a special feature for the next few weeks. A different "scare head," similar in type and arrangement of lines as the one today, (count letters to a line), is wanted for each day, and the publishers offer a year's subscription for the most original and appropriate one used before July 1, 1894.

Editorial Comment.

THE LEGISLATURE has passed an act providing for taking the decennial census in 1890. The work in Quincy must be done by eight or less enumerators appointed by the bureau of statistics of labor. The law provides that

The mayor and aldermen of cities and the selectmen of towns may nominate twice as many persons as there are enumerators to be appointed in each city and town, and of the persons thus nominated there shall be appointed as enumerators, under the provisions of this act, those found best qualified for the work, as determined by such rules and tests as the chief may fix, subject to the approval of the civil service commissioners of the Commonwealth.

Section 9 may be of special interest. It reads:

Upon the request of the mayor and aldermen of any city, made to the chief of said bureau before the first day of March next preceding the taking of the census, said chief shall direct the enumeration to be made in such manner that it shall show the number of inhabitants and legal voters in each street, square or avenue or in such blocks or sections of such city as may be agreed upon by the mayor and aldermen and the said chief, and said chief shall report the results of such enumeration to said city in the words thereof. Upon receipt of said report, said city may make a new division of its wards, as provided by law, and a description of the new ward boundaries with the population of said wards shall be thereafter filed by the city clerk in the offices of the secretary of the Commonwealth and the said bureau.

The LEDGER predicts that the census will show the city to have a population of nearly 25,000.

THE MOVEMENT to reduce the tax rate for 1894 by borrowing for current expenses or extending the maturing debt, finds favor with many in this exceptionally year. One gentleman would extend the entire \$64,730 for ordinary debt maturing this year, and thereby reduce the rate nearly \$4 per \$1000. There may be a hitch to extending the time, as debt must be paid within ten years from the time contracted. An assessor doubts if the city can borrow for current expenses, but it has been doing this more or less. The debt limit seems the only limit to the amount that can be borrowed for current expenses, some \$40,000. The proposition to borrow \$30,000 should meet with favor.

MANY HAVE asked if the LEDGER is going to publish the list of pupils at the Woodward Institute, and if the demand increases their curiosity will be gratified. People cannot understand why the names should be kept private.

IN ANOTHER column today will be found a prize essay on "A Day at Merry Mount Park." Tomorrow another, on "The Granite Industry of Quincy," will appear; it is an instructive paper by the daughter of a granite manufacturer.

THE REV. RUFUS B. TOBEY, assistant pastor of Berkeley Temple, Boston, spoke before a large audience at the Wollaston Congregational church on "Temperance," Sunday evening.

A PETITION is being circulated to be presented to the City Council tonight to widen the culvert under Washington street, where the Town brook enters the canal, also to abolish the water way.

CAKE, sandwiches, fruit and candy sold for the Hospital sale, April 19th at Mrs. Wm. B. Rice's, Adams street, from 2 P. M. to 9. All refreshments to be sent to the house by 10 o'clock on the morning of the sale.

LARGE QUANTITIES of drift wood, fruit, vegetables, lobster pots and oil cans were washed ashore on the Wollaston beach by the storm. Among the curiosities picked up was a turnip measuring 34 inches in circumference.

MR. HARRISON S. HUNT, a veteran of the civil war, died Saturday at his residence on Main street, aged 60 years. He leaves a widow and two sons. He was a member of Paul Revere post 88, G. A. R., which will attend the funeral Tuesday.

ERVERT, the second son of Mr. Henry H. Hardwick is critically ill with pneumonia, and Mrs. Hardwick is prostrated. The funeral Sunday of little Lucia was strictly private. The Congregational Sunday School and friends sent many floral tributes.

DEBITS AND CREDITS

The Trial Balance of the Day Stands the Test.

QUINCY'S LOCAL RECORD BOOK.

A Brief Summary of Accounts in the Granite City.

It is Spring! but the weather don't show it. For the winter is still in the air, but by Thursday we'll all of us know it, And go to the Hospital Fair.

April is half gone. Two pleasant days. City Council this evening.

Everybody was out Sunday. Meeting tonight in aid of the new large hall.

Mr. Charles Henry Hardwick continues very low.

Special meeting of the Quincy Cycle club this evening.

Now for spring cleaning which was interrupted so suddenly.

Will the annual appropriation order be amended to-night.

Dr. C. W. Garey is reported quite sick with a stomach trouble.

The rain predicted for Sunday night did not put in an appearance.

The Young Men's Congress will hold its regular meeting tomorrow evening.

ABOUT 150 took advantage of the pleasant day Sunday and went to Houghs Neck.

Mr. William Burrows of South street, has gone to Kittery, Me., on a brief visit.

Several carloads of ties arrived Saturday at West Quincy for the new quarry railroad.

MANY WHEELMEN went to Nantasket Sunday to witness the result of the recent storm.

Mr. and Mrs. W. G. Correll of Wollaston arrived home on Saturday from New Orleans.

THE ENGAGEMENT is announced of Miss Minnie Parker Prescott and Mr. Amos T. Leavitt of Wollaston.

A CAPTIVE wild goose owned by Mr. Al. Williams of Wollaston has laid an egg. This is an unusual occurrence.

IT IS pretty well understood that William Lyons of West Quincy, has succeeded Daniel McGrath as liquor officer.

THE BROOKLINE HIGH SCHOOL nine will cross bat with the Adams' Academy at Merry Mount park this afternoon.

A RECEPTION will be tendered to the principal of the Woodward Institute Wednesday, May 9, in the Unitarian chapel.

MR. SAMUEL T. FARRELL, of Wollaston, hosiery buyer for Jordon, Marsh & Co., is on a European business trip for that firm.

A PETITION is being circulated to have the driveway to the brook on Canal street near Mechanics street, closed up and the street widened.

THE REV. JAMES E. BAGLEY of the Wollaston Unitarian church, exchanged on Sunday with the Rev. Charles P. Lombard of Plymouth.

JOHN ADAMS was the subject of an address at the town hall, Lexington, Sunday evening, by Rev. C. A. Staples, at a union commemorative service.

THE PATRIOT boys will observe the holiday Thursday and the LEDGER boys think they must also keep Patriot's day, so the office will be closed and no paper issued.

MRS. GRACE BATSON of Union street, celebrated her 15th birthday anniversary Saturday evening, by entertaining many of her young friends. She received several tokens.

THE GAME of ball to have been played Saturday between the Adams Academy and Roxbury High school did not take place, as the latter team did not come out.

THE REV. RUFUS B. TOBEY, assistant pastor of Berkeley Temple, Boston, spoke before a large audience at the Wollaston Congregational church on "Temperance," Sunday evening.

A PETITION is being circulated to be presented to the City Council tonight to widen the culvert under Washington street, where the Town brook enters the canal, also to abolish the water way.

CAKE, sandwiches, fruit and candy sold for the Hospital sale, April 19th at Mrs. Wm. B. Rice's, Adams street, from 2 P. M. to 9. All refreshments to be sent to the house by 10 o'clock on the morning of the sale.

LARGE QUANTITIES of drift wood, fruit, vegetables, lobster pots and oil cans were washed ashore on the Wollaston beach by the storm. Among the curiosities picked up was a turnip measuring 34 inches in circumference.

MR. HARRISON S. HUNT, a veteran of the civil war, died Saturday at his residence on Main street, aged 60 years. He leaves a widow and two sons. He was a member of Paul Revere post 88, G. A. R., which will attend the funeral Tuesday.

ERVERT, the second son of Mr. Henry H. Hardwick is critically ill with pneumonia, and Mrs. Hardwick is prostrated. The funeral Sunday of little Lucia was strictly private. The Congregational Sunday School and friends sent many floral tributes.

A NOVEL SERENADE.

A Practical Joke on a Newly Wedded Couple at Wollaston Park.

The Dorchester Beacon tells the following amusing incident:

Mr. Henry H. Barnes of Milton and Miss Agnes Smith of Dorchester were married on Wednesday evening at the residence of the bride, 689 Washington street, only the immediate relatives of both parties being present. The ceremony was performed by the Rev. Dr. Little.

The happy couple left about 10 o'clock for their new home in Wollaston Park. Arriving there amid the blinding snow-storm, they locked the doors securely and retired, but were aroused a little later by mysterious sounds issuing from the third floor, or garret.

Mr. Barnes, armed with a revolver, proceeded to the door, but found it locked on the inside. He finally called timidly, "Come down, Pete." Pete failed to respond, but the groans and long roll of the cannon ball on the bare floor above increased. Mr. Barnes called for the police, but, unfortunately, they were not in hearing.

At 3 A. M., the bride and groom, now very much frightened, still kept their silent watch on the attic door, ready to shoot the first form that appeared in the doorway. But "Pete" and his followers had, a long while before, slid down a rope from the attic, and gone to their respective homes, leaving the cat with wooden shoes to conclude the night's performance.

The correspondent would ask Mr. Barnes, "Who is Pete?"

The Granite City Club.

The popular and pleasant association, known as the Granite City Club, having many of our best citizens as members, has recently been incorporated under the laws of this State. On Saturday evening, at its annual meeting, the following named gentlemen were elected officers for the ensuing year:

President, —James Thompson.

Vice President, —Joseph C. Morse.

Clerk and Treasurer, —E. W. Bass.

Membership Committee, —George O. Langley, Frank S. Patch and John Curtis, 2d.

Entertainment Committee, —E. W. Bass, Henry F. Tilden, R. A. Sears, Dexter E. Wadsworth and Warren H. Rideout.

Finance Committee, —The President, ex-officio, Joseph C. Morse, Clarence Burdin and W. W. Ewell.

JAMES MEARS DEAD.

JAMES MEARS, for many years a resident of this city, and prominently known in connection with Mear's Beach, Mear's Hotel and Houghs Neck, died this morning at four o'clock at Brockton, where he has resided for a few years with his daughter. He was 83 years of age and leaves a widow, four daughters and two sons. Mr. and Mrs. Mear's were a golden wedding couple, celebrating the event some years ago at Houghs Neck. Mr. Mear's was a large real estate owner, his property including the "great hill," and his hotel has been for a great many years a popular resort for shore dinners.

YOUNG MEN'S CHRISTIAN ASSOCIATION.

Boys meeting tonight at 7 o'clock.

REV. WM. STEELE gave an interesting address on "The One Thing Needful" Sunday P. M.

MUCH INTEREST is manifested in the Business Men's banquet for Thursday evening. Mr. O. H. Durrell of Brown Durrell & Co. of Boston has accepted an invitation to be present, if possible. Also Mayor Hodges and other prominent citizens.

MR. R. B. RICE'S, Adams St., From 3 till 9.

ATTRACTIONS:

Fancy and Useful Articles, Tissue Paper Novelties, Candy Table, Flower Table, Grab Bag.

REFRESHMENTS:

Coffee, Tea, Chocolate, Lemonade, Sandwiches, Cake, Ice Cream.

ENTERTAINMENT:

Minuet and Fancy York, Danced by Children.

Fancy Dance by Miss Rhines.

Piano and Violin Solos.

PINKHAM'S Vegetable Compound

Is a positive cure for all those painful

Ailments of Women.

It will entirely cure the worst forms of Female Complaints, all Ovarian Troubles, Cystitis, Leucorrhœa, Falling and Displacements of the womb, and consequent Spinal Weakness, and is peculiarly adapted to the Change of Life. Every time it will cure

Backache.

It has cured more cases of Leucorrhœa than any remedy the world has ever known. It is almost infallible in such cases. It dissolves and expels Tumors from the Uterus in an early stage of development, and checks any tendency to cancerous humors. That

Bearing-down Feeling

causing pain, weight, and backache, is instantly relieved and permanently cured by its use. Under all circumstances it acts in harmony with the laws that govern the female system, and is as harmless as water. It removes

Irregularity.

Suppressed or Painful Menstruations, Weakness of the Stomach, Indigestion, Bloating, Flooding, Nervous Prostration, Headache, General Debility. Also Dizziness, Faintness, Extreme Lassitude, "don't care" and "want to be left alone" feeling, excitability, irritability, nervousness, sleeplessness, palpitation, melancholy, or gloominess, and backache. There are sure indications of Female Weakness some derangement of the Uterus, or

Womb Troubles.

The whole story, however, is told in an illustrated book entitled "Guide to Health," by Mrs. Pinkham. It contains over 99 pages of most important information, which every woman, married or single, should know about herself. Send two-cent stamp for it.

Kidney Complaints

and Backache of either sex the Vegetable Compound is unequalled.

All druggists sell the Vegetable Compound, or send for a free copy of the book or Lozenges, on receipt of \$1.00, postpaid. *freely answered.*

You can address in strictest confidence, LYDIA E. PINKHAM MED. CO., Lynn, Mass.

3 POSSIBLES.

1st.

It is Possible for us to sell more goods than any other store in this city.

2d.

It is Possible because we have the very best goods it is possible for us to buy.

3d.

It is Possible because we shall sell these goods at the lowest possible price.

THESE POSSIBLES

Are all realities and will be found at the

Granite Shoe Store,

H. A. FELTIS, Manager,

Where the best Possible goods are sold at the lowest Possible prices, thus insuring the largest Possible trade.

These Possibles will save you money.

Suppose you give us a trial.

Quincy, April 12.

A ROUGH EXPERIENCE.

The Wollaston Shooters at Monomoy During the Great Storm.

Mr. A. G. Olney, Mr. A. Lincoln of Wollaston, and Mr. Norman F. Greeley of Boston, returned on Saturday from the Bristol Branting club's place on Monomoy, Cape Cod, with a large number of geese.

They had a rough time of it on that inhospitable bar of sand which juts out from the southern coast of Cape Cod into the Atlantic Ocean. Around this bar which is nine miles long by about half a mile wide, passes all of the Vineyard and Nantucket sound commerce. It is the graveyard of the American coast, for in nine years 29 vessels were lost on its bleak shore.

This is the manner of a place where Messrs. Olney, Lincoln and Greeley were shut up for seven days, and witnessed the greatest storm which has visited the Atlantic coast since Minot's light was destroyed. At times the wind was blowing over sixty miles an hour, making it impossible for a human being to withstand its fury. The air was filled with cutting sleet and sand. When the storm was at its height the life saving patrol was doubled, but for all these precautions there were several wrecks.

Mr. Olney, with whom the LEDGER reporter was talking about this interesting adventure, said that the scene on the easterly, or outside of the peninsula, as the surf rolled and tumbled across the rips as far as the eye could see, was grand beyond the power of man to describe.

In the woods on either side of the winding road, the merry shouts of children rang out. Some of them were seated in the shade making daisy chains and wreaths. Several times I was invited to join in the sport. Unfortunately I was not inclined to join them, but still pursued my walk.

In the next open field I came to several men on horseback, fantastically clothed, who were playing polo. Here I paused to watch them. They moved about so quickly, that almost before I was aware of it, they were lost to view among the trees.

So I again resumed my walk. Finally I reached the red summer house. Here I seated myself, determined to go no farther. Directly across the field was Merry Mount, the original home of Thomas Morton and his band. And there, among the green cedars is the old dead tree that marks the place where the May-pole stood. But Merry Mount is very much changed from what it was in those by-gone days. The little cabin of Captain Wollaston is no longer to be seen. Instead of this rustic cabin there is a beautiful mansion with well laid out grounds, while the only trace of the original owners of the place is the old pine tree.

While I was thus musing over the scenes and things of other days, a little old man came across the field and asked me what I was thinking about? Before I could answer, he handed me a small book, and said, "Trouble not thyself with the past. Let the dead past bury its dead." Think rather of the future. In this little book thou mayst read of things that will surprise thee."

I accordingly took the book and opened it. It was entitled, "The Mysteries of the Future." This was enough to arouse my curiosity, so I immediately began to read it. This is what I read:

"In the future the black clouds of war shall spread themselves over a land, which is at present a glorious land, and husbands, brothers and relatives will leave their homes, take up their arms, to defend not their country but their rights.

Long and bloody shall be this civil war, even more horrible than was the French Revolution. The battle cry will sound throughout this ill-fated land. Justice will be the battle cry!

And what is to be the cause that will thus destroy, this nation?

Ah, many will be the causes. The two most important will be religion and politics. The business and moneyed men uniting, will exert their combined strength against the weaker and poorer party. It will then be, do as does the rich politician, or do as the popular party desire. Then favorites and ambitious grasping men will fill the public offices. These members, who seek only their own welfare, will yield everything for money. At last there will be no trace of justice left. Liberty and license will be confused by all classes.

After a time a few men will try to arouse the people. Success will crown their efforts. Thus will the great war begin.

For several years shall the country be steeped in blood. But upon this scene there will appear a noble man, who will save the country by ending the strife.

Time will name both the country and the man."

Here the book ended, and the little old man held out his hand to take it. As his cold, damp hand touched mine, I started. There before me stood my dog with his moist nose just touching my hand. In it I held securely a few dry leaves. So I must have been day dreaming.

Meetings Tonight.

Wollaston Lodge, K. of H. Bay View Lodge, L. O. L. Uniform Sir Knights, O. S. S. G. St. John Baptiste, John Boyle O'Reilly club.

F. HERBERT SNOW, City Engineer.

Per order Sub-committee on City Hall.

April 13.

Columbia Bicycles. Henry L. Kincaide & Co.

630 feet of straight thumb coping.

110 feet of curved thumb coping.

121 feet of ashlar retaining wall.

The proposals are to be for furnishing, delivering and laying the above mentioned coping, and furnishing and delivering all materials incidental thereto, at the City Hall, Brockton, Mass.

Plans and form of agreement may be seen at Room 27, Home Bank Block, Brockton, Mass.

The right to reject any and all bids is expressly reserved.

The Land of Dams.

The lady was extremely indignant when she came into the bird store with a parrot in a cage.

"Here," she said angrily, "I want you to take this vile bird back."

"What's the matter with it?" asked the dealer.

"It swears."

"I beg your pardon," he said politely, "but you must be mistaken."

"I beg your pardon," she insisted. "Don't know swearing when I hear it."

"I hope not, madam."

"That's all right," she retorted. "I've got a husband."

"But I assure you the bird does not swear."

"And I say it does. It ends nearly every word with damn, and I won't have it."

The dealer's face brightened.

"Is that all?" he asked.

"Isn't that enough?"

"Surely, madam," he explained, "you for-
get I told you the bird was raised in Holland."

—Detroit Free Press.

Definitely Settled.

At the first battle of Bull Run he was

wounded in the thigh. Before the close

of the summer of '61 Colonel Slocum was

promoted to the rank of brigadier gen-
eral, and served in the army of the Potomac.

He participated in the engagements at Gaines' Mills and Malvern Hill, among

other commanding divisions.

On July 4, 1862, he was made a major

of general volunteers, and took part in

the second battle of Bull Run and the

battles of South Mountain and Antietam.

In October of that year he was assigned to the command of the Twelfth army corps, and in the bloody battles of Fredericksburg, Chancellorsville and Gettysburg he was in active service. At Gettysburg he commanded the right wing of the Union forces, which turned the tide of battle.

General Slocum afterward had charge

of the department of the Cumberland, and had control of the district of Vicksburg.

He succeeded Hooker at the head of the Twentieth army corps and accom-
panied General Sherman to Atlanta.

In the famous march to the sea General

Slocum commanded the left wing of the army of Georgia until the surrender of General Joseph E. Johnston.

In September, 1865, he resigned from

the army and resumed the practice of law, making his home in Brooklyn. He was a presidential candidate in 1868, and in the same campaign was elected to Congress.

In 1883 he was named for congressman-at-large from the state, and was elected. After the close of his term he devoted himself wholly to his business interests.

In addition to being a soldier, he was also a lawyer of experience and ability. To both professions he added the experience of a tried and worthily proved man of business. His public and private character was unimpeachable.

MILLS "MENTIONED"

As the New Member of the Senate Finance Committee.

THE QUORUM-COUNTING Muddle

Has Not Yet Been Untangled by the Democrats.

WASHINGTON, April 17.—There is already more or less quiet talk about the senate to Mr. Vance's probable successor on the finance committee.

Conversations with a number of Democratic senators develops the fact that a majority of them are of the opinion that the choice will fall upon Senator Mills of Texas. He is considered especially eligible because of the attention he has given for years to financial questions and the fact that he was chosen for this post temporarily in the absence of Senator McPerson during the preparations of the tariff bill now before the senate, would seem to put him in the position of the most prominent member of this time.

It is possible that Senator Mills' claims may be contested by the northern and eastern Democratic senators, who, as is known, have not been entirely satisfied to have so large a preponderance of southern and western men on the committee as is now the case. If they would make a successful effort to secure the appointment, the choice would probably fall upon either Senator Hill or Senator Vilas.

Senator Brice's name has been mentioned in this connection, but owing to the fact that Ohio already has in Senator Sherman a member of the committee it is considered improbable that he would be selected. There is also a possibility that the far west may ask for membership on the committee, and Senator White of California has been mentioned as a possibility.

Friends of Senator Mills call attention to the fact that Mr. Vance was a southern man, and contend that it is proper he should be succeeded by a senator from the same section. It is possible that Mr. Mills may not desire the appointment. He is known to regard the committee as one of the most onerous duties, and he declined the place when the committees were about to be reconstructed a year ago.

There is little doubt that Senator Gray, who stood next to Senator Vance on the committee on privileges and elections, will surrender his chairmanship of the committee on patents to accept that of privileges and elections.

Still in a Tangle.

The Democratic members of the committee on rules are busily at work trying to reach some agreement as to the rule which the caucus directed them to propose. They desire to frame a measure that will be satisfactory to their party and one which will secure united support. The one reported last week, during present and absent members, was very objectionable to the majority, and had to be abandoned.

There are a large number of Democrats who are opposed to the proposition of counting a quorum, but the speaker and his associates on the committee hope to secure the united support of the party.

The Republicans will not oppose the new rule to count a quorum, provided it fair and recognizes the principles carried out by the Republicans in the Fifty-first congress. Unless the new rule is satisfactory to the Republicans, the Democrats will have to obtain a quorum of their own to adopt it.

Old Scenes Recalled.

The counting of a quorum reminds Democrats of the scenes which were enacted when Reed was speaker, when Bryan, Boatner and others characterized him as a tyrant and usurper.

The Democrats are not out of their tangle by any means. Bryan of Nebraska declared yesterday that he would fight the proposed rule to count a quorum as long as there was any chance of preventing the Democrats from following the leadership of Reed. He said he would be aided in his opposition by a number of others in his own party.

To what extent the fight will be carried and with what chances of success, if the Republicans should withhold their votes, cannot be ascertained until the question comes up for consideration.

The Day in Congress.

Owing to the death of Senator Vance the house transacted no public business. Resolutions of respect to the memory of the distinguished North Carolina statesman were unanimously adopted. The house, as a body, participated in the funeral ceremonies in the senate, after which it adjourned as a further mark of respect. Appropriate resolutions were also adopted in honor of the memory of General Slocum, the gallant and generally popular member of the house, who died in Brooklyn on Saturday.

The senate paid respect to the memory of the late Senator Vance of North Carolina. In his opening prayer the chaplain alluded to the deceased in words of touching sympathy and honor. Appropriate resolutions were adopted, and the senate recessed until the hour which the funeral services were conducted in the senate chamber. At the conclusion of the ceremonies the senate adjourned.

Smallpox in a Tenement House.

FALL RIVER, Mass., April 17.—The board of aldermen met last night to distribute liquor licenses. City Hall was crowded with liquor dealers and their friends. The board adjourned without granting licenses, and there is much excitement among liquor men at the action. There is talk of big boodle.

FALL RIVER, Mass., April 17.—The board of aldermen met last night to distribute liquor licenses. City Hall was crowded with liquor dealers and their friends. The board adjourned without granting licenses, and there is much excitement among liquor men at the action. There is talk of big boodle.

Dead in His Birth.

WICHITA, Kan., April 17.—Charles C. Stewart, a wealthy member of the New York Cotton Exchange, was found dead in his berth of a car on the Rock Island road.

Illicit Distillery Unearthed.

NEW HAVEN, April 17.—The police found a moonshiner's still at 30 Palmer street yesterday, which was operated by Isaac Swinsky, a Russian. The illicit distillery was discovered in the cellar of the Russian's house, and several hundred gallons of liquor, which was made from currants, were seized, with all the apparatus used in making the stuff.

BAY STATE LEGISLATURE.

Filibustering on the Fall River Police Bill.

BOSTON, April 17.—A bitter contest over the passage of the Fall River police bill is in progress in the house of representatives. The Democratic members of the house spent the afternoon in filibustering by demanding rollcalls, introducing amendments and various other devices for securing a delay.

In the senate the committee on railroads reported leave to withdraw on the petition for legislation compelling all railroad corporations to sell interchangeable mileage tickets.

The committee on the judiciary reported a bill relating to the preparation of jury lists, radically amending the present law.

ought not to pass was reported on the bill relating to the abolition of the death penalty.

Several reports of great importance were transmitted to the legislature. The committee on corporation laws reported the anti-stock watering bills unanimously. The provisions reach steam railroads, street railways, gas and electric light companies, telephone and telegraph companies and water companies.

The committee on the judiciary also reported the bill relating to the abolition of the death penalty.

The committee on taxation on the special report of the taxation committee reported a bill relative to the enforcement of returns of personal property for taxation. The bill provides that within four weeks after notification the assessor shall deliver to every person who has failed to make returns of personal property and to swear to the same according to law a further notice. If at the end of four weeks any person shall have failed to submit a true list duly sworn to, the assessor shall appeal to the law.

The committee on expenditures reported, giving the state board of agriculture an appropriation of \$100,000 to construct a system of exterminating the oyster dipper or oyster pest.

Favorable reports were received as follows:

Bill to establish the fee for physicians' certificates in cases of commitments to insane asylums; bill providing for the appointment of the governor of delegates to represent the commonwealth at national conventions held for the purpose of considering questions affecting the people; bill relative to the publication of the province laws; bill to authorize the town of Melrose to incur indebtedness to the extent of \$100,000 for the purpose of constructing a system of sewerage; bill to provide for abbreviations of forms of conveyance by deed.

Estimated Expenditures.

Continuing, Mr. Harcourt estimated the total expenditures at \$3,468,000 pounds sterling, and the revenue he estimated at \$9,956,000 pounds sterling, saying that the deficit of about \$4,500,000 pounds sterling would not be met by borrowing or abandoning the fixed revenues of the national debt.

He then stated that foreign spirits had increased the revenue by \$8,000 pounds, and that all spirits, except rum, showed an increase.

Tea had increased 101,000, representing 60,000 pounds; coffee continues to show a reduction, and tobacco only increased 2,000, which is under the estimate. Wine decreased 58,000 pounds, the consumption of strong wines having steadily fallen off from 11,000,000 gallons in 1870 to 4,700,000 gallons last year. On the other hand, light wines increased 2,000,000 gallons during the same period.

The loss on spirits, Mr. Harcourt remarked, was compensated for by the duty on beer, which was \$9,837,000 pounds. The consumption of beer was the highest on record, exceeding any previous year by \$0,000 pounds.

Satisfactory to Harcourt.

According to Mr. Harcourt, the year's revenue was not unsatisfactory, for there was no sign of a decrease in the resources of the working classes; but there had even been a substantial increase. The only serious and unexpected reduction of revenue had been \$89,000 pounds in the stamp duties. The government proposed to change the system of death duties, by which an increase in revenue of \$3,500,000 or \$4,000,000 pounds yearly would be secured eventually.

But they could not reckon upon more than 1,000,000 pounds increase during the coming year. The extra penny in the pound by which it was proposed to increase the income tax would yield about 1,790,000 pounds, however, intended to raise the limit of exemption from 120 to 140 pounds, and to relieve incomes between 400 and 600 pounds by the payment of 100 pounds. These abatements would mean a yearly loss of 1,490,000 pounds, reducing the net gain on the extra penny in the pound on the income tax to \$30,000 pounds.

In order to meet the remaining 1,000,000 pounds deficit he proposed to add 6d. per gallon to the duty on spirits, and 6d. per barrel to the duty on beer.

How It Was Received.

A desultory discussion followed the presentation of the details of the budget. The criticism was almost wholly devoted to the government's proposal to impose an additional duty of 6d. a barrel on beer.

The Irish members voiced their objections to the proposal to increase by 6d. a gallon the duty on spirits. It is probable that the Parnellites will vote against this latter proposal.

The Conservatives strongly object to the system of death duties. The debate on the budget is likely to be protracted. It is stated positively that a bill providing for the disestablishment of the church in Wales will be introduced in the house next week.

Crispi Wants Full Power.

ROME, April 17.—Prime Minister Crispi explained to the chamber of deputies yesterday his demand for extraordinary powers. He said that his sole object in asking that such powers be conferred upon him was to simplify the public service and effect retrenchments in the expenditure. He stated that he had no idea of dissolving the chamber of deputies.

A Disappointed Delegation.

CHICAGO, April 17.—A delegation of prominent citizens called on Mayor Hopkins to protest against the opening of the Garfield park race track, saying that it had previously been conducted in a disgraceful and lawless manner. Mr. Hopkins refused to say what action he would take, but remarked in a general way that he is not opposed to race tracks.

Passed by the Lords.

LONDON, April 17.—The house of lords yesterday passed the Balfour seat bill, the house of commons having agreed to the amendment of Secretary of State, Kingbey, including the change in clause 7. There was no debate. The final stages of the bill will be at once taken up.

New Nation in Maine.

WASHINGTON, April 17.—The comptroller of the currency has authorized H. H. Field and his associates of Phillips, Me., to organize "The First National bank of Maine."

THE BRITISH BUDGET

Harcourt Outlines Plans For Meeting the Deficiency.

AN ADDITIONAL DUTY UPON BEER

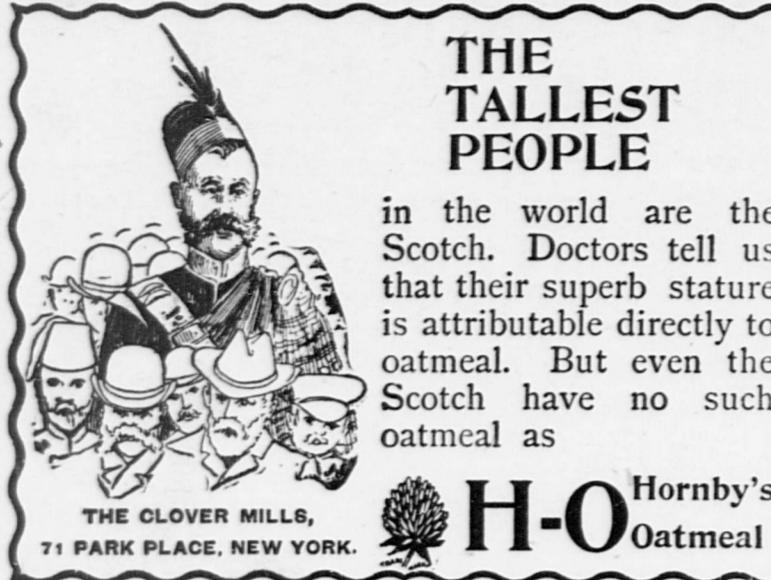

Calls Forth Adverse Criticism From Irish Commoners.

LONDON, April 17.—The house of commons yesterday was crowded with members and visitors who had assembled to hear Sir William Harcourt, chancellor of the exchequer, present the budget.

Sir William referred to the difficulty of the task he had undertaken, attributing the difficulty to the adverse crisis which affected the past year, due to the financial difficulties of the United States, India and Australia, as well as to the labor troubles in England, and the agricultural depression prevailing there.

All these conditions, said Mr. Harcourt, contributed to the difficulty which he had encountered in presenting a satisfactory budget, but it was some relief to be able to add that the result of all these troubles were not so bad as it was feared.

It was shown that the financial system of the country, which had well stood the test and which showed that any attempt to change the currency of Great Britain was unnecessary.

COOPERATION.

The DAILY LEDGER proposes to make the heading for its brief—local items or city chit-chat a special feature for the next few weeks. A different "scare head," similar in type and arrangement—of lines as the one today, (count—letters to a line), is wanted for—each day, and the publishers offer—a year's subscription for the most—original and appropriate one used—before July 1, 1894.

Editorial Comment.

THE ORDINANCES of Boston provide that no person shall own or keep in the city any dog which by barking, biting or howling, disturbs the quiet of any person. If such a law was enforced in Quincy, the number of canines would be reduced quite materially.

HOUSE RANSACKED.

Residence on Elm Street Burglarized But Loss Not Known.

It was reported to Chief of Police Hayden this morning that the residence of Isaac Hull Adams on Elm street had been burglarized.

The family of Mr. Adams is away during the winter and the house is in charge of a domestic, who however does not live there. Upon entering the house on an errand Monday she discovered that it had been entered sometime since Friday night and everything in the house turned upside down and scattered all over the house.

Just what has been taken is not known and will not be until the owners, who have been notified, make an investigation.

ADAMS ACADEMY WINS.

The Brooklines Take the Lead But are Overhauled and Left.

The Adams Academy base ball team defeated the Brookline High school at Merry Mount park, Monday, by the following score:

CITY DEBT REDUCED.

[Continued from Second Page.]

reading and under a suspension of the rules was passed unanimously and is now in the hands of the Mayor.

The ordinance to regulate plumbing took its second reading.

Councilman Moxon objected to its passage saying it went beyond the requirement of a small city, and went into detail too much. He moved to strike out sections 9, 10, 11, 12 and 13.

The Council proceeded to consider each section separately. Section 9 was stricken out without any objection.

Councilman Johnson then questioned the wisdom of this wholesale slaughter on the motion of one man when the committee had given it careful thought.

Councilman Holbrook thought the ordinance too long, and that builders would be troubled by the needless red tape.

Councilman Bigelow believed the ordinance perfectly correct and that section 9 should be reinstated.

Motion followed each other rapidly, and the ordinance was finally recommitted to the committee without further amendment.

The amendment to the ordinance concerning City Physician was passed unanimously.

West Quincy Hose House.

The order appropriating \$6,500 for hose house in Ward Four came up for passage, and the specification caused a lengthy wrangle.

Councilman Lennon secured a recess of ten minutes and afterward criticised the specifications at length, believing them to be inadequate.

Councilman Federhen defended the report. Not expected that the specifications would be complete, but would be upon the passage of the order. They were a small part.

Councilman Lennon considered the specifications everything.

Councilman Shackley understood it was the practice of architects to furnish specifications after the passage of appropriation.

Councilman Rooney said last year the location was the only hitch. He hoped there would be no further objection.

Councilman Moxon said it was not the custom to have complete specifications in advance of the passage of order. Complete specifications would be furnished before contract was let.

Councilman Holbrook thought now was the time to check the practice of going blind on specifications. It had caused endless trouble. He had faith in the executive.

Councilman Adams said it was important to have complete specifications but matter of detail should be left to the executive. The councilman did not feel that he was called upon to pass upon specifications.

Councilman Moxon said the plans presented were plainer to people generally than a complete set of blue prints.

Councilman Holden hoped we would have something more definite in specifications.

Councilman Federhen said committee had been opposed to wooden building. Were told they must take plans of Architect Thayer. Had no faith in architect. He had failed to furnish specifications for the Ward Two hose house. Mayor had caused another to draw up specifications and had included a tower.

Councilman Moxon thought towers in outlying wards were out of date, that all should be dried at Central station.

The order was passed by vote of 19 to 3 as follows:

YES—Adams, Anderson, Babcock, Baker, Bigelow, Clark, Federhen, Johnson, Lamb, Litchfield, McKeon, Moxon, O'Brien, Robbins, Rooney, Shackley, Snow, Sullivan and Worcester—19.

NAYS—Holbrook, Holden and Lennon—3.

Councilman Federhen offered the following to accompany the above order:

That it is the sense of this City Council that the hose houses in Wards Two and Four be built by citizens of Quincy at day labor, in accordance with the suggestion in the Mayor's inaugural under the supervision of the Commissioner of Public Works.

Councilman Holbrook criticised 2 by 4 foot joist.

Councilman Moxon explained.

Councilman Lester further criticised.

Councilman Holbrook wanted Council to understand, and people to get their money's worth. Wanted complete specifications in black and white. We had an example of leaving plans to the executive; he took all the responsibility.

Councilman Moxon contended that if full set of plans were ordered they must be paid for.

Councilman Lennon moved to lay on table that he might offer substitute, but the motion was lost.

Councilman Johnson hoped if the resolve coincided with the Mayor's views it would pass. Preference should be given home labor.

Councilman Moxon objected to meddling with affairs of the executive.

Councilman Holbrook said the resolve simply asked an expression of opinion. The gentlemen didn't want this Council to agree with Mayor.

Councilman Federhen didn't care if the resolve did embarrass the Mayor.

THE DAILY LEDGER, TUESDAY, APRIL 17, 1894.

CITY DEBT REDUCED.

[Continued from Second Page.]

Councilman Adams believed in minding his own business.

The resolution was adopted viva voce. At 9:55 the Council adjourned.

A JOLLY PARTY.

Social Dance and Entertainment by the Franklin Club.

It was a jolly party of young people that gathered at Faxon hall, Monday evening, at the first social dance of the Franklin club. The young people were there to enjoy themselves and it goes without saying that they did to the utmost.

Bates orchestra furnished the necessary accompaniment for the flying feet of the participants, and as the order was made up whole of round dances all were pleased.

Each number on the programme was dedicated to somebody or something, among the more prominent being: "Safety King," "Spider's Web," "Square House," "\$1.90," "A. P. A. Favorite," "Boozie's Special," "Corn Cakes" and "Captain Baldy."

During a brief intermission there was a musical entertainment consisting of solos by Mr. John Daly, Mr. Edward Glover, Mr. W. Barrett; trio by F. F. Bassick and George Brackett on mandolins, and George F. Field on guitar.

Among those present were:

Misses Cora Dyer, Tina Cleaves, Jennie Ellis, Mollie Kenna, Bessie Wreathe, Beatrice Poterfield, Eva Miller, Helen Powell, Josephine Mitchell, Bertha Foss.

Mrs. Frank Stoddard.

Misses Abby Feltis, Eva Bryant, Emma Biganess, Flora Brown, Lucy Osborne, Emma Veazie, Ada Anderson, Grace Bigelow, Alice McLaine.

Mrs. J. Daley.

Misses L. Donahue, Charlotte Morrell, Lena Ballou, Maud Lapham.

Messrs. D. Vinton Pierce, Frank Stoddard, George Ewell, Frank Souther, Frank Tarbox, Henry Ring, D. J. Ring, J. E. Glover, Frank Bassick, Alfred Flowers, Ivers Lowe, Charles Nightingale, George F. Field, George Kendrick, George Keyes, Warren Edwards, James Edwards, J. H. Slade, Jr., Harry Berry, William Thomas, Arthur Perry, Fred Lapham, Arthur Mitchell, Bert Curtis, James Dunn, Arthur Rider, Samuel Oxford, Harry Winslow, John Bigelow, Jos. N. Paige, George Brackett, Frederick Hardwick, John S. Mitchell, Wm. Mitchell, Gilbert Jackson.

"Patriot's Day."

"Patriot's Day" was observed at Memorial Congregational Church last Sunday evening. There was an address by the pastor. The singing of the congregation was led by Mr. and Mrs. Baker with cornet and piano. Mr. Hermon sang "The Soldier Boy" as solo. The Young Ladie's Quartette—Misses Moxom, Briggs, Coe, and Hall, also sang.

Miss Bessie Drew read E. E. Hale's account of the battle of Lexington and Concord, Miss Annie Hall read "Paul Revere's Ride." The flag decorations were by Mr. Natt Churchill.

WEYMOUTH.

The alarm from box 10 shortly after 10 o'clock Monday night was for a fire in the woods near the Old North parsonage.

At a meeting of Monatique Yacht club held Monday evening, the following fixtures were arranged for the coming season:

Opening race—June 26.

Club race—July 6.

River race—July 26.

First championship—August 2.

Ladies' day—August 9.

Second Championship—August 22.

Hunt cup race—September 8.

They told the boy on the burning house

To jump! but he shook his head—

Where should I go if he broke his neck—

To the Hospital dear! they said.

But the Hospital cannot take care of itself.

And the City of Quincy won't.

The Hospital still will be open they said,

With the "Hospital Aids" at the front.

WHAT PASKOLA IS DOING.

Dr. G. W. Babcock of Chelsea, Mass., says: "It gives me great pleasure to speak in the highest terms of your delightful preparation, 'Paskola.' One of my young ladies has just come to me and says she feels like a new creature."

Mr. James C. Collin of Syracuse, N. Y., says: "PASKOLA is indeed a food, and a royal one, too. I have already gained six and one-half pounds."

Mr. Charles E. Isaacs, 413 Main street, Worcester, Mass., says: "I have tried many doctors and countless patent medicines—all were of no avail until I took 'Paskola.' To eat a meal now is a pleasure. Heretofore it has been a torture."

Mrs. E. P. Casy of Newton, N. J., says: "I prize 'Paskola' beyond my feeble description. It has accomplished more than you claim for it."

Mr. J. Calvin Barnard of London, N. H., says: "My friends and doctor thought I must die, but after taking 'Paskola' my digestion has been much improved and neuralgia greatly relieved."

Mr. M. Leonard of Biddeford, Me., says: "I have derived more benefit from two-thirds of a bottle of 'Paskola' than from all the medicine I have used in the past six months."

Miss M. Otto of Peru, N. Y., writes her druggist: "I am taking 'Paskola' my digestion has been much improved and neuralgia greatly relieved."

Mr. D. J. Kelleher, 13 Charles street, Somerville, Mass., says: "I have gained four and one-half pounds since beginning the use of 'Paskola' and feel ever so much better."

PATENTS

NOTICE TO INVENTORS.

THERE was never a time in the history of our country when the demand for inventors was greater, and the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the apparatus and implements of each in order to save labor, time and expense. The political change in administration of the government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing deficiencies, does not permit the affairs of government to deter him from quickly conceiving the remedy to any existing difficulty. The great care cannot be exercised in choosing a competent and skillful attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances through the want of competent and reliable counsel, and especially is this advice applicable to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the interests never considered in view of a quick endeavor to an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W. Washington, D. C., representing a large number of inventors, daily in the weekly papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and to prosecute the same with the greatest care, including mechanical inventions, designs, patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

A. Hist.

Our Daisy lay down
In her little nightgown
And kissed me again and again
On forehead and cheek,
On lips that would speak,
But found themselves shut, to their gain.

Then foolish, absurd,
To utter a word,
I asked her the question so old,
That wife that lover
Ask over and over,
As if they were surer when told.

There close to her side,
"I have a love in my heart,
She lifted her golden crowned head—
A puzzled surprise
Shone in her gray eyes—
"Why, that's why I kiss you," she said.

Two Good Reasons.

Under the table—What did you kick me
Under the table when I asked George
Leigh to have some more terrapin?

Mrs. Flathouse (severely)—For two
reasons. There was no terrapin, and
not being a skirt dancer I couldn't kick
over it.—Puck.

No Insult.

He (passionately)—Beloved, be my own:
Let me share your joys and sorrows, your
titles and smears.

She (devoted to painting)—Is this an insult?

He (abjectly)—My tongue is unreliable
because of my agitation. I did not refer
to your work, but to your smiles and tears.

Pittsburg Bulletin.

Taking No Risks.

Castleton—Don't ask me to go, Miss Sum-
mit, I went to church last Easter and
dropped a poker chip into the box by mis-
take.

Miss Summit—Pshaw! That hasn't any
thing to do with this year.

Castleton (doubtfully)—I don't know.
They might want me to cash it.—New York
World.

Mistrust.

"Jones and Jones don't trust each other
at all."

"You don't say?"

"Why, after shaking hands with each
other, each one counts his fingers to make
sure that none is missing!"—Hello.

HONORS TO THE DEAD

FINANCIAL OBSTACLES

Look Up Before Breckinridge and His
Proposed Appeal.

WASHINGTON, April 17.—Representa-
tive Breckinridge and his counsel were
engaged yesterday afternoon in prepar-
ing their formal motion for new trial.
This motion is a mere formality in the
case of an appeal to the district court of
appeals, for no one entertains the slightest
idea that Judge Bradley will overrule
the jury and grant the motion.

The motion will be based upon the
unusual grounds that the verdict was con-
trary to law, and was contrary to the
evidence and that the damages were ex-
cessive. Saturday is motion day in Judge
Bradley's court, and the judge thinks of
taking a short vacation for rest from his
labor of the past month, so that the date
for the hearing is uncertain.

The docket of the court of appeals is so
crowded that it is quite probable the ap-
peal cannot be heard there before next
September, when the court meets for its
fall term. The cost of an appeal to this
court is so great that it might well deter
the defense from prosecuting the case
further. It will be necessary to have
printed for the court, at the expense of the
appellant, a record of the court proceedings
in the circuit, and this, considering
the length of such a document, will be
a heavy expense in itself.

TAKING TO WATER.

Cooley's Followers Will Have a Three
Days' Rest on Canal Boats.

CUMBERLAND, Md., April 16.—The road
over the mountains between this point and
Williamsport was too rough and steep
to tempt the commonwealthers, and taking
advantage of the inflow of large
cash contributions, Cooley hired canal
boats to take the party 85 miles down the
canal to Williamsport. Cooley will work
his floaters in blocks of two, one barge for
the men and the other for the horses and
camp paraphernalia.

The canal company was not anxious to
transport the party, but Cooley showed his
ability as a manager, telegraphing Wash-
ington for permission of General Nit-
tington to pass the boats through the locks
and paid a job lot freight rate of 53
cents a ton on all of his company men
horses and lumber. This makes three
days of pleasant travel against the same
amount of weary tramping.

The company has been docile itself
since the reappearance of Cooley in camp.
The "Great Unknown" sunk out of sight
and Williamsport is a good port.

At 2:30 the casket was borne from the
marble room by nine Capitol policemen
in uniform and laid before the vice presi-
dent's rostrum. The lid was hidden by a
mass of flowers, chiefly white roses, tied
with broad purple ribbon. Conspicuous
by its beauty and size and by its solitary
grandeur was a single American beauty,
fastened to the head of the casket.

Mountain Pine Predominated.

When the active pallbearers deposited
their burden, a number of pines were
brought in and grouped about the form
of the dead senator. Everywhere was
the pine, seeming to bring the pungent
fragrance of the North Carolina moun-
tains into the senate.

A few minutes afterward the family of
Senator Vance entered, and soon after
committee of the senate and house ap-
pointed to attend the funeral entered.
Then came the honorary pallbearers, who
sat at the side of the casket, facing the
audience.

NEWFOUNDLAND POLITICS.

No Sign of a Settlement Between the
Contending Parties.

ST. JOHN'S, N. F., April 17.—The feeling
of St. John's against the new government
appears to be very intense. The city
proper is the stronghold of the Whiteway
party, and a movement is on foot there
to organize a popular demonstration. The
city is the strongest Whiteway city in the
country.

The following board of managers from
the missionary society were nominated for
the ensuing year: Revs. William
Butler, W. R. Clark, J. W. Lindsay,
George S. Chisholm, W. N. Brodick,
James M. George, George Skeve, J. W. Hig-
gin, E. W. Fiske, A. W. Rand and A. D.
Rising.

The amendment of the second restrictive
rule of the Baltimore annual conference
of 1892 was discussed.

The report of "Romanism" caused con-
siderable comment. There were several
comments relating to Dr. McGlynn
which a majority of the members tested
had placed on the records.

After a heated discussion resolutions
were adopted cordially greeting Roman
Catholics who are in sympathy with our
free institutions and denouncing any at-
tempts to make our schools sectarian;

that every qualified voter should hold
his allegiance to the United States and
should disclaim the rights of any poten-
tate, political or ecclesiastical, to demand
obedience to any authority which will
cause him to violate his oath of allegiance
as a good citizen. Resolutions were also
adopted deprecating the press for pub-
lishing such extended accounts of the
Breckinridge-Pollard case.</p

COUNTING A QUORUM.

House Adopted the New Rule by a
Large Majority.

PUTS AN END TO FILIBUSTERING.

Senate Makes But Little Head-
way on the Tariff.

WASHINGTON, April 18.—The new rule
formulated by the Democratic members
of the rules committee was laid before the
full committee by Speaker Crisp.

Mr. Catchings had reported the new rule
to the house before the journal was read.
Mr. Burrows offered a substitute, repre-
senting the views of the minority,
the rule of the Fifty-first congress on that
subject.

There was much opposition on the Dem-
ocratic side, and, failing to gain unani-
mous consent to close the debate at 4
o'clock, Mr. Catchings demanded the pre-
vious question on the rule reported and
the substitute. On this the vote on division
was—yeas 122, nays 98. The yeas and
nays were demanded and the roll called.
The vote on seconding the demand for the
previous question, on the quorum-
controlling rule, resulted—yeas 140, nays 120.

Only 15 minutes on a side were allowed
for debate, and Mr. Rees, instead of con-
suming that with an amendment of the
Democrats, goodnaturedly allowed
most of it to Democrats who desired to
oppose the new rule, and when his time
was exhausted, he jocularly asked for
more time to dole out among his friends
on the other side—Messrs. Bryan, Cum-
mings, Wheeler, Kilgore and Russell
being the Democrats who were thus given
an opportunity to protest against the
adoption of the rule.

When the vote was taken 47 Democrats
voted against it, but it received every Re-
publican vote and was carried by a vote of
212 to 47. The Populists did not vote on
the proposition.

Opposing Democrats.

The following Democrats voted against
the rule: Messrs. Abbott, Barnes, Black
(Ga.), Bland, Breckinridge (Ky.), Bryan
Bynum, Capen, Causey, Cobb (Ala.),
Conn, Cooper (Tex.), Covert, Cummings,
Dunn, Durhorrow, English (N. J.), Epes,
Goldzier, Grady, Hall (Miss.), Hines,
Holman, Hunter, Kilgore, Lane, Lapham,
Lester, Mallory, Martin (Ind.), McAleer,
McKagin, McMillin, Reilly, Russell (Ga.),
Ryan, Stevens, Talbott (Md.), Tracey,
Turner (Ga.), Warner, Wells, Wheeler
(Ala.), Whiting, Williams (Ills.), Williams
(Miss.), Wise. Total, 47.

The adoption of this rule, taken in con-
junction with the decision to enforce the
old law of 1846 to dock the salaries of
members absent, save on account of sick-
ness, will, it is thought, put an end for-
ever to parliamentary obstructions.

The enforcement of that law will keep mem-
bers at their post of duty, and the rule
will prevent them from refusing to par-
ticipate in legislation when they are pre-
sent.

At Peace.

After the adoption of the rule it only
required a few minutes to straighten out
the parliamentary tangle which the house
had been in for some days, and the house
then quietly proceeded with the considera-
tion of the consular and diplomatic bill.

Mr. Hitt made a strong speech, arraign-
ing the foreign policy of the administra-
tion, in the course of which he severely
scolded the president for appointing Van
Aken minister to Italy as a reward for
his \$50,000 political contribution. He
also criticised ex-Assistant Secretary of
State Quincy, for the character of his
consular appointments, and in a general
way ridiculed the state department's
policy of the present administration, not
neglecting a very pointed reference to the
attempt to restore Queen Liliuokalani to
the Hawaiian throne.

At the conclusion of Mr. Hitt's speech
the committee rose and the house ad-
journed. **Work in the Senate.**

The early hours of the senate were de-
voted to a skillful parliamentary struggle
between those for and against the tariff
bill. It resulted in an agreement to con-
tinue the arrangement of last week for
debate until Tuesday of next week, when
the bill will be taken up and rediscussed
by paragraphs.

Very little change has been effected by
this agreement, as speeches may be made
by senators after the first paragraph is
read until they are ready to have it acted
upon. The Republicans were anxious to
make certain that nothing by an ambigu-
ous wording might be construed as limit-
ing the length of speeches or the debate
on any paragraph or amendment.

Senator Hill would not consent to the
agreement until it was made plain that
he would not be deprived of making a
motion to consider the free list. Senator
Harris, in charge of the bill, believing that
a majority of the senators would not
consent to turn the bill around, did not
object to this understanding.

Two speeches were made on the tariff
bill, Senator McLauren of Mississippi fa-
voring the bill, and especially the income
tax, and Senator Smith of New Jersey
making a vigorous onslaught upon the
income tax feature. Both were Dem-
ocrats and each represented his section of
the country in his remarks, and showed
the different views of the party in the
Senate on the pending bill.

It was expected that the Chinese treaty
would be considered, but in an early ex-
ecutive session the senate postponed the
consideration until May 3.

Lodge's Amendment.

Senator Lodge presented the following
amendment, intended to be proposed by
him, to the tariff bill, to follow the free
list.

When not in contravention of any exist-

ing treaty, any article made dutiable in
the preceding sections shall, if it is the
product or manufacture of Great Britain or
of the colonies of Great Britain, pay
duty double that herein imposed; and,
when not in contravention of any ex-
isting treaty, any article upon the free
list in the preceding section shall, if
the product or manufacture of Great
Britain or of any of the colonies of Great
Britain, pay a duty of 10 per cent
ad valorem, except wool which shall bear
the rates imposed by the tariff act of Oct.
1, 1890; and such additional and discriminating
duties upon the products or manufac-
tures of Great Britain or her colonies shall
remain in force as are now in force.

IVES IS DEAD.

The Once Famous Financier Carried Off
by Consumption.

ASHEVILLE, N. C., April 18.—Henry S.
Ives, the Napoleon of finance, died here
last night. He reached Asheville about
two months ago from Florida, and has
hardly left his bed since. He lived in the
suburb with his wife and a few servants.

Henry S. Ives was formerly a member
of the firm of Henry Ives & Co. of New
York, which failed for \$15,000,000 in
August, 1887.

In September, 1888, Ives was brought
to trial before Recorder Smythe for over-
issuing 6000 shares of Cincinnati, Ham-
ilton and Dayton stock. The jurors an-
nounced themselves unable to agree,
but Ives effected a compromise with
his creditors at about 5 cents on the
dollar, and got out of Ludlow street jail
on March 18, 1890, after a year's incarceration.

He promptly went back to Wall street,
spent money freely, and for a year kept
the street in a state of nervous prostra-
tion by sending out rumors that he had
secured control of this or that prominent
road. But in June, 1891, he was attacked
by hemorrhages, and after that got out of
active business life. He appeared to have
saved plenty of money from his wreck
and entertained lavishly, when he mar-
ried Miss Lillian Gertrude Sears, a comic
actress, in New York, Nov. 11, 1892.

The old gambler had been dismissed, and he gathered himself up
at peace with the world. In February,
1893, his name appeared in connection
with a scheme to control the Cleveland,
Akron and Columbus railroad, but he
failed to do anything with the plan, and
since then the public has heard nothing
of him.

REBEL FLAGSHIP SUNK.

The Aquidabon Was at the Mercy of
Brazilians Off Santa Catharina.

MONTEVIDEO, April 18.—The officials of
the Brazilian legation in this city have re-
ceived a dispatch saying that the rebel
flagship Aquidabon, formerly the flag-
ship of Admiral de Mello, has been sunk
off the island of Santa Catharina.

According to the dispatches there was
an engagement off Santa Catharina, and
the Aquidabon was sunk by an attack of
the Brazilians.

The Aquidabon was a seagoing turret
ship of 5000 tons displacement, built in
England and launched in 1888. She was
protected by a belt of steel-faced armor,
having a maximum thickness of 11
inches, had two turrets, protected by 10-
inch armor, and her principal armaments
consisted of four two-ton breech-loaders,
bearing 12 machine guns. She was built of
steel, sheathed with wood and metal and
possessed all modern improvements in
construction and equipments.

Who Captured Amy?

LEBANON, N. H., April 18.—Judge
Smith has ordered a hearing for June 16
to determine to whom belongs the reward
for the capture of Amy, the murderer of
Christie Warden, for which there are five
claimants. The matter was referred to the
supreme court for adjustment by the
last legislature.

Columbia Bicycles. Henry L. Kin- cail & Co.

"Take a hole and put some
dough around it, then fry in lard."

This simple recipe has brought
thousands to grief, just because
of the frying in lard, which as
we all know hinders digestion.

In all recipes where you have
used lard, try

Cottolene

the new vegetable shortening and
you will be surprised at the
delightful and healthful results.
It is without unpleasant odor,
unpleasant flavor or unpleasant
results. With COTTOLENE in your
kitchen, the young, the delicate
and the dyspeptic can all enjoy
the regular family bill of fare.

Cottolene is sold in 3 and 5
pound pails, by all grocers.

Get the genuine. Made by

A WHACK AT CONGRESS.

Sovereign Refers to National Lawmakers
In Uncomplimentary Terms.

BOSTON, April 18.—The Knights of
Labor of this city held a demonstration
last night in Faneuil hall. General
Master Workman Sovereign spoke for
two hours. Among other things he said:

"The people of this country have sent
legislators to Washington who are 50
years behind the times in legislation and 50
years ahead of the times in rascality. Unless
there is a radical change soon the only outcome
of the present state of affairs is a monarchial government or ab-
solute democracy."

"A good system of government in the
hands of bad men have made capitalists
reap more in speculation than in production.
That system kindles the faggots of the
martyrdom of liberty. The present industrial
system did not come from heaven, but was born in hell, where
corporations and their allies in charge of
affairs have conceived their statesman-
ship."

"The state assembly, Knights of Labor,
met and adopted resolutions favoring
April 19 as a holiday for mill hands,
and also in favor of state labor holidays, fashioned
after the Belgian model, and the
erection of healthy dwellings by the
municipalities, to be so rented as to
pay merely the cost, money to be raised
by taxing the income of the wealthy.
Sympathy with M. I. Swift's demonstration
at the state house was disclaimed.

VANCE'S POPULARITY

Amply Demonstrated by the Citizens of
North Carolina.

RALEIGH, April 18.—The special train
bearing the remains of the late Senator
Vance was met by thousands of people
when it rolled into the capital city of the
state of which he was thrice governor.

Editorial Comment.

THE CHANGE on the Board of Regents of Voters is quite marked this year. Mr. Christopher A. Spear who held the position by virtue of his office as city clerk was succeeded by City Clerk Keith. As the board must be composed of two Democrats and two Republicans, it was necessary because of the change of politics of the city clerk that the successor of Mr. M. F. O'Brien should be a Republican, and a good selection was made in the choice of ex-Councilman Lester M. Pratt. Then Mr. Edwin W. Marsh who has been a member of the board since it was instituted in 1884, concluded it was best for him to resign, and Mayor Hodges has infused a little young blood into the board by the appointment of Mr. Edward B. Marsh of Ward One. Mr. Cornelius Moynihan is the only member to hold over. Mr. E. W. Marsh has been chairman of the board during all the ten years of service, and was particularly adapted for such a position, always keeping well posted on the law. Many would have been pleased to see Mr. Spear appointed on the board, but as he held other city offices he was not qualified for appointment.

NO IMPROVEMENT or enlargement of the source of water supply can easily be accomplished this year if contemplated, as the city is not authorized to increase its bonded indebtedness for water. An opportunity was missed Monday evening in not immediately petitioning the Legislature for authority to issue \$250,000 additional in "Quincy Public Water Supply Loan" for the purposes set forth in the Act of 1892, which include preserving, purifying and maintaining. The source of supply should soon be purified and increased. The next meeting of the Council is May 7, and the Legislature is liable to adjourn in a few weeks. The sum of \$45,000 may suffice for extensions this year, but no money can be voted for further extensions until the Legislature grants authority.

WHY SHOULD the miles of streets to be watered be curtailed? Sprinkling has been found to be beneficial to the streets and abutters appear willing to pay the assessments levied. As it is proposed Ward Six will get no watered streets. Hancock street should be watered its entire length, also Adams and Beale streets, and a portion of Willard street. It is contemplated to raise \$1,650 by taxation and \$1,650 by assessment. Without increasing the former, why not assess \$2,000, or \$2,500, or \$3,000, or even twice as much as raised by taxation, \$3,300, and expend \$4,950 for street sprinkling. The assessment is light when there are so many abutters, but that there may be a head and a system, the city should do the work.

CANAL STREET would be greatly improved if the water ways at Washington street and Mechanic street were closed and the street widened out. It would permit of a good sidewalk, remove considerable danger, and altogether increase the taxable value of property on the street. Canal street particularly between Hancock and Chestnut streets should be put in better condition.

THE STREET railway company does not appear to be in any great hurry to obtain an extension to Braintree, and the building of the street railway by the Braintree company seems to have struck a snag. If a location is granted upon Franklin street it should be in the centre of the street from School street to Independence avenue. The Braintree company is said to be waiting for additional legislation.

MISS BEMIS was on the debate, Miss Sullivan, secretary, took the chair.

The debate was—Resolved, That Cremation Should be Substituted in place of Earth Burial.

The speakers in the affirmative were:

Miss Pope, '94; Miss Shea, '94; Miss Souther, '94; Miss C. Sweeney, '94; Miss H. Sweeney, '94; Miss Thompson, '94; Miss Walsh, '94; and Miss Webster, '94.

The speakers in the negative were:

Miss Bates, '95; and Miss Webster, '95.

When the debate was opened to the house, Miss Bemis, '95, spoke effectively again.

Strong arguments were made on both sides, but the board of decision brought in a verdict for the affirmative. A vote of the society was also in favor of the affirmative.

MISS GREENEY, '95, the critic, gave an excellent report, which was accepted.

Miss Greene, '95, the critic, gave an excellent report, which was accepted. Miss Greene called attention to the pronunciation of "cremation."

GROCERS Entertained.

The Quincy Grocers' Association enter-

tained the Old Colony Grocers' Union

Tuesday evening at Wilson's hall. The

meeting was an informal one and the time

was spent in speech making and in par-

ting.

MISS GREENEY, '95, the critic, gave an

excellent report, which was accepted.

Miss Greene called attention to the pro-

nunciation of "cremation."

THE WISEST Economy.

It is easier to go wrong in selecting a range

than any other article of house furniture.

That's why we sell the Glenwood, it's the

best in the world satisfaction guaranteed

or money refunded. Henry L. Kincaide & Co.

PATRIOTS' DAY.

How the New Holiday will be Observed in this City—Many Events.

Patriots' day seems to meet with much favor and in the few weeks that have elapsed since the new holiday was established many programmes have been prepared. Nothing particularly appropriate for the day has been planned in this city, the home of some of the most distinguished Revolutionary patriots. A tent, cut from a solid block of Concord granite, and in color it corresponds so nicely to the shade of canvas that one gets deceived only a short distance away. It is just the size of an A tent, and shows the three widths of duck sewed together and the seams; and on the sides the pins driven into the ground. On front near the ground is the canvas turned up showing the entrance to the tent, and the buttons which fasten it.

The monument is to the memory of Marcus M. Porter of Stoughton, and the name is on raised polished letters at the top of the entrance; and near the bottom are these words: "We wait the trumpet sound." It is a beautiful piece of work, very creditable to the manufacturers, and has cost upwards of a \$100. Let those who enjoy viewing nice monumental work call at their yards soon, as it will be set in a cemetery at Stoughton next week.

Foot Ball Tomorrow.

The Quincy Association football team

will play a game with the Hyde Parks at

the grounds on Water street, Thursday at

11 o'clock. The Quincy team will line up as follows:

Goal, Thompson; backs, T. Smith, J.

Brown; half backs, J. Smith, W. Arnold,

M. Wall; forwards, J. Storey, J. McLeod,

R. Robertson, W. Marshall, J. Bissett.

Referee, T. Mundie.

YOUNG MEN'S CONGRESS.

Adjournment Until Fall—Congressman

Bailey Makes Lengthy Speech.

The twelfth and last meeting of the Quincy Young Men's Congress was held Tuesday evening. It was voted to adjourn until the first Tuesday in October, 1894.

The evening was mainly taken up by an elaborate discussion by Congressman

Bailey in regard to the administration of

the Hawaiian Islands, he occupying three

quarters of an hour.

There was also a debate of local interest

on the improvement of the triangle in

front of the rooms of the Young Men's

Christian Association.

There were 22 bills presented this year,

of which 6 were passed, 1 laid on table

and 2 not reported.

Bills passed—National Bill No. 3.

Resolution in favor of Postal Telegraph,

introduced by O. C. Colton, Missouri.

Municipal resolve, No. 4, by O. C. Colton

of Missouri, a resolution advocating the

need of marking the places of historical

interest in the city of Quincy with suitable

plaques.

State resolve, No. 16, by S. A. Foster of

South Dakota, a resolve concerning the

annexation of the Hawaiian Islands.

Municipal Bill, No. 17, by H. R. Holden of Georgia, an

USE CLOVER BITTERS

EVERY MONTH IN THE YEAR.

DYSPEPSIA

Is a most distressing and prevalent complaint affecting

Professional Men and others who by reason of their occupations are sedentary in their habits;

Workingmen who eat cold dinners and in other ways overtax their digestive organs;

People of a Nervous or Bilious Temperament;

Women who are delicate and overburdened with excessive family cares, and many others who in numerous ways indulge in practices that interfere with the process of digestion; and our object in writing this is to say to anybody who from any cause finds himself so afflicted that

Cures Dyspepsia and all irregularities growing out of indigestion, such as Inaction of the Liver, Weakness of the Nervous System, Constipation, Sour Stomach, etc. It is also the best general tonic, giving tone and vigor to the whole system.

Used in Medical Practice for thirty years, it has proven a specific in curing Dyspepsia. No matter how badly you may be afflicted, this remedy will relieve you after a few doses, and if continued for a reasonable length of time, effect a Radical Cure.

All dealers are authorized and requested to sell each and every bottle of Clover Bitters under a positive guarantee. And we hereby notify the public that after taking two-thirds of the contents of a bottle you are dissatisfied with the results, return the bottle with the balance of the contents to us and your money will be refunded as cheerfully as it was received.

YOUR GRANDMOTHER

Mother, if she wished to cure the pimpls and rheum of her babies' blood, did the same thing. Your Father used to sow clover seed. He knew it was the best of feed for all his stock, made them round and plump, their coats sleek and glossy, the cow's milk richer and purer. If your grandmother could only have had a little more knowledge of drugs, so she could have added other herbs to the clover to assist its action, what little sickness she would have had in her family. We, the Clover Medicine Company, have added to the extracts of the red and white clover just the right herbs to make every organ of the human system do its work thoroughly and well. The result of adding these herbs to clover is Clover Bitters. You can kill all the humors in your blood, cancer, scrofula, salt rheum, pimpls, by taking Clover Bitters. It will do more, it cures constipation, regulates the liver and kidneys and strengthens the whole system.

Every Man, Woman and Child Needs Something to Tone Up the System.

The valuable receipt of an experienced physician, the result of years of successful practice.

Clover is death to SCROFULA, SALT RHEUM and CANCER. Take Clover Bitters, which is made from the extract of Red and White Clover, and it will purify your blood. CLOVER BITTERS makes a good appetite, stimulates the Liver and Kidneys, brings back lost health and vigor. Health is wealth. TRY IT NOW.

SALES INCREASING MONTHLY OVER FOUR HUNDRED PER CENT.

No Remedy Compounded from the Vegetable Kingdom contains as much virtue and will do its work so thoroughly as

CLOVER BITTERS!

Mrs. General U. S. Grant Said: "When the General was sick with cancer of the throat, many formulas were sent me for the cure of the disease. More than eighty per cent. of them contained Clover."

See the Formula of Clover Bitters.

THE FORMULA:
Red and White Clover, Trifolium, Taraxacum, Barosma, Gentiana Lutea, Podophyllum, May Apple, Crispus, Apocynum Androsemifolium, Dandelion, Buchu, Gentian, May Apple, Yellow Dock, Bitter Root.

THE PRINCIPAL INGREDIENT

of Clover Bitters is the extract of Red and White Clover. Clover acts upon the blood, killing the humors of Cancer, Scrofula and Salt Rheum. More people die from the effects of Cancerous and Scrofulous humors (or Consumption which is a form of Scrofula) than all other diseases combined. If you keep these deadly humors out of your system, you do a great deal toward warding off disease. Clover is one of the best known remedies for impure blood; its reputation is world wide for humors in the blood. In order to assist the action of the Clover—for Clover has but little effect except upon the humors of the system—we have added other herbs, all of them from the vegetable kingdom—in fact, there is no mineral, as Potash or other harmful ingredients, in Clover Bitters. We have strictly avoided such hurtful drugs as Saltpetre and Iodide of Potash. Gentian is the next ingredient of Clover Bitters.

Gentian, when taken in the mouth promotes the flow of saliva, and in the stomach stimulates the production of gastric juice. It follows that there is an increased appetite and an increased digestive capacity. So, more food being taken, and more thoroughly digested, it is obvious that Gentian enriches the blood, and the tissues are consequently improved in their nutrition. For stomach troubles, no one drug is more useful than Gentian, and none more frequently prescribed by physicians. Next to the stomach the liver is the most important organ of digestion. Besides assisting digestion, it is the storehouse of the system. If your liver is not active and healthy, you cannot be well. Podophyllum, or May Apple, is put in Clover Bitters to take care of the liver. Each dessert spoonful of Clover Bitters contains a small dose of May Apple. Besides making the gall flow from the liver and so preventing gallstones and gall stones, Podophyllum increases the secretions of the bowels and so prevents constipation. The kidneys filter the blood—that is, they take from the blood a great deal of waste and poisonous material that the blood has taken up as it circulates through the body. No organ in the body is so frequently at fault without our knowledge as the kidneys. Dandelion and Buchu, if taken as mixed in Clover Bitters, will surely make the kidneys strong and healthy. Your family physician will tell you that Dandelion is also good for constipation. Much more might be said of this medicine. But we have given this brief outline to show the action of Clover Bitters, that you may know its great merit and how it has made so many wonderful cures. It will Cure You.

A Trial will convince you of its immediate effect.

Clover Bitters Will Do It.

Put up only in one size bottle. Full measure, one pint. Price \$1.00. None genuine without the name, CLOVER MEDICINE CO., blown in each bottle.

Clover Bitters, Clover Balsam, Clover Ointment. For Sale Everywhere.

THE CLOVER MEDICINE COMPANY, AUGUSTA, MAINE.

PATENTS

INDIANA FAMILY FEUD

NOTICE TO INVENTORS.

Came Near Being Settled in a Law Firm's Office.

EX-ATTORNEY GENERAL MILLER

Was In Close Proximity to Flying Bullets.

THESE was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and work-shop, the household, on the farm, and in official life, require continual accessions to the apparatus and improvements of each in order to meet the demands and expenses. The political change in the administration of government does not affect the progress of the American inventor, who, being on the alert, and ready to perceive the existing difficulties, does not permit the affairs of government to interfere with his efforts in finding the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing a competent and skillful attorney to prepare and prosecute an application for patent. Valuable interests have been lost through the fault of incompetent counsel, and especially is this a wise application to those who adopt the "No patent, no pay" system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the cost and expense of the patent is never considered in view of a quick endeavor to get an allowance and obtain the fee then due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of inventors, publishes a list of papers, as well as general periodicals of the country, was instituted to protect its patrons from the unsafe methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for a fee, and prepares and prosecutes applications generally, including mechanical inventions, design patents, trade marks, labels, copyrights, interferences, infringements, validity reports, and gives special attention to rejected cases. It also prepares to enter into competition with any firm in securing foreign patents.

morning she had told her husband that years ago her brother had attempted to assault her.

A Good Argument.

TORONTO, April 18.—The Toronto Telegram, speaking of the proposal to give a bonus to a line of steamers to run from Canadian ports to England, says it is playing with commercial impossibility. The country can never bid for rapid ocean service. No Canadian line could afford to do business at lower than American lines. Travel will always prefer a steamer with clear water ahead to the perils of a cold northern route with its ocean graveyards.

A Day of Rest.

WILMINGTON, April 18.—Receiver Payne of the Northern Pacific railway has been elected a director and president of the Northern Pacific and Chicago and Calumet Railroad companies. The roads have passed into the hands of the latter company. The unexpected step was taken in order that the Northern Pacific would again be placed in possession of its Chicago terminal property.

Woolen Weavers Organize.

PITTSFIELD, Mass., April 18.—The Woolen Weavers' Textile Union organized a branch here last evening. The Russell Mill started up its finishing room and dyehouse to finish off their unfinished stock for market. There is a prospect, however, that the strikers and owners will come to an understanding before this work is accomplished.

A Fall Kill.

INDIANAPOLIS, April 18.—In the law office of Harrison, Miller & Elam there was an exciting shooting affray. President Harrison and ex-Attorney General Miller are the senior members of the firm. A conference had been arranged between William B. Copeland and William H. Bruning, rival litigants of Madison, and their attorneys at the office. Bruning, his attorney, A. C. Harris, and Fred Winter, a member of the law firm, were already in the room when Copeland came in and, without saying a word, drew a revolver and began shooting at Bruning.

The first two shots struck Mr. Harris in the left arm, and the third struck Bruning in the cheek, inflicting a very dangerous wound. Mr. Miller ran into the room and attempted to seize Copeland. The latter, maddened by the interference, tried to shoot the ex-attorney general, but was prevented. In the meantime, however, he had used the weapon as a club, and had beaten Bruning frightfully about the head and face. Men in the adjoining offices rushed in and prevented further shooting.

Copeland was arrested. He is an member of the legislature. Harris is not seriously wounded. Bruning will probably recover. Several suits are pending between him and Copeland, and very bitter feeling exists.

Litigants Are Brothers-In-Law.

There are three suits pending in the United States court, in which Clara Copeland is plaintiff, and William H. Bruning defendant. The same question is involved in all of the suits—the division of the estate of John F. Bruning, the father of Clara Copeland and William H. Bruning. The estate is very large.

The relations between the litigants were that of brothers-in-law. Copeland married Bruning's sister in 1885 while he was a member of the legislature. The family were opposed to his marriage. Bad blood has resulted from the suits. A. C. Harris is attorney for Clara Copeland and Miller, Winter & Elam at attorney for William H. Bruning. The case is in chancery at present.

School Building Collapsed.

MONTREAL, April 18.—A portion of the roof of the Riverside school at Point St. Charles fell and killed three children. Several were injured.

Mr. Harrison Starts East.

SAN FRANCISCO, April 18.—Ex-President Harrison, who has finished his law lectures at Stanford university, has left for Indianola.

Stockton Stage Robbed.

STOCKTON, Calif., April 18.—A lone highwayman robbed the stage near Milton of the Wells-Fargo treasure box containing \$3000.

THE COXEY BUGABOO

Is Causing Much Apprehension on the Part of Senators.

FOOD FOR THE HUNGRY ARMY

The Most Important Item to Be Considered.

WASHINGTON, April 20.—Inquiry concerning the proceedings of the executive session of the senate on Wednesday develops the fact that senators take a more serious view of the prospective gathering of Coxeyites and others here than the first reports would have seemed to indicate.

They do not entertain so much apprehension concerning the immediate followers of Coxey as they do on account of the large number of other organizations reported to be headed towards the city, and they think it possible that the large cities of the eastern seaboard may furnish large contingents if it should become apparent that there will be a sufficient assemblage otherwise to make a cloak for pickpockets and thieves.

It has also occurred to some of them that the crowd will necessarily contain an unusual percentage of professional agitators who, being reckless of consequences, may incite the crowd to violence.

Senators who sat quietly in open session yesterday while the Populist senators were discussing the proper method of dealing with the Coxeyites, expressed themselves quite freely in secret session to the effect that immediate measures should be taken by the executive department to meet any of the exigencies which may arise.

Some Precedents.

The fact was recalled that when it looked as if there would be trouble at the inauguration of President Lincoln, General Scott recommended the city with troops, and the announced purpose of General Grant to do the same thing on the occasion of President Hayes' inauguration was also cited.

The opinion is expressed by senators who participated in the executive proceedings that in view of these precedents and the emergency that is likely to arise, President Cleveland would be justified in issuing a proclamation warning the men now on their way to the city in connection with Coxey's movement that the authorities will be prepared to require the strictest observance of order.

The opinion is also freely expressed in the senate, and was advanced in executive session, that congress cannot afford to withhold and do nothing looking to the sustenance of the Coxey army while here. It is expected that if a large body of men should assemble, as is now regarded as probable, that they will soon find themselves more anxious to secure food to sustain life than money to build roads, and will be clamorous for an appropriation to that end.

Senator Cockrell, chairman of the committee on appropriations, has given notice of a speech on the Peffer resolution, and when asked for an expression of his views declined to talk, urging that he would probably touch upon this phase of the question in his speech.

More Tariff.

Yesterday in the senate was almost entirely consumed by a speech against the pending tariff bill by Senator Perkins of California.

The speech was mainly devoted to a discussion of the articles in the bill which directly affected California, wool, fruits, quicksilver, beet sugar, etc., although he considered other features in the bill in which his state was not interested, but which were opposed to Republican principles and which he accordingly arraigned.

The Peffer resolution for the appointment of a committee on communications, for the purpose of hearing the grievances of Coxey's army, was debated by Senators Peffer and Allen, both of whom favored it, but it went over without action by the expiration of the morning hour.

Eulogies were pronounced on the late Representative W. H. Enochs of Ohio, after which the senate adjourned.

In the House.

The house is making very slow progress with the diplomatic and consular appropriation bill. Almost the entire day was devoted to threshing over old straw.

The text used as a basis for the debate—a motion to cut off the salary of the Hawaiian minister—was defeated when the vote was taken without division.

About 4 o'clock half the membership of the house suddenly faded away to attend the opening ball game of the season, and the Democrats were unable to produce a quorum, and after a rollcall the house adjourned.

Rumors and Denials.

NEW YORK, April 20.—It has been rumored that a combination has been effected between the managers of the New York Central, Erie, West Shore and Delaware and Hudson railroads to reduce the wages of their employees 10 per cent. Chauncey Doew and other officers declare the rumors to be untrue.

Bound to Go to the Theater.

BANGOR, Me., April 20.—A young woman named Foster is under arrest here for stealing a diamond ring worth \$200 from Mrs. C. C. Emerson. When arrested the girl was at the theater, having "hung up" the ring with the ticket manager for passes for herself and a friend.

Close to the Reserve.

WASHINGTON, April 20.—The net gold in the treasury at the close of business yesterday was \$103,473,528, and the cash balance \$181,345,741. The gold supply has reached a point where the \$100,000,000 reserve is liable any day to be encroached upon.

STARTED OFF WELL

The Boston Polish Off the Bridgemen In Good Shape.

BOSTON, April 19.—After an uninteresting game Boston defeated its opponent in the first game of the season. The errors of the Bridgemen were mostly of a costly nature, while the home nine took advantage of every point of the game, and batted hard. The cranks were out in full force, and gave a royal reception to all the favorites of both nines as they came to the bat. Umpire Jim O'Rourke, an old Boston favorite, had to wait several minutes after the call of time before the crowd would allow him to keep his hat on his head.

Boston..... 0 0 1 5 1 0 2 4-18

LOUISVILLE, April 19.—Heavy rains caused a postponement of the opening of the League season of 1894.

CINCINNATI, April 19.—No game. Rain.

TO SUCCEED VANCE.

Ex-Governor Jarvis Will Become a United States Senator.

RALEIGH, April 20.—Hon. T. J. Jarvis has been appointed to, and has accepted, the United States senatorship, to succeed the late Senator Vance.

Jarvis was speaker of the house in 1873 and lieutenant governor in 1876. He succeeded Vance as governor Jan. 1, 1877, and was re-elected governor in 1880, and was unanimously recommended to President Cleveland for a cabinet position by the legislature in 1884, but instead was appointed minister to Brazil by President Cleveland.

In an interview Mr. Jarvis said that he

stands on the Chicago platform as construed at the south. His relations with the administration, so far as he can control them, may be inferred from the fact that Cleveland appointed him minister to Brazil.

Elected Officers.

BOSTON, April 20.—The 17th annual meeting of the grand lodge of the Royal Arcanum was held in this city yesterday.

The proposed changes relative to sick

benefits, the substitution of a special as-

sessment for a per capita tax and the

sending of assessment notes to members

were strongly deprecated. These officers

were elected: Regent, F. F. W. Reynolds

of Jamaica Plain; vice regent, A. W.

David of Lowell; orator, W. H. Simmons

of Fall River; secretary, H. A. Boynton

of Newtonville; treasurer, J. S. Hayes

of Somerville.

Police Recover Valuable Property.

NEW YORK, April 20.—Bonds of the

Newcastle and Northern Railway com-

pany, supposed to have been stolen from

James S. Negley, the president of the com-

pany, were found by the police yesterday

in an old valise in a Madison square resi-

dence in this city. They were in a room

occupied by a man who has disappeared.

The bonds represent a face value of

\$56,000, bearing 6 per cent interest and

maturity in 1923.

Argentina Holds Insurgents' Ships.

Buenos Ayres, April 20.—All the men

belonging to the five vessels of the late

insurgent Brazilian fleet have been

transferred to the lazaretto. Argentine

crews have been placed on board of the

vessels pending the arrival of the Bra-

zilian government squadron, to the com-

mander of which the five vessels will be

turned over. They will then be taken

back to Brazil.

A Brave Police Officer.

PROVIDENCE, April 20.—Mary E. Early,

5 years old, ran in front of the team of

DUANE Chief Engineer Hill of the fire de-

partment while on the way to a fire. Hill

had no time to turn back. The Police

Officer Hopkins, spring forward, seized

the child and threw her out of the way,

just in time to escape being crushed to death.

Hopkins was injured, but not seriously.

Bob Wants to Get at Him.

WATERFORD, N. Y., April 20.—As Mrs.

Charles Dennis, aged about 30, was re-

turning alone from the village of Morley,

a farm hand named Swartsfager, aged 21

years, seized her and assaulted her. The

woman was in a delicate condition. She

was badly injured. Swartsfager was

being closely guarded. Sum-

mary Dennis is threatened.

Too Free Use of a Gun.

NASHVILLE, April 20.—Thomas Ramsay,

a saloonkeeper, shot and instantly killed

Horley Forman and Tom Fagin last night.

Forman was drunk, and it is claimed en-

deavored to cut Sam Fagin, the bartender,

New Summer Goods.

THE HOSPITAL SALE.

Almost Everybody Visited Residence of Hon. W. B. Rice on Thursday.

Doubtless the spacious parlors of the beautiful residence of Hon. William B. Rice on Adams street, never held a larger and more enthusiastic gathering than that of Thursday afternoon and evening at the sale of the Hospital Aid society.

The whole house was thrown open to the ladies, yet so many were there present that it was difficult to move about. To be sure camp chairs were provided but in order to enjoy the luxury of one of them it was necessary to part with a certain amount of silver and as it was for a worthy object no one hesitated to do so.

The interior of the house was very prettily trimmed with flowers while outside the grounds were decorated with flags and bunting.

In the dining room where refreshments were served Mrs. George Keyes was in charge, and Mrs. Saville and Mrs. Davis had charge of paper table.

Mrs. Whicher presided over the table where fancy articles were for sale; the King's Daughters of the hospital aid over the candy, lemonade and toys; Mrs. L. G. Marsh over the silver table and Mrs. Eaton let the camp chairs.

The several tables were well supplied with articles which met with a ready sale, as was evident from a remark dropped by one poor man, "that it did not cost anything to get in but a great deal to get out."

The entertainment in the afternoon consisted of an original poem by Miss Kate A. Raycroft, entitled "A plea for the Hospital;" a minute dance, executed by Masters Edward Morse, Joel Sheppard, A. B. Gilson Thorp Babcock, and the Misses Alice Clafin, Beatrice Tisdale and Ethel Babcock; a fancy yolk by Henry Baxter, Stacey Southworth and Jeannette Carr; a tambourine dance by Little Miss Audrey Rhines, and violin selections by Brooks Keyes.

A goodly sum will be realized.

FASHIONABLE WEDDING.

Miss Viola I. Daland and Mr. Henry A. Davis United in Marriage.

The hospitable residence of Mr. and Mrs. W. H. Fay of Greenleaf street was the scene Wednesday evening of a brilliant wedding.

The contracting couple were Mr. Henry Alden Davis of Boston and Miss Viola Ida Daland of Philadelphia, the bride a relative of Mrs. Fay. Miss Hattie M. Fay was maid of honor and Mr. Samuel B. Hoar of Danvers the best man. They were accompanied by a little page, J. Abbott Wiggins of Philadelphia, and two charming young bridesmaids Misses Lottie and Fannie Wollcott of Danvers. The ushers were Mr. Arthur T. Reed of Boston, Mr. M. E. Lord of Danvers, Mr. A. G. Allen of Danvers, and Mr. S. B. Moores of Danvers.

Rev. Edward Norton officiated and the bride was given away by her father Mr. Benjamin A. Daland of Philadelphia.

The bride was gowned in a violet Bengaline silk with train, trimmed with velvet, ribbon and lace; the tulle veil was fastened with bride roses and she also carried a bouquet of bride roses.

The maid of honor wore white silk, in train, trimmed with white chiffon, and carried a bouquet of white pinks. The bride-maids were dressed in white and carried bouquets of Parma violets.

The decorations of the house were elaborate. The ceremony was performed beneath a Swiss lace canopy, with violet trimmings, palms and cut flowers. The present table, heavily loaded with costly gifts, was trimmed with violet, and the dining room with pink.

The little bridesmaids passed the bride's cake.

An orchestra from the Salem Cadet band discoursed sweet music.

Mr. and Mrs. Davis left that evening on a tour and upon their return will reside in Boston.

TODAY'S COURT.

Thomas F. Mack paid a fine of \$75 for violation of the liquor law at West Quincy. John C. Gilligan of Weymouth was arraigned for illegal sale of liquor. Case continued until Saturday.

Charles B. Maher and John B. Barry, two juveniles of Weymouth, were arraigned for breaking and entering the news stand of W. E. Cunningham at Weymouth and the larceny of revolvers valued at \$25. Case continued until next Thursday.

An unoccupied house and barn of Timothy Conners at Lovell's Corner was destroyed by an incendiary fire this morning. Loss, \$1,500; insured for \$900.

MARRIED.

DAVIS—DALAND—In Quincy, April 18, at the residence of Mr. Wm. H. Fay, by Rev. Edward Norton, Mr. Henry Aiden Davis of Danvers, to Miss Viola Ida Daland of Quincy.

WHAT PASKOLA IS DOING.

Dr. G. W. Babcock of Chelsea, Mass., says: "It gives me great pleasure to speak in the highest terms of your delightful preparation. 'Paskola' is one of my young lady patients who gained much and says she feels like a new creature."

Mr. James C. Collin of Syracuse, N. Y., says: "PASKOLA is indeed a *food*, and a *royal* one, too. I have already gained six and one-half pounds."

Mr. Charles E. Isaacs, 413 Main street, Worcester, Mass., says: "I have tried many doctors and countless patent medicines—all were of no avail till I took 'Paskola.' To eat *Paskola* is a pleasure. Heretofore it has been a torture."

Mrs. R. P. Casy of Newton, N. J., says: "I prize 'Paskola' beyond my feeble description. It has accomplished more than you claim for it."

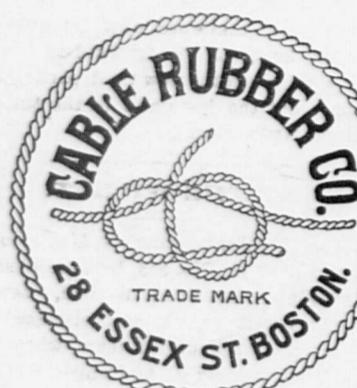

Mr. J. Calvin Barnard of London, N. H., says: "My friends and doctor thought I must die, but the first dose of 'Paskola,' gave me a little appetite and I began to revive. I have gained twenty pounds in five weeks."

Mr. M. Leonard of Biddeford, Me., says: "I have derived more benefit from two-thirds of a bottle of 'Paskola' than from all the medicine I have used in the past six months."

Emma M. Otto of Perinton, N. Y., writes her druggist: "Since taking 'Paskola' my digestion has been much benefited and nebulously improved."

Mr. D. J. Kelleher, 13 Charles street, Somerville, Mass., says: "I have gained four and one-half pounds since beginning the use of 'Paskola' and feel ever so much better."

PATENTS
NOTICE TO INVENTORS.

THERE was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of the family and work-shops, the household, on the farm, and in official life, require continual accessions to the apparatus and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the Arts and Inventions. The benefit of the art, and ready to perceive the existing deficiencies, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing difficulties. Too great care cannot be exercised in choosing a competent and legal attorney to prepare and prosecute an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially by this article applicable to the writer of this. No. 1,000,000 in patent system. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain the patent due. THE PRESS CLAIMS COMPANY, John Wedderburn, General Manager, 618 F street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instrumental to protect its patrons from the loss of valuable rights and improvements in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepares and prosecutes applications generally, including mechanical inventions, designs, trade marks, copyrights, trademarks, improvements, validity reports, and gives especial attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Write for instructions and advice.

"Putting Their Heads Together."

Moderate Fees.

"Say, master, givin 10 cents!" exclaimed a bootblack as he stopped a young man on Griswold street near the city hall yesterday.

"Go on, you young liar!" was shouted at him.

"Who's a young liar?"

"You are."

"What about?"

"You don't have to support no family."

"Who said I did? I wasn't askin on to 10 cents to support a family on, but to stake me up in blacklin. Come down."

"Se here, boy," said the young man as he came to a halt, "I want you to go on. Maybe you think you've struck a hayseed. By what right do you ask me for 10 cents?"

"Fees."

"Fees for what?"

"Fees takin out a marriage license in that 10 minutes ago."

"You did, and you don't want the reporters to git onto your shape either."

"What nill my shape?"

"Badly warped—too big—turn in hair off color. Everybody says my charges are very moderate. One dime, if you please."

The young man looked indignant for a moment, but he finally seemed to think it a wise policy and handed out the coin, with the remark:

"Boy, I rather like cheek, but don't sue this thing too far."

"No, sir, I won't. I haven't said a word about the shape of the gal, you know, and this insures my total silence. Good lands, sir, but if I'd put the reporters onto that bleached hair—them No. 8's those lemon colored eyes—you'd never got over it all before now. Ta, chappie. Good things happen to people who meet instead of the avaricious crowd which never takes less'n 50 cents and then gives it away that the mother-in-law is to live with no longer, and she have the happy couple!"—Detroit Free Press.

Steamed Off and Left Us.

"We were now heartick, and it was all that the officers could do to control their feelings. At night, in addition to blazing lights and signals of distress, we sent up confounding rockets and kept fires burning on the fore deck. We were drifting yet from the line of steamers. Some of the passengers, while others, less religious, made ghastly jokes about our situation in an endeavor to distract their fears."

"There was no change on the following day, but fears that the Ems was filling added to the misery of those on board."

"Tuesday, March 27, oil was constantly poured over the sides of the vessel, as the storm was still raging, and the tossing of the ship had not ceased. Finally the lookout at the topmost announced that he saw smoke in the distance on the horizon. The news caused a flutter of excitement among us. Finally the vessel came in sight, and to our irrepressible joy the vessel was coming toward us to rescue us from what we could only regard as a terrible fate."

"On the next day, March 24, the Ems was to be towed back to Queenstown when the weather permitted. Then an Imman steamer was sighted, but refused to aid us."

"On the 23rd, Easter, it was raining, snowing, sleeting, and the wind blew terribly. Our companion and guardian still hovered about us, but when the storm began to subside, the machinery was again started, but in half an hour stopped again. Later it developed that the shaft had broken, and we were drifting helplessly about in the trough of the seas. At about 6 p. m. a steamer, which proved to be the cattle ship Rappahannock, bound for London, agreed to tow us back to Queenstown when the weather permitted. Then an Imman steamer was sighted, but refused to aid us."

"The young man looked indignant for a moment, but he finally seemed to think it a wise policy and handed out the coin, with the remark:

"Boy, I rather like cheek, but don't sue this thing too far."

"No, sir, I won't. I haven't said a word about the shape of the gal, you know, and this insures my total silence. Good lands, sir, but if I'd put the reporters onto that bleached hair—them No. 8's those lemon colored eyes—you'd never got over it all before now. Ta, chappie. Good things happen to people who meet instead of the avaricious crowd which never takes less'n 50 cents and then gives it away that the mother-in-law is to live with no longer, and she have the happy couple!"—Detroit Free Press.

Formal Preaching.

The skeleton of a sermon, as its name implies, is better kept concealed. It is meant for use, not for show.

Sixty years ago, according to Dr. Mines, there was a French Huguenot preacher in New York—a queer little man of unimpeachable learning and dullness—who modeled his sermons exactly after the pattern laid down in Claude's "Essay on Preaching." Usually he preached in French, but when he resorted to English the effect was irresistible.

He not only built his discourse upon a set plan, but was careful to have the fact known and appreciated. To that end he announced in turn each of his divisions.

"Now we have de oration," he would say gravely, and then, "Now we have de portion."

His masterpiece of effectiveness was exhibited when, with a befitting solemn face, he gave out the thrilling announcement:

"And now, my friends, we come to de pa-tel-ic!"—Youth's Companion.

Flesh Boiled From Her Bones.

CENTERVILLE, R. I., April 20.—Mary Nelson, 4 years old, was scalded to death yesterday. Her flesh was boiled from her bones. She fell from the top of a table into a washboiler of hot water. The child made no outcry, and when her mother returned she was dead. When taken from the water flesh dropped from her bones.

Citizens Protest Needed.

CHICAGO, April 20.—Mayor Hopkins has refused the application for a license to open Garfield park race track. The violent condemnation of the track by citizens was largely responsible for the mayor's action.

A Bad Tumble.

BOSTON, April 20.—Hugh Devine, 16 years old, while trying to surreptitiously witness the Tracy-Walcott fight in Music hall, fell from the roof, striking on the iron fire escape in his descent, fracturing his skull.

From the Wild West.

RUTLAND, Vt., April 20.—Dr. W. Seward Webb has just received a carload of and two black-tailed deer for his Lake Champlain park.

A Rainy Day.

WILLIAMSPORT, Md., April 20.—The Coxey army camped in the rain here yesterday. The only thing about the army that seemed to shock the townspeople was the array of repulsive religious caricatures on the banner.

No Strike.

MILWAUKEE, April 20.—The Milwaukee street Railway company has agreed to pay the old scale, and the threatened strike is off.

Don't Push.

A poor baby carriage, the finest line of carriages ever offered, \$3.50 to \$25.00. Henry L. Kincaide & Co.

VOYAGE OF THE EMS

Described in a Graphic Manner by One of Her Passengers.

DAYS OF TERRIBLE ANXIETY

While the Vessel Was at the Mercy of the Sea.

NEW YORK, April 20.—The North German Lloyd steamer Kaiser Wilhelm II, having on board the 11 first cabin, 15 second cabin and 150 steerage passengers of the Ems of the same line, which was towed into Fayal, in the Azores, on April 2, with a broken shaft, by the tank steamer Wildflower, arrived at her dock in Hobart late yesterday afternoon.

The passengers were greeted enthusiastically by the many friends who had gathered on the pier to welcome their safe return after the long and never-to-be-forgotten voyage across the Atlantic.

A reporter boarded the Kaiser Wilhelm at quarantine and was given a detailed account of the experiences of the passengers during the terrific hurricanes which the Ems had encountered.

One of the first cabin passengers said: "We left Southampton on March 18 in clear, fine weather. On the 19th the skies continued clear, and on the 20th it began to rain.

The ducal chapel, which had been thoroughly redecorated for the occasion, is an ancient, oblong building, full of elaborate paintings and frescoes, its interior being surrounded by a gallery supported by broad, flat pillars, terminating in frescoed arches. On the altar, draped with crimson velvet and gold, stood a handsome ivy and ebony crucifix, flanked by tall waxen tapers and gold candlesticks.

Garlands hung gracefully from pillars, and the pulpit was embedded in beautiful white flowers. It being primrose day in England, in honor of Queen Victoria's primroses brought especially from England formed one of the leading features of the elaborate floral decorations of the ship.

On April 21 the sea was still rough.

The next day it rained very hard, the wind grew higher and there was every indication that a violent storm was coming on.

The following day it came, and in the shape of a full hurricane. There was a tremendous wind howling, and the Ems tossed and pitched frightfully. She shipped great quantities of water that the Ems was still rough.

The next day, March 22, the Ems was still rough.

The next day, March 23, the Ems was still rough.

The next day, March 24, the Ems was still rough.

The next day, March 25, the Ems was still rough.

The next day, March 26, the Ems was still rough.

POPULIST BACKING.

Proposition to Provide For Coxeyites While In Washington.

SOME HOT SHOT FROM HAWLEY.

Doesn't Think Commonwealthers Worthy of Sympathy.

WASHINGTON, April 21.—In the senate the Peffer resolution for the appointment of a reception committee for Coxey's army of the commonwealth, to be known in senate parlance as "the committee on communications," came up and received some very rough handling.

Senator Hawley, who dealt the blows, said he would have preferred to have some members of the Democratic party in the senate take this day, for certainly the remarkable speech of Senator Allen of Nebraska ought not to be allowed to go forth to the country as representing, in any degree, the views of the senate.

He had been very much surprised and pained to hear that speech. There was not a citizen of the United States who did not sympathize with thousands and thousands of poor people who were affected by the present business depression, and no one is supposed to restrict the constitutional rights of the people, but there had been circumstances arising within the last month or two which did not come under that category.

Many bodies of men were assembling in different parts of the country with the intention of marching upon Washington and making some kind of a demonstration. They were to gather before the Capitol, where they would be addressed by their orators, and then they were to march bodily into the senate.

Such a thing was without precedent, except when in colonial times a body of men, in New Hampshire, had taken possession of the members of the legislature, and again, when the Gauls had marched into the Roman senate and had shaken the venerable beards of the senators.

SENATE SHOULD BE CAUTIOUS.

He wished to insist respectively that the United States Senate owed something to its own traditions and dignities. The house of representatives could take care of itself, but whatever the senate did or did not do, the latter would be the more established a precedent should be set and thoughtfully and thoroughly. It was quite possible to manage this business quietly and firmly, so that it should pass away, and it was equally possible to so manage it as to make these pilgrimages a yearly occurrence.

The senator from Nebraska, said Mr. Hawley, had referred to this army as the "people," and had said that they had a perfect right to come here and fill the galleries. Perhaps they had, but the senate had more accurate advice from the people than Mr. Coxey could give us. The senate had advised regularly for 100 years in the constitution and laws and the traditions and rules of the senate.

In conclusion, Mr. Hawley said there were many other things in the remarkable speech of Mr. Allen which should be refuted, but he did not propose to do it. "I am sorry to say," he said, "but I feel bound to say it, that the speech of the senator from Nebraska was such as would be received with applause by a gang of anarchists, and it would not require a microscope to discover in it the microbes and bacilli of anarchism."

Mr. Allen was immediately on his feet claiming recognition, but at this moment the hour for taking up the tariff bill had arrived, and the resolution went over.

PREPARING FOR COXEY.

Provision for the accommodation of the army of the commonwealth is contemplated in a resolution introduced in the house by Representative Boen, Populist, of Minnesota.

The resolution instructs the secretary of war to provide within the District of Columbia a camping ground and tents for all organized bodies of laboring people who may come within the district, and to see that their rights as citizens are respected and protected during their stay here.

A preamble to the resolution recites that the reported approach to Washington of large numbers of unemployed people for the purpose of laying before the government their views on the economic depression, and to suggest remedies therefor; that it is the duty of the government to maintain peace and to respect and protect the rights of citizens, and that peace, order and goodwill can best be secured and observed by concessions and recognition by the government as well as by individuals of the rights of citizens and by extending all possible aid to them in their endeavors to secure such redress as they may consider themselves entitled to.

The resolution was referred to the committee on military affairs.

TRY OUT.

PEABODY, Mass., April 21.—J. E. Trask, who was shot by his brother-in-law, Clarence M. Mason, March 5, was able to be out yesterday for the first time since the shooting. It was thought at the time that he was fatally wounded by the two shots fired at him.

WILL BE COMMISSIONER MARTIN.

BOSTON, April 21.—Ex-Mayor and General Augustus P. Martin has been named by the governor for police commissioner. General Martin's appointment will be sent to the executive council at the next meeting of that body on Thursday next.

FEARFUL ELECTRIC WIRE ACCIDENT.

PHILADELPHIA, April 21.—While telephone linemen were repairing a wire here it became entangled with a live electric light wire. Two of the workmen were killed and two others seriously injured.

STRONG LANGUAGE.

Expressed by Pastor Bicknell in Denouncing National Law Makers.

BOSTON, April 21.—Rev. George W. Bicknell, pastor of the First Universalist church of Cambridge, in the course of a speech he made at the dinner of the Royal Arcanum Thursday night, expressed sentiments which have caused much surprise and considerable comment, on account of their anarchist tendency.

That no injustice might be done him by the publication of words uttered hastily and unguardedly, which on reflection he might regret, he was asked yesterday if there was anything he desired to recall. Without hesitation, and with the utmost courtesy and good nature, he said that he stood by everything he was reported to have said, reiterating it in substantially the same language.

In his speech Thursday night, Mr. Bicknell likened the members of congress to dime museum freaks, and added, "If it would only have the effect of breaking up the selfishness of congress, and inducing it to do something for the benefit of the country instead of looking out for the political lives of its members, which is derogatory to the welfare of the nation, I would like to see them blown up."

"If it were not for my Christian principles and the loss of life it would cause, I should like to see about 100 pounds of dynamite put under the national Capitol and have it blown sky high with the half-dime museum it contains."

PLAYED WITH EASTERNs.

PROVIDENCE Club Defeated by Champions From the Hub.

PROVIDENCE, April 20.—The Providence Eastern league team played its first game with the National League Boston, and were defeated by a score of 12 to 3. The home team played a steady fielding game, and made a creditable showing.

Quincy, April 6. rstf

To the Honorable the Judge of the Probate
Court, in and for the County of Norfolk:

RESPECTFULLY represents John F.
Eaton of Braintree, in said County, and
Sarah R. Eaton, his wife, that they are
desirous of adopting Emma Jane Davis, a
child of parents unknown, which said child
was born in Boston on the twentieth day of
November, A. D. 1854.

Wherefore, that we pray for leave to adopt said
child, and that her name be changed to that
of Emma Davis Eaton.

Dated this twelfth day of March, A. D.
1894.

JOHN F. EATON.

SARAH R. EATON.

Commonwealth of Massachusetts
NORFOLK, 88.

PROBATE COURT.

On the foregoing petition, it is ordered that
the petitioners notify all parties interested
therin to appear at a Probate Court to be
held at Dedham, in and for said County of
Norfolk, on the twenty-third day of May
next, at nine o'clock in the forenoon, to show
cause, if any they have, why the prayer of
said petition should not be granted, by serving
them, if found in this State, with a copy
of said petition, and this order, seven days
at least before said day, if not by publishing
the same three successive weeks in
the newspaper called the QUINCY DAILY
LEDGER, printed at Quincy, in said County
of Norfolk, the last publication to be at least
seven days before said day.

Witness, George White, Esquire, Judge of
said Court, this eleventh day of April, in the
year one thousand eight hundred and ninety-four.

Editorial Comment.

BROCKTON LUCK got the best hospital
weather on Patriots' day. The Quincy
hospital seldom has a gala day but it rains,
but on the other hand Brockton fairs
always have good weather, and both were
scheduled for yesterday. Then a Brockton
man had his wife a spring bonnet that
it would not rain this week. How about
today?

THE CITY COUNCILS should welcome the
new law relative to the drawing of jurors
which provides, we believe, that it shall be
done by the superior court. It is aggravating
to call together twenty-three men just
to draw jurors, the notices often being re-
ceived too late for the regular meeting, and
the next meeting would be too late.

ANOTHER FINE STATUE.

Fuller, Foley & Co., Exhibit a Massive
Angel in Granite.

The largest statue ever cut in Quincy
has just been completed at the yards of
Fuller, Foley & Co., at West Quincy. The
statue is cut from a solid block of Westerly
granite weighing in the rough over 19 tons,
and represents a crowning angel. It is a
massive piece of work and stands 12 feet
high and has taken 10 months to cut. The
angel, which is represented by a
woman, has long flowing hair and is
leaning forward on one foot. In the two
hands in front of the body is a crown and
palm leaf, and about the body is a drapery
which hangs loosely from the shoulder.

The statue is to go to Greenwood
cemetery, N. Y., where it will rest on a
pedestal of Italian granite 24 feet high.

The statue was cut for C. B. Canfield,

the work being executed by E. W. Fuller.

The statue will be shipped early next week and
in the meantime will be on exhibition at
works of the above firm.

Young Men's Christian Association.

Mr. R. A. Edwards, president of the
Everett association, will speak at the men's
meeting Sunday. Subject, "Under which
banner?"

The annual conference of the general
secretaries of the United States and Canada
will be held at Cedar Rapids, Iowa, May
2 to 6. An exceedingly interesting and helpful
programme has been prepared.

Beginning June 1 and lasting one week,
there will be celebrated in London, England,
the jubilee anniversary of the formation
of the first Young Men's Christian
association. Mr. Geo. Williams, president
of the London association, and the originator
of the first association, will preside.

Many prominent association men will attend.

Quincy members have the privileges
of the very low rates which have been
granted for the occasion.

Mr. Walter Scott Night.

The weekly meeting of the Epworth
Literary Circle held in the hall at Atlantic

last Saturday, voted to elect their officers
every two months. Mr. Chas. L. Ham-
mond declined to serve as president, so

Miss Lillian Hammond, the E. L. Vice
President of Literary work was elected to
take the place, with Miss Flora Brown as
vice president. Misses Vogler, Bemis and
Menzel were chosen a committee of three
to select the subjects for the meetings.

Tonight the subject is Sir Walter Scott. Each
member is requested to bring a copy of
"Lady of the Lake."

The Circle meets at Miss Annie Hall's, corner Newbury
avenue and Billings street.

The usual roll call will be given,
to be responded to by a quotation from
Scott, also questions will be asked on
his life.

Blue Hill Predictions.

Observer Clayton at the Blue Hill
observatory made the following predictions
Friday for the coming week.

The probability of rain during the coming
week is on Monday.

Showers are also probable on Saturday
and Thursday. The warmest days will be

Thursday and Friday, and the coldest Sun-
day and Monday.

For the individual days the probabilities
are:

Saturday—Showers, followed by clear-
ing; falling temperature.

Sunday—Fair and colder.

Monday—Rain; probably clearing during
afternoon or night.

Tuesday—Fair; colder at night.

Wednesday—Fair and warmer.

Thursday—Local showers; warmer.

Friday—Generally fair.

Mount Wollaston Lodge

will celebrate the 75th anniversary of the order, and the 10th

anniversary of its re-institution, on

Wednesday, April 25 at 7:30 P. M. Address

by Grand Master L. A. Cook, concert by

the Nilsson Ladies' Quartette and a reader

followed by banquet.

Keep Cool.

Eddy Refrigerators, best in the world

BRAINTREE.

John V. Scollard, superintendent of
streets, has effected a wonderful improvement
at little expense to the town, in the
building of a curbstone sidewalk beginning
at the Weymouth line and coming up past
the Brick store, East Braintree. The side-
walk is seven feet wide and admirably
built. Its former wretched condition was
a fruitful source of complaint for years,
but now that the improvement is made
everybody praises the job and the man who
did it. Weymouth people come, look and
admire it.

Mr. William Jameson employed as a
blacksmith in the interlocking department of
the Consolidated road, while boarding a
train at Harrison Square, missed his foot-
ing, falling in such a manner that the left
arm went under the wheels crushing it,
necessitating an amputation at the shoulder at
the Mass. General Hospital on Patriots' day.

Mr. and Mrs. Hatch from California are
at present visiting relatives in Braintree.
Mrs. Hatch's mother, Mrs. John Franklin
Arnold, is a sister of Mrs. E. F. E. Thayer
of this town.

*"Fifthly,"—I give and bequeath to the
town of Quincy, in the Commonwealth of
Massachusetts, County and Town of Norfolk,
the sum of \$1,000, to be used for the
erection of a school house in the said town.*

Mr. and Mrs. Hatch are from California
and are here for the summer.

Mr. and Mrs. Hatch are from California

can be had if desired. March 17. mws 1f

WALKS IN QUINCY.

The Essay Which Was Awarded
First Prize in Class of '96.

WRITTEN BY MISS ISABELLA HAY
The City's Landmarks, Schools, Busi-
ness and Progress

The essay of Miss Isabella Hay awarded
first prize in the Class of '96 in the recent
contest among High school pupils is printed
in full below. Her subject "Walks about
Quincy" makes her production of local interest:

What can give more pleasure than a walk
about our city rich in its Revolutionary
reminiscences; in viewing its old landmarks
that remind us of the struggle for
independence; or in wandering among its
grand hills, and over its plains and valleys?

Where can we find an old New England
country-road, more beautiful than our old
highway from Boston to Quincy? Here and
there, we catch a glimpse of the ocean,
dotted with the white sails of ships out-
ward or homeward bound; or a river wind-
ing through beautiful meadows, and not
far distant, our hills of granite rising in
masses. Even now, we see mile-stones,
moss-grown and weather-stained, which
record, as in the old colonial days, the
distance to "Boston Town."

As we approach Wollaston and Merry
Mount Park, these names will perhaps re-
call to us, the story of the early settlement
of Quincy.

1625 a Captain Wollaston began a
colony. In his company, was one Thomas
Morton. Wollaston soon went to Virginia
and after his departure, Morton was chosen
leader. Having no care, the Indians
being friendly, and game abundant, they
gave themselves up to a life of idleness and
pleasure, very different from that of toil
and hardship, which usually befell early
settlers.

Morton, having resolved to leave the new
name Merry Mount which he himself had
given it, confirmed for a memorial to after
ages, set up a May pole, around which they
danced, feasted, and drank. A large pine
tree was also erected, with a pair of buck-
horns nailed to the top. This, to those at
sea, stood as a guide to Merry Mount.

These things greatly shocked the Plym-
outh colony, who considered such conduct
impious.

They finally gave just cause of offense
to the neighboring settlements, by selling
arms to the Indians; so Miles Standish
was sent with a small force, to Merry
Mount, where he seized the more unruly
spirits and carried them captive to
Plymouth.

We do not wonder that Morton admired
the scenery about him. Truly, no better
description of it can be given, than that
which the "Sovereign of Merry Mount,"
himself gave.

So many goodly groves of trees,
dainty, fine, rising hillocks, delicate, fair,
large plains, and clear running streams,
that twine in fine meanders through the
meadows For in mine eye it is
nature's masterpiece."

As we walk along, we surely will not
overlook our new High school now being
built. We have reason to be proud of
our public schools, for the "Quincy
System" is famed throughout the Union.

We shall also see the Woodward Institute
and just opposite, the Adams Academy.

The latter, was given to the city by John
Adams, and is built on the spot where John
Hancock was born. To its halls students
have come from many states in the Union.

We cannot but admire the fine business
blocks in the centre of our city. The Unit-
arian church will also attract notice, for
under its portico in a granite tomb, lie the
remains of John Adams and Abigail his
wife. Here to rest, the remains of our
first president, John Quincy Adams. The
Thomas Crane Public Library, so called
in honor of its donor, is a fine building
with lawns and trees on every side.

Geologically considered, no more interest-
ing pathway could be found than that
over which we have been wandering. For
a few miles, nothing is seen except the
curious pudding stone. The walls at the
roadside, and even many of the foundations
of the houses are of this curious stone.

We will now pass to our granite hills in
the southwest part of the city, solid masses
of granite, rising hundreds of feet above
the sea level. This granite was first called
"Braintree Stone" from the ancient name
of Quincy. Before our quarries were
opened, the stone lying upon the surface was
used to some extent, for building. Its color
was of a rusty brown instead of the fine dark
gray with which we are now

R. E. Peary

the Arctic Explorer, on his present voyage took a generous supply of H-O, because of its nutritive and warmth-giving properties.

H=O Hornby's Oatmeal

is an ideal sustainer.

EXECUTIVE MANSION,
WASHINGTON,
"Please send us at once another
supply of H-O. We find it very
satisfactory."
PHILIP McKN, Steward.

THE H-O COMPANY, NEW YORK.

The 1894 CRAWFORD.

We take pleasure in introducing this season on its merits alone, THE CRAWFORD; sold everywhere for \$85.

OUR CUT PRICE, \$69.75.

When we took up the Bicycle business last season, it was to deal with them just as we dealt with merchandise of every other sort, buy and sell without extravagant profit to anyone.

It would surprise most Bicycle riders to know how little a first-class wheel really costs to manufacture, and to learn the enormous profits Bicycle agents all over the country have been making. It has always been our motto, "TO BUY AS LOW AS WE CAN AND SELL AS LOW AS WE LIKE."

Thus for the benefit of all who will avail themselves, we make this wonder offering.

Wheelmen are daily paying \$125 for wheels under other names, not one bit better than this, and we urge all those intending to buy a wheel this season to examine this splendid Safety.

Ladies' Pattern at the same cut price. Easy payments when desired.

THE
HONEST KIND**

Receives the Highest Praise from the Best Physicians.

DR. H. F. MERRILL, the wonderful specialist of Augusta, Maine, after giving it a thorough trial in his practice, writes the following convincing letter of praise:

I have of late been using some of your medicine in my practice with the most pleasing and satisfactory results. I find that it acts like a charm upon the whole nervous system, and in scrofula and all cutaneous diseases. Its curative properties are fully equal to the claims made for it, and I do not know of one instance where it has not fulfilled all its claims. In cases of General Debility and Nervous Prostration it has proved itself invaluable. It also gives quick relief in Dyspepsia and Cancer of the stomach, and is a remarkable fine restorative remedy. It is a great pleasure to be able to recommend such a remedy, as the results following its use are so wonderfully satisfactory. One great thing in its favor is its freedom from superfluous alcohol, and all injurious ingredients.

DR. H. F. MERRILL.

Although Allen's Sarsaparilla is such a valuable remedy it is not at all expensive, being the largest bottle on the market for \$1.00. Trial bottles 50 cts.

A DAY OF TURMOIL.

Omaha Workmen Show Their Sympathy For Kelley's Army.

DEMANDED FREE USE OF CARS.

Riots Averted by the Manly Attitude of Kelley.

OMAHA, April 21.—A procession of over 1000 workmen formed here yesterday and started for Council Bluffs to demand of the railroads that they allow a train to be chartered to take Kelley's industrial army eastward.

A strange sight was witnessed on the march from the bridge to Council Bluffs. Men and boys seemed to spring up from the ground, and the column which crossed the bridge had grown to over 6000 men by the time it reached the heart of the city.

At Fifteenth street and Broadway the Omaha army was met by a detachment of Council Bluffs laborers, with a fife and drum and a dozen flags. These, acting as an escort, took the company to Bayless park, where a halt was called, and in response to a request from Chief of Police Scanlan a committee was appointed to present the demands of the men to the railroad officials, who were always said to be found in the office of John Y. Stone.

While the committee was in the office the men lined up along the side of the square.

In Mr. Stone's office Rev. Dr. Duray and B. D. Dailey addressed the committee in a pacific speech, but the committee was warm, and informed them that there was no use of multiplying words. They demanded to see some representatives of the railroads, but were informed that none were in town.

Pandemonium broke loose, in the midst of which a train of 20 or more workmen rushed into the office. The committee left the office in a huff to look at the telegrams sent to the railroad office, in reply to which President Cable of the Rock Island said that he would not furnish a train to Kelley.

Chief Scanlan, who met the army at the bridge, had all the saloons closed, and the company's officers supported the numerous vocal demonstrations which were made. At the juncture "General" Kelley arrived in Council Bluffs and was at once sent for by Governor Jackson and the attorney general.

The interview was a prolonged one, for Governor Jackson took occasion to review the actions he had taken, the purport being that he had taken every means possible to get the army on its way, and that the state authorities had not laid a straw of detention in its way. His correspondence with railroad officials had resulted in nothing so far as the Northwestern, Milwaukee or St. Paul and the Burlington were concerned, they refusing to send him.

The outpouring from Omaha began to make its lungs heard as the streets shook up with the crowd, and Kelley fairly pulled away from the governor, excusing himself for his haste by the extremities to be recognized. He excused himself to the governor as not blaming them for the detention caused by the railroads.

The Paterson men returned home to their friends.

Their leaders were escorted to their town by their friends.

Talk With the Governor.

SIX ORDERS IN ONE.

Employees of the Consolidated Road Form a Federation.

NOT ORGANIZED FOR TROUBLE

But to Become Better Acquainted With Each Other.

BRIDGEPORT, Conn., April 23.—Three hundred of the employees of the Consolidated Railroad company met here yesterday for the purpose of discussing the advisability of forming a federation to be made up of the six labor organizations into which the employees are divided. The meeting was purely in the interests of employees of the Consolidated, although there were quite a number of guests from lodges in other parts of the country.

The organizations represented were the Brotherhood of Locomotive Engineers, the Order of Railway Conductors, Order of Railroad Trainmen, Brotherhood of Locomotive Firemen, Order of Railroad Telegraphers and Switchmen's Mutual Aid Association. The question of forming a system of federation was fully discussed, and a big majority were in favor of the proposition. A committee was appointed from each of the organizations to visit every lodge throughout the system and report at a further meeting.

An Open Meeting.

At 3 o'clock this afternoon a public meeting was held in the Grand Opera house. C. A. Wilkins of Chicago, assistant grand chief conductor of the Order of Railway Conductors, said that the meeting did not necessarily mean that the men were planning a disturbance.

As a matter of fact, the relations between the Consolidated and their employees were entirely pleasant, and nothing was more remote than the prospect of trouble between them. The meeting was simply for the purpose of becoming acquainted with each other and ascertaining whether or not it was the general opinion that a system of federation would best cement the present cordial relations between employers and employees, and promote the best interests of all concerned.

Rev. Dr. Fullman told the men that the time was coming when there would be no such thing as strikes, but employers and employees would be organized into a common brotherhood.

Church and Labor.

P. H. Morrissey of Galesburg, Ills., first vice president of the Order of Railroad Trainmen, touched on the question of the relations between the church and the organizations, and said that it was the duty of the latter to keep in touch with the church. The organizations themselves would much prefer to hold their meetings on week days, but owing to the nature of their employment Sunday was the only day on which they could meet. The organizations took pride in the fact that no infidel or agnostic could become a member.

Grand Master Sargent of the Brotherhood of Locomotive Firemen adjured the men to remain faithful to the obligations assumed by them on entering their respective organizations, and to faithfully execute the trust reposed in them by their employers. He mentioned the fact that there are now 29,000 members of the Brotherhood of Firemen and over 67,500 members of the different railway organizations, comprising the grandest industrial army in the world.

A united organization, composed of conductors, telegraphers and every department of the road, was formed.

A letter of regret was read from Chief Arthur of the Brotherhood of Engineers, who was unable to be present.

Murder Narrowly Averted.

LOWELL, Mass., April 23.—While serving a search warrant for contraband liquors with Inspector Goodwin, at 6 Andrew street, Inspector Donaldson had a very narrow escape from being murdered.

When he broke open the door John Carron shoved a double-barreled shotgun in his face and tried to pull the trigger. The inspector threw up the gun and saved his life. The gun was loaded with heavy shells and slugs. Carron had been beating his wife and was laying in wait for the officers.

Message From the Deep.

ATLANTIC CITY, April 23.—Edward L. Bryant picked up a corked bottle on the beach yesterday, inside of which was a slip of paper with the following inscription:

On board S. H. Walker, Jan. 21. Vessel leaking and think she will sink before morning. Inform S. H. Walker, Tauton, Mass. Nickerson, master. There is an American schooner named Samuel H. Walker, hailing from Tauton. Her owner is Samuel H. Walker.

Washout Caused a Disaster.

MANCHESTER, N. H., April 23.—A work train on the Grand Trunk road, from Island Pond, Vt., ran into a washout near Wenlock station, killing a brakeman and badly injuring several workmen. The engine and several cars rushed headlong into the river. The engine was wrecked. Washouts are reported on the Maine Central near West Stewartstown and on the Grand Trunk between North Stratford and Beattie.

Next!

WASHINGTON, April 23.—A plan for the creation of an elect body of 25 persons, distinguished in literature and science, the fine arts and invention, has been submitted to the house by Representative Black. The purpose of the bill is to create an organization in this country similar to the "Immortals" of France and to the National Academy of Great Britain, Germany and other countries.

Damaging Bomb in Pessaro.

ROME, April 23.—A bomb exploded in a sugar refinery in Pessaro, on the Adriatic. Six persons were injured severely and the building was partly wrecked.

ARMY FROM THE HUB

Didn't Start From the Common and the Crowd Was Disappointed.

BOSTON, April 23.—A vast crowd assembled on Boston Common yesterday afternoon to witness the departure of the unemployed for Washington, where they hope to join Coxey's army. When Morrison I. Swift stepped on to the improvised platform there were fully 25,000 present, and soon after the meeting got into working order fully 35,000 were gathered around the bandstand.

The crowd was a good-natured, hustling bunch, one and all did not seem to be at all impressed with the occasion or to be in sympathy with the movement that the meeting was called for, but had come simply to have and make fun, which they did to their hearts' content, but at no time was there anything that could be called disorderly. Swift opened the meeting, but not having a very powerful voice he could not be heard at a great distance, and after standing some time the crowd began to surge forward, and those in front of the speaker were forced on to the small platform, which succumbed to the strain and was broken to fragments. The speaker was thrown against the sapping fence that surrounds the bandstand, and under the pressure from the crowd the fence was bent, but did not break.

Swift took his position on the bandstand, and delivered his characteristic speech denouncing the wealthy, the monopolists and everybody in general that did not sympathize with the socialist platform.

The speeches were continually interrupted by the tactics of the crowd, who, when anything did not meet their approval, would hiss and whistle and commence to push those in front of them until those close to the fence would cry out, and which generally brought forth remonstrance from the speakers.

Swift submitted a letter to President Cleveland, purporting to be a review of the grievances of the "unemployed thousands in New England," and it was adopted by a mighty "Yes."

At this point there was a conference between the leaders while one of them was speaking, and as a result those who had enrolled themselves in the delegation were told to slip away quietly and meet at Roxbury crossing, where Major General Fitzgerald would meet them and at a further meeting.

At 8 o'clock this morning the men did not know of what had been decided upon, but they expected the men to pass. They waited in vain, however, as an hour after the order was given, 45 men, headed by their leader, Fitzgerald, and carrying the yellow flag, were marching toward Jamaica Plain. Traffic on Tremont street was blocked for several hours after the meeting adjourned by the people waiting to see the "army" start off.

At Dedham.

DEDHAM, Mass., April 23.—The Boston delegation of the unemployed arrived here at 9:30 this evening. Friends provided a repast for the 45 travellers and when they then march to Dedham.

Sweetland's Crowd.

HARTFORD, April 23.—The Connecticut contribution to Coxey's army is booked to start from Bristol tomorrow. Leader Sweetland will devise means to continue the journey to Washington.

WHITE VS. BLACK.

Another Serious Race War Breaks Out In an Alabama District.

TALLULAH, La., April 23.—A race war is on in this section of Madison parish, and so far one white man and one negro have been killed, one white man badly beaten and 13 negroes are now in captivity charged with murder.

Friday, Charles J. MacFarland, the manager of the Dancy place, had a difficulty with a negro tenant named Josh Hopkins, in which MacFarland was beaten.

Friday evening a posse started in pursuit of this negro, who fled. MacFarland and a man named Boyce started at the head, and as they were crossing Brushy bayou they were fired upon from ambush. Boyce was killed. MacFarland escaped to the woods, where he remained until yesterday.

As soon as the fact was made known Sheriff McClellan, with a posse, went to the scene. The negroes were located in the woods, late Saturday night, about a quarter of a mile from the place of killing. The sheriff captured Horace Williams. Just as he got to the edge of the woods, Williams made an effort to escape. The deputies fired on him and killed him. Three more negroes were captured and looted until yesterday.

It will depend upon circumstances," he said, "whether we shall go on as at present. We possibly may during this week, but I should say not longer. We have already had the bill under consideration for three weeks, and its opponents have consumed the greater part of the time. They certainly should have had opportunity to exhaust their long speeches, and if a disposition should be shown to continue to make them, I shall ask for an extension of the daily time for debate.

"We shall have to come to that soon if it becomes apparent that those who are unfriendly to the bill are to adopt uncompromising tactics. I think we shall begin by meeting earlier, and if that change does not suffice to effect sufficient interest, we shall gradually extend the hours into the night, and will then begin a contest which must either exhaust the senators or exhaust the debate, and result in final action upon the bill."

House Forecast.

Appropriation bills will continue to occupy the attention of the house during the week, after today, which, under the rules, will be devoted to the consideration of business reported from the District of Columbia committee.

On Tuesday the diplomatic and consular bill, which consumed the major portion of last week, will probably be finished, and on Wednesday the postoffice appropriation bill, the consideration of which was interrupted by the departure of Chairman Henderson of the postoffice committee as one of the committee to attend the funeral of the late Senator Vance, will be resumed.

The only item in this bill undisposed of is that providing a special subsidy for the fast southern mail. As a strong fight is being made to cut off this appropriation it may require two days to get it out of the way. The general impression seems to be that the adversaries of this appropriation will not be able to defeat it, as it has earned champion, not only in the south, but in the north and west.

Business is so far divided in the house that no action will probably be made to deprive the committee on claims of Friday, the day set apart under the rules, for the consideration of bills on the private calendar.

After the postoffice bill is completed, the army bill will be taken up, and should it be completed, the river and harbor bill will follow. There is little chance, however, that the latter bill will be reached this week.

An Overdue Steamer.

BOSTON, April 23.—At 4:30 o'clock yesterday morning Andrew J. Hayes, 30 years of age, fell from the roof of the Hallowell building, 229 Federal street, to the sidewalk, and was instantly killed. How the engine and several cars rushed headlong into the river. The engine was wrecked. Washouts are reported on the Maine Central near West Stewartstown and on the Grand Trunk between North Stratford and Beattie.

"A friend in need is a friend indeed."

More Reliable than either Tansy or Pennyroyal.

If you want a perfect regulator for the monthly period, one that never fails, safe and sure, address FRANCO-AMERICAN CHEMICAL CO., Boston, Mass., and receive, free of charge, our book, *Allen's Sarsaparilla*. Be sure and name the paper.

ACKNOWLEDGED BY THE HIGHEST AUTHORITY.

The Massachusetts Board of Health

IN THEIR 24th REPORT (1893)

make the statement that Sarsaparillas containing Iodide of Potassium are unsafe to use, excepting under the supervision of an experienced physician, and that their continued use tend to impoverish instead of purifying the blood. Also that in many cases they act as DIRECT POISON, and cause serious trouble, defeating the object for which they are taken.

ALL THE LEADING SARSAPARILLAS were analyzed and found to contain this poisonous chemical in various quantities, EXCEPTING ALLEN'S, which was found entirely free from Iodide of Potassium or other chemicals, and to be purely vegetable, thereby verifying our claim that it is the "HONEST KIND."

This is an unprejudiced statement made by the most scientific body of men in New England as A WARNING TO THE PUBLIC against the use of dangerous and injurious medicines. ALLEN'S is the HONEST KIND, the safe kind, and the kind that CONQUERS DISEASE.

Physicians and druggists unite in its recommendation.

NO CURE, NO PAY. The Largest Bottle on the Market for \$1.00. Trial Bottle, 50 cts.

SOLD BY ALL DEALERS.

One of the Nameless Great.

I knew a man who died in days of yore,
To whom no monument is like to rise,
And yet there never lived a mortal more
Deserving of a shaft to pierce the skies.

His chieftest wish strong friendship to make,
He cared but little for this poor world's peif.
He shared his joys with every who'd take,
And kept his sorrows strictly to himself.

—John Kendrick Bangs.

There was a poet whose untimely tomb
No human hands with pious reverence reared,
But the charmed editor of a newspaper made
But for his musing bones a pyramid
Of moldering leaves in the waste wilderness.

—Shelley.

Bear Outtimes.

Target Tender Is Dead.

BANGOR, Me., April 23—Richard W.

Hewey, aged 32 years, died yesterday from

the effects of a bullet wound received

Thursday. He was tending target at the

range of the Hauling Rifles, and came be

fore a target without signalling, receiv

ing a bullet over the heart. He was not

seen by the man who was shooting.

Two Bombs For a Mayor.

PARIS, April 23—Two bombs exploded

yesterday just outside the mayor's house

in Liege. The Royal theater, which is

but a few yards from the house, was

slightly damaged. Nobly was wounded.

Many persons suspected of having set the

bombs were arrested.

Where Revolutionists Got Coin.

NEW YORK, April 23—The Herald's

Montevideo dispatch says: The ex-min

ister of foreign Affairs of Uruguay declares

that the River Plate committee for the

Brazilian revolution received \$600,000

from European Brazilians for the revolu

tary cause.

Dead In His Dooryard.

MIDDLEBURY, Vt., April 23—Russell

Wales of Bristol was found dead in his

dooryard. Heart disease was the cause.

Dropped Dead.

SAN ANTONIO, Tex., April 23—Gideon

Lee, a wealthy real estate owner of New

York, and well known in business circles,

dropped dead last evening of heart

failure.

King George will start for the marit

ine districts that have been devastated

by the shocks. He will be accompanied

by the minister of the interior and other

officials, and together they will decide

upon the measures that must be taken to

alleviate the distress among the

people.

The reports that have thus far been re

ceived show that very many of the deaths

occurred in the churches. Last week was

passion week in the Greek church and

religious services were held every day and

evening. The services were very largely

attended, and several churches falling,

this, in a measure, accounts for the large

loss of life. A majority of the victims

were less numerous, but the damage to

property is immense. The offices of the

British Lloyd and other steamship

companies were partially destroyed.

The domes, walls and mosaics of the

famous Byzantine church of Daphne

were very seriously injured.

King Will Go the Rounds.

PARIS, April 23—The King will start

for the maritime districts that have been

devastated by the shocks. He will be accom

panied by the minister of the interior and

other officials, and together they will de

cide upon the measures that must be taken

to alleviate the distress among the

people.

For \$1.75 a Day.

BOSTON, April 23.—The employees in the

freight sheds of the Fitchburg railroad

held a special meeting yesterday. A com

mittee was appointed to request the man

agement that the old rate of \$1.75 a day be restored.

The Situation Unchanged.

ST. PAUL, April 23—Locally there is

little change in the Great Northern situa

tion. In the matter of the proposed con

ference nothing has been developed.

VILLAGES IN RUINS.

SPECIAL OF COUNCIL.

Jurors Drawn and the Revised Water Order Passed.

The first special meeting of the City Council of 1894 was held Monday evening, the only absentee being Councilman Snow of Wollaston.

The first business was the drawing of three traverse jurors, and Councilman Baker upon motion, fished out the following to attend the Superior court, May 8: Walter B. Wilson, James Nightingale and Eldridge Cross.

The Committee on Finance reported that the order authorizing the issue of water bonds to the amount of \$45,000 and reconsidering the order for \$60,000 ought to pass. The order took its second reading and upon roll call was passed unanimously to be ordained.

At 7.55 the Council adjourned, as no other business could be considered.

TODAY'S COURT.

The Accident on the Night of the Fire to Settled by Law.

Henry A. Willey of Quincy was arraigned upon complaint of Fred W. Austin, superintendent of the Quincy Electric Light and Power company for the alleged violation of Chapter XCIII, Sections 1, 2, 3 and 4 of the Public Statutes, by passing a team on the left side of the road. W. G. A. Pattee, Esq., appeared for the government and J. W. McAnarney, Esq., for the defendant. The case was continued until Friday. It is the outcome of the collision on the night of the fire alarm at Wollaston.

George Martin of Quincy was fined \$3 for drunkenness, and \$5 for disturbing the peace.

William Drayton, a juvenile of Weymouth was arraigned for the larceny of 100 cigars, valued at \$3.50, from Matilda Ariska. Case continued until Thursday.

The Late Mrs. Amory.

The death of Mrs. William Amory (Grichard) in New York, Saturday, brings sorrow to the hearts of many sincere friends of that great hearted lady, gracious hostess, benevolent and charitable patroness, untiring worker in every good and philanthropic cause. Mrs. Amory lived for many years at 29 Chestnut street, where she constantly entertained all that was worthiest and brightest in Boston society, and since her removal to New York she retained in her summer home at Seven Oaks, Quincy, her connection with local interests and her former circle, receiving constantly a succession of guests there. Mr. and Mrs. Amory spent part of the winter in Bermuda for her health, which was thought to be sufficiently restored to enable her to prepare for her removal to Quincy, which was to have been made May 1.—Herald.

More Building at Wollaston.

The Hewitt estate, Wollaston, which is managed by Mr. George A. Loring, is to make some extensive additions to Wollaston's realty this spring.

The Taylor building, which is part of the property, is to be enlarged by the addition of two stores, having a total frontage on Newport avenue of 75 feet and a depth of 40 feet, covering the entire lot from the present building to the Wollaston club's fence. These stores will be one-story high with a fancy roof, large plate glass windows and fitted up in the most approved style. One of them has already been taken by Mr. Anson C. Ray for his increasing bakery business.

The estate also owns the lot of land at the corner of Beal and Arlington streets and will build upon it immediately an apartment house having a frontage of about 70 feet, and divided into six suites, each containing five rooms and a bath.

Adams Academy vs. Graduates.

The Adams Academy nine were defeated by a team composed largely of graduates, in a long and uninteresting game played at the Park, Monday afternoon. The final score at the end of ten innings was 21 to 20. The playing of both teams lacked steadiness. Both teams batted hard. The features of the game were a pretty catch of a fly ball, by Eldridge, and the field work of Bumpus. The battery work of both teams was good, but that of the Graduate was superior.

At an Increased Salary.

A parish meeting of the First church held Monday evening at which it was voted to extend a call to Rev. E. C. Butler Beverly to become the pastor of the church at a salary of \$3,000.

The parish voted some few weeks ago to call the same clergyman at a salary of \$2,500, but it was understood that nothing short of \$3,000 would tempt him, so the salary was raised to that sum. He will probably accept the call.

There was a drop in candy last night. If you do not believe it ask Gene.

Frank H. Snow commenced work Monday on a new house at Norfolk Downs.

The street railway are getting its open cars in readiness for the summer season.

The last of the prize essays of the High school will be printed tomorrow. It was awarded the special prize.

The appropriation order has been signed. Few cities make their appropriations as harmoniously as Quincy.

The Committee on Ordinances did not meet Monday night to consider the plumbing ordinance as announced.

Something new in granite may be seen at Fuller, Foley & Co.'s. It is known as the snowflake and takes a good polish.

The Primitive Methodists have withdrawn their work at West Quincy, but the society will be continued as the West Quincy Mission.

Rev. H. E. Cotton should give Coxey's army some good advice. Hagerstown, where he now resides, is the camp of the commonwealth army.

The jewelry firm of Henry T. Spear & Son of Washington street, Boston, well known to many in this city, has assigned with liabilities at \$50,000.

The grand massive statue at the yard of Fuller, Foley & Co., is being admired by hundreds. Time is short, as it will be shipped to Brooklyn Thursday or Friday.

The school district of Sandwich, Bourne and Mashpee has re-elected Howard D. Freenan, formerly principal of the John Hancock school of this city, as superintendent.

The Neighborly Club was entertained Monday evening by Mr. and Mrs. Irving Beal at their residence on Washington street. Games, etc., furnished the evening's entertainment.

Miss Gertrude Sayward, daughter of Mr. William S. Sayward of Wollaston, entertained her young friends on Monday afternoon and evening with a party, that date being her seventh birthday anniversary.

Mr. Frank T. Bassick, one of our popular young men, left today for Chicago, Ill., to act as agent for Wood Bros. R. R. Show. Mr. Bassick expects the show to arrive here about June, they will then go South for the winter.

The Assessors will soon begin their rounds. Messrs. Fegan, Federhen and Curtis will assess Wards One, Two and Three, and Messrs. White, Orcutt and Pope will assess Ward Four, Five and Six. Only one in each group has had experience.

The St. Paul Swedish church was packed at the farewell sermon of the Rev. C. Paulson Sunday night. Mr. Paulson who has been pastor of this church the last three years recommended his successor the Rev. V. Witting, very highly. There will be a farewell reception for Rev. C. Paulson last evening.

A large gang of men are at work at Atlantic extending the water mains. A 6 inch pipe is being laid on Atlantic avenue, from Hancock street to Newbury avenue, and 6 and 8 inch pipe is being laid on Faxon road, Henry street, Edwin street and Brooks street, on land of the Atlantic Land company.

The picture in the show window at the postoffice of the large polished granite ball manufactured by Badger Bros., is not only a remarkable piece of work but shows the photographer's skill. The granite firm put on a high polish, and Photographer Bussell has faithfully reproduced it. Had it been labelled a six foot ball instead of 76 inches it would have sounded bigger.

The body of Mrs. William Amory arrived in Boston this morning in a special car at 7 o'clock, and was brought to Quincy over the road. The relatives and friends of the deceased came on the 10.30 train from Boston and were taken in carriages to Mt. Wollaston where simple services were conducted by Rev. Walter Russell Breed of Christ's church.

Another Wollaston Improvement.

Work will be commenced today on enlarging the Wollaston Laundry building. The building is to be brought out flush with the sidewalk. This brings the post office out and also adds a new store, which has been leased to Mr. Charles W. Tucker, who will take possession of it on its completion. The Wollaston laundry retains possession of the main building, taking part of the room now occupied by the post office.

The annual Masonic social of Old Colony Lodge of Hingham, Wednesday evening, will be the social event of the season in that town.

KEMP—In Quincy, April 21, a son to Mr. and Mrs. William Kemp of Newcomb street.

SUPPER A NOVELTY.

And the Entertainment as Good as a Circus at Wollaston.

John Adams Councill, Royal Arcanum, of Wollaston, entertained visiting delegates from Shawmut Council of Milton, and Monatiquot Council of South Braintree, in fine style on Monday evening. Preceding the supper the regular business meeting was held, at which one candidate was initiated.

The supper, which by-the-way was something of a novelty, was a success. It was a German layout with all the fixings—potato salad, bologna and frankfurts sausages and other strange dishes. The large company made short work of the good things and then lighted cigars, and listened to remarks by Regent Pierce, Regent Nickerson of the Shawmut Council, Brother Packard of the Shawmut, Vice-Regent Reed of Monatiquot, Past Regent Uppham of the Shawmut, Brothers Baker, Tucker and Sherman, and Past Regent O'reilly.

The entertainment was as good as a circus. It was by Mr. John Reeding of Boston, an old Kearsarge veteran, who sang, played the guitar and banjo, and told about the sinking of the Alabama by the Kearsarge.

WEYMOUTH.

An attempt was made by burglars some time Monday night to enter the residence of Joseph Sprague on Pleasant street at South Weymouth. Entrance was made through a back window, but the intruders were frightened away. The parties cut the pneumatic tires of a bicycle of Fred Stowell in the house probably to prevent pursuit.

The Selectmen have reappointed B. F. Smith as registrar of voters and have named as commissioners of the fire department: Frank D. Thayer, W. O. Collyer, F. M. Brown, Ovis Cushing and M. P. Sprague.

Corneil Crofty died Monday at a brief illness of pneumonia, aged 28 years. He was a member of Division 6, A. O. H.

President Cleveland Endorses It.

The leading daily paper in the city of Washington (The Post) is raising a fund of \$10,000 for the benefit of the Young Men's Christian Association. Already about \$6,000 have been realized. Among other letters accompanying contributions appear the following:

EXECUTIVE MANSION,
WASHINGTON, March 23, 1894.

JAMES E. PUGH, Esq., Secretary, etc.

DEAR SIR: I am somewhat familiar with Young Men's Christian Association work, and in my opinion it should be encouraged by all who desire the improvement and elevation of our young men.

I cheerfully enclose my check for \$100 to the Washington Association.

Yours, very truly,

GROVER CLEVELAND.

The Wollaston Keys.

Assistant Engineer Sparrow of Wollaston informed a LEDGER reporter on Monday that none of the members of Hose 2 have keys to the fire alarm boxes and that every key in his district is accounted for with the exception of one, Mr. King, the ex-Assistant engineer having lost both his key and his release key. The LEDGER representative was unable to find Mr. King last evening.

Yester Sentenced.

Judge Sherman of the Superior court sentenced John Vester of North Weymouth on Monday, for keeping a liquor nuisance at Weymouth. The old man must pay a fine of \$75 and serve three months in the house of correction at Dedham.

Robert M. Davis of East Dedham plead guilty to embezzlement from the New York & New England Railroad and gave bonds for appearance at the September court.

The case against William T. Ross of Weymouth for assault, is on trial.

Quincy Musical Society.

The fourth musical of the society was held at the chapel of the Congregational church Monday evening. An excellent programme was given as follows:

Polonaise C sharp minor, F. Chopin

Tenui Musam Meditamui Avena,
exclaimed Carlyle. Asking
what it meant; he replied,
"We cultivate literature
on a little oatmeal," a motto
I selected for the Edinburgh
Review. But for positive inspiration use

Analyzers prove H-O to possess

TEN PERSONS KILLED.

ST. PETERSBURG, April 24.—The large
woolen mills situated at Ivanovo, about
60 miles from Moscow, have been
burned. The damage is estimated at 1,
750,000 roubles. Ten persons were killed
during the conflagration, and 1200 people
were thrown out of work.

WITNESS, George White, Esquire, Judge of
Court, this eleventh day of April, in the
year one thousand eight hundred and ninety-
four.

WAS BADLY WANTED.

Boston Police Land a Young but Accomplished Swindler.

HAD VICTIMS IN MANY CITIES.

Carried on Business With the Aid of Forged Checks.

BOSTON, April 25.—For months past the police of this and other cities in New England, together with those in New York, Jersey City and Philadelphia, have been considerably perturbed over the action of a young man who was obtaining goods under false pretenses by means of worthless checks. Last night Captain Watts of division 3 captured the much-wanted man on Howard street.

At the station house he admitted that he was the party who had caused the business committee of this and other cities so much uneasiness and trouble. In a long confession he admitted having obtained horses and buggies, suits of clothes, mackintoshes, tall silk hats, cigars and other saleable articles from all over the country. His modus operandi was to go into a city, engage a room and then make a circuit of the banks and obtain a number of counter checks. He would then order various goods to be sent to his room C. O. D.

He would intercept the messengers if they happened to be boys, and give them a check for the amount of the bill, but if the messenger happened to be a man he would make excuse that remittances which he expected did not arrive, and that he would call down the next day and pay for the goods.

Among the cities he visited was Portland, Me., where, after hiring two rooms, he went to the Standard Clothing company and bought a suit of clothes and an overcoat, valued at \$35, for which he gave a check on the Portland National bank. He then sold the overcoat and skipped for Boston. In Providence he put up at the Central hotel and obtained a suit of clothes and two boxes of cigars, for which he settled by means of checks on a Providence bank.

In New York he found that the **Banking System Was Different** in that city to those of New England, and was obliged to go into Jersey City before he could obtain blank checks. He then returned to New York and began a wholesale swindling scheme. He obtained mandolins, clothing, silk hats, shoes and other goods, paying for them with checks on the New Jersey National bank of Newark. From New York he went to Philadelphia, where he committed further swindling. Later he returned to New York and came from Jersey City to Fall River.

If he came to this city and swindled for Boston. In Providence he put up at the Central hotel and obtained a suit of clothes and two boxes of cigars, for which he settled by means of checks on a Providence bank.

He arrived in this city a few days ago, and had succeeded in getting cigars and clothing from two firms, and was about to skip when arrested.

When searched at the station house he had in his possession five blank checks of the Jersey City National bank, five of the Connecticut National bank of Bridgeport, six of the Lynn National bank and seven of the Mount Vernon National bank of Boston. It is learned that the prisoner has served time in the reformatory prison at Concord for obtaining goods under false pretenses in Chelsea, and that he has been mixed up in several scrapes of a similar nature.

Will Resist a Foreclosure.

PROVIDENCE, April 25.—A mortgage on the palatial residence of War Governor Sprague at Canonicet will probably be foreclosed by Colonel G. S. Wheaton, who holds it. If it is done, Governor Sprague will defend his property by force of arms.

When the last mortgage was foreclosed the governor had a company of armed men to guard his mansion. Although a magnificent residence, it is rapidly becoming a ruin. Sprague refuses to allow it to pass from his possession. It is mortgaged for \$60,000.

House Suspected of Crime.

NEW YORK, April 25.—Lula Haas, a married woman, aged 23, was found in her room with a stab wound in her right breast. She is dying. Her husband was in the room with blood on his clothing. A large breadknife lay on the floor, covered with blood. The man denied having injured his wife, and said that she had stabbed herself. The husband was arrested.

All on Equal Terms.

WASHINGTON, April 25.—The house committee on invalid pensions will report favorably a bill providing that in the establishment of claims for pensions the oath of a private or non-commissioned officer shall have the same weight as if such witness had served as a commissioned officer.

Ireland Swept by a Gale.

DUBLIN, April 25.—A terrific gale prevailed yesterday over the southern coast of Ireland. It is feared that many fishing boats have been wrecked. Scores of them are missing, and much wreckage has been washed ashore. Great damage was also done on land.

After Explosion of Gasoline.

NEW YORK, April 25.—A five-gallon can of gasoline exploded in the house of Casimir Miggs, a farmer, living near Canandaigua, completely destroying the building. Mrs. Miggs and a 2-year-old daughter were killed, and Mrs. Miggs' father and mother and another child were fatally injured. The old lady was blown into an adjacent field.

BRUTAL TREATMENT.

Women Inflict Probably Fatal Injuries Upon an Old Man.

BOSTON, April 25.—A most brutal and perhaps fatal assault was made yesterday afternoon upon James Burns, an aged citizen of Roxbury. Burns is a gray-haired man about 86 years old, and a veteran of the war. He lives in a small tenement at 32 Mindora street with his wife and a young son. His reputation and that of his family have always been of the best.

In the same house with Burns there lives a family by the name of Burke. The Burke family consists of William, the father, an old man; his wife and a daughter named Julia, and two sons, Timothy and Daniel. Liquor, it is said, is always in the house, and the inmates, it is claimed, are often under its influence.

Yesterday afternoon, between 3 and 4 o'clock, it is alleged that Mrs. Burke, her daughter Julia, who is more than 18 years of age, and her son, Daniel, made a descent in force upon the rooms occupied by old man Burke, bursting open the door. Once in the rooms they had everything their own way, and the feeble old man and woman, who were alone at the time, were powerless.

There were high words and aggressive actions on the part of the Burkes. Mrs. Burke accused the old man Burns of beating her youngest boy. Upon Burns denying the accusation, it is alleged that the younger woman, Julia, seized a heavy iron pot and beat the defenceless old man over the head. The victim of the assault reeled back into a corner and fell upon the floor with the blood streaming over him.

The whole three of the Burke family, it is alleged, then followed up the attack, beating him on the head and face with their fists or whatever they happened to have.

The Burkes will appear in court to answer to the charge of assault and battery, but owing to the great age of the victim, the charges may at any time be changed to one of a more serious nature.

BULLS ARE SQUIRMING.

May Wheat Goes Down to 57 1-4 and the Bears Are Coining Money.

CHICAGO, April 25.—May wheat broke record yesterday, and sold on the board of trade at 57 1-4, the lowest price ever recorded. It was the climax of the oppression that has forced the market lower and lower during the last three weeks, and the whole bull fraternity is squirming. The oldest grain trader on the floor can remember nothing like the present movement, and there are some who say wheat will reach 50 cents a bushel, or less.

Yesterday's transactions, with a few that have gone before, have made fortunes for not a few traders and speculators doing business on the board. It is said that the profits in this deal by Ed Pardridge are \$25,000, and S. C. Rosecrans, who has been trading with Parbridge, \$100,000.

Pension Attorneys Barred.

WASHINGTON, April 25.—Secretary Smith has ordered the disbarment of six pension attorneys from practice before the interior department. They are John G. Chapman, New Haven; F. H. Barker, Kansas City; C. A. D. Hill, Pensacola, Fla.; Christian Quisen, Danbury, Ia.; James Cooley, Richwood, and York, O., and William M. Bushfield, Cambridge, O.

Hurts Canadian Cattle.

MONTREAL, April 25.—Montreal cattle dealers are very angry at the refusal of Gardner, the English commissioner of agriculture, to remove the embargo from Canada.

It is claimed that Gardner's action will be the means of reducing the value of cattle to the Canadian farmer about \$2 a head.

Complaints of Refugees.

Buenos Ayres, April 25.—The Nacion prints a number of open letters addressed to President Sarmiento Pena describing the brutal treatment of the Brazilian refugees by the officers of the Portuguese warships Mindello and Alfonso de Albuquerque, on which they took refuge in the port of Rio de Janeiro.

Bargains in Parlor sets, \$25.00 to \$90.00. Henry L. Kincaide & Co.

What's In Clover

?

A question that every physician in the land will answer—

HEALTH! Now universally known to possess unrivaled medicinal properties.

The benefits of the medical knowledge of ten centuries and more, in every country under the sun, have led up to the preparation of

the clover.

It is a step forward in the treatment of disease.

Clover Bitters is compounded by the formula of an experienced physician, the result of years of successful practice, and now offered to the public with confidence, and with the endorsements of many eminent physicians. It is all medicine, and nothing but medicine. It cures all diseases of the Blood, Stomach, Liver, and Kidneys. The nature of its ingredients compels it to cure. It will cure you.

All on Equal Terms.

WASHINGTON, April 25.—The house committee on invalid pensions will report favorably a bill providing that in the establishment of claims for pensions the oath of a private or non-commissioned officer shall have the same weight as if such witness had served as a commissioned officer.

FOR SPEEDY ACTION.

What Senator Mills Has to Say on the Tariff Question.

POSTOFFICE BILL IS PASSED.

House Spends a Day in Discussing Amendments.

WASHINGTON, April 25.—Immediately after the reading of the journal in the senate, that body went into executive session for half an hour.

At 1 o'clock Senator Mills (Dem., Tex.) arose to make the closing speech of the so-called general debate on the tariff bill. The galleries, which had been almost deserted during the morning, filled up, and a number of representatives came over from the house.

Mr. Mills appealed to his Democratic brethren to pass the bill promptly and fulfill the party's pledges. He ridiculed the idea of a duty being imposed for the benefit of the workmen, and said it was merely a case of "going from skin to core and from core back again to skin," meaning that the manufacturers got all the benefit of the protection which was demanded in the name of the workmen.

This country could compete with the whole world in industries which nature meant should be followed here, the American workmen producing 10 times as much as the workmen of other countries. The Democratic party was not opposed to reciprocity, he said, but it wanted reciprocity on broader lines than those laid down in the McKinley bill—reciprocity with the whole world.

Favor the Income Tax.

A large part of the speech was devoted to a discussion of the income tax, which was warmly advocated. Taxes, he said, should be proportional to the protection afforded, and if the New England states received two-thirds of the benefits of the government's protection it was not sectional to demand that they should pay two-thirds of the expenses of the government.

He made a strong plea for cloture in the senate, and declared that if all the Democratic senators were of his opinion the tariff bill would be passed in 48 hours.

The close of Mr. Mills' speech was greeted by a hearty round of applause from the galleries, and his Democratic colleagues crowded around him to extend their congratulations. It had been expected that Mr. Mills' speech would be much longer, as it consumed just 2 hours and 15 minutes.

The Republicans, who expected the Democrats would consume the entire day, were not prepared to go on. Accordingly, the senate went into executive session, and later adjourned.

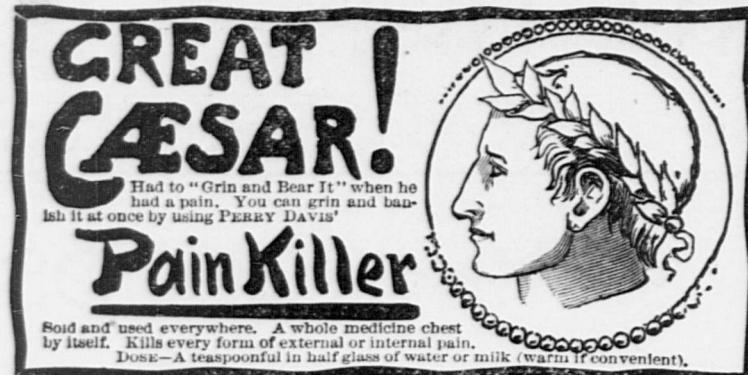

The Spirit of Discontent.

The friends of the tariff bill feel that it is important to have the measure receive the full party vote, and they also want the hearty support of the entire party in having it passed as speedily as possible. They wish to get it out of the way of the fall campaign. In order to know what to do, they have made a canvass of the dissatisfied senators and think they have arrived at the facts, and are now prepared to make the changes which will accomplish the purpose they have in mind.

Among the senators consulted were Messrs. Hill, Murphy, Sargent, Gorman, Gibson and Brice. They find these six to be opposed to the income tax and to the present sugar duty. They will probably make one or two exceptions in granting the demands of the discontented senators.

They ask, however, that the income tax be stricken out entirely. This request will hardly be conceded, by this part of the bill will be materially modified.

Not only will the committee be found willing to reduce the limit of income to be taxed and the rate of taxation, but they will also more than likely be agreeable to fixing a time when the tax shall cease to be imposed. This they will be willing to do on the theory that a few years' test would prove the popularity or unpopularity of the tax, and they think that if it should prove

SCHOOL COMMITTEE.

Some Addition to the Lincoln School Necessary This Summer.

The regular meeting of the School Committee was held Tuesday evening with Messrs. Crane, Burns, Cortrell, Gordon, Gurney, Harlow and Porter, present.

Miss Thresa Fegan was voted half pay for present term.

Miss Mary M. Devlin, who has had a leave of absence, resigned.

The Superintendent was authorized to make all necessary plans for a more formal presentation of diplomas to the graduates of the grammar schools.

The chairman of the board was authorized to appear before the Council and ask that sufficient money be set aside from the appropriation for the new High school to purchase all necessary furnishings and laboratory fixtures.

After a discussion of what constitutes vaccination the committee agreed that the public statute must be followed to the letter.

The Superintendent reported that in spite of the fact that forty-three children had been removed from the Lincoln school in April, 1893, it had been necessary to transfer a whole class (Grade 6) to the third floor of the John Hancock.

The room in the Lincoln thus gained has been sealed for Grade 2, and now contains forty-five children in charge of Miss Inez L. Nutting. Some addition must be made to the Lincoln building this summer as it is too far for the pupils of Grade 6 to travel, and, further more, the John Hancock is so crowded that the third floor is needed for its own use.

The board ratified the permission given by the committee on supplies allowing the children from the grammar schools who entered the Woodward to keep their text books until July.

W. R. C. Entertain.

Paul Revere Woman's Relief corps entertained the Woburn corps Tuesday afternoon. In the evening there was a supper, followed by an entertainment consisting of a violin solo by Charles E. Richardson, with piano accompaniment by Miss Mary A. Gardner; readings by Miss B. Porterville; whistling solo, Miss Bent; guitar and banjo trio, Mr. and Mrs. A. W. Foster and Monroe Perry; vocal solo, Miss May McPhail; vocal solo with violin obligato, Miss Mary A. Gardner and Charles E. Richardson; piano duet, Misses Alice Crane and Jennie McGilvery; vocal duet, Misses Bent.

All of the numbers were well rendered and were enjoyed by a large audience.

High School Debate.

Mr. Cashman, '94 called the meeting to order today. The secretary, Miss Bates, '95, gave her report which was accepted. The election of president followed, and resulted in the choice of Miss Griffin, '94.

The entertainment consisted of the following numbers:

A recitation by Miss Gay, '94; given clearly, intelligently and with good effect.

Music—Miss Souther, '95; a very pleasing selection, well rendered. Music adds greatly to the interest of the entertainments.

The debate was: Resolved, "That Hawthorne should be given Higher Rank as an Author than Irving."

The disputants were:

Affirmative—Miss Cashman, '95; Miss Coyle, '95; Miss Dinnie, '95 and Miss Dorey, '95.

Negative—Miss Greaney, '95; Miss Jones, '95; Miss Keating, '95 and Miss Lowe, '95.

Much was said in favor of the rival candidates. The board of decision decided in favor of Irving.

Enjoyable Meeting.

Loyal Ladies of Clan McGregor, No. 1, held one of the most enjoyable meetings of the season last evening. There was a full attendance; about 70 ladies were present; six candidates were initiated and one new application was received; this making the 8th for the month of April. After the business was finished, ice cream and cake was served and a very pleasing programme of songs, reading, and recitations was given by a number of the ladies.

BOY DROWNED.

The Little Son of Mr. Eben W. Shepard of Johnson Court.

A sad drowning accident occurred about 11 o'clock this morning in the swamp off Greenleaf street, known as Prat's swamp. Little Lee Sheppard, son of Mr. and Mrs. Eben W. Shepard, and May Gould Durgin, the 4-year old daughter of A. G. Durgin, had been playing all the morning near this swamp through which runs a brook with about two feet of water.

Suddenly the Sheppard boy fell into the brook. His little playmate with an instinct of an older person went to his rescue and held her best to pull him out.

The task was too much, however, for her feeble arms and realizing his danger she rushed to her home and warned her mother who with the domestic hastened to the scene.

The girl who so courageously rescued the little boy was Miss Hannah Mahoney.

The domestic, regardless of mud and water rushed in and took the boy out and hurried to bring him to me. Meanwhile word was sent to Dr. Gilbert who happened to be near, and he hastened to the rescue.

The body was warm when he arrived but all efforts to bring him to was without avail and he passed away.

Mr. Sheppard is in Boston and efforts were made to reach him by telegraph and telephone.

Mrs. Sheppard who is completely prostrated is at the residence of Mr. Durgin.

Miss Hannah Mahoney, the domestic in the employ of Mr. Durgin's family, was given the prompt manner in which she rushed through the mud and water in her attempt to rescue the boy.

The Dedham Court.

The second jury which took at 10 A. M., Tuesday, the case of William F. Ross of Weymouth, for assault on Mrs. Carrie May Saunders, had not come to an agreement when the court adjourned at night.

Edward Stokes for assault and battery on a Quincy officer was found guilty.

Dennis McCarthy of Canton was found guilty of larceny and of aiding a prisoner to escape, but he had defainted.

James Deane of Stoughton was sentenced to two months for drunkenness.

Did He Get It?

At the investigation of the Ward 17 election case yesterday, Michael E. Hurley, one of the witnesses, said: "I went to the polls and voted, and then went about my business. As there was no booze in Boston on that day I went to Quincy." Sue him for libel Henry.

Herald.

Why Not of Quincy Granite?

The School Committee of Boston passed an order Tuesday evening that in the erection of new school buildings the city architect be requested to provide suitable tablets for the names of the schools, and that the expense for the same be charged to the construction of the building.

Contractors of Lynn offered to sprinkle the streets for 1 1/2 cents per foot, but the special committee recommended that the city do nothing in the matter this year.

Wellman, the newspaper correspondent, sailed from Bergen, Norway, on his polar expedition on Tuesday, flying the stars and stripes.

PATENTS

NOTICE TO INVENTORS.

THERE was never a time in the history of our country when the demand for inventions and improvements in the arts and sciences generally was so great as now. The conveniences of man-kind in the factory and workshop, the household, on the farm, and in the life, render continual additions to the apparatus and implements of each in order to save labor, time and expense. The political change in the administration of government does not affect the progress of the arts and sciences, which are to be alerts and ready to perceive the existing deficiencies, does not permit the affairs of government to deter him from quickly conceiving the remedy to overcome existing discrepancies. Too great care cannot be exercised in choosing competent attorneys to prepare and present an application for patent. Valuable interests have been lost and destroyed in innumerable instances by the employment of incompetent counsel, and especially is this advice applicable to those who have no money, no paymasters. Inventors who intrust their business to this class of attorneys do so at imminent risk, as the breadth and strength of the patent is never considered in view of a quick endeavor to get an allowance and obtain a fee when due.

THE PRESS CLAIMS COMPANY. John Wedderburn, General Manager, 618 F Street, N. W., Washington, D. C., representing a large number of important daily and weekly papers, as well as general periodicals of the country, was instructed to take its position from the same methods heretofore employed in this line of business. The said Company is prepared to take charge of all patent business entrusted to it for reasonable fees, and prepare and present applications generally, and mechanical inventions, design patents, trade marks, labels, copyrights, inferences, infringements, validity reports, and gives special attention to rejected cases. It is also prepared to enter into competition with any firm in securing foreign patents.

Write for instructions and advice.

Builders' Request Refused.

WASHINGTON, April 25.—Secretary Herbert will not permit the battleship Indiana to go on her acceptance trial on the 30th inst., as the builders requested. He decided that the trial should be postponed until the ship is fitted with her side armor, a matter of two months.

Waiting For President Hill.

ST. PAUL, April 25.—The general conference committee of the Great Northern men have concluded their meeting, but will give out nothing as to the decision reached. They say they will announce their intentions after they have communicated with President Hill.

The Montgomery's Final Trial.

WASHINGTON, April 25.—The U. S. S. Montgomery, with her final trial May 1, will be ordered to go to sea for two days, the machinery being steadily run. The object is not to make speed, but to test her machinery.

Italian Cheap Labor.

AKRON, O., April 25.—A mob of about 300 American workmen drove a large gang of Italians, working on street improvements, from their work. The Italians have been getting \$1 a day, which the Americans claim is not living wages.

After a Gas Trust's Scalp.

CHICAGO, April 25.—Attorney General Moloney of Illinois has announced a decision of his part to begin quo warranto proceedings against the Chicago Gas Trust. This proceeding, if successful, means a forfeiture of the charter of the trust.

The Bluefields Row.

WASHINGTON, April 25.—The state department has not yet gathered sufficient information to make a satisfactory response to the senate resolution calling for an account of the late troubles and the existing conditions at Bluefields.

Backing New Zealand.

SYDNEY, April 25.—The governments of the colonies of Australia have cabled to their representatives in London to support the colony of New Zealand in its request to assume the administration of the Samoan Islands.

Stitchers Won.

MANCHESTER, N. H., April 25.—Striking stitchers at Kimball Bros' shoe shop have scored a victory. All the troubles were settled yesterday, and this morning the 400 operatives returned to work at their former wages.

LIVE STOCK MARKETS.

Doings at Brighton and Watertown for the Week Ending April 25.

Amount of stock on the market:

Sheep

Cattle, and lambs. Swine.

Western..... 8,000 23,986

Maine..... 119 21 22,710

Massachusetts..... 166 182 130

New Hampshire..... 109 304 693

Vermont..... 103 306 488

Totals..... 3,615 10,806 23,986

Prices for choice cattle live weight:

Choice, 45¢/lb pr lb; second quality, 42¢/lb;

third quality, 40¢/lb; poorest grade of coarse oxen, cows, bulls, stags, Texas, etc., 35¢/lb pr lb.

Prices for northern and eastern beef cattle,

dressed weight: Choice, 54¢/lb pr lb; first

quality, 52¢/lb; second quality, 49¢/lb;

Hides—sheep, etc., 15¢/lb; lambskins, 15¢/lb;

calves, 12¢/lb; lambs, 10¢/lb;

sheared skins, 8¢/lb; each; braided hides, 12¢/lb.

Northern and eastern beef cattle—The re-

ceipts were light, and the demand slow. There

were very good beavers brought in from the

North, and the value remained about the

same as last week.

Milch cows and springers.—The supply was a little better than last week. The supply, still no first-class buyers being on the grounds.

Veal calves.—The supply was heavier than one week ago. The quality was rather better, but the price is still the same as last week, number of "hobs."

The demand is slow, and values were weak at last week's quotations.

Sheep.—The supply was still the same as last week. The western arrivals were all taken direct to the slaughter houses. A few spring lambs were brought in and sold on commission.

Drink Roman Sherbet

At all Soda Fountains.

It is said that a fortune knocks at

least once at every man's gate, and yet it

does not require a fortune to own a bicycle.

\$69.75 is our cut price for the \$85.00

splendid Crawford safety. Easy payments when desired. Henry L. Kincaide & Co.

Jan. 12.

The General Must Be Wrong.

CHICAGO, April 25.—A story was printed

here to the effect that General Sullivan,

on his own statement, has made arrangements

with a Baltimore and Ohio railroad

for transporting 5,000 iron moulder

in box cars to Washington. Baltimore

and Ohio officials, both of passenger and

freight departments, deny that there is

any truth in the story, so far as their

road is concerned. The city directory

does not contain the name of F. E. Gray,

an ice dealer, who was said to have

placed his building at the temporary

service of the army.

Boone by the Sheriff.

BALTIMORE, April 25.—Captain Jones of

the Philadelphia division of the common-

wealth armament with a freezing reception

at Elm City last night. They were not

allowed to camp within the limits of the

town, and got to quarrelling among them-

selves, so that Sheriff Flower and State

Attorney Maguire threatened them with

the lockup. This made matters worse,

and a small riot was imminent, when the

sheriff ordered them to quit the town.

They could get nothing to eat and were

forced to take to the woods.

Pride of the Army.

WASHINGTON, April 25.—Washington's

headquarters of the commandant of the

army in Rechabite hall were resplendent

yesterday with the sheen of a gorgeous

silken banner, sent by the supporters in

Kansas City. It is 16 feet long, by seven

feet wide, and the red and white stripes

of the United States flag were lost in the

center of an immense blue field, with a

dazzling sunburst, surrounded by seven

gilt stars, bearing the letters of the word

"Liberty."

Frye's Army.

OLOMBIA DISCARDED.

New England Industrials Don't Want the Yellow Flag.

A BATTLE WITH HOGAN'S ARMY.

Government Officers Worsted by Montana Tramps.

the white-winged fowl was brought about by Rev. J. G. Lemen, who was active in arousing sympathy for Kelley in Omaha.

The Coxey Crowd.
FREDERICK, Md., April 26.—There was a lively time in the camp of the common-weavers here last night. Two telegrams were received by Browne and read to the men. Browne mounted one of the wagons and read a telegram stating that a collision between General Kelley's men and the militia in Iowa had occurred, and that the laborers had been fired on, six of them being killed. This was a general feeling of indignation, but there was no calling of retreat expressed, except for the loss of men by the industrialists.

Later in the evening Browne and Coxey were shown another dispatch saying that a collision between the Butte City industrials at Billings, Mont., had occurred, with the loss of a man on each side. Neither Browne nor Coxey seemed much surprised at the news, and neither expressed himself at all troubled over the moral effect the affair would have on the industrial movement. In speaking of the dispatch Coxey said: "I don't advocate violence of any sort in this movement, but it is hard to draw the line in saying how far a man can go in the pursuit of his own rights. But whatever trouble there is in this affair the monopolies have brought it on themselves. The railroads are only hastening their own doom by the stand they are taking in this matter. They will be absorbed by the government; as private parties they will cease to exist."

Not Worrying.

WASHINGTON, April 26.—According to the Coxeyites, no attention will be paid to the Coxey the present intentions of the administration by the government unless the necessity for action is thrust upon the federal authorities so that it cannot be avoided. This information is obtained from the Coxeyites.

The question is, whether Coxey's men shall be permitted to enter the district will be considered a matter for the local authorities. If the common-weavers violate any municipal laws they will be dealt with by the police officials. If they violate the regulations of congress, by assembling on the Capitol grounds, they will be handled by the police of the Capitol, who are under the supervision of the sergeant-at-arms of the senate and house. These officials can call the local police to their aid.

In the event of trouble which cannot be subdued by the police, the district commissioners are empowered by law to call upon the Washington militia, or if there is a brigade of 1200. Only in case of an appeal for aid from the commissioners, on the ground that the newcomers cannot be handled by the municipal forces, will the general government take a hand and order out federal troops.

As there has been manifested a disposition to criticize the president's action in ordering the United States troops to stop Hogan's train, it may be proper to set forth the facts that influenced the executive branch of the government in this matter.

First, it appears that the Hogan party, 500 strong, applied to the Northern Pacific railroad authorities for transportation free to Washington. This was refused by the receiver. Then the men broke into a roundhouse, captured an engine and made up a train. At this stage the railroad authorities applied for and obtained from the federal court an injunction to restrain them. The authority for this was the fact that the railroad was now in the hands of the United States, and the courts are responsible for its management through a receiver.

The Hoganites disregarded the injunction, and the courts issued writs of arrest against them for contempt of court. When the United States marshal sought to serve this writ, he, with his deputies, were locked up by the Hoganites, and the party ran away with the train, headed for Washington.

Sweetland's Brigade.
HARTFORD, April 26.—The 10 members of General Sweetland's Coxey brigade had become 19 when the command bivouacked in Barber's barn last night. The Hartford recruits are spending their time chiefly in saloons on Windsor street. Few of the men have any baggage or money.

Headed Off by Police.
PORTLAND, Or., April 26.—An attempt was made by the industrials to capture a Northern Pacific freight train. About 300 members of the industrial army went to Union depot for that purpose, but Chief of Police Hunt was on hand with 30 officers and prevented it.

The Jones Travelers.
ELLIOTT CITY, Md., April 26.—Captain Jones of the Philadelphia division of Coxey's army is encamped on the farm of Mrs. Poland. The men are in good spirits.

Vandalia Train Captured.
INDIANAPOLIS, April 26.—Frye's army captured a Vandalia freight train a few miles outside of Terre Haute and are coming east.

The Kennebunk Tragedy.
BIDDEFORD, Me., April 26.—The coroner's jury in the Kennebunk murder case had a session yesterday afternoon and adjourned until today. Kimball, the man who killed Burnham, traveled about Kennebunk all day unaccompanied by an officer, and this and other circumstances lead to the belief that the jury will not bring in a verdict against him. The general opinion seems to be that Kimball killed Burnham in self-defense.

Real Chosen Mayor.
BANGOR, Me., April 26.—O. B. Neal was chosen mayor by the Republican majority of the city council. The Democratic members refused to vote, alleging that fraud had been committed. Charles L. Snow, their candidate, who secured within 84 votes of a plurality on Monday, will not yet give up the contest, and a legal fight is expected.

Old Contractors Get It.
WASHINGTON, April 26.—Postmaster General Bissell awarded the postal contract to the Morgan-Plimpton company, the present contractors. Their bid was \$4,036. The figure submitted by the Holyoke (Mass.) Envelope company, the only other bidder, was \$87,840, a difference of \$83,804 in the bids. The cost at present contract price is \$66,957.

Forty-Three Rounds to a Draw.
LOUISVILLE, April 26.—At 2 o'clock this morning, after 43 rounds, the fight between Charles Slusher and Abe Lloyd was declared a draw.

Case Dismissed.
NEW LONDON, Conn., April 26.—David Murray, who eloped with 15-year-old Lizzie Chapman of Groton, was arrested yesterday afternoon, charged with abduction and seduction. Murray produced a marriage certificate, and the justice dismissed the case.

"Georgie, what made you go over and play with the Smith children when you have rumps and they have not had them?"

"Well, didn't the Sunday school teacher say that it's more blessed to give than to receive?"—Chicago Inter Ocean.

Death of General Granger.

WASHINGTON, April 26.—General R. S. Granger, U. S. A., retired, died at the Ebbitt House from a complication of diseases, in the 83d year of his age. He served gallantly through the late war. He was breveted a major general of volunteers, and retired from the regular army at Dec. 10, 1873.

A Matrimonial Tangle.

PITTSFIELD, Mass., April 26.—Edmund C. Davis, 37 years old, was bound over yesterday on a charge of abducting Laura C. Waters, 14 years of age. Both parties are residents of Otis. The couple ran away last week and were married in Canaan, N. Y. Davis claims that the girl abducted him.

Convict Labor.

WASHINGTON, April 26.—Representative O'Neill of Missouri introduced a bill to protect free labor from the injurious effects of convict labor by confining the sale of the products of the latter class of labor to the state where produced.

To Meet in Baltimore.

NEW YORK, April 26.—The executive council of the American Bankers' association unanimously resolved that the 20th annual convention of the association be held in Baltimore on Oct. 10 and 11 next.

Preacher-Politician Dead.

BURLINGTON, Wis., April 26.—Rev. N. Butler, who was Vice-President Hamlin's private secretary from 1861 to 1865, and who served in the Maine legislature in 1860, is dead. He was 70 years of age.

Another Sop Arrested.

NEW HAVEN, April 26.—Leonard Johnson, another sophomore man, was arrested yesterday afternoon charged with aiding and abetting a prizefight.

Kearse's Officers Punished.

WASHINGTON, April 26.—Commander Heyman and Lieutenant Lyman will each lose their rank and pay on suspension for one year, for the loss of the frigate Kearse on Roncador reef.

Big Reduction Sought.

NORTH ADAMS, Mass., April 26.—Two hundred employees of the Linwood mill at Braggeville struck yesterday on account of an 18 per cent reduction in wages.

Country Life.

Not what we would, but what we must,
Makes up the sum of living.

Heaven is both more and less than just
In taking and in giving.

Swords cleave to hands that sought the plow,

And hounds miss the soldier's brow.

Me whom the city holds, whose feet
Have worn its stony highways,

Famished with the toils of vice,

It was never my way.

My cradle was beside the sea,

And there I hope my grave will be.

Old homestead! In that old, gray town

The vase is seaward blowing,

Thy slip of garden stretches down

To where the tide is flowing.

Below they lie, their salts all furled—

The ship that go about the world.

Dearer that little country house,

Inland, with pines beside it;

Some peach trees, with unfruitful boughs

A well needs to hide it;

No flowers, or only such as rise

Self sown, poor things, which all despise.

Dear country home! I can forget

The least of thy sweet trifles!

The window vines that clamber yet,

Whose blower has bee still rife?

The roadside blackberries growing ripe,

And in the woods the Indian pipe?

Happy the man who tells his aid,

Contented man, who has no vice,

Earth does to him fullness low;

Hap what may to his neighbor,

Well days, sound nights—oh, can there be

A life more rational and free?

Dear country life of child and man!

For both the best and strongest,

That with the earliest race began.

And hast outlived the longest.

Their cities perished long ago;

Who the first farmers were we know.

Perhaps our labels, too, will fall.

It so, no lamentations,

For Mother Earth will shelter all

And feed the unborn nations.

Yes, and the swords that chance low

Will then be beaten to the plow,

Obedying Orders.

"Georgie, what made you go over and play with the Smith children when you have rumps and they have not had them?"

"Well, didn't the Sunday school teacher say that it's more blessed to give than to receive?"—Chicago Inter Ocean.

Rumbplings Continue.

ATHENS, April 26.—The only street on Pelli, the port of Atlanta, has been laid in ruins by earthquake shocks, and all the villages of the vicinity have been destroyed.

The destruction caused is most terrible, and the sufferings of the people have been spent in nights of rain.

Two hundred and thirty-eight people have been killed and 130 injured. The ground rumblings continue.

MANY BOATS MISSING.

Fishermen Probably Lost in the Gale Off Ireland's Coast.

SHORE STREWN WITH WRECKAGE.

Later Reports Will Swell the List of Disasters.

DUBLIN, April 26.—Reports of the damage done by the furious gale that raged over the southern part of Ireland Monday night continue to be received. The loss on land was quite heavy, but more damage was done at sea. Many minor marine casualties are reported.

The fishing fleet that was at work off Skibbereen when the storm burst suffered greatly. In the fleet were boats from England, Scotland and the Isle of Man, in addition to a large number of Irish boats. The Isle of Man and Irish boats were the worst sufferers. A number of fishermen were washed from them and drowned. Many boats are missing, and it is feared that they were dismasted while trying to ride out the storm, and thus disabled, broached to and sunk.

None of the fleet went ashore, but great quantities of wreckage have been washed up along the coast, which is accepted as proof that many vessels foundered. Much of the wreckage is such as would come from fishing boats. The smack Florence sank off Baltimore, and eight men were drowned.

Fishing boats were not the only vessels that could not withstand the fury of the storm. Wreckage has been thrown upon the beach near Bear Haven, on the north side of Banty bay, and it is supposed that a steamer has foundered a short distance off the coast.

Disaster Overtakes Barks.

The Norwegian bark Christian Wilhelm, from a continental port for a port in New Brunswick, missed stays while trying to get off the coast, and was carried ashore. The heavy sea that was running caused her to soon pound her bottom out. She is a total wreck. The bark struck ground some distance off shore, and this caused great difficulty in rescuing the crew. The life-boat men succeeded, however, in getting everybody on board of her gelatinous hull.

The British bark Romance, from Fowey on April 19 for New York, sprung a leak during the storm. She made water so rapidly that it was considered advisable to run to a port to effect repairs. The bark was headed for Queenstown, at which port she arrived with considerable water in her hold. The sea off Baltimore is everywhere covered with wreckage.

But One Port Closed.

BUENOS AIRES, April 26.—All the ports of Brazil are now open to vessels flying the Brazilian flag, with the exception of Parangá, which is reported to be still in the possession of the insurgents. The government is preparing to send a strong force to Bagé to endeavor to recapture that city from the insurgents.

Rumblings Continue.

ATHENS, April 26.—The only street on Pelli, the port of Atlanta, has been laid in ruins by earthquake shocks, and all the villages of the vicinity have been destroyed.

The destruction caused is most terrible, and the sufferings of the people have been spent in nights of rain.

Two hundred and thirty-eight people have been killed and 130 injured. The ground rumblings continue.

At 1:30 p. m., a fellow-prisoner having occasion to go into the cellar to obtain some water, stumbled over the dead body of Harkins lying on the cellar floor. He notified the wardens and they found the body of Harkins with his skull smashed in over the right eye and several smaller cuts on his head. It is thought that the deed was committed with a piece of gas piping which was lying on the door and had blood on it.

No cause can be assigned for the deed, as the men have seemed to be on friendly terms, but it was stated that a couple of days ago the men had some words. The murderer had tried to clean his weapon by wiping the blood off the piping on some bags that laid in the cellar. Harkins was well known down the island, this having been his sixth visit for drunkenness.

May Be Manslaughter.

NEWPORT, R. I., April 26.—James Hartin, a local pugilist, struck John Rafferty, a week ago, and now James is held in \$1500 bonds to await the result of Rafferty's injuries, as the police think he will be.

It is claimed that Hartin struck Rafferty in a saloon, and then placed him on the street, where the police found him unconscious.

Its 109th Convention.

BOSTON, April 26.—The 109th annual convention of the Protestant Episcopal church of Massachusetts opened yesterday in Trinity church, Bishop Lawrence presiding.

A question of division is the subject now under discussion. Bishop Lawrence made the annual address, and committees were appointed.

About the Nicaragua Canal.

WASHINGTON, April 26.—The house committee reconsidered its vote authorizing a sub-committee to frame a resolution looking to the reopening of negotiations for the construction of the Nicaragua canal. Further consideration of the matter will be left to the full committee.

To Cost \$150,000 Each.

NOT MUCH SYMPATHY

Shown by Jail Officials For the New
England Industrials.

WASHINGTON OFFICIALS' DECISION.

Mass Meetings Cannot Be Held
In That City.

NARRAGANSETT PIER, R. I., April 27.—The industrial army rested last night in Wakefield, with hard feelings in their hearts towards the aristocratic little village of Kingston Heights.

Not only did the ancient aristocracy of the little group of colonial houses refuse them shelter, but the students of the Rhode Island State Agricultural college at Kingston nearly precipitated a riot by their taunts and jeers.

The army marched into Kingston Heights at 6 o'clock, tired and dusty from their long march over sandy roads. Fitzgerald halted his men on high land by the roadside and marched up to the big stone jail to ask for shelter. The deputy sheriff promptly refused on the grounds that it was a state institution.

It was just 7:30 when the army halted by the high platform of the depot in Wakefield. Fitzgerald made a speech that aroused emphatic protests from its bitterness. Meanwhile his half-starved men sat down on the platform.

An hour went by and still no town officials appeared. The men remained quietly on the platform. Fitzgerald called out in McKenna's speech, but the latter declared it would be more in his line to find food for the men.

Finally a number of prominent citizens, headed by Senator Watson, went to a neighboring grocery, and out of their own pockets bought 20 loaves of bread, 10 pounds of cheese, 20 quarts of milk and a bushel of doughnuts and cakes.

The army was finally put up in quarters found for them in Wright's hall.

Coxeyites' Hopes Dampened.

WASHINGTON, April 27.—The district commissioners, cast dampers over the local supporters of Coxey's movement yesterday by refusing them permission to hold open meetings. It had been expected by the enthusiasts that these meetings would draw converts and cash contributions for the cause. The refusal was based upon a law that prohibits congregating on the public streets or parks, or engaging in loud and boisterous talking, and they state that they have no power to grant a permit.

The Coxeyites are angered at this refusal, declaring the law never intended to apply to orderly speechmaking.

They point to the Salvation Army meetings which are held in the streets and to the sidewalk services of itinerant evangelists, who flourish here, as instances of non-observance of the rule.

The event of the day was the advent of Citizen George Francis Train, who predicted that we are on the verge of the largest revolution the world has ever seen, and that the Jeff Davis matter won't be an item in comparison with it.

Escort of Musicians.

HYATTSVILLE, Md., April 27.—When Coxey and his followers marched out of Frederick yesterday the old town turned out to see the start. The Independent drum corps of Frederick, with flutes and cornets added to the fife and drums, accompanied the commonwealthers on their start. The trail lay outward over the Georgetown turnpike, and the 11 miles from Frederick to this little hamlet was over the best roads yet trod by the weary commonwealthers. The camp last night was named Henrietta, which is the name of Mrs. Coxey. Supper was furnished from the commonwealthers' wagons. The hamlet is small and the contributions were few. Breakfast today came from the stock supply, and the train was again taken up for Gaithersburg, nine miles from here.

The Providence Crew.

DANIELSONVILLE, Conn., April 27.—The Providence contingent of the Coxey army encamped in a barn in this town last night. What they lack in number they make up in disreputable appearance, for it is a long time since the citizens of this place have entertained a more repulsive looking set of men. Sympathizers furnished a supper for the men and gave them a breakfast this morning.

Guarded by Troops.

FORSYTHE, Mon., April 27.—The arrested commonwealth men are to be turned over to the United States marshal and his deputies and escorted by them to Butte, accompanied by two companies of troops, for the better protection of the deputies from the Coxeyites. The two companies of regular troops are thought to be sufficient to keep the 500 vagrants in line.

Coldly Received.

ORCHARD, Colo., April 27.—Grayson's army came into town with flags flying. It is the intention of the army to seize a Gulf road freight train. The industrials were not very cordially received, and no preparations had been made by the people for their entertainment.

Frye at Indianapolis.

INDIANAPOLIS, April 27.—General Frye's army of the commonwealth arrived here on a freight train which they seized at Brazil. The army numbers 255 men. They were met at the Vandalia yards by a committee of the Aubrey contingent in this city.

Were Intimidated.

ST. CLOUD, Minn., April 27.—Most of the Great Northern shopmen who left their places Wednesday agreed to return to work, and nearly all went back yesterday. It appears that the men were induced to quit under intimidation.

CHANGED PITCHERS.

It Proved a Rather Costly Move For the Baltimore Team.

BALTIMORE, April 26.—Inks was pitching finely and had the Bostonians guessing until the sixth inning, when he was very unwise removed from the game after McCarthy, Nash and Tucker had made hits. Baker was put in and made a wild throw, gave two bases on balls and was hit for a single by Stivens. Bradburn re-entered and the Bostonians made two hits and Baltimore did some wild throwing, giving Boston eight runs, a lead that was never overcome. Baltimore scored one run in the first inning on a base on balls, a sacrifice and Brouthers' single; again in the third on Lowe's error of McGraw's grounder and Keeler's hit. In the fifth Baltimore landed five runs on singles by Bonner and McGraw, doubles by Kelly and Inks, and Keeler's three-bagger.

Boston 0 0 4 0 0 8 1 0 0 7

Entered runs—Boston, 4; Baltimore, 4. Base

hits—Boston, 11; Baltimore, 11. Errors—Boston

A Busy Session.

BOSTON, April 27.—The 14th annual convention of the Lasters' Protective union

elected D. J. Brennan of Randolph president

and J. J. Hagan of Lynn vice president.

Others reported the organization to be flourishing financially, and that the re

cent fund had materially increased during the last year.

Resolutions adopted objecting to the ratification of the Chinese treaty by the United States senate.

Telegrams of sympathy were sent to the striking miners and financial aid promised. The blue label of the Cigar

makers' union was endorsed.

A Bold Bank Robbery.

THOMPSONVILLE, Conn., April 27.—The R. D. & Robert C. Spencer company's

bank, a small institution, was robbed by three men yesterday. A stranger with a team stopped in front of the bank and called R. D. Spencer, the only occupant, to the door. While his attention was engaged, another entered the bank and took \$274. The three men drove to Holyoke, Mass., where all trace of them was lost.

Disaster Narrowly Averted.

WORCESTER, Mass., April 27.—A New

York express train narrowly escaped

wrecking yesterday afternoon. Five

young men placed a handcar across the

track. Charles P. Groves, who had

charge of a gang of men working here,

saw the obstruction just in time to save

a collision. Thomas F. Brazzell, aged 19

years, was arrested, and other arrests will

follow.

Two Fires in One.

BOSTON, April 27.—Fire last night

caused a damage of about \$5000 to the

stocks of the firms occupying the brick

building numbered 59 and 61 Beverly

street. These had been no fire in the

building during the day, and when the

firemen arrived two distinct fires were

in progress. The fire marshal will investi-

gated.

Newspaper Men Jailed.

OKLAHOMA CITY, O. T., April 27.—Judge Scott of the district court has sentenced J. J. Burke and E. E. Brown, pub-

lishers of The Daily Times-Journal, to the

county jail for 10 days and to pay a fine of \$200 each, for contempt in comment-

ing upon his judicial character. The

judge refused to allow an appeal.

Maritime Legislation.

WASHINGTON, April 27.—Senator White

reported a bill upon the recommendation

of the treasury department repealing

a part of the act of 1890 providing

regulations for preventing collisions at

sea. The portion of the law which it is

proposed to repeal prescribes a system of

light signals for fishing vessels.

In the President's Hands.

Editorial Comment.

OTHER SUBURBS of Boston are moving
for the construction of boulevards by
the Metropolitan Park Commission for
which the state has appropriated \$500,000.
The LEDGER has previously called attention
to the desirability of a boulevard from
Merry Mount park to the Blue Hill reser-
vation. What would be more appropriate
than to connect the reservation with our
seashore park via the valley of Furnace
brook. Quincy will be called upon to con-
tribute \$5,000 to \$8,000 a year toward the
Blue Hill reservation, and to enjoy its
benefits, a good approach is desirable.
Lynn is moving for one of these boule-
vard to connect Lynn Woods with the
Middlesex Fells and Oceanside park. Will
our Park Commissioners or the City Council
agitate this matter and petition the
Metropolitan Park Commission before it is
too late.

A NEW LAW provides that in the unani-
mous judgment of election officers in cities
of less than 100,000 population, the ballot
boxes may be open between one and two
o'clock on days of election and ballots
taken therefrom for counting. However,
but little will be gained as the law further
provides that only the split tickets shall be
counted. It will be difficult to separate the
straight tickets without counting them.

REGISTRATION will hereafter cease in
cities twenty days before election, instead
of on the Saturday next but one preceding.
New voters must bestir themselves
ten days earlier. It allows but a very short
time to register for the municipal elections.

THE MORNING FIRE.

Prompt Work With Chemicals Prevents
Large Fire.

The alarm from Box 51 at 10.43 this
morning was rung in for a brisk fire in the
bath room of Mrs. Annette Merrill's board-
ing house on Berlin street, owned by the
heirs of Dr. Forsyth.

The employees of Mellen Bray & Co.
rushed to the scene with hand chemicals
and had the fire practically out when the
department arrived, although the interior
of the room was badly charred and about
\$50 damage had been done.

The exact cause is not known but it
probably took fire from a match that might
have been amongst a lot of old paper.

Chief Engineer Williams led the fire de-
partment, and Hose 2 drove up in ten
minutes after the alarm.

The central station apparatus arrived
about the same time and the Atlantic
chemical followed close on the steamer.

THE GUILD SALE.

Entertainment in the Afternoon and Even-
ing in the Chapel.

The tables at the sale of the Guild of
the First church on Thursday were heavily
laden with useful and fancy articles. There
were tables representing each day of the
week, also confectionery and ice cream
tables, and a grab table with mysterious
packages.

In the afternoon at 4 o'clock Punch and
Judy entertained the children, and in the
evening there was music and readings. Mr.
L. S. Anderson introduced the talent.
There were pleasing vocal numbers by Miss
Lizzie Osborne, Mrs. N. S. Hunting and
Mr. A. L. Hood; piano solo by Miss M. T.
Fuller, violin solo by Master Stanley
Cleaves, and readings by Miss Richardson.

The Whist Club.

The Compass Whist club wound up their
parties for the season with Mr. and Mrs.
R. H. Wilde, on Billings street, last Tues-
day evening. After the usual two hours
of whist, refreshments were served and the
prizes awarded. Mr. E. G. Hall and
Mrs. W. G. Kendall were the fortunate
ones. The grand prizes for the season's
work were received by Mr. R. H. Wilde
and Mrs. Charles R. Safford, while Mr.
Charles R. Safford and Mrs. S. O. Moxon
carried home the booty, they having won
the smallest number of points for the sea-
son. The members propose to have an
outing sometime during the summer.

Eight or more summer cottages at
Hingham have been burglarized recently.
The selectmen have offered a reward of
\$200.

Furniture moved. Carpets taken
up, beaten or cleansed and relaid. Henry
L. Kincaide & Co.

The second annual convention of
the King's Daughters, and Sons of Norfolk
County will be held in the Methodist
church, East Weymouth, May 4. Sessions
at 2.30 and 7.30 P. M. Speakers from Bos-
ton, Rhode Island and Wellesley college,
will give addresses.

GROCERS' OUTING.

A Profitable Visit to Factory of New York
Biscuit Co.

The weather of Thursday was made to
order for the Old Colony Grocers, and Old
Prob did himself proud, a better day for
an outing at this season could not have
been desired. The New York Biscuit
Company of Cambridgeport, better known
as Kennedy's, had extended an invitation
to the grocers to visit their factory, become
their guests and inspect the work. About
75 accepted, representing Quincy, Braintree,
Weymouth, Hingham and other towns.

Among the Quincy gentlemen in the
party were:

Lester M. Pratt.
Osborne Rogers.
George H. Wilson.
J. W. Nash.
Frank Brewer.
George Prout.
O. W. Jones.
C. H. Backus.
D. Emmons.
D. H. Fitzgerald.
William Callahan.
Howard Rogers.
S. F. Newcomb.
Captain Doane.
Frank F. Prescott.

The Quincy contingent left for Boston
on the 1.20 train and two special electric
cars were in waiting in Boston to convey
the party by the most direct route. Mr.
R. T. Bachelder, one of the salesmen who
covers the Old Colony district joined the
party in Boston, and made it pleasant for
the boys. The cars went via Kneeland,
Elliot, Boylston streets and Massachusetts
avenue and were sidetracked off Main
street, near the factory.

It is a mammoth establishment, in a
large five story brick building, employing about
1100.

Mr. J. W. Hazen, the general manager,
had expected to welcome the visitors but he
was suddenly called to New York. The
party were in good hands however. Ten or
more, including Mr. Kennedy and salesmen
Frank Spear, John Perkins, John H. Whiting and R. T. Bachelder, escorting the visitors in squads through the
factory.

They first served a collation consisting
of salads, cheese, fancy biscuits, coffee etc.

The inspection began on the top floor.
The cooler first attracted attention. The
pans of biscuits passing over an endless
chain, Ferris wheel fashion, while cold air
was blown over them. There was a complete
tin shop where cans are made, repaired,
cleaned, etc. The packing is done on the
upper floors and machinery helps in many
ways. The icing department was
interesting, most of the work being done by
hand. In the mixing room one got an idea
of the immense quantity of material used,
the flour alone averaging 250 barrels per
day. The baking room was full of interest.
The dough in large quantities is fed into
machines, is reduced to the proper width
and thickness and passes on, a dozen or
more crackers are stamped at a time, a boy
removes the part that is not wanted quickly,
and the baker scoops up a hundred at a
time and places them in the oven. Other
machines were making other kinds.

Then there were the furnaces, the engine
rooms, the shipping department, offices,
and in a building near by a fine stable for
fifty-six horses.

President Humphrey of the Grocers'
Union made the only speech of the day.
He was pleased that so many had accepted
the invitation, and heartily thanked the
company for courtesies extended.

The special cars were boarded again
about 5:30 and the homeward journey began.
The LEDGER representative is grateful
to the grocers and the company for
courtesies extended.

TODAY'S COURT.

William White of Milton was fined \$7
for drunkenness.

The Late Mrs. Faxon.

The death on Wednesday of Mrs. Mary
J. C. Faxon removes a kind lady who was
always thoughtful for others. It was well
illustrated at the time of the Quincy disas-
ter when her doors were thrown open to
the afflicted Fenley family, and the little
girl was nursed back to life by their kind
ministrations. Mrs. Faxon has not been
well since her return from the World's
Fair about six months ago, and for six
weeks has been a great sufferer, her case
becoming critical about ten days ago. She
leaves a daughter of ten years.

Reception to Pastor.

Rev. E. W. Virgin, the new pastor of
the West Quincy Methodist church was
given a reception last evening at the
chapel.

Miss Mary Pierce delivered the address of
welcome which was followed by a short
entertainment consisting of singing by a
quartette composed of Mr. Charles Goucher,
Mr. Fred Leavitt, Miss Grace Dodge
and Miss Bell Moir, readings by Mrs.
Nellie Badger, and piano solos by Miss
Hattie Bell and Miss Grace Dodge.

The pastor and family were then intro-
duced to the people, Mrs. Nellie Badger
and Miss Abbie C. Nutting doing the
honors.

Ice cream and cake was served during
the evening and the occasion was a very
pleasant one.

Of all studies, study your own welfare.

BRAINTREE.

Amana Rebekah Degree Lodge No. 95 of South Braintree, celebrated the seventy-fifth anniversary of the foundation of the Independent Order of Odd Fellows at the Town hall Thursday evening. The welcome address was made by John Kelly, past noble grand of Puritan Lodge, in behalf of Amana Lodge. About 150 were present to listen to the following interesting and amusing entertainment. It was opened by a piano solo rendered by Mrs. Fannie Merchant of East Weymouth, followed by Mr. Samuel Thompson Blood in his magic performance. Then a reading, "Pealing of the Bells," by Miss Weeks of Braintree; song, Miss White of West Quincy; song, Mr. S. T. Blood; recitation, Mr. S. T. Blood; whistling solo, Mrs. S. T. Blood; reading, "The Joiner," Miss Weeks; song, Miss White; character song, Mr. Blood. Quite a number from Quincy were in the audience.

The singing of Miss White, of West Quincy, is deserving of special mention. She is a good singer and charmed her audience by the sweetness and purity of her notes. She was loudly encored, and responded in a pleasing manner.

Miss Weeks, as a reader, added much to the enjoyment of the evening.

But Mr. and Mrs. Blood of Concord Junction, the entertainers, have great ability. Their manner is pleasing, and they are always sure to have something to please everybody. The parts were exceedingly well done, and Mrs. Blood's whistling was very clear and distinct.

The piano solos rendered by Mrs. Merchant, added laurels to her already well known reputation as a pianist.

The Late Mrs. Amory.

The Transcript pays another tribute to Mrs. William Amory, showing what one woman may do:

"Three weeks ago she returned from Bermuda, where she had passed the winter, knowing that her illness must soon terminate fatally. For ten years Mrs. Amory was active in a number of charities and relief organizations which have benefited children and women in countless ways. Once, looking for a scrub woman, she found that the woman had gone out to work for the day, leaving two children locked up at home. She went into the next tenement, rented a flat, took the two children there, washed, dressed, fed and amused them, and that was the beginning of the West Side Day Nursery, now thoroughly organized, and a daily relief and blessing to scores of working women and children.

"To care for those same children after they became too old for the nursery, and to keep them off the street, Mrs. Amory organized an industrial school where classes were held in sewing, dressmaking, mending clothing, cooking, and all household work. There Mrs. Amory also organized a class, which she taught for a time, in caring and serving dishes, and other work which would fit her older pupils for good positions as domestic servants. In this class of charitable and aid work Mrs. Amory found many young women whose own household duties prevented them from seeking wage work during the day, but who, she thought, could find employment evenings, if specially taught, to wait on tables at private evening entertainments. To this end she organized a class of women which she taught herself, fitting them for the light service in view, and in the end found work for scores of her graduates, who now have a new and profitable field for wage earning opened to them.

Support to the institutions she organized, Mrs. Amory gave her money liberally, promoted entertainments, made with her own hands and sold artistic and useful household articles, and engaged the active assistance of societies which she organized for the purpose. In her social life she gathered around her and entertained working women, writers, artists and musicians."

PEOPLE WHO CANNOT EAT.

Eating is a natural necessity. It ought to be a pleasure. Yet many people look upon it as a task. Do you?

You shouldn't. It is a bad sign. So long as you suffer from this, you will be thin and sick. What you eat, you eat because you think you must. You don't eat enough to properly nourish yourself. You are really slowly starving.

The trouble behind it all is indigestion. Your stomach doesn't want any food. It knows if it got it, it couldn't digest it.

You must humor your stomach or it will break down altogether. Give it pre-digested food. PASKOLA will help it along if it gets better.

You cannot keep up without eating, yet if your stomach rebels, medicine will never make it work right. PASKOLA will. But then PASKOLA is not medicine.

Everybody knows that PASKOLA is a pre-digested food, made of grains and fruits, and that it is relished by the weakest stomach. Everybody who has tried it has experienced after meals that delicious sense of perfect digestion, exhilaration, added strength and increased appetite that everybody knows can only be produced by PASKOLA. Why not try what a bottle will do for you?

Dr. G. W. Babcock of Chelsea, Mass., says: "It gives me great pleasure to speak in the highest terms of your delightful preparation, 'Paskola.' One of my young lady patients has gained six pounds and says she feels like a new creature."

Further particulars in free pamphlet from The Pre-Digested Food Co., 106 State St., N. Y. A. G. DURGIN, Quincy, Mass.

A WONDERFUL MOTOR.

Invention of a Philadelphia Professor to Run Street Cars by Air.

Since the Metropolitan Traction company several months ago offered a prize of \$50,000 to any one devising a better system for street car propulsion than any at present in use, the efforts of inventors have been greatly stimulated, with the result that some surprising contrivances have been pressed upon the attention of that company with the hope of winning the prize.

One of the latest contestants is a Philadelphia composer and music teacher, Signor W. A. Vallo. The system which he has devised is so entirely unique in many of its ways of comfort and luxury to the traveling public that a description of it reads like a fairy tale. Not the least important feature of this new system is the assertion by Signor Vallo that the entire cost of operation after the plant is once established will be considerably less than one-half that of any other system.

The objectionable feature of the trolley, cable and horse systems of propulsion have all been eliminated. No electricity and no wires are used, no cable and no digging up of streets, and no slot to catch wagon wheels, no horses and no foul smelling stables are some of the merits which are claimed for the new system. Among the advantages set forth is safety to both passenger and pedestrian.

The trolley is to be run by a specially constructed motor driven by compressed air. The air after it is used comes out of an exhaust pipe with terrific force. This exhaust may be used in winter to blow the snow from the tracks, thus saving away with a sweep. In summer the exhaust air will, by a series of pipes, be conducted back to the car. A specially designed airbrake that is claimed will act as quickly and with as much certainty as the Westinghouse brake will enable the motorman to stop the car suddenly when going at high speed, thus lessening the danger of running over people.—Philadelphia Ledger.

BIMETALLISM IN EUROPE.

Parliament to Discuss the Subject—Spaniards Counterfeiting Using Low Priced Silver.

Samuel Smith, a Liberal member, secured the first place on Tuesday, May 1, for a motion in favor of international bimetallism. An important debate is expected. Sir William Harcourt, the leader of the house, is now inclined to meet the motion with a direct negative, but great pressure is being brought to bear upon him to treat it as an open question, so that every member will be at liberty to vote without fear of displeasing the party whips. The bimetallists are confidently prophesying a considerable majority, but are secretly nervous, owing to an ill defined rumor that Gladstone intends to take part in the debate and oppose the motion. This is scarcely likely.

A well informed organ of bimetallism alleges that the coining of counterfeit French 5 franc pieces is proceeding in Spain on an extensive scale. The forgers can afford to make the spurious pieces entirely of silver and still realize a handsome profit, while the coins are so well made that detection is impossible. According to the same authority, the English police have reason to suspect that similar fraud is being practiced here in the manufacture of 5 shilling pieces and half crowns.—New York Sun's London Letter.

MILTON.

Rev. H. C. Vrooman entertained the young ladies of his Sunday School class last Monday at his home in Cambridge. The young ladies were shown the sights about Cambridge and Harvard college and enjoyed a pleasant trip. They were given a dinner before they left for home.

Miss Josephine Gallagher has returned home from Florida.

Rev. George P. Gilman delivered his lecture, "English life and scenes," illustrated with the stereopticon, before a large audience Thursday evening at the Congregational church.

WEYMOUTH.

Daniel S. Parker of South Weymouth committed suicide this morning by shooting himself with a revolver. He was 77 years of age and leaves a widow and one daughter. Despondency is given as the cause.

Two tally-ho coaches brought a party of twenty-five shoe men to M. C. Dizer & Co.'s factory on Thursday. They witnessed the making of a pair of shoes from kangaroo skin, the whole process, including tanning, requiring but 3 hours and 25 minutes. Luncheon was served at M. sonic hall.

It is expected that the Dover street bridge at South Boston will be opened for travel as early as Sept. 1, if everything goes well with the work. Proposals for paving the bridge will be opened by the city engineer, at his office, May 1. The work consists in preparing the wooden flooring of the roadway to receive the paving, which will be of granite blocks on a coal tar concrete base, pitched joints, similar to the work done on Tremont and Washington streets. The sidewalks will be asphalted on each side of the bridge.

An effort is being made by health boards and scientists to restrict by legislation the freedom of confirmed consumptives. A single case of cholera or contagious fever is sufficient to cause the quarantine of a vessel; but thousands of consumptives travel about unprohibited, and scattering the seeds of disease and death. It is believed that tuberculosis may be kept under control by a systematic registration.

—Some \$400,000 are invested in the trolley in this country. All the same, says the Boston Globe, sooner or later, it will have to go under ground.

A bicycle fit for a King to ride "The Columbia." Henry L. Kincaide & Co., agents.

ADVERTISE IN THE LEDGER.

ACKNOWLEDGED BY THE HIGHEST AUTHORITY.

The Massachusetts Board of Health

IN THEIR 24th REPORT (1893)

make the statement that Sarsaparillas containing Iodide of Potassium are unsafe to use, excepting under the supervision of an experienced physician, and that their continued use tend to impoverish instead of purifying the blood. Also that in many cases they act as a **DIRECT POISON**, and cause serious trouble, defeating the object for which they are taken.

ALL THE LEADING SARSAPARILLAS were analyzed and found to contain this poisonous chemical in various quantities, EXCEPTING ALLEN'S, which was found entirely free from Iodide of Potassium or other chemicals, and to be purely vegetable, thereby verifying our claim that it is the "HONEST KIND."

This is an unprejudiced statement made by the most scientific body of men in New England as A WARNING TO THE PUBLIC against the use of dangerous and injurious medicines. ALLEN'S is the HONEST KIND, the safe kind, and the kind that CONQUERS DISEASE.

Physicians and druggists unite in its recommendation.

NO CURE, NO PAY.

The Largest Bottle on the Market for \$1.00. Trial Bottle, 50 cts.

SOLD BY ALL DEALERS.

FOUNDATIONS.

They taught the little child to pray
For things that he desired.
With faith increasing day by day
His simple heart was fired.
For many a day he could not get
He earnestly besought.
And none was wise enough to set
A warning in his thought.
With Christmas disappointment came
His prayers had not availed,
And him, in later years, they blame
Because his faith has failed.
—Detroit Tribune.

A Boston and Albany freight train was wrecked at Hindale, Mass.

The safe in the Weymouth (Mass.) almshouse was robbed of about \$900.

Directors of the New England road have adopted a plan of reorganization.

The net gold in the treasury yesterday was \$100,728,631 and the cash balance \$129,934,988.

Brigadier General Hobart Moore, military instructor in the Boston high schools, is dead.

By a decided vote the Massachusetts Episcopal convention carried the motion for a division of the diocese into two dioceses. A plan is to be reported to the next convention.

It is evident that the Democrats are going forward with supreme confidence in their strength, and will resort to all measures consistent with parliamentary practice to push the bill to a final vote in as short a time as possible.

They appear to be confident of their ability to pass the bill, the differences between the opposing elements of the party having been satisfactorily adjusted. The concessions and modifications which have been made in the bill, including those in the income tax, have had a tendency to allay the difficulties. It can be stated that Democratic members are much more in a binding agreement than at any time since their conferences commenced.

The president and members of the administration have contributed much to bring about a satisfactory understanding. In all the conferences that have been held the two New York senators, Hill and Murphy, have not been consulted or asked to participate.

CLEVELAND'S ATTITUDE.

There seems to be much doubt as to the attitude of the president on the income tax proposition. Members of the finance committee have all along expressed the opinion that the president was not opposed to this tax; but a prominent New York Democrat who has talked with the president within the last day or two concerning this matter came away from the executive mansion feeling assured that the proposition did not meet with his approval.

It is now understood that the Republicans from the silver states will not assist in breaking a quorum, as they desire to take revenge upon the sound money senators of their party for the fight they made during the extra session. Senator Teller's intimation of the attitude of his silver colleagues is received with great favor by the Democrats. If the western Republicans vote with the Democrats to make a quorum, the task of the latter will be lighter, and the bill may be pushed more rapidly to a conclusion.

The principal changes to be made in the tariff bill, in accordance with the agreement made by Democratic senators, are in the income tax and the sugar schedule. The sugar men have been from the first a clamorous for ad valorem instead of a specific duty, and that change has been conceded. The duties are not absolutely fixed, but there is little doubt that the sugar schedule will be entirely supplanted by a new one, which will provide a uniform duty of 40 per cent ad valorem with an addition of 1-8 of a cent for refined sugar.

IN THE HOUSE.

For the first time since the Democratic caucus determined to impose the law of 1856 to dock members absent, except on account of sickness, the matter was officially brought to the attention of the house.

It came up in the shape of a privileged resolution presented by Mr. Mahon (Rep., Pa.), who contended that the rights of the members had been invaded by the sergeant-at-arms, the latter having distributed blank certificates in accordance with the old law requiring members to make statements as to the number of days they had been absent, the reason therefore, etc.

An interesting debate the speaker held that the resolution was not privileged, on the ground that the question of the right of a member to his salary was surely a legal one and in no way affected his parliamentary rights. This put a sudden stop to the discussion, and the house proceeded with and completed the consideration of the diplomatic bill.

No amendments of importance have been adopted, although a week has been devoted to this bill. As passed the bill carries \$1,513,738, a decrease of \$46,706 compared with the appropriations for the current year. After the passage of the diplomatic bill the house adjourned.

JENKINS IS REJECTED.

ALBANY, April 27.—Governor Flower's renomination of Dr. Jenkins to be health officer of the port of New York was rejected by the senate by a party vote of 20 to 12.

AFFAIR OF SMALLPOX.

CHICAGO, April 27.—The Kershaw school has been ordered closed on account of smallpox. The Longenell school is also closed for the same reason.

ST. LUCIA AND CHURCHES.

ALBANY, April 27.—Senator Cantor's bill prohibiting the erecting of any stable within 100 feet of a house of worship passed the assembly.

IT LACKS SANCTION.

SENATOR ALLEN'S COXEY SCHEME NOT ENDORSED BY COLLEAGUES.

WASHINGTON, April 27.—Up to this date there has been no proposition submitted formally to the state department by the representatives of Great Britain or Germany looking to the annexation or dissolution of the triple alliance and the annexation of the islands of Samoa to Great Britain or Germany.

In view of a very few days Secretary Gresham will submit to the senate the voluminous correspondence which has passed between the three treaty powers concerning the administration of affairs in Samoa since 1890. It will be accompanied by a letter setting out concisely the conditions on the islands and the troubles and vexations and expenses which have been encountered by the United States in its efforts to meet its share of the obligations imposed by the treaty.

Unless President Cleveland sees fit to send with these papers a message elaborating his views concerning "this entangling alliance," as he described the treaty in his last annual message, the matter will rest there as far as the executive is concerned, and congress, which has already moved in the matter, may deal with it at its pleasure, as in the case of Hawaii.

Mr. Vest deprecated the introduction of the resolution, holding that any proposal by congress with the so-called Coxey men would open a crevasse in the integrity of the government, which would end in blood and destruction.

Mr. Wolcott characterized the resolution as an "inviting invitation to a horde of lawless matamoras."

Senators Dolph and Gray also opposed the resolution. Senator Allen spoke in favor of it. At 1:45 o'clock it was displaced by the resolution to meet each day at 11 o'clock, which was taken up by the overwhelming vote of 54 to 6, and agreed to without any opposition on the part of the Republicans.

Mr. Jarvis of North Carolina, the successor of the late Senator Vance, was sworn in.

Senator Higgins took the floor on the tariff bill as soon as it was taken up, and spoke until 5 o'clock.

At the conclusion of Senator Higgins' speech, Mr. Dolph, who was speaking, was recognized and gave a further statement of his tariff speech begun on the 20th inst., taking up for discussion the glass and pottery schedules. Mr. Gallinger interrupted him to say he knew of an importer of pottery who admitted that trade was not so good as it had been, because American pottery had brought the price down too low for profit.

At 5:40 the senate went into executive session, and at 6:30 adjourned.

FIGHT IS ON IN EARNEST.

The real tariff fight is now on. The Democratic managers have given notice to the Republicans that they intend to force the fighting until the measure is disposed of.

It is evident that the Democrats are going forward with supreme confidence in their strength, and will resort to all measures consistent with parliamentary practice to push the bill to a final vote in as short a time as possible.

They appear to be confident of their ability to pass the bill, the differences between the opposing elements of the party having been satisfactorily adjusted. The concessions and modifications which have been made in the bill, including those in the income tax, have had a tendency to allay the difficulties. It can be stated that Democratic members are much more in a binding agreement than at any time since their conferences commenced.

The president and members of the administration have contributed much to bring about a satisfactory understanding.

In all the conferences that have been held the two New York senators, Hill and Murphy, have not been consulted or asked to participate.

CLEVELAND'S ATTITUDE.

It is now understood that the Republicans from the silver states will not assist in breaking a quorum, as they desire to take revenge upon the sound money senators of their party for the fight they made during the extra session.

Charles Howard of Burke, aged 21, quarreled yesterday with his bride of three months. She was jealous of him. Howard took poison and was found dead an hour later. The wife, crazed with grief, attempted suicide, but was prevented.

SHORTHORN.

LEXINGTON, Ky., April 27.—A tremendous effort is being made to convince the people of this district that the verdict against Colonel Breckinridge in the Pollard case was due to the unfair charge of Judge Bradley to the jury. A big meeting is to be held, at which it is said Judge Bradley is to be burned in effigy.

SHORTHORN.

BUFFALO, April 27.—Fifty boats are tied along the Buffalo docks for want of coal, though only five days have elapsed since the great strike of soft coal miners was begun. As near as can be learned there is not enough coal for all the railroads entering in Buffalo to continue business with for three weeks.

A TERRIBLE CRIME.

WATERTOWN, N. Y., April 27.—William Green, aged 25, living at Adams, beat his wife's brains out with a hammer wrench, and then cut his own throat with a butcher knife. Green was insanely jealous, and in a quarrel committed the awful deed. His wife cannot live and Green is dead.

SAD END OF A HONEYMOON.

SARANAC LAKE, N. Y., April 27.—Charles Howard of Burke, aged 21, quarreled yesterday with his bride of three months. She was jealous of him. Howard took poison and was found dead an hour later. The wife, crazed with grief, attempted suicide, but was prevented.

HELD FOR THE GRAND JURY.

PITTSFIELD, Mass., April 27.—Michael Sherlock, the supposed gentleman burglar of Stockbridge, was tried yesterday for burglarizing the Episcopal church at Lenox, Nov. 17, 1893. Judge Tucker held Sherlock for the grand jury, fixing his bail at \$2500.

LYMAN GETS OFF EASILY.

WASHINGTON, April 27.—It appears by the record of the court-martial in the Kearsarge case that Lieutenant Lyman was found guilty of neglect of duty only, but was acquitted of the charge of causing the stranding of the ship.

MRS. FITZSIMMONS WON.

NEW YORK, April 27.—Referee Howland has remitted the \$1000 fine imposed on Mrs. Louise Fitzsimmons, and she is now free to divorce from Pugilist Bob Fitzsimmons. Bob sued his wife, but failed to get a divorce, and she won on the counter-charges.

TAUNTON'S NEW BUILDING.

TAUNTON, Mass., April 27.—The new Old Hall's hall was dedicated yesterday afternoon. The exercises were conducted by Grand Master Louis A. Cook, assisted by many other officers of the order.

DEATH OF AUTHOR TORRENS.

LONDON, April 27.—William Torrens, the author of "The Old Hall," died yesterday morning. He was 78 years old. Mr. Torrens was born in Ireland in 1813.

THREE CHILDREN BURNED TO DEATH.

SCRANTON, Pa., April 27.—By the burning of Philip Schneider's dwelling in South Scranton, three of his children, who were in an upper room, were burned to death.

JENKINS IS REJECTED.

ALBANY, April 27.—Governor Flower's renomination of Dr. Jenkins to be health officer of the port of New York was rejected by the senate by a party vote of 20 to 12.

ANGRY CONGRESSMEN

Indulge in Unparliamentary Language
In the House.

A FIELD DAY IN THE SENATE.

Republican Challenge Accepted by Democrats.

WASHINGTON, April 28.—Twenty-one private pension bills passed tells the story of the day's work in the house. A bill to refer an Alabama cotton claim to the court of claims met with much opposition on the ground that it would open the way to other claims aggregating \$120,000,000, and was not voted upon. The evening session was devoted to pension bills.

The usual monotony of the Friday night session was broken last night. The members were in a rancorous temper, the bill was passed, and two members were called to order for unparliamentary language. Mr. Talbert (Dem., S. C.), who has been trying for several weeks to get into the Record a series of articles on the subject of pensions, repeated his attempt last night. All his attempts were refused. Mr. Pickler (S. D.) was particularly determined in his opposition. Both gentlemen showed signs of temper. "That is the most slanderous attack on Union soldiers ever published," said Mr. Pickler.

"The gentleman is talking about something he knows nothing about," shouted Talbert.

"The gentleman from South Carolina," continued Mr. Pickler, "is only trying to slander Union soldiers."

"I deny it," said Mr. Talbert, shaking his fist aloft. "The gentleman has uttered a falsehood, pure and simple."

Instantly a dozen members on the Republican side were on their feet and Mr. Hepburn called Mr. Talbert to order and demanded that his words be taken down. They were read from the clerk's desk, and after some wrangling Mr. Talbert was given permission to explain. Mr. Talbert began his explanation by stating that he was sorry he was obliged to say what he had said, but, however, if Mr. Pickler would withdraw his remarks.

The tone of the South Carolinian's explanation did not suit Mr. Baker (Rep., N. H.), who declared that the explanation was as offensive as the original language, and he again called Mr. Talbert to order.

A Fresh Outbreak.

At this juncture there was an effort to pour oil on the troubled waters, and on motion Mr. Talbert was allowed to proceed. He had no further explanation to make, however, and took his seat, when Mr. Pickler arose and made a statement which again kindled the flames of partisanship. The paper which printed these articles he said, was continually slandering him and his fellow soldiers.

"The gentleman from South Carolina," he added, turning toward Mr. Talbert, "has slandered and vilified them ever Friday night. That is his object, and I hold it in utter contempt."

Mr. Livingstone (Dem., Ga.) jumped to his feet and in turn called Mr. Pickler to order. After his words had been read from the clerk's desk Mr. Martin (Dem., Ind.) moved that Mr. Pickler be permitted to explain.

"I don't want to explain," shouted Mr. Pickler. "I have nothing to take back."

At this point the counsel of cooler heads prevailed. The members were recalled to the bill before the house. The excitement subsided and without further incident the house proceeded with and disposed of nine pension bills, five of which were favorably acted upon.

The point of no quorum was then made, and after a call of the roll the house at 10:30 adjourned.

A Lively Session.

Yesterday was a field day in the senate. There was maneuvering, marching, clashing and rapid firing. The belligerent states of defiance had moved to both sides.

The news of the lively passage-at-arms spread rapidly, and a number of representatives from the other end of the Capitol hastened over to make eager inquiries.

The discussion was started by Sherman of Ohio. It was not his intention to create a disturbance when he injected a remark into the speech of Senator Lindsay of Kentucky. The junior senator from Ohio had been enjoying considerable notoriety by his recent assertion that "A tariff bill had been agreed upon by the Democratic leaders which would pass the senate," but it was not Senator Sherman's intention to again bring Ohio prominently to the front.

Sherman's remark was followed by Mr. Aldrich, and in the colloquy in which he engaged with Mr. Lindsay, there developed the most interesting situation that has yet taken place during the tariff debate in Congress. Mr. Aldrich had pointed out the difference of opinion between the Democrats of the senate and intimated that they could not agree upon a tariff bill, to which Mr. Lindsay replied that if the Republicans would give them an opportunity they would soon show that they could agree.

Mr. Aldrich here startled the senate by offering in behalf of the Republicans to vote at 3 o'clock on the bill as it came from the house. Mr. Lindsay skillfully parried the thrust by asking why not vote upon the bill as reported by the senate finance committee.

Mr. Aldrich here became bold, but at the same time wary, in the use of language, and asked Mr. Lindsay if the Democrats would vote on the bill as it now stood. The Kentucky senator was

willing, so far as he was concerned, but could not pledge the vote of his colleagues.

Mr. Aldrich demanded that Mr. Harris (Tenn.) speak for the Democratic side, and say whether or not the Democrats would vote on the bill as it now stood at 3 o'clock. The interest of senators and spectators in the gallery became intense. All eyes centered upon the sturdy, white-haired senator from Tennessee, but he did not reply. There were hurried consultations, and it was soon known that the defiance of the Republicans would be hurled back, and there was a period of expectancy when Mr. Lindsay neared the end of his speech.

Mr. Aldrich accepted the challenge. When he finished, Mr. Harris immediately arose, and although others sought the floor he was recognized. In an intense and dramatic manner he read the verbatim report of the colloquy between the Rhode Island and Kentucky senators and himself, and at its conclusion he accepted the proposition to vote on the senate bill, and followed it up with a request for unanimous consent for such a vote at 3 o'clock.

It was at once apparent that Mr. Aldrich did not intend to accept this offer. Several Republican senators objected to the unanimous consent, and Mr. Aldrich, with some difficulty, received recognition. He explained that while he had offered to vote on the house bill, he had only asked the Democratic senators if they would vote on the senate bill. Further than this, he made the proposition to the senate and not to a Democratic caucus, which he intimated had been held since his proposition had been made.

Senator Teller stated his objections to a vote in vigorous terms, and in an allusion to the compromise tariff bill brought out a vigorous denial by Senator Voorhees that any such bill was in existence.

The interest in the battle had disappeared, and a hush sounded a retreat, and the most dramatic scene of the tariff debate closed.

Speeches were made during the day, one by Senator Lindsay in favor of the bill and the other by Senator Cullom against it, while Senator Dolph delivered an installment of his speech begun several days ago. Again, just before the close of the day's session, when Senator Harris asked Senator Dolph how much more time his speech would occupy, Senator Chandler was on his feet to suggest, in a mischievous way, several points which he hoped the senator from Oregon would touch on before concluding his speech. He thought to draw out Senator McPherson with a question, but the crossfire was cut short by Senator Harris' motion to proceed to executive session.

MORE EARTHQUAKES

Bring Death and Destruction In Many Grecian Districts.

ATHENS, April 28.—The country had hardly begun to calm down after the recent earthquakes before another shock has wrought death and destruction in many parts of Greece. At 9:30 o'clock last night, during the usual Friday epitaphion procession in the cathedral here, a violent shock occurred that seemingly shook the building to its very foundations. The duration of the shock was 15 seconds. Every exit in the cathedral was hurriedly thrown open, and the people hurriedly, excitedly discussed the occurrence.

The shock was felt throughout the country, including the islands of Syria and Ia, and immense damage was done. The shock was felt with the greatest severity at Thebes and Atalanta, both of which places were extensively damaged by the last shocks. Both the cities were completely destroyed, not a single house being left standing. Incalculable damage was also done at Lamia, Larissa, Volo, Chalcis and Pherae.

At Lamia the bodies of the prison fall down, and many of the uninjured prisoners made their escape in the frightful confusion prevailing. In addition to the many persons rendered homeless by the previous shocks, there are now thousands of others who will have to depend on the government for shelter and sustenance.

There is little doubt, though the telegrams thus far received make no mention of the fact, that there has been a great loss of life.

A Man of Courage.

PANAMA, April 28.—Rheo, a man who is walking from Argentina to Chicago, arrived here yesterday. He came through the wilds of the Isthmus of Darien, and while footsore is otherwise in good health. His resolution to accomplish the journey is invincible. His passport has been examined by the prefects of the places he has passed through. He tells a great story and has made en route valuable maps showing the topography of the country.

Going Over Old Ground.

NEW YORK, April 28.—The trial of Dr. Meyer was continued yesterday, with Carl Mueller still on the witness stand. Meyer was very nervous throughout the entire day. Mrs. Meyer was as cool and unmoved as she seemed during the entire first trial. Nothing new was developed.

Strikers Executed.

UNIONTON, Pa., April 28.—The first execution in the history of the strike was issued yesterday and 11 strikers are now in possession of every plant but one from Connellsburg to Fair Chance.

Priest Has Concluded to Eat.

CINCINNATI, April 28.—Miss Gilmarin, who was killed by Father O'Grady, was buried yesterday in St. Joseph's cemetery. Father O'Grady, who has eaten nothing since the murder, succumbed hunger and ate a meal yesterday.

David Dudley Field's Wealth.

NEW YORK, April 28.—Henry M. Field, one of the executors of the estate of David Dudley Field, has filed a statement showing that Mr. Field left real estate of the value of \$400,000 and personal property of the value of \$7000.

Meets With Objections.

LONDON, April 28.—A dispatch from Rome says that the government has forbidden the holding of any demonstrations on May Day. The workmen's and socialists' society display a tendency to resist.

Editorial Comment.

THERE WAS AN ACT OF HEROISM at the Wollaston fire yesterday that should not go unnoticed. When Mrs. Merrill's house was destroyed or fire there was nobody in it but Mrs. McTear, who is confined to her bed with paralysis. Little Nellie Merrill, who was at her father's new house when the fire started, rushed home and knowing Mrs. McTear's helpless condition tried to gain an entrance to the house through the front door, but the door was locked. Without hesitating a moment she ran around the house to where the flames were leaping out of the rear door, and covering her head jumped through them, sprang up stairs and by main strength got Mrs. McTear safely out of the burning building. She is a chip of the old block, for in a few minutes Capt. Merrill, her father, and his company of firemen from the Rivet Works were on the scene and extinguished the blaze.

IT IS WELL TO REMEMBER today that trees make the air purer. The leaves take the impure air which we breathe out. They make it over in their little cells and give it back to us pure air again. Trees also give out a great deal of moisture. A city without any trees would be a great deal hotter and drier in the summer time. Long live Arbor day.

ASSOCIATES' HALL.

The Project Does Not Meet with the Success Anticipated.

SHALL QUINCY HAVE A LARGE PUBLIC HALL?

IT IS NOWISE CERTAIN that it will in the very near future, the LEDGER is sorry to say.

The projectors of Associates' hall have in'd a very thorough canvas during the past six weeks, and the actual amount of cash subscribed is but \$8,000, hardly half of the \$17,500 necessary, and the movement has practically collapsed.

THE LACK OF PUBLIC SPIRIT in the face of the facts that the hall is much needed, and that a good per cent. was guaranteed, is to be deplored, and it is hoped that the movement may yet be carried to success.

THE LOCATION has been criticised yet when the cost and earning capacity are considered it is not far from an ideal lot.

MR. AND MRS. TAYLOR DRESSMAKERS AT THE ADAMS BUILDING.

THE ADAMS ACADEMY NINE AND BELMONT ACADEMY NINE CROSS BATS AT MERRY MOUNT PARK THIS AFTERNOON.

R. D. GORDON HAS RENTED THE STORE IN THE GREENLEAF BLOCK AND THE "FIVE CENT" STORE IN THE COURT ROOM BUILDING WILL BE REMOVED THITHER.

THE RAILS, TIES, ETC., HAVE BEEN ORDERED FOR THE STREET RAILWAY EXTENSION TO EAST WEMBURY, AND TWO GANGS WILL BE PUT TO WORK UPON THEIR ARRIVAL.

C. L. PRESCOTT OF THIS CITY WAS THE SUCCESSFUL BIDDER FOR THE ALEWIVES FISHERY IN WALDOBORO, ME., FOR A PERIOD OF FIVE YEARS. IT IS AN EXTENSIVE PRIVILEGE.

MR. AND MRS. TAYLOR DRESSMAKERS AT THE ADAMS BUILDING, HAVE LEFT FOR PARTS UNKNOWN. THEY HAVE ALSO LEFT SOME OF THE BUSINESS MEN TO MOURN THEIR LOSS FINANCIALLY.

MISS JEAN BERGLAND GAVE THE DRAMATIC MONOLOGUE "IN NEW YORK" LAST EVENING AT MUSIC HALL, ATLANTIC, FOR THE BENEFIT OF THE METHODIST CHURCH. MR. FRED PIERCE ALSO GAVE A CORNET SOLO.

THE FRIENDS OF MISS EVA DICKEY OF WOLLASTON, WILL BE PLEASED TO LEARN THAT SHE IS EXPECTED HOME TODAY FROM THE HOMOEOPATHIC GENERAL HOSPITAL IN BOSTON, WHERE SHE HAS BEEN FOR NEARLY A MONTH.

S. L. WHITE OF HOLBROOK, WHO HAD JUST RETURNED FROM A WINTER'S SOJOURN IN SOUTHERN CALIFORNIA, DIED ON THURSDAY, APRIL 26TH.

FOR MANY YEARS HE DID AN EXPRESS BUSINESS BETWEEN HOLBROOK AND BOSTON, AND WAS PROMINENT IN TOWN AFFAIRS UNTIL WITHIN THE LAST TWO YEARS. HE MARRIED MISS SARAH E. ALEXANDER OF THIS CITY.

WHO WILL COME TO THE RESCUE? MONEY IS NEEDED! WHO WILL SUBSCRIBE? WHO WILL TAKE UP THE PROJECT? MR. A. G. DURGIN KINDLY OFFERS TO CONTRIBUTE PLANS AND SUCH OTHER INFORMATION AS HE HAS GATHERED. HE IS NOT PARTICULAR ON THE LOCATION, BUT WOULD LIKE TO SEE A LARGE HALL IN QUINCY. SO WOULD THE LEDGER. THE CITY SHOULD HAVE IT AND NOW IS THE TIME.

STREET WATERING.

THE DUST IN THE STREETS FOR THE PAST TWO DAYS HAS BEEN ALMOST INTOLERABLE, AND THERE HAVE BEEN NUMEROUS COMPLAINTS ABOUT THE ABSENCE OF THE WATERING CARTS. THE STATE OF AFFAIRS, AS FOUND BY INQUIRY AT THE CITY HALL, APPEARS TO BE AS FOLLOWS: THE COUNCIL HAS APPROPRIATED \$3,300 FOR WATERING STREETS AND IF THE MATTER HAD BEEN LEFT IN THE HANDS OF THE COMMISSIONER OF PUBLIC WORKS THE WORK COULD HAVE BEEN BEGUN IMMEDIATELY. BUT IN THE APPROPRIATION BILL IT IS PROVIDED THAT THE SYSTEM OF EXPENDITURE SHALL BE DETERMINED UPON BY THE COUNCIL AND THERE SEEMS NO WAY BUT TO WAIT UNTIL THE COUNCIL HAS DECIDED WHETHER SUCH STREETS SHALL BE WATERED. AN ORDER WAS INTRODUCED AT THE LAST MEETING, SPECIFYING CERTAIN STREETS AND WAS REFERRED TO THE COMMITTEE ON STREETS, IN WHOSE HANDS IT IS NOW. THE DUST IN THE SQUARE YESTERDAY WAS SO THICK THAT TEAMS WERE IN DANGER OF RUNNING INTO EACH OTHER, AND COMMISSIONER EATON THIS MORNING TOOK UPON HIMSELF THE RESPONSIBILITY OF BEGINNING THE WORK.

THE APPARATUS CONSISTS OF AN EXTRA LARGE KNOWLES' STEAM FIRE PUMP WHICH DRAWS FROM AN IMMENSE SELF-FILLING RESERVOIR LOCATED IN THE REAR OF THE WORKS, AND WHICH IS CAPABLE OF SUPPLYING THE PUMP FOR TWO HOURS. THIS PUMP, BEING HAVING COUPLINGS FOR FIVE LINES OF HOSE, IS CONNECTED BY CAST IRON PIPES WITH FOUR FIRE HYDRANTS, WHICH ARE LOCATED IN THE ADJACENT STREET. EACH HYDRANT IS ENCLOSED IN A SMALL HOUSE, WHICH CONTAINS 200 FEET OF HOSE COUPLED ON READY FOR INSTANT USE. THE TOTAL LENGTH OF THE HOSE IN THE WHOLE ESTABLISHMENT IS 1000 FEET. BEHIND THIS APPARATUS THERE ARE 75 PORTABLE EXTINGUISHERS SCATTERED ABOUT THE BUILDINGS.

THERE IS CONSIDERABLE RIVALRY BETWEEN MELLIN BRAY & CO.'S COMPANY AND THE COMPANIES AT THE PUTNAM NAIL WORKS AND AT THE A. T. STEARNS & CO.'S LUMBER WHARVES, NEPONSET, BUT IT LOOKS AS IF CAPT. MERRILL AND HIS CREW WERE ON TOP OF THE BUILDINGS.

WITNESS, GEORGE WHITE, ESQUIRE, JUDGE OF SAID COURT, THIS TWENTY-FIFTH DAY OF APRIL, IN THE YEAR ONE THOUSAND EIGHT HUNDRED AND NINETEEN.

JOSEPH COBB, REGISTER.

A NEW BILL OF FARE

Necessary to Preserve Harmony in the New England "Army."

WASHINGTON IS WELL PREPARED

For the Promised Visit of Coxey's Commonwealers.

WESTERLY, R. I., April 28.—Although the temperature soared upward in the vicinity of 70, yet, figuratively speaking, yesterday was a very cold day for the 74 soldiers comprising Swift's New England delegation of industrial commonwealers. Up to Thursday night Fitzgerald and his followers were enthusiastic and rashly sanguine of being received with open arms by the inhabitants of the towns and villages all along the line of march, but yesterday the anticipations of the little band were completely and effectually knocked into a cocked hat, and at the quaint Rhode Island towns of Wakefield and Westerly it met with the vagrancy act.

After passing the night on the bare boards in Wakefield, the former "soldiers" were met with the mandate to leave town instantaneously. It was then only 6 o'clock, and Fitzgerald protested that he could not get ready to depart before 9. To crown all, that portion of Wakefield which was expected to act as the commissary department was woefully negligent in its duty, and the travelers were obliged to continue their way on empty stomachs. They were treated on their departure by the jeers and sarcasms of the townspeople who had recovered from their terror of the previous night.

The old post road skirting the ocean was the route taken to town. At 5 p.m. the army had traversed a distance of 24 miles, and reached Cawcawka, arriving there at 6:30. Here the discouraged band was met with the stern arm of the law, and the town authorities attacked it with written orders not to enter the town under penalty of incarceration in the Tombs of New York.

The leaders of the throng then ordered a retreat across the Cawcawka, whose rolling waters separate Rhode Island from the "Nantucket state." On the river the army pitched its tents and posted sentries for the night. Rations of hardtack and limburger were served to the 74 philanthropists from the Old Bay state.

There exists considerable dissatisfaction in the ranks after the recent experience and cold treatment from the authorities. In fact, there is almost open mutiny, and it will require a new bill of fare, and that immediately, if all remain harmonious. The contingent marched on to New London, Conn., this morning, where it expects a royal welcome and more recruits. New London is 18 miles distant.

The entire army was arrested last night and locked up here. This is the first time since the march has been commanded that the army fell into the hands of the authorities.

Washington Is Well Guarded.

WASHINGTON, April 28.—The Coxey scare has resulted in the national capital being more thoroughly prepared than it has been for years for the coming of gangs of men, whether peaceably inclined or otherwise. The police are brimful of confidence in their ability to meet the requirements of the occasion when Coxey and his men reach their journey's end. In addition to the regular police force 200 special policemen will be sworn in and will go on duty Monday evening.

It is the intention of Chief of Police Moore to largely increase the number of men on duty in the outskirts of the city, where it is thought residents may be annoyed. The militia are prepared for field duty if needed, and the watch force of the several departments has been increased and given police powers—arms have been provided for the watchmen.

Nine policemen were yesterday added to the regular force of 12 policemen on duty in the executive grounds. They are divided into three watches, so that there are now seven men on duty at all hours of the day or night. Three men remain inside the building and the other four patrol the grounds on each side. These policemen are in addition to the regular force of doormen, messengers and clerks.

The grounds are closed and the carriage entrances on the north front are shut at midnight. The president's plan of moving out to his summer home at Woodley has been postponed indefinitely.

Chief of Police Moore says the Coxey army can parade down Pennsylvania avenue. That is one of the rights of an organization, he says, and the police don't intend to interfere. They cannot, however, march into the Capitol grounds.

Kelley's Twelve Hundred.

STUART, Ia., April 28.—General Kelley will make a forced march of 41 miles to Des Moines and be there Sunday. The industrial presented a solid front when they marched into Stuart last night, but not more than 800 men were in the column which followed Kelley's prancing black charger. The remaining 400 came straggling in for hours on foot and on wagons, the railroad track and on the wagon road. The men were well fed here and are in better humor.

No Government Contributions.

WASHINGTON, April 28.—A dispatch from Buenos Ayres says that Portugal has accepted the demands of the Argentine Republic regarding the return to Argentine territory of the Brazilian insurgents who were captured by boats from the Portuguese warships while seeking to escape from these vessels there.

Intimidation In Indiana.

BRAZIL, Ind., April 28.—The blockaders refused to accept the operators' proposition to pay 89 cents a ton until the general strike was settled. The bituminous miners are all out and threaten violence to block men who continue to work.

Preparing For Galvin.

COLUMBUS, O., April 28.—Sheriff Ross has mailed notices to a number of men to hold themselves ready to report to him when called to take charge of Galvin's detachment of industrialists. He did this to be ready for any emergency.

Miners Not To Reopen.

LONDON, April 28.—The correspondent of the Times at Calcutta telegraphs that the rumors that the Indian government intends to reopen the mints are unfounded.

It is said that a fortune knocks at least once at every man's gate, and yet it doesn't require a fortune to own a bicycle. \$69.75 is our cut price for the \$85.00 splendid Crawford safety. Easy payments when desired. Henry L. Kincaide & Co.

PATENTS

FOR INVENTIONS.

Equal with the interest of those having claims against the government is that of INVENTORS, who often lose the benefit of valuable inventions because of the incompetency or inattention of the attorneys employed to obtain their patents. Too much care cannot be exercised in employing competent and reliable solicitors to procure patents, for the value of a patent depends greatly, if not entirely, upon the care and skill of the attorney.

With the view of protecting inventors from worthless or careless attorneys, and of seeing that inventions are well protected by valid patents, we have retained counsel expert in patent practice, and therefore are prepared to

Obtain Patents in the United States and all Foreign Countries, Conduct Inter

ferences, Make Special Examinations, Prosecute Rejected Cases,

Register Trade-Marks and Copyrights, Render Opinions as to

Scope and Validity of Patents, Prosecute and

Defend Infringement Suits, Etc., Etc.

If you have an invention on hand send a sketch or photograph thereof, together with a brief description of the important features, and you will be at once advised as to the best course to pursue. Models are seldom necessary. If others are infringing on your rights, or if you are charged with infringement by others, submit the matter to us for a reliable OPINION before acting on the matter.

ITS FATE IN DOUBT

But Democrats Expect to Pass the New Tariff Bill.

THE HOUSE OBSTRUCTIVE POLICY

Is Once More Causing Business to Lag Behind.

WASHINGTON, April 30.—The house will continue work on the appropriation bills this week.

The Republicans developed an obstructive policy during the consideration of the diplomatic and consular bill, which was completed last Thursday, consuming an entire week by means of unimportant amendments to unimportant items. The Democrats fear that this policy will be continued in furtherance of well-settled program to delay the passage of the regular appropriation bills. Should it be retained during the coming week that such is the fact a special order may be necessary to expedite matters.

After the completion of the army bill, the consideration of which was begun Saturday, it is probable that Mr. Dockery will be allowed to bring forward his bill, reported from the joint committee on expenditures in the departments, to reorganize the system of accounting in the treasury department, which is designed to reduce expenditures in this department \$100,000.

It is necessary that the bill should be disposed before the legislative, executive and judicial appropriation now in process of completion by the appropriation committee is framed, as the changes it makes in existing law must be incorporated in that bill. As soon as it is out of the way, the river and harbor bill will be called up. In case the Republicans persist in an obstructive program an attempt will be made to pass it a week from today, under suspension of the rules.

The managers of the house are very much in earnest in their determination not to permit any resolution bearing on the Coxey movement to get into the area of debate. They do not believe this subject should be agitated. It is intended that the subject can by no possibility of construction be considered privileged, and any request for unanimous consent for consideration will be promptly objected to. The only way in which the subject can be discussed in the house is under cover of debate on one of the pending appropriation bills, and such discussion can only eventuate in talk.

Senate Forecast.

The course which the tariff debate may take in the senate this week will depend entirely upon developments from day to day.

The agreement for the limitation of debate on the tariff to certain hours each day has expired and the Republicans have shown no disposition to renew it. The Democrats have been unsuccessful in advancing the hour of meeting from 11 to 12 o'clock, but they may only get the bill up each day after the disposal of the routine morning business by a yea and nay vote and after making progress by elbowing themselves along. They have not yet decided whether they will attempt to extend the debate until a later hour each day than has yet been observed. The program in this respect will depend upon the progress that may be made with the compromise now in hand.

The feeling is general on the Democratic side that if they get a bill that commands the support of the entire Democratic side of the chamber the Republican antagonism will weaken, that the opposition will be content to make earnest protest, but without any effort to prolong the final vote beyond the time necessary to discuss the various schedules in a businesslike manner and that night sessions may not be resorted to.

There are a few set speeches in prospect for this week. Senator Aldrich will probably speak during the week, and Senators Squire and Kyle may also ask for time to deliver short speeches. The continuation of the speeches of Senators Quay and Dolph may also be counted upon as occasion may require.

The British Money Market.

LONDON, April 30.—Supplies in the money market continued comparatively small during last week, owing to the unexpected accumulation of resources by the Bank of England. The bank's reserve is 29,250,000 pounds, the highest on record, while the bank is expected to release money by investments. Renewed ease long is thus regarded as inevitable.

Branch Explains.

MANCHESTER, N. H., April 30.—E. C. Eastman does not take very kindly to his appointment as assistant to District Attorney Branch in the suit against Dr. Moore, ex-president of the Commonwealth bank and the People's Fire Insurance company. District Attorney Branch gives as his reason for requesting an assistant that he did not wish to prejudice the case of the United States in any way.

A Bold Stroke for Freedom.

BIRMINGHAM, Ala., April 30.—Y. C. Hughes, Sam McLendon, Joe Griffith and George Rice, colored, made a daring escape from jail yesterday. A hole a foot square was cut out of solid sheet iron in the top of the cell, through which the prisoners got to the roof. They then escaped over the outer wall by means of blankets.

Lawyer Cross-Firing.

BOSTON, April 30.—District assembly 39, Knights of Labor, yesterday voted to allow no members of the order to work for the American Brewing company, a concern which has refused to recognize the knights, while it is endorsed by the Central Labor union.

Get up something DECIDEDLY FIGHTING and BECOMING. Elegant Mourning Bonnets made to order at short notice.

ITS FATE IN DOUBT

But Democrats Expect to Pass the New Tariff Bill.

THE HOUSE OBSTRUCTIVE POLICY

Is Once More Causing Business to Lag Behind.

WASHINGTON, April 30.—The house will continue work on the appropriation bills this week.

The Republicans developed an obstructive policy during the consideration of the diplomatic and consular bill, which was completed last Thursday, consuming an entire week by means of unimportant amendments to unimportant items. The Democrats fear that this policy will be continued in furtherance of well-settled program to delay the passage of the regular appropriation bills. Should it be retained during the coming week that such is the fact a special order may be necessary to expedite matters.

After the completion of the army bill, the consideration of which was begun Saturday, it is probable that Mr. Dockery will be allowed to bring forward his bill, reported from the joint committee on expenditures in the departments, to reorganize the system of accounting in the treasury department, which is designed to reduce expenditures in this department \$100,000.

It is necessary that the bill should be disposed before the legislative, executive and judicial appropriation now in process of completion by the appropriation committee is framed, as the changes it makes in existing law must be incorporated in that bill. As soon as it is out of the way, the river and harbor bill will be called up. In case the Republicans persist in an obstructive program an attempt will be made to pass it a week from today, under suspension of the rules.

The managers of the house are very much in earnest in their determination not to permit any resolution bearing on the Coxey movement to get into the area of debate. They do not believe this subject should be agitated. It is intended that the subject can by no possibility of construction be considered privileged, and any request for unanimous consent for consideration will be promptly objected to. The only way in which the subject can be discussed in the house is under cover of debate on one of the pending appropriation bills, and such discussion can only eventuate in talk.

Senate Forecast.

The course which the tariff debate may take in the senate this week will depend entirely upon developments from day to day.

The agreement for the limitation of debate on the tariff to certain hours each day has expired and the Republicans have shown no disposition to renew it. The Democrats have been unsuccessful in advancing the hour of meeting from 11 to 12 o'clock, but they may only get the bill up each day after the disposal of the routine morning business by a yea and nay vote and after making progress by elbowing themselves along. They have not yet decided whether they will attempt to extend the debate until a later hour each day than has yet been observed. The program in this respect will depend upon the progress that may be made with the compromise now in hand.

The feeling is general on the Democratic side that if they get a bill that commands the support of the entire Democratic side of the chamber the Republican antagonism will weaken, that the opposition will be content to make earnest protest, but without any effort to prolong the final vote beyond the time necessary to discuss the various schedules in a businesslike manner and that night sessions may not be resorted to.

There are a few set speeches in prospect for this week. Senator Aldrich will probably speak during the week, and Senators Squire and Kyle may also ask for time to deliver short speeches. The continuation of the speeches of Senators Quay and Dolph may also be counted upon as occasion may require.

The British Money Market.

LONDON, April 30.—Supplies in the money market continued comparatively small during last week, owing to the unexpected accumulation of resources by the Bank of England. The bank's reserve is 29,250,000 pounds, the highest on record, while the bank is expected to release money by investments. Renewed ease long is thus regarded as inevitable.

Branch Explains.

MANCHESTER, N. H., April 30.—E. C. Eastman does not take very kindly to his appointment as assistant to District Attorney Branch in the suit against Dr. Moore, ex-president of the Commonwealth bank and the People's Fire Insurance company. District Attorney Branch gives as his reason for requesting an assistant that he did not wish to prejudice the case of the United States in any way.

A Bold Stroke for Freedom.

BIRMINGHAM, Ala., April 30.—Y. C. Hughes, Sam McLendon, Joe Griffith and George Rice, colored, made a daring escape from jail yesterday. A hole a foot square was cut out of solid sheet iron in the top of the cell, through which the prisoners got to the roof. They then escaped over the outer wall by means of blankets.

Lawyer Cross-Firing.

BOSTON, April 30.—District assembly 39, Knights of Labor, yesterday voted to allow no members of the order to work for the American Brewing company, a concern which has refused to recognize the knights, while it is endorsed by the Central Labor union.

THE ADVERTISER settles in its own way that the new Woodward Institute is a private school, but forgets itself in the next article and criticizes the Mayor and other members of the Board of Managers for not paying the lawyers who defended the city and retained the fund. If the citizens have not a financial interest in the Woodward Institute they and the newspapers have no right to criticize. But the public have an interest and can make changes in both the Board of Managers of Fund, and Board of Directors of Institute if they desire. The latter board is about as changeable as it could be, for within a few months Revs. Wilson, Cotton, Benedict, Philbrook, Ramsay, Paulson, Key, Baldwin and other have closed their pastores in the city, and thereby severed their connection with the school.

The lawyers have put in a large bill for their services. We contend there was little or no danger of the city losing the fund. No action was brought against the city, but the Managers of the Fund asked the Supreme court to interpret the will.

Had the decision been unfavorable to Quincy, Dartmouth college would not have secured the fund without going to law.

Had more been required of the city, an effort would have been made to do it, and thus fulfill the requirements. If the lawyers receive \$4,500 they will have earned their money very easily.

The water case was very different, but in that the lawyers were very well paid.

The city had voted to take the works and it must pay the award. There were many who expected the works would cost a million dollars or more.

The city's lawyers presented a good case and the award of \$15,640.07 was remarkably small, actually saving the city several hundred thousand dollars.

The counsel fees of about \$20,000 seem large, but they did much more work and harder work than in the Woodward will case.

THE GREAT benefit of the fire drill in the schools was illustrated in the Adams school at Newton on Friday, when 500 or more pupils were quickly marched out of the building before they discovered it to be on fire. The fire originated on the ground floor and the three story building was totally destroyed.

Mr. Aldrich is superintendent of schools at Newton and probably the drill in the Quincy schools has been inaugurated or continued by him in Newton.

STATISTICS show that more than half the males and more than half the females in Massachusetts are unmarried, but they do not tell us how many are children.

Strange to say there are three times as many widowed females as males. Have the males remarried or do they pose as single men?

They Want Names.

The Russell Art Publishing Co., of 928 Arch street, Philadelphia, desire the names and address of a few people in every town who are interested in works of art, and to secure them they offer to send free, "Cupid Guides the Boat," a superbly executed water color picture, size 10 by 13 inches, suitable for framing, and sixteen other pictures about same size, in colors, to any one sending them at once the names and address of ten persons (admirers of fine pictures) together with six two-cent stamps to cover expense of mailing, etc. The regular price of these pictures is \$1.00, but they can be secured by any person forwarding the names and stamps promptly.

The editor of this paper has already received copies of above pictures and considers them really "Gems of Art."

There is dire disturbance in a Presbyterian church out at Northfield, Minn., some of the members having danced at an evening company at the residence of two of the members. The excitement is at fever heat, and is likely to divide the flock. What a lot of queersins there are in this world.

COLUMBIA Bicycles are sterling value

Henry L. Kincaide & Co.

—A contemporary argues that newspaper subscriptions are infallible tests of a man's honesty. They will sooner or later discover the man. If he is dishonest he will cheat the printer some way—declare he has paid what he has not—declare that he has a receipt somewhere—sent money and it was lost in the mail will take the paper and not pay for it on the ground that he never subscribed for it—or move off and leave it coming to the office he left. Thousands of alleged Christians are dishonest in this particular, at least, and the printers' book will tell fearful tales in the final judgment.

—Ice is now manufactured every day at Mattapan, by a Dorchester Company, and sold at thirty cents per hundred pounds.

—Furniture and Pianos moved.

Henry L. Kincaide & Co.

YACHTS AND YACHTING.

A Stroll in the Yards—Many Boats Being Fitted Out.

Commodore Cavanagh has begun work on the Beatrice, and she will be over by the end of next week.

The Don has changed hands. Messrs. Pierce & Keating have bought her of Arthur Shaw. She is now in commission.

It is rumored that W. H. Whitney has purchased the yacht Erin.

Warren Nightingale and his crew are polishing up the Myth.

Ambrose Lelois has the Nauset from Orleans on his railroad. She was badly broken up at Peddock's Island last fall, but has been repaired and is as good as new.

Sturtevant's racing steam yacht will be put in this year. She has a maximum speed of 18 knots an hour.

Harold Faxon has a new iron centre board for the Sunbeam; she is already in the water.

McIntire & Quirk have a cutter and six knockabouts nearly completed.

Solon Doggett's new combination cutter, modelled after the Ethelbert of Boston is nearly completed. She is intended for the oyster-dredging business.

Charles Brackett and his bull terrier are at work on the Nereid.

Frank Crane has the Dorothy Q. already to launch.

Dr. Doble will be at the wheel of the Electra this year. He is hard at work scraping the mast.

The Gretchen, Eva and Elsa are overboard.

The Initia has been sold to the Campbell Fishing Club of South Boston.

The Inlet and Starlight will go overboard in about two weeks.

The Agelis which went ashore at Scituate last fall was replaced by Mr. Stuart.

G. D. Emerson's boat Yolande is being built up two streaks by Mr. Stuart.

The Squantum Yacht club has built a new veranda on the club house at Norfolk Docks.

The famous yacht 1402 owned by A. E. Linnell is to have a new rudder and new suit of sails and will once more lead the fleet.

The cat West Wind is being changed to Jib and mainsail.

The sloop Gretchen will sport a new suit of sails.

H. A. Snow and H. Flood have purchased the famous cat boat, Paymet, owned by A. C. Lombard of Truro.

The old and familiar yacht Minta, owned by Jean Nye, was burned last week; cause unknown, supposed to be rats and matches.

Capt. John Ball launched his clipper the 30th and can be found at his old haunts, spar buoy No. 4, for the remainder of the season.

John R. Graham and a party were out Sunday in his new yacht.

—May Magazines.

The New England Magazine for May is very rich in articles relating to New England history and historical associations.

The first article in the number is upon "The Landlord of the Wayside Inn."

We have never elsewhere learned so much of the famous Squire Howe, the landlord of the old Sudbury tavern in Longfellow's time, into whose mouth the poet put "Paul Revere's Ride" and "The Rhyme of Sir Christopher."

"John Brown in Springfield" is the subject of the article immediately following—a chapter upon old hero's life in Springfield, Mass., a few years before the Kansas and Harper's Ferry episodes.

"A Boy's Recollections of Brook Farm," by Arthur Sumner, is the story of the writer's life as a pupil in the school maintained at Brook Farm by Ripley and his associates, and is a real addition to the literature of that famous community.

Table Talk for May holds an unusual number of recipes. Miss Emma O. Conroy of Pratt Institute writes very entertainingly on "The Elevation of Household Labor to the Dignity of a Profession," and Miss Armstrong delights us with an article on "Suppers and Teas of Long Ago."

The special feature of the May number of "Short Stories" is a bright sketch called "This Jack and the Other" by Edgar Fawcett, the well-known novelist and writer of tales, and tells of an artist's love for a rich widow in New York society. Earle Tracy also contributes a clever study of Creole life and ways, and E. D. Pierson supplies a dramatic and picturesque Hungarian story.

—The funeral services of Mrs. Mary C. Faxon on Saturday afternoon were carried out according to the wishes of the deceased and are worthy of imitation. Calla lilies were substituted for crepe on the door, the blinds remained open and the house was decorated. Rev. D. M. Wilson officiated; the interment was at Mt. Wollaston.

Bert Emery had a narrow escape on his wheel last night. He was turning the corner on Chestnut street onto Canal, going pretty fast, when he met a team coming in the opposite direction. He tried to steer out but he didn't have time and struck the wheel, throwing him over onto the sidewalk.

The funeral services of Mrs. Mary C. Faxon on Saturday afternoon were carried out according to the wishes of the deceased and are worthy of imitation. ANOTHER ALARM.

An Incendiary Fire Destroys Office of a
Granite Firm.

The fifth alarm of fire within a week was
sounded from Box 46 at 12 45 o'clock Sun-
day morning for a fire in the office of the
Co-operative Granite company on Willard
street, and although the department re-
sponded promptly the building was prac-
tically destroyed. The loss will be in the
vicinity of \$200.

The cause was undoubtedly incendiary.

This is the second incendiary fire within
twenty-four hours, the first being the I
Alian shanty which was burned Saturday
afternoon. Between the incendiary fires
and false alarms the fire department is
kept hustling.

The members of the Atlantic Chemical
company take exception to the statement
in Friday's LEDGER that they were the
last to arrive at the fire at Mrs. Merrill's.
They claim that they arrived just after
Hose 2 and ahead of the Central station
apparatus, and if water had been needed
they would have had the first line of hose
laid.

Besides the millinery goods there were a
number of dresses partly made which have
been claimed by the owners.

A Boston paper states this morning, that
while at 1434 Washington street, Mrs.
Taylor carried on the same business as
in this city, and Mr. Taylor who is known
as Albert and sometimes as Alfred, solicited
pictures to be enlarged, collecting small
sums with the orders which were never
fulfilled.

Mr. Whitman the local agent for the
Singer sewing machine, says that the
machine that Taylor had was his and that
he has not received his money for it as yet
and the chances are that he will not.

The Taylors came to Quincy last July
and the only wonder is that they were
enabled to carry on their business so long
a time before being exposed.

POPULAR WITH THE BOYS.

THE TAYLORS.

Surprise That the Firm Was Not Shown
Up Sooner.

The story in Saturday's LEDGER of the
method of business carried on by the firm
of Mrs. Taylor & Co. was a surprise to
many people, but not so to those who do
business in and about the centre who were
only surprised that affairs of the concern
were not wound up before.

There were many who claimed to have
known all along that the firm were not
doing a straight business yet no one seemed
to have the courage to come out with the
statement.

Mr. and Mrs. Taylor returned Wednes-
day evening with a team to remove their
goods from the Adams building but Constable
Furnald was too smart for them and had taken care of the goods.

Besides the millinery goods there were a
number of dresses partly made which have
been claimed by the owners.

A Boston paper states this morning, that
while at 1434 Washington street, Mrs.
Taylor carried on the same business as
in this city, and Mr. Taylor who is known

POPULAR WITH THE BOYS.

Presentation to Chief Engineer Williams

by the Firemen of City.

There was quite a gathering at Hancock
hall, Saturday evening, of the call mem-
bers of the fire department of the city, who
assembled to testify in a substantial man-
ner their appreciation of Chief Engineer
Williams.

The boys began to gather at 7:30 and by
8 o'clock a half hundred or more firemen,
including the district engineers, had
gathered. Chief Williams who had been
sent for made his appearance shortly after-
ward and no sooner had he entered the
door than Assistant Engineer White in a
few words presented him with a handsome
gold watch and chain, one of C. F. Pet-
tengill's best. On the inside of the case was
engraved the following:

Presented to
Chief Engineer
P. J. WILLIAMS
by the
members of the Q. F. D.,
April 28, 1894

The affair was a complete surprise to the
chief who replied to them for their
gift and said although he usually kept
posted on what was going on in the depart-
ment they had stolen a march on him this
time.

Refreshments were then served and the
balance of the evening was passed in a
social manner. There were brief remarks
by the district engineers and impromptu
singing by several members of the depart-
ment.

A Schoolmate Tendrily Laid Away.

The funeral of Alfred G. Birnie, a son of
Mr. William Birnie of South Quincy, took
place yesterday, Rev. Edward Norton
officiating. The lad was much beloved by his
schoolmates and acquaintances, and several hundred assembled at Mount Wol-
aston cemetery to witness the last service
over his remains. The floral contributions
were many and beautiful. His grave was
in a new lot on the westerly side of the
cemetery. Only a few bodies rest as yet in
this new and large addition to the grounds.

TODAY'S COURT.

Michael Butler of Quincy was fined \$5
for drunkenness.

George Prickett of Braintree was fined \$5
for drunkenness.

Edwin A. Dyer of Holbrook was fined \$5
for drunkenness.

ALL KIND OF PROMISES

Are made by gentlemen in trade. Oftentimes they mean well, but, in many instances, their talk is simply deception.

It has been a successful plan with us to stand back of our goods in every way; if they prove poor to give a **NEW PAIR**.

Realizing there is a growing demand for a good **\$3.00 SHOE** for gentlemen, we have placed on our shelves a line of goods for the price named that makes us **champion over all**, and endorsed by our **NAME** on the bottom as a **GUARANTEE**.

No tacks, no nails, no wax, but a smooth inner sole.

We continue to Lead on Men's Fine Shoes.

GRANITE SHOE STORE.

H. A. FELTIS, Manager.

Quincy, April 24-15

ALLEN'S COMPOUND
EXTRACT
SARSAPARILLA
THE
HONEST KIND

Receives the Highest Praise from the Best Physicians.

DR. H. F. MERRILL, the wonderful specialist of Augusta, Maine, after giving it a thorough trial in his practice, writes the following convincing letter of praise:

GENTLEMEN:—
I have of late been using some of your medicine in my practice with the most pleasing and satisfactory results. I find that it acts like a charm upon the whole nervous system, and in scrofula and all cutaneous diseases. Its curative properties are fully equal to the claims made for it, and I do not know of one instance where it has not fulfilled all its claims. In cases of General Debility and Nervous Prostration, it has proved itself invaluable. It also gives quick relief in Dyspepsia and Cancer of the stomach, and is a remarkable fine restorative remedy. It is a great pleasure to be able to recommend such a remedy, as the results following its use are so wonderfully satisfactory. One great thing in its favor is its freedom from superfluous alcohol, and all injurious ingredients.

DR. H. F. MERRILL.

Although Allen's Sarsaparilla is such a valuable remedy it is not at all expensive, being the largest bottle on the market for \$1.00. Trial bottles 50 cts.
